

# LIGHTHOUSE TENDER CONVEYING PRESIDENT COLLIDES WITH STEAMER AND IS REACHED

## KING OSCAR OF SWEDEN SEVERS ALL RELATIONS

### Formally Declines Offer of Norwegian Throne to a Prince of Bernadotte.

### Sends Final Letter to President of Storting Expressing Good Wishes.

Stockholm, Oct. 27.—King Oscar has definitely and formally declined the offer of the Norwegian throne to a prince of the house of Bernadotte and in a letter to the president of the storting finally severs his connection with Norway. The letter, which is dated Oct. 26, is as follows:

"After having in the name of Sweden recognized Norway as a state completely separated from Sweden, I inform you of my decision to relinquish the crown of Norway, which, notwithstanding all my good intentions has given me in the course of years so many bitter cares. Moreover, I could no longer wear it to the benefit of the country now that the illegal decision of the storting has rendered illusory even the suspension of the king. But I desire only the welfare of the country and the nation towards which I have entertained a sincere affection ever since my youth, and to the happiness of which it has always been my heart's desire to contribute so long as I live."

the means to that end could be reconciled with the duties entailed by his position as king of both countries of the Scandinavian peninsula. In view of the turn the mutual relations between the two countries have taken, I cannot think it would be conducive to the happiness of either Sweden or Norway that a prince of my house should accept an election to be king of Norway. Assuredly there would not fail to arise in both countries a feeling of distrust which would operate as much against him as against me. This distrust might only too easily become an obstacle to the improvement of the mutual sentiments of the two nations, unfortunately separated henceforth, whereby I hope to see pacific relations assured between them in a not too distant future. I cannot, therefore, accept the storting's offer. I thank with all my heart, those who during my reign of thirty years have faithfully served me and Norway and who may even now entertain affection for their former king. In now bidding them farewell, I cherish sincere good wishes for their future. I leave to them the task of their own government, and I leave to them the task of their own government, and I leave to them the task of their own government."

## GREAT BREACH MADE IN CHINESE EXCLUSION WALL

### Modifications of Regulations Result in Large Increase of "Merchants."

Washington, Oct. 27.—It is the understanding that the efforts at treaty making between the United States and China will await the action of congress in the matter of amending the Chinese exclusion act, in accordance with an expected recommendation of President Roosevelt in his next annual message. So far there has been little failure on the part of the two governments to get together on a treaty. Soon after China brought the treaty of 1894 to an end on Dec. 8 last, she presented the draft of a new treaty to the United States. This was turned over to the department of commerce and labor, which has jurisdiction of immigration matters. When this department concluded with the treaty it was returned to the state department for transmission to China. China utterly rejected the instrument in its modified form. Since that time no further steps have been taken in the matter, although the understanding is that China is preparing a new draft.

That much has been done to lessen the rigor of the exclusion act in accordance with the expressed wishes of President Roosevelt, is manifest by the increased number of Chinese who are coming into the United States. The record shows that in September 233 Chinese were admitted and but eleven

rejected. In September last year the number admitted was 128 and the rejected eighty-five. This, it is said, is the result of lessening the tension at the border. The Chinese exclusion act, as it was issued, inspectors charged with enforcing the Chinese exclusion law gave great weight to what a Chinaman says in making his demand for admission. It is decidedly much easier to satisfy the inspectors that a Chinaman is a "merchant" or does not belong to the excluded class than it was previously.

A recent modification of the regulations makes, it is declared, an absolute breach in the exclusion wall. The modification in question required before it was modified a bond of \$500 to be furnished by the transportation company for every Chinese in transit through the country and no laborer would be allowed to transit. This bond has been entirely done away with. This fact, taken in connection with the ease with which the bond can now be obtained, and only desires to pass through, constitutes the breach in the wall. Once in the country "in transit" it is an easy matter to get off the train at any desired point and remain. This modification of the regulations in favor of the Chinese has not as yet become generally understood. When it is, officials look for an influx of Chinese "in transit."

## TO HAVE \$1 PER DAY FOR REST OF LIFE

Chicago, Oct. 27.—A dispatch to the Record-Herald from St. Louis, Mo., says: Mrs. Sarah J. Westervelt yesterday was awarded damages of \$1 a day for the rest of her life, estimated at fifteen years, in her suit against the St. Louis Transit & United Rail-

ways companies, for injuries received in a street car collision. She is 54 years old. Judge Barclay, before whom the suit was tried, figured with insurance actuaries, and in his address gave the jury the estimate of the plaintiff's life term, which served as the basis of the verdict.

## CHILEANS APPROPRIATE GERMAN SHIPS

DVR San Francisco, Oct. 27.—Thos. San Francisco, Oct. 27.—The Kosmos steamer Noko, which arrived yesterday from the South, brought the report that the German ship Steinbeck had been appropriated by the Chileans. It was reported in dispatches some weeks ago that the Steinbeck had gone ashore at Valparaiso. It appears that the captain and crew abandoned the vessel when she seemed to be beyond saving

and after standing by in small boats for forty-eight hours they went ashore. A party of Chileans went out to the vessel and took possession. Subsequently, when the Steinbeck seemed to be safe, the crew attempted to go on board again. Having taken possession of the ship at some risk to themselves after she had been abandoned, the Chileans refused to give her up and they were still in possession when the Noko left Valparaiso. The Steinbeck has a valuable cargo on board.

## WOMAN SUES LYNCHERS FOR \$50,000

Cincinnati, Oct. 27.—A sensational suit, the result of the lynching of William Thacker, at Flemingsburg, Ky., in 1903, was filed in the federal court of Covington yesterday by Mrs. Mary Thacker, the widow. She is suing George Gordon and other citizens of Flemingsburg for \$50,000 damages for

mobbing her husband, who had been indicted for the killing of the son of Gordon.

In the affidavit some sensational allegations are set forth.

The most sensational charge is the one made by Thomas Wallingford that an arrangement existed between the mob and Jailer Morris to get the keys,

## SERIOUS FIGHTING IS EXPECTED AT ANY MOMENT AT ST. PETERSBURG

### LEAPED TO HIS DEATH

### Chicago Real Estate Man Jumps From Fourth Story Window.

### Died to Evade Arrest on Warrants Charging Conspiracy.

Chicago, Oct. 27.—Leaping through a plate glass window heading, four stories to the street to evade arrest on warrants charging conspiracy and fraud, Adolph Perbchner, who conducted a real estate and loan business at 121 Washington street, was dashed to death today on the pavement, dying instantly. Perbchner's spectacular leap to death was witnessed by scores of people passing and by many occupants of nearby offices. Slamming a door of a private office in the face of the police, when they appeared with the warrants, Perbchner hurled himself through the window. Apparently the man was so overwhelmed mentally by the sudden imminence of arrest that his power of reflection was paralyzed, and he had only one idea—escape.

## EMPEROR'S ACTION UNPRECEDENTED

### Mikado Invites Thousands of Naval Officers to Dine.

Tokyo, Oct. 27, 2 p. m.—The emperor invited 2,000 naval officers to luncheon at the Shiba palace today and an equal number will be entertained by him tomorrow at the same place. This action upon the part of the emperor is unprecedented.

The commander of the Tokyo division gave a farewell garden party yesterday at Takeshiki for the Russian officers kept prisoners there. Toasts to the emperor of Russia and Japan were drunk with enthusiasm.

### DEATH OF PIONEER MERCHANT.

Tyler, Minn., Oct. 25.—Hans P. Lauritsen, senior member of the firm of H. P. Lauritsen & Son, died Wednesday at the home of his son at the age of 82. He is the father of Representative Marcus Lauritsen and Mayor Hans Lauritsen, where he played an active part in political affairs, identifying himself with the reform party.

### SHOWN HOW TO SPEAL.

Denver, Colo., Oct. 26.—Nelson Johnson, who was arrested on five charges of embezzlement from the Mutual Life insurance company of New York, said that, while he might not plead guilty, his defense was committed after he had read the reports of Mercury-McCall expounders of funds, and that he could not be more guilty than those high officials. Johnson was an insurance collector and is said to have misappropriated \$500.

### Students and Strikers Are Gathering at University and Will Hold Buildings.

### Electric Light Plant Is Stopped and the City Is Plunged in Darkness.

Odessa, Oct. 27.—The university building is surrounded by Cossacks and police to prevent a meeting of 5,000 students announced to be held tonight. The students, notwithstanding the presence of the armed force, were, as this dispatch was filed, gathering in the neighborhood of the university. A serious conflict is feared.

St. Petersburg, Oct. 27, 4:25 p. m.—During the afternoon the wildest rumors spread and the city was seized with a semi-panic. The students began to congregate at the university in the Vassili Ostrov district, announcing that they intended to hold the building as the university against the military and to hold a big meeting tonight to which workmen of all the social groups are invited. Warnings having been issued last night that the government would not permit revolutionary meetings at the universities and higher schools under the guise of student assemblies, Gen. Trepoft dispatched troops to surround the building and trouble is momentarily feared. To add to the alarm the strikers have succeeded in stopping the machinery of the electric light plant and the city is plunged in darkness.

Reinforcements of troops are pouring into the city. The new lower school under the guise of student assemblies, Gen. Trepoft dispatched troops to surround the building and trouble is momentarily feared. To add to the alarm the strikers have succeeded in stopping the machinery of the electric light plant and the city is plunged in darkness.

Trepoft dispatched troops to surround the building and trouble is momentarily feared. To add to the alarm the strikers have succeeded in stopping the machinery of the electric light plant and the city is plunged in darkness.

windows during the night, and this burning the city awoke to find the shops reopened.

Little squads of soldiers are scattered along the streets and in the markets to preserve order. Even detachments of the crack guard regiments, like the Preobrazhenski, Semenovskiy and Horse guards, are doing patrol duty. Nevertheless, beneath the surface there is much excitement. The revolutionists have spread the tidings that a revolution has begun, and the city is filled with the wildest rumors. For example, a story is afloat that a provisional government has been established. The better classes are afraid to venture out. Many meetings have been held during the night.

Through the task of continuing the general strike more than a few days seemed utterly hopeless to the practical minded. It is significant of the deep-seated craving for liberty that the agitators have experienced little difficulty in inducing all classes of workmen to join in the anti-government demonstration.

At a meeting of delegates from the professional unions, comprising doctors, druggists and lawyers, it was decided to strike from Oct. 28 until a constituent assembly is summoned. The latest address from Minsk, Kieff, and Saratoff are disquieting. With a single exception the newspapers of Kieff have declared in favor of a strike. All the drug stores in Saratoff are closed, and the town is without artificial light, and no newspapers are appearing. The Saratoff town council has organized a committee for the protection of the citizens.

The street cars in St. Petersburg have ceased running and the employees of the street cars and means communications and even the bank and office employees have agreed to affiliate themselves with the movement.

The printers have resolved upon a unique demonstration to voice their demand for a free press. They have decided not to print a single regular newspaper tomorrow, but instead to publish clandestinely an unauthorized paper, for distribution by the workmen, containing the demands of the proletariat for a constituent assembly.

Just when reports were abroad that a bad impression has been created by the publication in the Official Messenger of a bulletin of "temporary" regulations, three columns in length, dealing with the right of assembly, which will require from now on seven days' notice to the police of the object of the meeting with the names of the speakers, etc. Then it was announced that the police are empowered to close the meetings if opinions are uttered which are supposed to threaten public order.

The news from the interior is meager. The situation has not improved. According to reliable reports, the troops at Kharhoff side with the students and strikers. The high school girls of Pskoff walked out this morning.

The Russ, now the leading organ of the constitutional party, declares that Count Witte's accession to power will not satisfy the people unless he comes forward with a program which will meet the wants of the nation. Only absolutely solid guarantees for the future, the paper declares, can now avail to reassure the people that the past will not repeat itself.

## FORTUNATELY NO ONE IS SERIOUSLY INJURED

### Through Confusion of Signals the Fruit Steamer Esparta Rams Magnolia.

### Steamer Ivy Summoned and President Conveyed Safely Aboard Cruiser.

United States Flagship West Virginia, Oct. 27, via New Orleans, Oct. 27, by wireless.—At 10 o'clock last evening, through confusion of signals, the fruit steamer Esparta collided with the lighthouse tender Magnolia, which was conveying the president. Secretary Loeb and Dr. Hixey to the cruiser West Virginia. The rail and port bow of the Magnolia was damaged and two or three holes made in the hull, below the water line. No one was hurt. The Magnolia, immediately on being struck, was beached, her bow being high and dry. After a careful examination of the damage to the vessel, it was evident that there was no danger, and the president and his party went to bed. Maj. Craigill of the United States engineers was aboard the Magnolia. His ship, the sister ship of the Magnolia, had proceeded some distance ahead of the Magnolia. A boat was immediately put off for the president's telephone, about a mile and a half away, and the order given to head the Ivy off at Pilotown and return for the president and his party. The transfer was made at 3 o'clock this morning. The vessel got under way immediately, and the West Virginia was beached on schedule time.

New Orleans, Oct. 27.—After a narrow escape from losing his life in an early morning collision, in which the lighthouse tender Magnolia, on which was traveling, was so much damaged that he had to abandon her, President Roosevelt is now safe on board the West Virginia, which is carrying him down the Mississippi to the mouth of the river. The president nor any member of his

party was injured in the accident. Details of the accident are not complete, but immediately after it occurred, hurried orders were received at Pilotown, where the lighthouse tender Ivy was lying, to proceed at once under full head to the scene and take the president and his party to sea. The Ivy passed Pilotown with the president on board at 8:15 this morning, on her way to the West Virginia. She was then within an hour and a half of reaching the cruiser's side.

The first news of the accident reached New Orleans by telephone at an early hour this morning, coming in the shape of an appeal for help from Capt. Rose of the United Fruit company's steamer Esparta, which was the vessel reported in collision with the Magnolia. Capt. Rose gave no details except that the boats had struck each other, that the president was uninjured and that the Esparta might have to take him on board and carry him to the mouth of the river. The message came from Nair, near which point the accident occurred.

The Magnolia left here at 6:30 last night and the Esparta was due to arrive today at Chalmette. The weather was fine with comparatively little wind on the river. In his report Capt. Rose gave no details of the accident, but said that the Magnolia was ashore. Immediately upon the receipt of the news communication was opened with the owners here and the powerful tug R. Wilmot and B. D. Wood left New Orleans shortly after 4 o'clock this morning with orders to get to full speed to the scene of the accident.

Meantime, however, the president's party had managed to get in communication with the lower part of the river, (Continued on page 2, first column.)

## TAFT GOES TO PANAMA TO SEE THINGS FOR HIMSELF

### Secretary of War Accompanied By Fortification Board Will Inspect Canal.

Washington, Oct. 27.—Secretary of War Taft will leave Washington tonight for Hampton Roads, and from there will sail for Panama. He will make a comprehensive personal investigation of conditions at Panama, and inform himself of the hand of the canal zone, and the work of constructing the canal. Secretary Taft wants direct information of canal conditions to give to the committees of congress, for guidance in future legislation. He will have a personal interview with Governor Charles E. Magoon, the administrative officer of the canal zone, and minister to the republic of Panama, and will consult with Chief Engineer Stevens to gain information which cannot be adequately presented in written reports. A number of officials connected with the Taft fortification board will accompany him to secure preliminary information as to needed fortifications at the terminals of the canal. The party will consist of Secretary Taft, Gen. John E. Story, Col. Clarence R. Edwards, Lieut. Col. William M. Black, Maj. George W. Goethals and Lieut. Mark Brooke, the last three officers named being of the corps of engineers. Col. Black and Lieut. Brooke were sent from the French company to the United States government, Col. Edwards is chief of the consular bureau, through which the administrative affairs of the canal have been transacted. V. M. Micler, assistant private secretary to Secretary Taft, will accompany the party.

Secretary Taft, at the earnest request of officials of Panama and the United States, has timed his visit so as to be in Panama on Nov. 3, the second anniversary of the independence of the republic of Panama. The officials believe that his presence on this occasion will strengthen the relations between the government and the isthmian republic.

Secretary Taft will go from Washington by Old Point Comfort by steamer, and will board the United States cruiser Columbia at Hampton Roads Saturday morning. The Columbia has been prepared for the voyage and will at once sail for Colon with the Taft party. She is a triple screw vessel, and can make very good time. Mr. Taft expects to remain on the isthmus a week or ten days, and will return to Washington by Nov. 15. He will take with him all documents and data relating to canal affairs, and it is expected that his report for the use of congress will be very nearly completed upon his return.

Members of the Taft fortification board who do not accompany the secretary of war to Panama have arranged for a trip of investigation, to include the entire Atlantic coast from Narragansett, in Rhode Island to Galveston, Texas. These officers have already made an investigation of the coast of the Canadian boundary from Narragansett, and the contemplated tour will afford them an opportunity to ascertain what is necessary in the way of additional fortifications for the remainder of the Atlantic coast, so that a complete report can be made for the use of congress. The officers will travel mostly by rail, but will use such vessels as are available along the coast to take them from point to point necessary for their investigation.

The officers will travel mostly by rail, but will use such vessels as are available along the coast to take them from point to point necessary for their investigation.

## CLEVELAND SPENDS DAY IN CHICAGO

Chicago, Oct. 27.—Ex-President Grover Cleveland and his party reached Chicago at 7:45 a. m. today in a private car over the Pennsylvania. Cleveland and his party have arranged to spend the day in Chicago. The party was complete as announced, with the exception of Mr. and Mrs. Adlai Stevenson, who did not come. Mr. and Mrs. Cleveland were accompanied by Paul Morton, Miss Pauline Morton, Dr. J. D. Bryant of New York and Master Wirt Morton. Miss Morton left the train at Englewood, where she will be met by relatives, whom she will visit. The travelers were met at the Union station by Mr. and Mrs. Adlai Stevenson, who had been in Chicago attending the in horse show. The private car was transferred to the Chicago, Burlington

& Quincy railroad yards, over which road it will leave for Nebraska tonight at 8 o'clock. The occasion of Mr. Cleveland's visit to Nebraska is the unveiling at Nebraska City of a monument erected in honor of J. Sterling Morton, father of Paul and Joy Morton. The former president will deliver an address there and the ceremony will be largely attended by friends and relatives of the Mortons.

Lincoln, Neb., Oct. 27.—A dispatch to the Star says that ex-President Cleveland, who, with his wife, is on his way to Nebraska City for the unveiling of the Morton monument, tomorrow is expected to remain at Arbor Lodge of the Morton home for several weeks, in the hope that complete rest there will benefit his health.

SPOTS ON THE SUN.

—Boston Herald.

# LIGHTHOUSE TENDER CONVEYING PRESIDENT COLLIDES WITH STEAMER AND IS REACHED

## KING OSCAR OF SWEDEN SEVERES ALL RELATIONS

### Formally Declines Offer of Norwegian Throne to a Prince of Bernadotte.

### Sends Final Letter to President of Storting Expressing Good Wishes.

Stockholm, Oct. 27.—King Oscar has definitely and formally declined the offer of the Norwegian throne to a prince of the house of Bernadotte and in a letter to the president of the Storting finally severs his connection with Norway. The letter, which is dated Oct. 26, is as follows:

"After having in the name of Sweden recognized Norway as a state completely separated from Sweden, I inform you of my decision to relinquish the crown of Norway, which, notwithstanding all my good intentions has given me in the course of years no small bitter cares. Moreover, I could no longer wear it to the benefit of the country now that the illegal decision of the Storting has rendered illusory even the suspensive veto of the king. But I desire only the welfare of the country and the nation towards which I have entertained a sincere affection ever since my youth and to the happiness of which it has always been my heart's desire to contribute so long as I live."

## GREAT BREACH MADE IN CHINESE EXCLUSION WALL

### Modifications of Regulations Result In Large Increase of "Merchants."

Washington, Oct. 27.—It is the understanding that the efforts at treaty making between the United States and China will await the action of congress in the matter of amending the Chinese exclusion act, in accordance with an expected recommendation of President Roosevelt in his next annual message. So far there has been utter failure on the part of the two governments to get together on a treaty. Soon after China brought the treaty of 1894 to an end on Dec. 8 last, she presented the draft of a new treaty to the state department. This was turned over to the department of commerce and labor, which has jurisdiction of immigration matters. When this department concluded with the treaty it was returned to the state department. The record shows that in September 231 Chinese were admitted and but eleven

rejected. In September last year the number admitted was 128 and the previous eighty-five. This, it is said, is the result of lessening the tension at the ports of entry. Since the executive order enforcing the Chinese exclusion law gave great weight to what a Chinaman says in making his demand for admission, it is decidedly much easier to satisfy the inspectors that a Chinaman is a "merchant" or does not belong to the excluded class than it was previously. A recent modification of the regulations makes, it is declared, an absolute breach in the exclusion wall. The regulation in question required before it was modified a bond of \$500 to be furnished by the transportation company for every Chinese in transit through the country and no laborer would be allowed to land. This bond has been entirely done away with. This fact, taken in connection with the ease with which a laborer can now persuade an inspector that he is a "merchant" and only desires to pass through, constitutes the breach in the wall. Once in the country "in transit" it is an easy matter to get off the train at any desired point and remain. This modification of the regulations in favor of the Chinese has not as yet become generally understood. What it is, officials look for an influx of Chinese "in transit."

## TO HAVE \$1 PER DAY FOR REST OF LIFE

Chicago, Oct. 27.—A dispatch to the Record-Herald from St. Louis, Mo., says: Mrs. Sarah J. Westervelt yesterday was awarded damages of \$1 a day for the rest of her life, estimated at fifteen years, in her suit against the St. Louis Transit & United Rail-

ways companies, for injuries received in street car collision. She is 54 years old. Judge Barclay, before whom the suit was tried, figured with insurance actuaries, and in his address gave the jury the estimate of the plaintiff's life term, which served as the basis of the verdict.

## CHILEANS APPROPRIATE GERMAN SHIPS

DVR San Francisco, Oct. 27.—Theo San Francisco, Oct. 27.—The Kosmos steamer Neko, which arrived yesterday from the south, brought the report that the German ship Steinbeck had been appropriated by the Chileans. It was reported in dispatches some weeks ago that the Steinbeck had gone ashore at Valparaiso. It appears that the captain and crew abandoned the vessel when she seemed to be beyond saving

and after standing by in small boats for forty-eight hours they went ashore. A party of Chileans went out to the vessel and took possession. Subsequently, when the Steinbeck seemed to be safe, the crew attempted to go on board again. Having taken possession of the ship at some risk to themselves, the Chileans refused to give her up and they were still in possession when the Neko left Valparaiso. The Steinbeck has a valuable cargo on board.

## WOMAN SUES LYNCHERS FOR \$50,000

Cincinnati, Oct. 27.—A sensational suit, the result of the lynching of William Thacker, at Flemingsburg, Ky., in 1903, was filed in the federal court of Covington yesterday by Mrs. Mary Thacker, the widow. She is suing George Gordon and other citizens of Flemingsburg for \$50,000 damages for

mobbing her husband, who had been indicted for the killing of the son of Gordon. In the affidavit some sensational allegations are set forth. The most sensational charge is the one made by Thomas Wallingford that an arrangement existed between the mob and Jailer Morris to get the keys,

## SERIOUS FIGHTING IS EXPECTED AT ANY MOMENT AT ST. PETERSBURG

## LEAPED TO HIS DEATH

### Chicago Real Estate Man Jumps From Fourth Story Window.

### Died to Evade Arrest on Warrants Charging Conspiracy.

Chicago, Oct. 27.—Leaping through a plate glass window heading, four stories to the street to evade arrest on warrants charging conspiracy and fraud, Adolph Perbchner, who conducted a real estate and loan business at 151 Washington street, was dashed to death today on the pavement, dying instantly. Perbchner's spectacular leap to death was witnessed by scores of people passing and by many occupants of nearby offices. Slamming a door of a private office in the face of the police, when they appeared with the warrants, Perbchner hurled himself through the window. Apparently the man was so overwhelmed mentally by the sudden imminence of arrest that his power of reflection was paralyzed, and he had only one idea—escape.

## EMPEROR'S ACTION UNPRECEDENTED

### Mikado Invites Thousands of Naval Officers to Dine.

Tokyo, Oct. 27, 2 p. m.—The emperor invited 2,000 naval officers to luncheon at the Shiba palace today and an equal number will be entertained by him tomorrow at the same place. This action upon the part of the emperor is unprecedented. The commander of the Tokyo division gave a farewell garden party yesterday at Takeshiki for the Russian officers kept prisoners there. Toasts to the emperor of Russia and Japan were drunk with enthusiasm.

DEATH OF PIONEER MERCHANT. Tyler, Minn., Oct. 27.—Hans P. Lauritsen, senior member of the firm of H. P. Lauritsen & Son, died Wednesday at the home of his wife at the age of 82. He is the father of Representative Marcus Lauritsen and Mayor Hans Lauritsen. Mr. Lauritsen was a native of Denmark, where he played an active part in political affairs, identifying himself with the reform party.

SHOWN HOW TO STEAL. Denver, Colo., Oct. 27.—Nelson Johnson, who was arrested on five charges of embezzlement from the Mutual Life insurance company of New York, said that, while he might not plead guilty, his defense was committed after he had read the reports of McQuiddy-McCalli expeditious of funds and that he could not be more guilty than those high officials. Johnson was an insurance collector and is said to have misappropriated \$500.

## Students and Strikers Are Gathering at University and Will Hold Buildings.

## Electric Light Plant Is Stopped and the City Is Plunged In Darkness.

Odessa, Oct. 27.—The university building is surrounded by Cossacks and police to prevent a meeting of 5,000 students announced to be held tonight. The students, notwithstanding the presence of the armed force, were, as this dispatch was filed, gathering in the neighborhood of the university. A serious conflict is feared.

St. Petersburg, Oct. 27, 4:25 p. m.—During the afternoon the wildest rumors spread and the city was seized with a semi-panic. The students began to congregate at the university in the Vassili Ostrov district, announcing that they intended to hold the building as the students of Kharkoff held their university against the military and to hold a big meeting tonight to which workmen of all the social groups are invited. Warnings having been issued last night that the government would not permit revolutionary meetings at the universities and higher schools, the students and the Cossack regiment have arrived here from Tsariko Selo and 4,000 soldiers are coming by water from Revel.

Several trains with military escorts have forced their passage from Moscow but the railroad tie-up is practically as light as on yesterday. The government's railroad battalions are now exhausted. The last were sent to Moscow and Syzran last night.

The most alarming reports are circulating about affairs in the south of Russia. Private reports received here are said to confirm the stories of the mutiny on board the battleship Catherine II, and the destruction by incendiarism of the battleship Paterfenn, formerly the Kniaz Potemkin, but the authorities do not confirm the rumors, and telegrams of inquiry remain unanswered.

In the interior of Russia the people have neither mail nor newspapers, and are the prey to the wildest stories of what is occurring. This is considered to be a bad side of the situation, as it is feared it may lead to peasant uprisings, which, in the absence of troops, might result in frightful excesses.

In some towns a reign of terror is reported to exist. At Minsk the people have shut up their houses, the governor having warned them not to venture in the streets at the peril of their lives.

St. Petersburg, Oct. 27, 12:23 p. m.—Warnings to the people that in case of disorder the soldiers will fire ball cartridges are posted on every street corner today. The city is calmer on the surface under the rigorous measures adopted. Gen. Protopopov in order to restore confidence, directed all shopkeepers to take down the boards from shop

windows during the night, and this morning the city awoke to find the shops reopened. Little squads of soldiers are scattered along the streets and in the markets to preserve order. Even detachments of the crack guard regiments, like the Preobrazhensky, Semenovskiy and Horse guards, are doing patrol duty. Nevertheless, beneath the surface there is much excitement. The revolutionists have spread the tidings that a revolution has begun, and the city is filled with the wildest rumors. For example, a story is afloat that a provisional government has been established. The better classes are afraid to venture out. Many meetings have been held during the night.

Though the task of continuing the general strike more than a few days seemed utterly hopeless to the practical minded, it is significant of the deep craving for liberty that the agitators have experienced little difficulty in inducing all classes of workmen to join in the anti-government demonstration.

At a meeting of delegates from the professional unions, comprising doctors, druggists and lawyers, it was decided to strike from Oct. 28 until a constituent assembly is summoned. The latest address from Minsk, Kieff, and Saratoff are disquieting. With a single exception the newspapers of the city have declared in favor of a strike. All the drug stores in Saratoff are closed, and the town is without artificial light, and no newspapers are appearing. The Saratoff town council has organized a committee for the protection of the citizens.

The street cars in St. Petersburg have ceased running and the employees of the bureau of water works, communications and even the bank and office employees have agreed to affiliate themselves with the movement.

The printers have resolved upon a unique demonstration to voice their demand for a free press. They have decided not to print a single regular newspaper tomorrow, but instead to publish clandestinely an unpolished paper for distribution by the workmen, containing the demands of the proletariat for a constituent assembly.

Just when reports were abroad that freedom of assembly would be granted a bad impression has been created by the publication in the Official Messenger of a belated set of "temporary" regulations, three columns in length, dealing with the right of assembly, which will require from three to seven days of the bureau of water works, communications and even the bank and office employees have agreed to affiliate themselves with the movement.

The news from the interior is meager. The situation has not improved. According to reliable reports, the troops at Kharkoff side with the students and strikers. The high school girls of Pskoff walked out this morning. The Russ, now the leading organ of the constitutional party, declares that Count Witte's accession to power will not satisfy the people unless he comes forward with a program which will meet the wants of the nation. Only absolutely solid guarantees for the future, the paper declares, can now avail to reassure the people that the past will not repeat itself.

## FORTUNATELY NO ONE IS SERIOUSLY INJURED

### Through Confusion of Signals the Fruit Steamer Esparta Rams Magnolia.

### Steamer Ivy Summoned and President Conveyed Safely Aboard Cruiser.

United States Flagship West Virginia, Oct. 27, via New Orleans, Oct. 27, by wireless.—At 11 o'clock last evening, through confusion of signals, the fruit steamer Esparta collided with the lighthouse tender Magnolia, which was conveying the president, Secretary Loeb and Dr. Rixey to the cruiser West Virginia. The rail and port bow of the Magnolia was damaged and two or three holes made in the hull, below the water line. No one was hurt, the Magnolia, immediately on being struck, was beached, her bow being high and dry. After a careful examination of the damage to the vessel, it was evident that there was no danger, and the president and his party went to bed. Maj. Craigbill of the United States engineers was aboard the Magnolia. His ship, the Ivy, a sister ship of the Magnolia, had proceeded some distance ahead of the Magnolia. A boat was immediately put off for the nearest telephone, about a mile and a half away, and the order given to head the Ivy off at Pilotown and return for the president and his party. The transfer was made at 2 o'clock this morning. The vessel got under way immediately, and the West Virginia was hoisted on schedule time.

New Orleans, Oct. 27.—After a narrow escape from losing his life in an early morning collision, in which the lighthouse tender Magnolia, on which he was traveling, was so much damaged that he had to abandon her, President Roosevelt is now safe on board the lighthouse tender Ivy, which is carrying him down the Mississippi to the armored cruiser West Virginia. The president nor any member of his

party was injured in the accident. Details of the accident are not complete, but immediately after it occurred hurry orders were received at Pilotown, where the lighthouse tender Ivy was lying, to proceed at once under full head to the scene and take the president and his party to sea. The Ivy passed Pilotown with the president on board at 8:45 this morning, on her way to the West Virginia. She was then within an hour and a half of reaching the cruiser's side.

The first news of the accident reached New Orleans by telephone at an early hour this morning, coming in the shape of an appeal for help from Capt. Rose of the United Fruit company's steamer Esparta, which was the vessel reported in collision with the Magnolia. Capt. Rose gave no details except that the boats had struck each other, that the president was uninjured and that the Esparta might have to take him on board and carry him to the mouth of the river. The message came from Natchez, near which point the accident occurred.

The Magnolia left here at 6:30 last night and the Esparta was due to arrive today at Chalmette. The weather was fine and comparatively little wind on the river. In his report Capt. Rose gave no details of the accident, but said that the Magnolia was ashore. Immediately upon the receipt of the news communication was opened with tug owners here and the powerful tug H. Wilmot and B. D. Wood left New Orleans shortly after 4 o'clock this morning with orders to go at full speed to the scene of the accident.

Meantime, however, the president's party had managed to get in communication with the lower part of the river. (Continued on page 2, first column.)

## TAFT GOES TO PANAMA TO SEE THINGS FOR HIMSELF

### Secretary of War Accompanied By Fortification Board Will Inspect Canal.

Washington, Oct. 27.—Secretary of War Taft will leave Washington tonight for Hampton Roads, and from there will sail for Panama. He will make a comprehensive personal investigation of conditions at Panama, and inform himself at first hand of the needs of the canal, to be presented to congress. As the cabinet officer responsible for the administration of the canal zone, and the work of constructing the canal, Secretary Taft wants direct information of canal conditions to give to the committee of congress for guidance in future legislation. He will have a personal interview with Governor Charles E. Magoon, the administrative officer of the canal zone and minister to the republic of Panama, and will consult with Chief Engineer Stevens to gain information which cannot be adequately presented in written reports. A number of officials connected with the Taft fortification board will accompany him to secure preliminary information as to needed fortifications at the terminals of the canal. The party will consist of Secretary Taft, Gen. John F. Story, Col. Clarence R. Edwards, Lieut. Col. William M. Black, Maj. George W. Goethals and Lieut. Mark Brooke, the last three officers named being of the corps of engineers. Col. Black and Lieut. Brooke were in Panama at the time of the transfer of the property from the French company to the United States government. Col. Edwards is chief of the consult bureau through which the administrative affairs of the canal have been transacted. W. M. Michler, assistant private secretary to Secretary Taft, will accompany the party.

Secretary Taft, at the earnest request of officials of Panama and the United States, has timed his visit so as to be in Panama on Nov. 3, the second anniversary of the independence of the republic of Panama. The officials believe that his presence on this occasion will do much to strengthen the relations between this government and the isthmian republic. Secretary Taft will go from Washington to Hampton Roads, Va., by train, and will board the United States cruiser Columbia, at Hampton Roads, Saturday morning. The Columbia has been prepared for the voyage and will at once sail for Colon with the Taft party. She is a triple screw vessel, and can make very good time. Mr. Taft expects to remain on the isthmus a week or ten days, and will return to Washington by Nov. 15. He will take with him all documents and data relating to canal affairs, and is expected that his report for the use of congress will be very nearly completed upon his return.

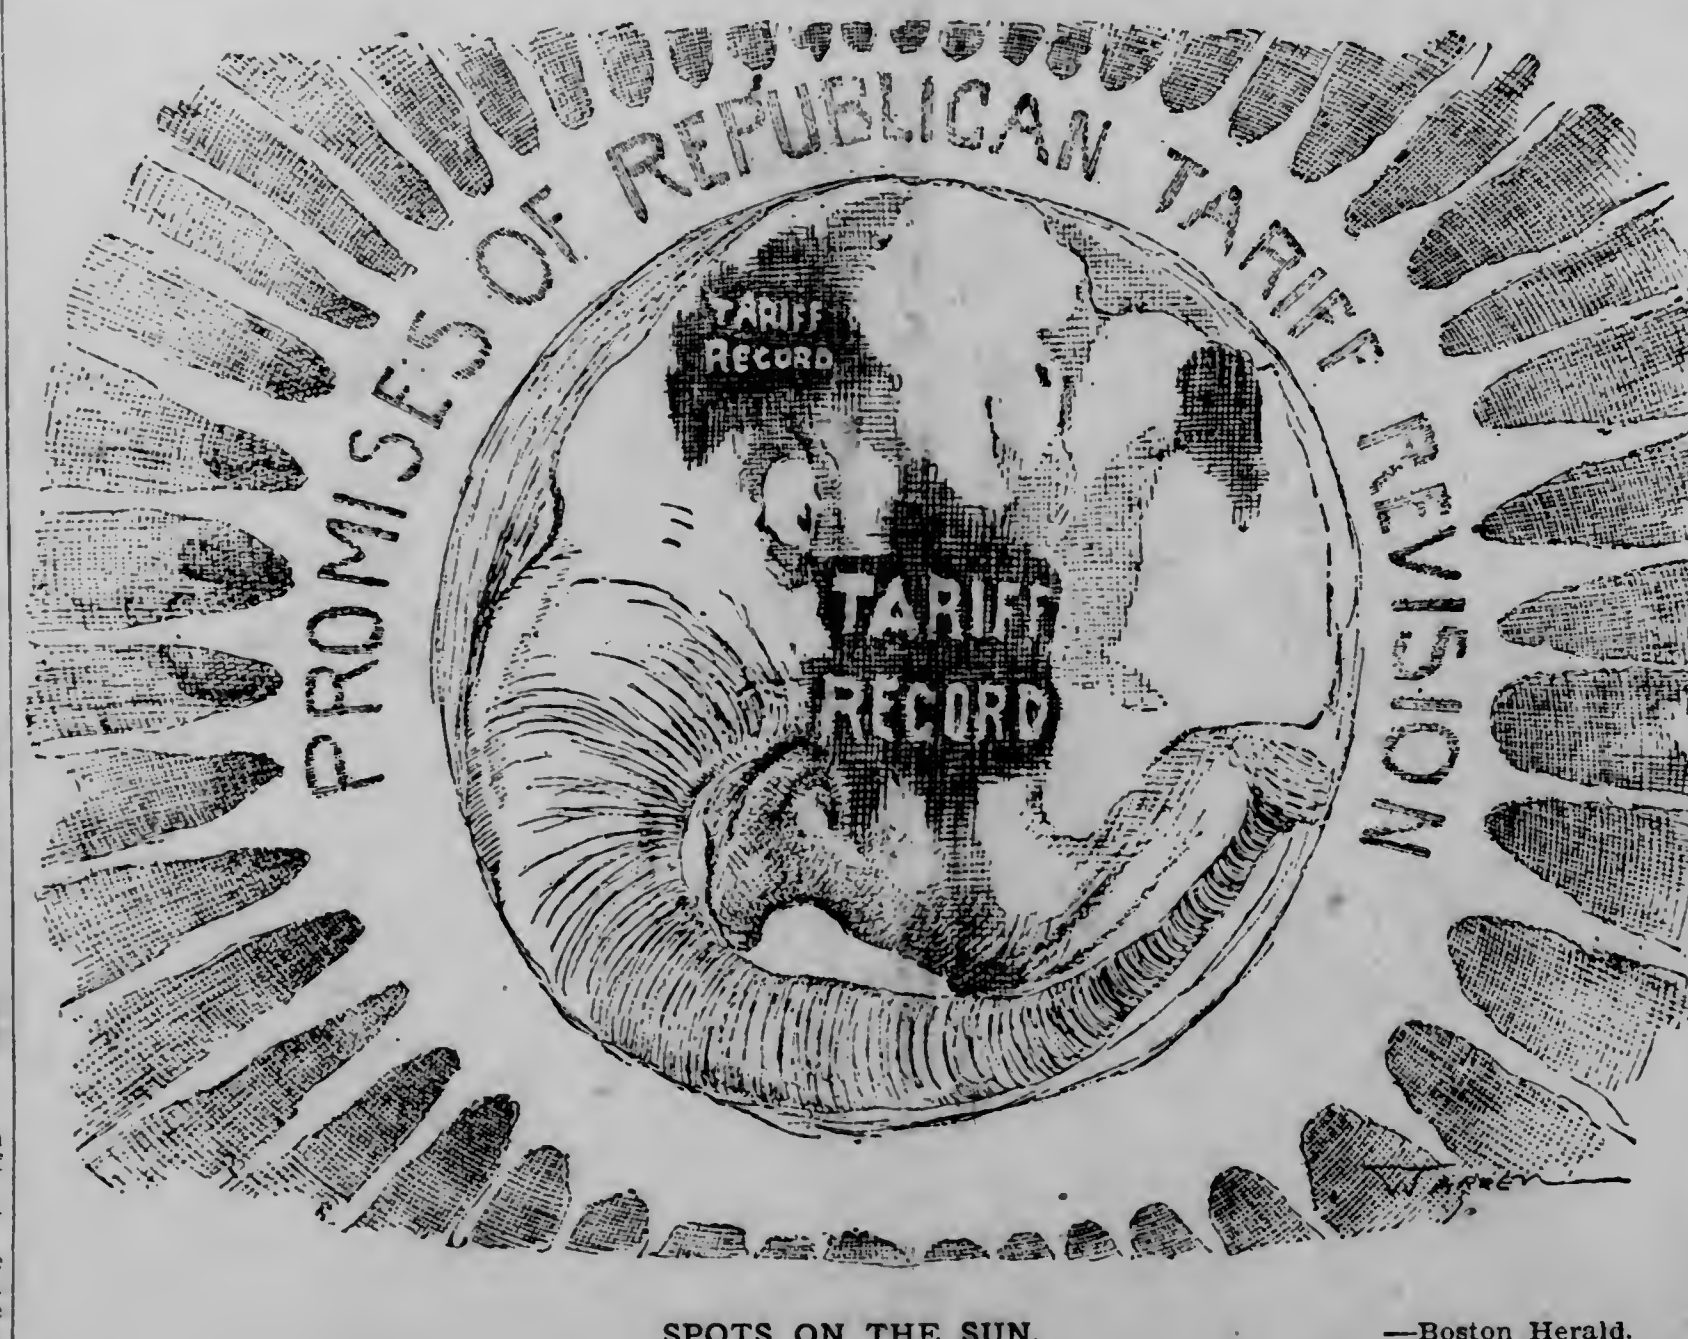

Members of the Taft fortification board who do not accompany the secretary of war to Panama have arranged for a trip of investigation, to include the entire Atlantic coast from Narragansett, in Rhode Island to Galveston, Texas. These officers have already made an investigation of the coast of the Canadian boundary to Narragansett, and the contemplated tour will afford them an opportunity to ascertain what is necessary in the way of additional fortifications for the remainder of the Atlantic coast, so that a complete report can be made for the use of congress. The officers will travel mostly by rail, but will use such vessels as are available along the coast to take them from point to point necessary for their investigation.

## CLEVELAND SPENDS DAY IN CHICAGO

Chicago, Oct. 27.—Ex-President Grover Cleveland and his party reached Chicago at 7:45 a. m. today in a private car over the Pennsylvania. They were met at the Union station by a large party. The party was complete, as announced, with the exception of Mr. and Mrs. John D. Rockefeller, who did not come. Mr. and Mrs. Cleveland were accompanied by Paul Morton, Miss Pauline Morton, Dr. J. D. Bryant of New York and Master Wirt Morton. Miss Morton left the train at Englewood, where she will be met by relatives, whom she will visit. The travelers were met at the Union station by Joy Morton and by Mrs. Paul Morton, who had been in Chicago attending the horse show. The private car was transferred to the Chicago, Burlington

& Quincy railroad yards, over which road it will leave for Nebraska tonight at 10 o'clock. The occasion of Mr. Cleveland's visit to Nebraska is the unveiling at Nebraska City of a monument erected in honor of J. Sterling Morton, father of Paul and Joy Morton. The former president will deliver an address there and the ceremony will be largely attended by friends and relatives of the Mortons.

Lincoln, Neb., Oct. 27.—A dispatch to the Star says that ex-President Cleveland, who, with his wife, is on his way to Nebraska City for the unveiling of the Morton monument, tomorrow, is expected to remain at Arbor Lodge of the Morton home for several weeks, in the hope that complete rest there will benefit his health.

# These Handsome Coats at \$12.50, \$19.50 and \$25.00 Tomorrow

Goods bought after the 25th of the month will be charged on the following month's bill

## Swagger English Coats at \$12.50.

For a smartly tailored wrap made from dependable winter fabrics we recommend this garment as one that will give satisfaction. The new full back model, now so popular, in a variety of desirable mixtures — garments which cannot be duplicated hereabouts in style, fit or fabric even at a much higher price.

## Semi-Paddock Coats at \$19.50.

These coats are made from imported English and Scotch worsteds in bright, showy designs, skilfully tailored throughout and highly desirable in every way as a popular price wrap. At \$25 we show some handsome, tight fitting coats in black broadcloths, man-tailored loose ulsters, satin lined.

## Swell Fur Lined Wraps \$25.

Easily leaders in these beautiful and comfortable lines — our coat at \$25 is made from heavy cheviot and lined with the very best Hamster linen, 48 inches in length, full swagger back, blended river mink collar—in still better lines we show many stunning coats at \$29.50, \$40 and \$55.

## Warm Furs for Winter Snows.

It's fur-buying time now—delay means higher prices and less desirable selections. Note these very special items for tomorrow. You know the S. & B. Co.'s reputation for style and dependability. \$9.75 for Natural Squirrel Throws, new stole effects in squirrel, Jap and river mink—\$7.50, \$8.50 and \$10.75.

\$18.50 for handsome Mink Throws and Scarfs, new storm collar effects, in natural or sable squirrel, Jap mink, Persian, near seal, etc.—\$18.50 and \$19.50.

Genuine Mink Sets—the latest shapes in scarfs and throws—large flat muff at \$35.00, \$15.00 and upwards.

## Special Selling of Scarfs at \$5.75 Tomorrow.

Tomorrow we place on sale fifty beautiful Scarfs in sable and Isabella opossum—new effects made from fine quality of skins—large and comfortable—choice tomorrow, \$5.75.

## Your Winter Underwear Is Ready.

Every line now generously complete, including the "Sterling" and "Merode"—the cream of them all, for which we are agents.

## Stunning Street or Suit Hats \$3.00, \$4.00 and \$5

Hats suitable for most any occasion and at a saving of from one-third to one-half the usual cost. Style distinction characterizes every hat in the sale; you'll find nothing elsewhere that will compare with them in appearance and all in the season's favorite styles, jauntily trimmed designs in toques and turbans that will please

The practical wrap for winter weather, in the prevailing shades of brown, gray, blue, red, etc.

50c for Infants' Bearskin Bonnets, in all colors, including black and white.

HALF PRICE for infants' Wool Dresses tomorrow, in serges, chevots and cashmeres, daintily trimmed.

## RAILROADS

## A SCARCITY OF HOBOES

Train Crews Are Having Little Trouble With Them.

Condition Brought About By Prosperity in the Northwest.

Railroad men say that train crews in the Northwest have had less trouble with hoboes this year than at almost any time in the past. There have been fewer men trying to beat their way than usual, except during the harvest season, and even then the number was not as great as had been expected.

A reason for this condition of affairs is given in the fact that there has been plenty of work for all classes of labor, and at good wages, ever since last spring. Everybody has been employed, under satisfactory conditions, and the result has been a great falling off in the number of men lying drift on the

place to place, in search of better employment.

Nearly always, among a certain class of men, there is general dissatisfaction at prevailing conditions, resulting in the movement of men through all parts of the country. For the most part they are without funds and have no special inducement to remain in any one town. If they are of betwixt opinion at distance, they quit whatever work they may be doing, and start for the new location, depending upon the railroads to prevent them with free transportation. In other words, they are put to a good deal of trouble in trying to get rid of the unwelcome passengers. Try as they will, they cannot entirely do away with the practice.

As a rule, even the man commonly called a hobo would rather pay his fare than beat his way, if he has sufficient money to do so. The fact that the traveling fraternity than usual in evidence the trainmen reach the city in a prosperous condition. All of them have reached this conclusion, but the laborer has experienced no difficulty in finding satisfactory employment. Every city offers so many opportunities that he found it unnecessary to go far to land the sort of work he wanted. If he did have his eye on some other part of the country, he could take a few days and make his own price of a railroad ticket than to beat his way. So those that have been in the country as a result of a restless, nomadic life, most of them have been paid their way, where, in an ordinary year, they would have had to pay their way.

These men are always a scarce article in Duluth, and P. K. Haley, secretary of the Duluth Police Board, found this morning, "but this fall they are less in number than I have ever seen them in the morning, so much work that all the men appear to be ashamed to be in the loading docks, to be sure, but they are not bums. All of them have money, and are paying their way. I'll wager that there is not another city in the country as large as Duluth that has so few bums and unemployed men within its limits.

"These men you see hanging around the streets from day to day have money in their pockets. They have been working a little vacation before hiring out for the winter. And then, if you look closely, you will notice that the same faces are not to be seen every day. A casual observer might think the town was full of bums, but a careful investigation will show that these individuals are classes as bums are merely a part of a floating population, with enough cash on hand to pay their way.

New faces are to be seen on the street every day, although, as to general character, the men appear very much alike. They are constantly coming and going. Perhaps a hundred of them will arrive in Duluth today, and at the same time, the employment agents will send a hundred out. The bunch arriving today will remain here from one to three or four days, and will then leave the city, having secured outside jobs through the employment agencies. It is a mistake and an injustice to call them bums. They are a benefit to the city, rather than an injury. If it weren't for these same men Duluth would risk a good deal lower as a city than she does now."

## UNDERWOOD IS PRESIDENT.

Erie and Pere Marquette Roads Hold Election of Officers.

P. D. Underwood has been elected president of the Erie and Pere Marquette roads, and Russell Harding vice president of the Erie and the New York, Susquehanna & Western. Pere Marquette directors are: George F. Baker, N. E. Ryan, E. H. Harriman, H. M. Twombly, Samuel Spencer, Charles Steele, J. G. McCullough, P. D. Underwood, Russell Harding, George W. Young, W. C. McMillan of Detroit, and W. R. Cross, G. A. Richardson, S. S. Richardson and W. A. Smith of Grand Rapids.

Most of these are in the Erie board also. Mr. Underwood is now president of the three allied roads, and Russell Harding the vice president.

## Railroad Notes.

Local railroad offices today received blocks of reserved seat tickets to the Minnesota-Wisconsin football game, which will be played a week from tomorrow. The usual low rates have been made on account of the passenger agent of the Great Northern has returned from a trip to the Michigan copper country. Great Western earnings for the third week in October show a gain of \$2,500 over the same week, 1904. The gain

since the beginning of the fiscal year is \$346,800.39.

Henry S. Storrs, general superintendent of the Lake Shore, is dead at Cleveland, aged 57, of paralysis. He started in railroad work as switchman for the Burlington. Five years ago he became assistant superintendent of the Lake Erie & Western, and a year later he was appointed general superintendent of the parent company.

J. O. McMullen, general agent of the Northern Pacific at Vancouver, B. C., will be transferred to Seattle, Wash., as passenger agent, in charge of passenger traffic within the city limits. C. E. Lang, agent at Victoria, B. C., will take McMullen's place at Vancouver, and E. E. Blackwood, from another road, will succeed Mr. Lang at Victoria.

Reports of the passing of the control of the Wilkesbarre & Eastern road to the Erie company, have been denied by the Erie company, who also of the prospective sale of the New York, Susquehanna & Western.

## BUENA VISTA MAN

Arrested on Charge of Having Taken Government Pine.

Benjamin, Minn., Oct. 27.—Soren Sorenson, Jr., son of the Buena Vista postmaster and justice of the peace, has been arrested by Deputy United States Marshal W. Tufts on a charge of stealing government timber.

He was taken to Walker, where an examination before United States Commissioner Daniel De Lury resulted in his being held over for the federal grand jury, which sits at Fergus Falls next month. Sorenson furnished bonds in the sum of \$500 for his appearance and was given his liberty.

No indictment was found against George A. Pittman of Kilkenny, who was arrested on the charge that he attempted to bribe a rural mail carrier examining board by offering it \$25 for a mail route, and he was discharged.

When the plaintiff rested in the \$5,000 personal injury suit of Amy M. Penwith, administratrix, against the Omaha road, the defense moved for an instructed verdict. The court will decide the motion today.

## RECALLS EARLY DAYS.

First Iowa Falls School Teacher Celebrates His Eightieth Birthday.

Iowa Falls, Iowa, Oct. 27.—T. Y. McClure, the master of the first school in this county, has just celebrated his eightieth birthday and, together with three of his old pupils, is a resident of Herdins county. His school was held at the Conger home, in the southeastern part of the county. The old pupils now alive in this county are Dr. Bailey, John Conger and Mrs. Bailey of Eldora. The school was opened before district schools were thought of.

Much of the inner history of the Hawkeye Gold Mining company, as well as of the Iowa Lilloet company, promises to be made public in a trial to be held in the federal court at Cedar Rapids. The case is one in which the former company seeks to recover \$10,000 from the old State bank of this city.

The funeral of Arthur Wagner, who was killed in a railroad wreck on the Denver & Rio Grande, was held yesterday under the auspices of the Masonic fraternity, of which the deceased was a member. A postmortem

## Poor Fellow, He Died of Consumption

How often do you hear that phrase? Be careful—if you have a slight cough or cold, it may prove serious later on. Do not fill yourself up with cheap, alcoholic medicines, because you only receive temporary relief. The best thing you can do is to go to Kassimir's new Turkish Bath Parlor, 24-26 West Superior street, and try a Turkish bath, guaranteed to cure any cold no matter of how long standing. Try one. Ladies' baths upstairs. Open all night. Look for the big red sign.

examination was made by Dr. W. M. Morton of this city and Dr. W. H. Lewis of Alden. The examination was made a matter of record in the event of litigation.

News reached here to the effect that Edward O. Soule, formerly cashier of the Home Savings bank of this city, was indicted for misappropriation of funds. His sentence will expire Dec. 28. This indictment is reported to have grown out of the Sherwood case, which the bank was called on to defend after Soule's shortage was discovered.

## ADMITTS FORGERIES.

Frank J. Erms Is Sentenced to the St. Cloud Reformatory.

Mankato, Minn., Oct. 27.—The United States grand jury returned six indictments and was discharged. Five arrangements were had. Frank J. Erms of Butterfield was charged with forging two postal money orders for an aggregate of \$15, and pleaded guilty. Judge Anson sentenced him to the state reformatory at St. Cloud for two and a half years.

Joseph Smith and Henry T. West, saloonkeepers at Le Sueur Center, pleaded not guilty to an indictment charging them with failing to cancel two internal revenue stamps on beer kegs. The case was continued until the next term on motion of the local attorney.

No indictment was found against George A. Pittman of Kilkenny, who was arrested on the charge that he attempted to bribe a rural mail carrier examining board by offering it \$25 for a mail route, and he was discharged.

When the plaintiff rested in the \$5,000 personal injury suit of Amy M. Penwith, administratrix, against the Omaha road, the defense moved for an instructed verdict. The court will decide the motion today.

## Football—Wisconsin-Minnesota.

For the Wisconsin-Minnesota game at Minneapolis, Nov. 4th, "The Northwestern Line" will sell excursion tickets to St. Paul and Minneapolis. Nov. 3rd and 4th, at \$4.80 for the round trip. Tickets will bear return limit until Nov. 6th, and may be used on any line between Duluth and the Twin Cities by return. City ticket office, 302 West Superior street.

## MUSICAL INSECTS.

A poet, having once occasion to speak about crickets and grasshoppers, very happily termed them "vocalists of the field," and although at the time he was ignorant of the fact, he stated nothing more than a scientific truth which has recently been demonstrated by exhaustive investigations, says the Scientific American. Hilbert naturalists have been devoting a little too much time to the study of actual sounds emitted by insects rather than the methods by which the musical notes in question were really produced. It is now well known that the throat of insects has nothing to do with the production of such sounds, but that, on the contrary, they all use a kind of "instrument" with which Mother Nature has endowed them for the purpose. Microscopic examination has revealed the fact that in most cases this instrument has a strong resemblance to a rudimentary violin, at least as regards its principle.

Musical insects of the winged type may be divided into two groups, (1) those which do not use their wings and (2) those which do. The latter species is by far the more curious. A very curious fact in this connection is that all insects are tenors, deep bass voices being quite unknown. In addition to this, the notes are always the performers, female insects being dumb—contenting themselves with stopping at home and looking after the children, instead of standing at the front door, singing like their lords and masters. Many insects sing by day, such, for instance, as the chickadee, which, however, are not of the "vocalist" type, as they play upon a series of hard plates attached to the abdomen, much the same way as a Spanish dancer uses the castanets. Another insect of this type is the black field cricket, which has its home in a small, cave-like dwelling it prepares in the earth.

Other insects only sing by night, such, for instance, as the domestic and tree crickets, whose regular, modulated notes are known to every one. The apparatus used by these insects exactly resembles a violin, the abdomen being partially extended with small, bridge-like ridges or

ridges against which the wings are rubbed, thus producing the strident note characteristic of the insect. Other insects, such as locusts and their kin, have variable bows covered with fine ridges and attached to the wings by two button-like growths. Others have cuticles covered over with a fine membrane which serve the office of resonators. In almost all insects of this type there is a parchment-like part of the abdomen which acts as a kind of sounding board. Strange to say, many of these harmonious insects are an exception, as they have sharp ears and cease their vocal efforts at the sound of approaching footsteps. Some insects, although apparently deprived of a noise in the world. A notable instance of this is to be found in a locust residing in the euphonious name of Microcentrum telus, which produces a most melodious note like two pieces of metal or flint rubbed together.

## THE DRUNKEN MINSTREL.

Charles H. Keechin was with "Jack" Haverly's original minstrel company years ago, when Charles Froham was advance agent for that organization, says the Kansas City Times. And there was a time when that same Charles went out and marched with the tall hat men. "I was thinking of my old minstrel days last night," said Mr. Keechin yesterday, "and I happened to remember a little incident that has escaped my mind for twenty years or more. We had a tenor singer once who was an awful drinker. His name, I think, was Paine. One night Paine showed up at the theater half full and was given his discharge.

"Try to get through your ballad to-night and then leave this company," said Haverly.

"Paine said nothing. He had been with 'Jack' several years and he loved the old show. As he arose to sing that night I saw tears in his eyes. He started out and I never heard him sing so

well. His voice was strong and clear, even though he was somewhat under the influence of liquor. Just as he reached the first chorus a baby in the arms of a woman near the stage began to yell. It was such a loud wail that it stopped Paine. He attempted to begin two or three times, but the baby kept it up. Finally, to the surprise of everybody, he climbed down off the stage and went to the woman.

"Let me have that child," he said kindly. She handed him the boy. Paine returned to the stage through a box door and said something to the orchestra leader. Then taking his place in the center of the stage with the howling infant in his arms, he started a lullaby. O, how that half-shot tenor sang! His voice was beautiful—I can hear it yet. The baby, swaying gently in his arms, soon hushed and dropped off to sleep. At the end of the song Paine held up one hand.

"Don't applaud, please," he said. Then he returned the sleeping one to its mother, who took it outside. There were many moist eyes in the theater that night.

"I have recently resented his discharge order, and I have never sang with him again. He got drunker after the performance and was killed in a fight with a policeman."

## Minnesota-Wisconsin Football Tickets.

The Northern Pacific railway city office has on sale reserved seat tickets for the Minnesota-Wisconsin football game, to be played in Minneapolis, Nov. 4. Price, \$2 each, at 332 West Superior street.

## THE STAGE

### TONIGHT'S ATTRACTION.

METROPOLITAN—"The Parlatan Belles."

### COMING ATTRACTIONS.

LYCEUM—Saturday afternoon and evening, "The Show Girl."

"THE SHOW GIRL." "The Show Girl," one of B. C. Whitney's productions, will be at the Lyceum tomorrow afternoon and evening. The production this year is entirely new, and the cast is said to be a good one.

"THE PARLATAN BELLES." The gay "Parlatan Belles" will close their engagement at the Metropolitan with a performance this evening. They have proved great favorites during their stay in Duluth. The London Gaiety Girls will open a week's engagement at the "Met" Monday evening. There will be bargain matinees Tuesday, Thursday and Friday.

New Cure for Cancer. All surface cancers are now known to be curable, by Bucklen's Arnica Salve. Jas. Watson, of Duluth, Va., writes: "I had a cancer on my leg for years, that seemed incurable. I'll Bucklen's Arnica Salve healed it, and now it is perfectly well. Guaranteed cure for cuts and burns. 50c at all druggists."

## UNWILLING TO BUILD VIADUCT Iron Range Road Basks at Such an Expenditure.

Claiming that the company should not be expected to expend such a large sum of money on an improvement like the proposed viaduct over the London road surface crossing at Forty-seventh avenue east, President House of the Iron Range road yesterday intimated to the council committee that the company would be unwilling to comply with the council's request to construct such a viaduct.

Mr. House did not assume an arbitrary position and refuse to construct the viaduct, but said that he did not believe the council should demand such an expenditure, as the cost would be \$100,000.

Arrangements for the stationing of flagmen at the crossings will be discussed at another conference between the committee and the president of the road, to be held at a future date.

## RURAL FREE DELIVERY

### Examination at Government Building Saturday—Seven Applicants.

The examination of candidates for the rural free delivery route back of the hill will take place tomorrow morning in the United States court room in the government building. According to instructions to A. Grabkiewicz, local secretary of the civil service examination board, there are seven applicants for the examination. The examination consists of very simple subjects, for about all that is necessary for a R. F. D. carrier is to be able to furnish and drive a team and to read the address on a letter.

## HISTORY OF THE CHURCH

### Dr. A. W. Ryan Tells How St. Paul's Episcopal Church Started.

### Thirty-sixth Anniversary Is Observed By the Parishioners.

The thirty-sixth anniversary of the opening of St. Paul's Episcopal church was celebrated last evening at the church rectory, on Lake avenue, where Dr. and Mrs. A. W. Ryan received over 300 guests. They were assisted by Right Rev. Bishop Morrison and Mrs. Morrison, Ven. Archdeacon Appleby and Mrs. Appleby, Dean S. George, Mrs. E. T. Bywater, president of the Ladies' Guild; Mrs. F. W. Payne, Mrs. H. M. Peyton, Mrs. A. M. Miller, Mrs. W. R. Stone, Mrs. Kate Wallbank, and among those present were Rev. R. J. Mooney, Rev. H. S. Webster, Rev. A. H. Wurtel, Rev. K. S. Tottermann, Rev. W. S. Cordick of Superior, Rev. Dr. Hine of Pine, Rev. J. H. Connelley of Duluth, Rev. Dr. M. S. Rice, pastor of First M. E. church, and Mrs. Rose, and Rev. Dr. T. H. Cleland, of the First Presbyterian church.

During the evening a program was rendered, consisting of songs by Miss Highland and Charles Appleby, and recitations by the Misses Mae Wylie, Cora Hilliard, and Martha of Kentucky. Dr. Ryan gave a very interesting history of St. Paul's Episcopal church in Duluth, its origin, growth, and some of the members who comprised the earlier congregations.

The church was built through the efforts of E. Jay Cooke, who was establishing the Northern Pacific railway. He interested other Eastern people, and their subscription paid for the church building. The first services were believed to have been held by Bishop Whipple in August, 1869.

In May, 1880, General Sargent built a larger church, the formal opening of which occurred on Christmas of that year. Rev. Mason Gallagher, the rector, conducted the services. Mrs. Kate Wallbank and Henry Selby, wardens; J. B. Culver, Charles G. Nichols, G. W. Merrill, J. K. Seaton and C. C. Jones, vestrymen. Among some of the earliest families attending the church were those of Gen. Sargent, Col. Culver, the Nettlesons, the Peytons, Mr. and Mrs. A. M. Miller, the Walbanks, Mrs. E. T. Bywater, Mrs. W. R. Stone, the Cashes and Mrs. Pratt.

Dr. Ryan told of the varied history of the St. Paul's parish, its zeal in missionary and hospital work, its struggles to keep ahead of the times during financial depression, its sacrifices, and characterized the church as one of the main forces in the spiritual upbuilding of Duluth.

Among the incidents related of the earlier services, Dr. Ryan said that one Sunday morning early in May, 1870, the congregation was so small that the rector, when he entered the church, after a long winter, drew the attention of the congregation, and the church building was quickly vacated. The following Sunday the rector, in his notice said:

"Service next Sunday at 10:30. Provided, permitting and if the whole of the Keweenaw doesn't blow." Dr. Ryan said he wished that he might see all the names of the persons who have toiled and sacrificed for the upbuilding of the church and mentioned, in addition to those already named, Mrs. Graves, B. F. Mackall and B. S. Russell.

He closed by relating the coming to Duluth of Bishops Whipple and Gilbert. At the close of the reception Dr. and Mrs. Ryan received the congratulations of their guests on the marked success attained during the last evening's service.

## ADDRESS TRADES ASSEMBLY.

Rev. W. J. Lowrie and Labor Commissioner Williams May Speak.

The Federated Trades assembly will meet this evening in regular semi-monthly session and will listen to Rev. W. J. Lowrie of the Westminster Presbyterian church, West Duluth, who by invitation will speak on "The Workman and the Church," discussing the labor question from a religious standpoint. It is quite possible also that W. H. Williams, state labor commissioner, will be present and address the assembly.

The printers' strike situation will also likely come up, and the form or other and maybe some strong action will be taken.

## BRIEF TELEGRAMS.

Amid the most favorable conditions afforded by magnificent autumn weather and the attendance of a large gathering of enthusiastic spectators, the monument erected here in memory of the late President McKinley, was unveiled with appropriate exercises Thursday at Springfield, Mass.

The Sydney line steamer Drogheda was lost off New Zealand Oct. 4, and her crew of seven were drowned. Those lost were Capt. Edward Jones, Mate F. C. Johnson, H. C. Gathurst, cook, and four seamen.

Senator Cullom, chairman of the senate committee on foreign relations, said in an interview yesterday night that he believed the treaty made with San Domingo for annexing the affairs of that republic would receive the approval of the senate at the coming session.

A fierce storm raged all day along the Atlantic coast of Norfolk, Va., and the wind attained a velocity of fifty-three miles an hour off Cape Henry. A very high sea was running. All the lower part of Norfolk is flooded and street car traffic has been tied up in many sections of the country. The life-saving station reports an unknown steamer anchored one mile north of that point with steering gear apparently disabled.

## TREATY BETWEEN NORWAY AND SWEDEN IS SIGNED

Stockholm, Oct. 27.—Representatives of the Swedish and Norwegian governments last night signed the treaties involved in the Karstad agreement. The treaties, which are drawn in Swedish, Norwegian and French, operate without ratification, and the Swedish government has authorized the minister of foreign affairs to notify the foreign powers of its recognition of Norway as a separate state.

All the formalities of the dissolution have now practically been concluded.

Rev. Charles A. Cummings was instrumental in starting the hospital building on Second avenue east and Fourth street, in the early '80s.

Among the names found on the early records of the St. Paul's parish, Dr. Ryan gave the following list of rec- tory: Rev. J. B. Culver, Charles G. Nichols, G. W. Merrill, J. K. Seaton and C. C. Jones, vestrymen. Among some of the earliest families attending the church were those of Gen. Sargent, Col. Culver, the Nettlesons, the Peytons, Mr. and Mrs. A. M. Miller, the Walbanks, Mrs. E. T. Bywater, Mrs. W. R. Stone, the Cashes and Mrs. Pratt.

Dr. Ryan told of the varied history of the St. Paul's parish, its zeal in missionary and hospital work, its struggles to keep ahead of the times during financial depression, its sacrifices, and characterized the church as one of the main forces in the spiritual upbuilding of Duluth.

Among the incidents related of the earlier services, Dr. Ryan said that one Sunday morning early in May, 1870, the congregation was so small that the rector, when he entered the church, after a long winter, drew the attention of the congregation, and the church building was quickly vacated. The following Sunday the rector, in his notice said:

"Service next Sunday at 10:30. Provided, permitting and if the whole of the Keweenaw doesn't blow." Dr. Ryan said he wished that he might see all the names of the persons who have toiled and sacrificed for the upbuilding of the church and mentioned, in addition to those already named, Mrs. Graves, B. F. Mackall and B. S. Russell.

He closed by relating the coming to Duluth of Bishops Whipple and Gilbert. At the close of the reception Dr. and Mrs. Ryan received the congratulations of their guests on the marked success attained during the last evening's service.

CHILDREN'S UNDERWEAR—fleece lined—25c and 50c.

### WAS TWICE ARRESTED

For Man He Resembled In Looks, Habits and Writing.

Strange Case of Dual Identity Brought Out In Suit.

St. Louis, Oct. 27.—A case of dual identity as remarkable as that conceived by Mrs. Katherine Cecil Thurston in "The Masquerader" came to light through the evidence offered in the suit of Claude Mures, a French carpenter, against M. Fromang, a shoe dealer at 8 South Fourth

street, which was decided for the defendant by Judge McDonald. Mures sued for \$2000 collectively on three counts, charging false imprisonment and malicious prosecution. It was shown that he was the innocent victim of a singular likeness, extending not only to features and stature, but to the handwriting as well, to an expert forger. That Mures himself was the victim of obtaining money under false pretenses, on which Fromang had him arrested, was made apparent by the testimony. But the likeness of the real forger was so great that justice could not be shown in Fromang's prosecution.

A check for \$10 was presented to Fromang Oct. 25, 1905, in payment for a pair of shoes. The purchaser gave the name of Charles Muller, and said that he was an employee of Louis Martignon, whose name was signed to the check. Mr. Fromang accepted it and gave the man the change. The check was returned marked "N. G." by the bank.

More than six months after Fromang encountered in a saloon a man whom he was sure had given him the fraudulent paper. Through a friend he ascertained the suspected man's address and occupation. It was Claude Mures, employed on the French Pavilion at the World's fair.

Mr. Fromang the following day sent Charles Gray, a shoemaker employed by him, to the French pavilion, where he found Mures at work. When asked to make the \$10 check good the Frenchman looked surprised and said that he had never given it to Mr. Fromang. Gray testified, however, that he admitted having purchased shoes at the store the day the check was passed.

When Mr. Fromang found that Gray

had been unsuccessful he himself went to see Mures, and was met with the same denial. He then swore out a warrant for obtaining money under false pretenses, and Mures was arrested. The warrant was improperly drawn, and the man was dismissed. The grand jury which convened a short time after that found an indictment against Mures on the same charges as that stated in the warrant and the unhappy man was again taken to jail. However, he was again dismissed, this time on the ground that he had already been acquitted of the charge.

The suit for false imprisonment and malicious prosecution was then filed by Mures. At the trial he was asked to write a number of names in the presence of the jury. Experts were called in who testified that this handwriting was the same as that on the worthless check.

The checks passed by Mures were produced by the witness, who stated that Mures was no other than a man who, under the name of Louis Filippi, had passed a number of forged checks, and had served a term of four months in the workhouse on five counts for forgery. The period of imprisonment began June 17, 1905.

The checks passed by Filippi were produced in court. Each was for \$10, the amount of the check given to Fromang. The experts identified the handwriting with that of the Fromang check, and with that of Mures.

But it was shown that while Louis Mures was at work as a carpenter in St. Louis, From May to October, 1904, Mures was employed by the Police Construction company. Witness after witness testified to this, including the manager of the concern, and the payrolls were produced, showing that he had been on duty and had signed for his money each week. The handwriting was apparently even to the untold eyes. Experts in chirography declared that the date lines, amounts—always \$10—signatures, and appearance, were in reality penned by one man—presumably the mysterious Filippi. The opposition of the attorneys in the case, following these disclosures, was that Filippi himself had given the fraudulent paper to Fromang. But Filippi since his release from the workhouse, has not been heard of in St. Louis.

Scald head is an excruciating of the scalp—very severe sometimes, but it can be cured. Doan's Ointment, quick and permanent in its results. At any drug store, 50 cents.

### CLEVELAND IS ASTONISHED

At Rank Demagogism Prevailing In New York—Indorses McClellan.

New York, Oct. 27.—Ex-President Grover Cleveland has written a letter to Mayor George B. McClellan, in which he indorses the latter's candidacy for re-election as mayor of New York City. The letter reached Mr. McClellan yesterday and reads as follows:

"Princeton, N. J., Oct. 25, 1905.—My

Dear Mayor McClellan: Not being a resident of New York City I am not sure that I ought to concern myself with its municipal politics. I find it impossible, however, to outgrow my interest in all that affects the welfare and fair fame of the city of my former residence, or to forget the kindness and consideration of the many neighbors who have shown me the warmest of friendship for you, or my attachment to the party you represent, or even my absolute confidence in your fidelity in public places could move me to make any expression touching the pending municipal canvass.

"I confess to a feeling of astonishment when I see the evidences of rank hysteria parading a canvass which should especially be characterized by sober thoughtfulness. Questions of the most far-reaching import seem to be pressed upon the city's voters, not so much as subjects demanding their serious reflection and thorough information, as subjects furnishing opportunity for appeals to passion and information cunningly intended to aid personal ambitions and unworthy purposes.

"There are conditions just now prevailing which naturally suggest this as a favorable time for demagogic manipulation of the people; and no where are these conditions so inviting to those who are willing to be demagogues as in the city of New York.

"Every man who thinks must know the opportunity offered to play upon the unusually aroused popular prejudices, resentments and passions, has not been overlooked and the constant stimulation of these things contributes the chief stock in trade of some of those who are now bidding for the people's support. Every thinking man must also appreciate the fact that there are principles and theories underlying the pending municipal canvass which vitally concern the city's future life.

"In these circumstances how plainly it is the duty of every voter who has the welfare of our great municipality at heart to avert the danger threatened by rash notion, or by the neglect of a good citizen's duty to strive against the tide of demagogic misrepresentation. It is because I believe you are looking in this direction of dutiful citizenship and represent the steadiness and honest conservatism the city needs, that I earnestly hope for your election. Yours very sincerely

"GROVER CLEVELAND."

GIVES WIFE \$5 A YEAR.

Los Angeles, Cal., Oct. 27.—Can a woman be expected to keep house and support herself and child on an allowance of 9 cents a week? This problem formed the chief point of contention in a suit for divorce brought by Mrs. Mary P. Pratt against Dr. Herbert E. Pratt before Judge Walter Bordwell in the superior court. Judge Bordwell considered the proposition something less than five seconds and then granted Mrs. Pratt an interlocutory decree of divorce.

### OFF DAY ON GRIDIRON

Only One Big Game Is Scheduled For This Week.

Record Crowd Is Expected at the Wisconsin Game.

**GAMES TOMORROW.**  
Lawrence at Minneapolis.  
Drake at Michigan.  
Creighton at Nebraska.  
Chicago Maroons at Illinois.  
Northwestern at Chicago.  
Ohio Northern at Notre Dame.  
Purdue at Indiana.  
Ripon at Beloit.

Tomorrow is an off day in Western football, and most of the teams will take a rest before next Saturday's important contests.

Minnesota will meet Lawrence and the Gophers should not have to over-exert themselves, while Wisconsin has an open date in her schedule after the grilling contest with Chicago last Saturday.

Everything points to a record breaking crowd at Minneapolis next Saturday. The Duluth delegation promises to be a large one, as the railroads have made a very cheap rate for the occasion, and it is expected that several hundred enthusiasts will take advantage of the opportunity for a trip to Minneapolis with the chance of witnessing the big contest of the year.

"Score on Wisconsin" is now the slogan of the Minnesota rooters. Chicago failed to cross the Badgers' line, and the Maroons barely snatched a lucky victory by Schemm's wonderful kicking. Stagg's men were outplayed by the Badgers at almost every point, and Wisconsin gained nearly two yards for one, but lost her advantage through fumbling and Eckersall's punting.

If Minnesota can win from the Badgers through straight football, it will prove her claim to superiority over Wisconsin.

The Badgers are somewhat disheartened by their defeat at the hands of Chicago by such a fluke, but they are nevertheless determined to put up a hard game against Minnesota, and Dr. William's men will have to work for every foot of ground.

The only game of any interest tomorrow, is the Northwestern-Chicago game at Ravinia park. This annual contest is never lacking in interest, and this year it will be more exciting than usual, as Northwestern is stronger than for several years past.

Stagg's men are just recovering from last Saturday's scare at Madison, and they should have no difficulty in winning out against the purple supporters.

### GORDON FURS

DRIVING COATS

It must be a coat that slips on easily.

Wind and weather proof.

But above all soft, pliable and comfortable.

Calfskin makes a splendid coat for style, wear and comfort.

Gordon & Ferguson make a Calfskin Driving coat for \$35.

Any other style of Driving coat at prices that are adjusted according to the quality of skins selected.

Gordon furs are the best furs obtainable.

Gordon prices are always the lowest quoted for equal values.

neck back from January until its passengers have all fallen off in the ides of March.

The salve that heals without a scar is DeWitt's Witch Hazel Salve. No remedy so quick and so sure. It draws out inflammation, soothes, cools and heals all cuts, burns and bruises. Sold by all druggists.

### BAGOTS SEPARATE OVER RELIGION

Husband Angry Because Child Was Baptized As a Catholic.

London, Oct. 27.—Lady Bagot, who was Miss Lily May of Baltimore, is the subject of general sympathy as well as of admiration in London society just now. Almost ever since the birth of her child, she has been living all alone with her child, and she has been so since Lord Bagot's death.

He has been suiting in his baronial castle, living all alone with his child, and she has been so since Lord Bagot's death.

Meantime Lady Bagot has been staying at Brighton with her mother, Mrs. May, until recently, when she came to live in Bryanston street, Hyde Park. Previous to her marriage, which took place in the Dorchester hotel on July 25, 1883, she was a member of the family of the Earl of Devonshire.

Barons was born on New Year's day, 1895, and since that time her father has been living all alone with his child, and she has been so since Lord Bagot's death. For brief intervals only. Later on, when the child was baptised by Father Vaughan, Lord Bagot was not present, but his cousin, Mrs. Richard Bagot, an ardent Catholic, was, as well as Lord Bagot's sister, Mrs. Bernard Shaw, who was one of the sponsors.

Lord Bagot lives a secluded life at Bithfield, his Staffordshire house, overlooking about gloriously, refusing to see any members of his family and entirely silent in regard to his beautiful wife.

Another sister of Lord Bagot, the Hon. Mrs. Murray-Smythe, just taken sides with her sister-in-law, and has insisted that she stay in the castle, near Perth. Lady Bagot departed Thursday, accompanied by Miss Rebecca Polk, sister of the Baroness Chatterton.

Henry May of Washington and his family are now in Paris, but are coming to join Lady Bagot at the end of November after her return from Perth.

Lady Bagot displays the greatest patience, considering how she has been treated, but her position is, of course, made easier by the way Lord Bagot's nearest relatives have rallied to her side, demonstrating their entire sympathy with her. Apparently it is a case where nothing can be done, as Lord Bagot refuses to see her or pay any heed to the entreaties of his own family.

New York, Oct. 27.—Temperance revivals come and go. Carrie Nation is but a memory, but booze is always with us.

The cohorts of conviviality have succeeded the famous McFadden shape shaver at Madison Square Garden, and there King Alcohol reigns in all his glory.

Under the auspices of the National Liquor League and the American Bottlers Protective association, the wine and spirits show is held.

Say, you should see the crowd surge up for samples and souvenirs. Ranged around on every side are booths devoted to the exploitation of all the well-advertised brands, from the "first over the hills" to the "whisky without a headache."

There is beer, St. Louis beer, too, and there are demonstrations of automatic cider venting machines and all sorts of soft stuff.

Quiver thing it is that the proprietors, promoters and demonstrators of all the many and varied brands drink little of their own product, but instead assuage their thirst with the soft stuff.

All the machinery that pertains to malted and spirituous liquor from the making to the serving, are exhibited here. Carboys, bottling machines, beer mums and the like. Even the mineral springs men count themselves in.

An object lesson on making whisky at home is shown by the Moonshine outfit. Here, with a still of crude construction and a backwoodsman with whiskies, is shown the war medicine that is cooked in the solitude of the everlasting Ozark. Also in temperate cellars on the East side of New York, sometimes.

In fact, those who know, claim that more ardent spirits are secretively and illegally manufactured in the slums of New York in a day than is made in the mountains in a year.

Nowhere in sight is there the water wagon, that popular vehicle of transportation that is loaded like a rubber-

## NO TROUBLE TO GET WIFE

Carlton County Bachelor Hears From Many Willing Maidens.

One Girl Says She Always Did Like Farmer Boys.

Gentle maidens with dreamy eyes, ambitious maidens with black eyes, and buxom maidens with brown or blue eyes, have all read The Herald's account of a young Carlton county farmer who has become so handsome that he must either have a wife or leave his farm.

From all over the country letters have been pouring in to the young farmer from young women, and even from middle-aged women, who are either willing to share his lot without further question, or who would like to carry on a correspondence a little further to see if their heart throbs are in sympathy with his.

Whether the young man has yet made his selection, or whether he is still corresponding with a view of getting a helpmeet who exactly meets his tastes, is not divulged, but the land from which this letter came is an epitome of a young woman from a near-by state, which is as follows, with the same omitted:

"Dear sir, in looking over The Duluth Herald I see a young farmer advertised, well not just that either—he wants a good wife or not but I always liked farmer boys. I'm raised on a farm myself. I guess that's the reason. If you would be kind enough to forward this letter to his address I will get along and tell all about myself and see how I would suit him.

"I am a girl 19 years old. Height 5 ft 7 inch. Weight 125 lb. Got between blue and green eyes. Brown hair, all-most black, red cheeks.

"For pity sake don't let him sell his farm here I see him or hear from him. I am ready to meet him half way any time if he's got a man for me, of course.

"I will close for this time. Will write more when I get an answer. I hope to hear from you real soon as I don't believe in slow correspondence. For the present I remain Yours Truly, hoping we will meet and get to know each other, and wishes better Good Bye."

## COMING TO HUNT BEARS IN CITY

Southern Minnesotans to Be in Duluth Next Week.

Farmers in the southwestern part of the state have become interested in the reports they have heard of the agricultural possibilities of these northern counties.

One man, whose name and exact address are withheld, of the Duluth and Iron Range road for fear rival agencies will flood him with solicitations to visit the localities, has written to the commissioner stating that he and some of his neighbors, besides his own absolute guarantee. If you are looking for the old Scotch pattern, we have it at \$15. All sizes from 35 to 42.

By photographs the babies.

## CASE HAS AN ABRUPT END

Parties to Accounting Suit Agree on Judgment For Defendant.

The accounting case of Peter J. Bergstrom against Max S. Shore came to an unexpected and abrupt end this morning, when after the evidence had been put in and before the arguments were heard, both parties agreed to a judgment in favor of Mr. Shore.

This action was taken directly following an examination of the books of account, the figures bearing out Mr. Shore's claim that he had made no money from the sale of the stock of goods turned over to him as the beneficiary of Mr. Bergstrom. Mr. Shore showed that he had paid out of the sale over \$2,000 to satisfy the claims of creditors, but had not himself secured enough from the sale to pay his own claim.

## THE DECIDING GAME.

Duluth Athletics Will Play Off The Tie With Cloquet Team.

The third and deciding game between the Duluth Athletics and Cloquet will be played on Sunday at Cloquet. Each team has won one game, and Sunday's contest will decide the series. The Athletics will line up as follows: Left end, MacDowell; center, Jackman; right guard, Foster; center, Aronson; right guard, Buska; right tackle, Ogilvie; right end, Downing; left tackle, Heaton; left half, Dash; full back, Coleman.

## APPLICATION MADE FOR EXTRADITION OF ECKLUND

London, Oct. 27.—Acting on telegraphic instructions from the state department, the American embassy applied at the street police court today for a warrant for the extradition of

D. H. H., Oct. 27, 1905.

# COLUMBIA SUITS

The art of making ready-to-wear clothes grows better from season to season, and the makers of Columbia clothes are in the van of the procession. We like to have men of all sorts and conditions come to the store just to look at the patterns from which they can make a selection in our great suit department.

There are good suits in other stores, but your advantage in buying here is manifold.

1. Our stock is by far the largest in Duluth and you have so many more styles and patterns to choose from.
2. Our clothes-buyer is known among the trade as one of the most expert, careful and experienced men in his line. You won't have to suffer here for mistakes such as ordinary buyers are known to make.
3. Our clothing salesmen are experienced and conscientious men—not the rattle-dazzle kind often found in clothing stores. Under Columbia rules they must fit you right or not at all.
4. Our tailor, Mr. Holmsted, is a man who worked at the trade for very many years. He does not shirk his duty when making the little changes that may be necessary for a perfect fit.

And so we might go on with sincere statements regarding points that are simple enough, but of great importance, as every patron of a clothing store knows. Some dealers and some makers of clothes think fast and furious advertising is all that's necessary to sell suits. We back up nice words with other niceties.

Just to give you an idea, let us tell you tonight of

## COLUMBIA SUITS At \$10, \$12.50 and \$15

to be found on our loaded-down suit tables.

**LOT 1**—A heavy-weight double-breasted serge suit; good quality serge lining with hair-cloth fronts; latest wide lapel. Commonly sold at common stores for \$12.50. **Our price, \$10.** This suit is absolutely guaranteed to be fast colored. All sizes from 33 to 44.

**LOT 2**—A heavy-weight black cloth worsted suit; full 16 ounces to the yard, lined with good serge lining; loose padded shoulders; guaranteed absolutely fast color. Sold at other places as high as \$15. **Our price, \$10.** All sizes from 35 to 44.

**LOT 3**—An extra heavy-weight fancy Scotch cheviot; black ground with an olive mixture; all woolen and lined with an extra quality of serge. Loose padded shoulders. Bears the K. N. & F. "Sincerity" label. A good bargain at \$12.50. **Our price, \$10.** All sizes from 35 to 42.

**LOT 4**—An extra heavy double and twist single-breasted cheviot suit, with extra quality corkscrew serge lining; loose padded shoulders; bears the K. N. & F. "Sincerity" label. A good bargain at \$12.50. **Our price, \$10.** All sizes from 35 to 42.

**LOT 5**—An Extra Bargain at \$12.50. Double-breasted, strictly Scotch woolen fabric worsted suit; the very latest model with large lapels and full military back, lined with an extra quality serge lining. A suit that would sell on sight at \$15. **Our price, \$10.** All sizes from 35 to 42.

**LOT 6**—A \$15.00 model serge suit, made on the double-breasted military pattern, with an extra quality serge lining, bears the "Sincerity" label and made in every way as the higher grade suits. The only difference is the price, \$15. All sizes from 35 to 42.

**LOT 7**—The good old pepper and salt, double and twist Scotch goods made over our Seville model, with long front and military back, hand made throughout and lined with the very best serge. This suit of the "Sincerity" brand and besides has our own absolute guarantee. If you are looking for the old Scotch pattern, we have it at \$15. All sizes from 35 to 42.

**LOT 8**—Another all woolen fancy worsted suit of invisible plaid design, with a hard smooth surface which is proof against dust and dirt; made over the same model and in the same good way as Lot 7. Sold in most places at \$18; **Our price \$15.**

**LOT 9**—"Sincerity" suit in black unfinished day worsted, splendid material, soft with diagonal surface. Made over the new double-breasted model with peaked lapels, military back and long vent. Lined with Venetian lining. This suit is of extra heavy weight, guaranteed fast black and ought to sell at \$20. **Our price \$15.**

**LOT 10**—A fancy Scotch cheviot double-breasted, made over the same model as Lot 9, but cloth designed more for business wear. Both these suits are of the "Sincerity" make and bear our own absolute guarantee. **Our price \$15.** All sizes from 35 to 42.

## COLUMBIA SUITS FOR CHILDREN

The best-selected and greatest stock in the city is here on our second floor. The foremost specialists in the Children's Clothing business are represented in this store, and with stocks of a size cities like Minneapolis could be proud of. Mothers should bear in mind that The Columbia sells the best for less than you have been in the habit of paying in Duluth.

## COLUMBIA CLOTHING CO

## SPANISH SHIP ASHORE; NINE OF CREW DROWNED

Island of Heliogoland, Prussia, Oct. 27.—The Spanish steamer Zuria from Rosario for Hamburg, went ashore off the south rocks during a gale today and shortly afterwards went to pieces. Nine of her crew were drowned and seventeen were saved. The survivors were rescued by the government steamer Triton.

## STATE OF MINNESOTA, COUNTY OF ST. LOUIS.

In Probate Court, Special Term, October 26th, 1905.

In the Matter of the Estate of Samuel Buck, Deceased.

On reading and filing the petition of George W. Buck setting forth the amount of personal estate that has come into his hands, the disposition thereof, and how the same is hereby allowed from and after the date of this order, in which all persons having claims against said estate are required to file the same for examination and allowance, or forever barred.

It is Therefore Ordered, That all persons interested in said estate, appear before this court on Monday, the 30th day of November, 1905, at 10 o'clock a. m., at the Court House in the City of Duluth, in said County, then and there to show cause (if any there be) why the same should not be granted to said George W. Buck, Executor aforesaid, to sell all of the real estate of said deceased at private sale.

And It Is Further Ordered, That notice

Order shall be published once in each week for three successive weeks prior to said day of hearing, in The Duluth Evening Herald, a daily newspaper printed and published at Duluth, in said County.

Dated at Duluth, Minnesota, this 26th day of October, A. D. 1905.

By the Court, J. B. MIDDLECOFF, Judge of Probate.

RICHARDSON & DAY, Attorneys, (Seal Probate Court, St. Louis Co., Minn.) Duluth Evening Herald, Oct. 27, Nov. 3-10.

ORDER TO EXAMINE ACCOUNTS, ETC.—

State of Minnesota, County of St. Louis.

In Probate Court, Special Term, October 26th, 1905.

In the Matter of the Estate of Nicholas G. Hayes, Deceased.

On reading and filing the petition of Carlos C. Tracey, administrator of the estate of Nicholas G. Hayes, deceased, representing, among other things, that he has fully administered said estate, and praying that a time and place be fixed for examining, settling and allowing the final account of his administration, and for the assignment of the residue of said estate to the parties entitled thereto by law.

It is Ordered, That said account be examined, and petition heard by this court, on Monday, the 30th day of November, A. D. 1905, at 10 o'clock a. m., at the Probate Office, in the Court House, in the City of Duluth, in said County.

And It Is Further Ordered, That notice thereof be given to all persons interested in said estate, by publishing a copy of this order once in each week for three successive weeks prior to said day of hearing, in The Duluth Evening Herald, a daily newspaper printed and published at Duluth, in said County.

Dated at Duluth, Minn., the 26th day of October, 1905.

By the Court, J. B. MIDDLECOFF, Judge of Probate.

## MARRIAGE IN COURT

Troubles of Two Young People Are Happily Terminated.

Bridegroom Given Freedom and a Wife in One Day.

Marriage happily terminated the troubles of Miss Nina Swanson and Ernest Fraumeni in the municipal court this morning.

The young man was arrested on a warrant sworn out by the girl, and locked up at police headquarters. Just minutes before the girl called and asked to see him. In the consultation which ensued, an agreement was reached, and the girl announced to the officers that the young man and asked her to marry him, and that she had consented.

The young woman, who does not appear to be more than 15 or 20 years of age, appeared before Judge Cutting this morning, looking radiantly happy, and attired in a new gown for the occasion.

The young man was unshaven and hardly looked like a bridegroom after his confinement, but he seemed to be elated at the happy termination of his troubles.

The license had been secured, and the judge promptly performed the ceremony that made the two young people man and wife.

The case against the young man will be dismissed, and he left the courtroom with his wife to start housekeeping.

He is employed in the Omaha flour sheds. His wife has been in this country but a little over a year and is said to be desirous to quite a snug fortune from relatives in Sweden. The wedding has been in contemplation for some time, but it had been postponed by mutual consent until the money should be received to aid in starting the young people at housekeeping.

## QUEER LIQUOR LAWS.

Vermont's Liquor Law Has All Sorts of Queer Turns.

"Here's to the people of the state of New York, by the grace of God free and independent," exclaimed a tall, stout man whose turned face told of a long victory, as he leaned against the bar of a cafe near the county court-house and raised fondly at his third Scotch highball, says the New York Sun.

"Is that a new toast, judge?" inquired the bartender, his thirsty customer being a lawyer.

"The words are ancient," responded the lawyer, "you will find them printed at the head of citations issued out of the surrogate's office, and they have never fully appreciated them before, and that's my toast from now on."

The judge took a long pull at his highball and said:

"I have just returned from a vacation in Vermont. It is a fine country, the Green Mountains are all the way around, and by summer resort hotel keepers say they are, but the ex-

laws in that state are worse brain

lingers than a half dozen drinks of

Bowery whiskey. They will make a

sober man drunk."

"How's that, judge?" asked the bar-

keeper.

"Fine," retorted the lawyer with a

happy smile as he finished the high-

ball.

"I meant those brain-twisting ex-

cesses, pronounced the drink makes you

laid."

"Let me tell you about my experi-

ence in Burlington, Vt., remarked the

lawyer.

"You know they have local option in

Vermont. Well, I had been in that

state for some time, and I had

pride myself on my four years. I was

drinking the air of Vermont makes you

thirsty for something better than

water, and I heard that the Scotch

was open in Burlington. So I took a

run up there from the good old Scotch

on town of Middlebury. My experience

at Burlington with the Scotch law near-

ly drove me to the burghouse. They

have so many different kinds of a

doing a job, skip and jump to keep in

boots."

"I got to Burlington in time for dinner

at a leading hotel, and was de-

lighted to see that the guests were drink-

ing liquors with their dinner. I im-

mediately called for a drink, and

was told that it was not in the

room. After taking a little rest, I

went to the bar in the hotel, and

waited for the bellboy, getting up

## BITTERNESS INTENSIFIED

Rival Interstate Law Conventions Farther Apart Than Ever.

The Prospects of a Consolidation Have Vanished Entirely.

Chicago, Oct. 27.—The rival interstate commerce law conventions resumed sessions in Steinway hall and Studebaker hall today without much if any indication of a conciliatory spirit. On the contrary, the individual discussion of the matters which had divided the delegates and which brought about the split yesterday, appeared only to intensify the bitterness and prospects of consolidation of the conventions seemed to have vanished.

When the Steinway hall convention, the so-called "regular" body of delegates, assembled today, former lieutenant Governor Campbell of Iowa took occasion to deny a report intimating that he was a Socialist. He incidentally criticized Mayor Dunne's municipal ownership ideas.

"I have no sympathy with Socialism," said the speaker, "if the kind of movement we are advocating is Socialism, we are all Socialists. I told Mayor Dunne on this platform that I thought his plans of municipal ownership were Socialistic."

The next speaker, Murdo MacKenzie, of Trinidad, Colo., president of the American Stock Growers' association, predicted that congress at its next session would adopt radical railroad rate legislation which will surprise the most ardent supporters of President Roosevelt's policy.

At the Studebaker hall convention, where the so-called "anti-delegates" gathered, Chairman McLeod announced that the report of the resolutions committee was not prepared and would not be presented until later in the day.

Several resolutions were then presented by delegates. F. A. Hobbs of Benton Harbor, Mich., offered a resolution that the "railroad corporations should be kept within their defined rights and steps should be taken to protest against the keeping of members of congress or the railroads corporations; and that such legislative action should be taken, as would tend to remedy existing evils."

Delegate Freeman of Pontiac, Ill., an appointee of Governor Deneen, offered a resolution to increase the number of members of the interstate commission from five to seven members. A resolution on the rights of "free speech" was introduced by Delegate Mead of Pennsylvania.

After the resolution had been referred to the committee, it was decided to ask the resolutions committee to prepare a statement for the public in order that the impression which had gone abroad that the delegates in this meeting were in the service of the railroads, might be counteracted.

A speech received with enthusiasm was made by Delegate Lane of Alabama, who said:

"In six months the traffic managers of the different railroads of the country could agree on a blanket law of rates which would be fair to all. This is the day of the demagogue and the Socialist and we must consider things carefully before those forces run riot with us."

E. M. Parry of Indianapolis made an address favoring the formation of a permanent organization.

"We want our work to continue," he said, "until this dispute is finally settled if it can be."

Delegate Loomis of San Francisco, said: "If we are to go on record as a convention I think we ought to have a distinctive name."

Mr. Parry then repeated his argument for a permanent organization. "The interstate commerce law commission committee has a report. I do not wish to fall here to," said Mr. Parry. "I am in favor of a permanent organization and I move that the sense of this convention be that a permanent organization be effected and that its name be the interstate commerce regulation committee."

Mr. Parry then suggested that no immediate action be taken until the committee on resolutions had reported.

Delegate Daniel Davenport caught the fancy of the assembly in a speech attacking E. P. Bacon of Milwaukee, a leader of the rival convention. After continuing almost an hour, he was lighted of the delegates. Mr. Davenport ended by concurring in the resolution offered by Mr. Parry. Chairman McLeod announced that there was no prospect of an immediate report from the resolutions committee.

A recess was then taken.

At the Steinway convention, Joseph H. Hall of California presented the report of the so-called "regular" committee on resolutions, as follows:

"Resolved, first, we, the delegates assembled in convention at Chicago, under a call issued to those commercial, producing and manufacturing organizations that sustain the president of the United States in his publicly expressed view as to interstate commerce law amendment, congratulate the country that Theodore Roosevelt, as president of the United States, has shown his wisdom and patriotism in recommending to congress constitutional, effective and just measures for the regulation of interstate commerce; that shall provide for the people a national tribunal, with power to substitute reasonable and just rate of classification for one proven to be unreasonable and unjust, and yet, that shall preserve to the railroads just and reasonable control over their properties and revenues. We also commend the house of representatives for having shown a spirit of earnest co-operation with the president in his efforts thus to remedy existing transportation evils."

"Second, we specifically agree with the president that the only constitutional and effective method for the supervision of rates, classifications and practice is by amending the interstate commerce act so to provide that:

"The interstate commerce commission should be vested with the power where a given railroad has been challenged, and after full hearing, found to be unreasonable, to decide, subject to judicial review, what shall be the reasonable rate to take its place; the ruling of the commission to take effect immediately unless it is reversed by the court of review."

"Third, the amendment of the interstate commerce should be sufficiently broad to cover all interstate transportation service, including all charges, regulations and exactions, in connection therewith, whether provided by railroads themselves, or through arrangements with others."

Signed by Joseph H. Hall, chairman; George M. Mueller, E. P. Bacon, Hugh A. Holmes, secretary; R. W. Higbee, John D. Kern, William Larabee, S. H. Cowan.

Chairman McLeod moved the adoption of the report of the committee on credentials.

Former Governor Van Sant of Minnesota, seconded the motion for the adoption of the report of the committee on resolutions and said:

"The dearest things we possess in life are those which we fight for the hardest. A railroad passenger agent told me that the transportation companies intended to organize the business men in every voting precinct in the country to fight against this rate legislation and oppose the election of every candidate who will not agree in advance to vote against President Roosevelt's policy. I said we would accept the challenge and buckle on our armor. The fight is on and we must fight hard to win. Victory will be ours."

After a spirited discussion, in which several amendments to the report of the committee on resolutions were offered, the committee report was adopted by a unanimous vote.

Chairman Hughes appointed the following executive committee to secure for the ensuing year: E. E. Bacon, Wisconsin; C. H. Seyforth, Missouri; S. H. Cowan, Texas; J. Howard, Kansas; William Larabee, Iowa; R. W. Higbee, New York; Murdo MacKenzie, Colorado; S. W. Gardner, Mississippi; R. S. Lyons, Illinois; J. W. Kern, Indiana; J. M. Mason, West Virginia; Joseph H. Hall, California; J. W. Kern, Indiana; L. C. Slade, Michigan; E. J. Hillman, Georgia; W. Hughes, Colorado.

The executive committee was directed to appoint one vice chairman of the league in each state, who will have charge of the work of organization in the state. The finance committee submitted a report recommending that a fund of \$10,000 be raised to send a delegation to Washington during the next session of congress to work for the passage of the desired legislation, and \$7,000 of the fund was raised by contributions made by the delegates.

Chairman Hughes was directed to appoint a committee of five to go to Washington and deliver to President Roosevelt a copy of the report of the committee on resolutions. After an invitation had been received by the next meeting at Houston, Texas, the so-called convention of "regulars" adjourned sine die.

**LIGHTNING'S TRICKS.**

Strip in Indiana Immune, But Kansas Farm Often Hit.

Lightning has been playing strange pranks in the mid-west lately. Within three months the tanks of the Louisiana Purchase Oil company at Cleveland, Okla., have been struck by lightning 30 times and the loss of 5,000 barrels of oil has been suffered, says a Cherokee, Kan., correspondent of the Kansas City Journal.

Other tanks have been struck in the field during that time. In fact, all the lightning which comes around Cleveland seems to center on that particular 30 acres. All the drillers and tool dressers in the neighborhood dread the lightning.

Each time the destruction came without warning. In addition to the oil, four drilling rigs have been consumed and four derricks. It has got all the people around Cleveland thinking that the particular lease is blood-curd and the company is finding it a hard job to get men to go to the property to work.

"You can talk to me," said Tom White, who just been around the oil fields in the world from Bargon to Santa Maria, "about this lightning business, but the place is bewitched. I knew a case of that kind down in Louisiana, just east of Beaumont."

"There used to be some kind of church on the road to the oil fields from Jennings. It was located on Bayou Nourigue and had all kinds of lightning rods on the steeple and down the sides."

"But the lightning came down off just the same, and when the congregation put it back the lightning came along again and took the whole building. Then the oil fields in that neighborhood got superstitious and they let the church building go to ruins."

"There was another case at Beaumont where lightning struck twice in the same place. The big fire of 1902 and the big fire of 1904 broke out in the same place and both were caused by lightning striking the tanks."

"All the other tanks in the field except those of Bree escaped. It just looked like something was after Bree and burned up his money as fast as he made it. Then there was the case at Sour Lake. Both there the tanks there originated in the same place and they cost millions of barrels of oil and hundreds of thousands of dollars."

"This lightning business is a queer thing. It seems to have certain spots where it lights and does all the have and certain people it is determined to burn out."

"And then people are let alone all the time and their stuff is as safe as if it had been converted into government bonds. It may be all right, but there is something queer about it to the average workman."

Kruger, an electrical engineer, then got in with his story.

"My brother was killed by electricity," Kruger said. "He was killed all at once. When the man came along to embalm the corpse he could not find a drop of blood in the body. All the blood had been turned to salt water. It was just as if a man had opened a valve and let out every drop of blood and substituted a saline solution."

"I have been trying to get the doctors to tell me about it, but all they can say is that it happened and that they are at a loss to know how it happened. Instead of the body of the victim being buried or disfigured, his face was as white as snow and when we went to dress the body it was white all over."

"There was not a mark on the body nor any sign that the man had ever had blood in his veins."

Then Bill Myers took a hand.

"There was a man down in Texas," he said. "He lived at Midland, I think. Well,

the store that saves you money."

## POTATOES TAKE JUMP

Price Raised Twenty Cents a Bushel in One Week.

Cabbage Also Higher—Fresh Fruit Is Becoming Scarce.

From staid, respectable, everyday, vegetables, potatoes and cabbage have suddenly joined the class of cranberries, lemons, and oranges as speculative commodities, and they have been keeping the commission men awake at night in an effort to follow the vagaries of the market.

In one week the price of potatoes has shot up from about 50 cents a bushel to between 70 and 75 cents, while cabbage has been cutting strange capers, nearly doubling in price in one week.

For weeks the dealers have been predicting a rise in the price of potatoes. They maintained that the price was too low, when the price of the crop was taken into consideration. A week ago the price was about 50 cents a bushel, and it was expected that it would rise to about 60 cents.

The cause of the sudden rise in price was the manner in which the western grown potatoes have been rotting. The Minnesota crop was badly damaged by the heavy rains this fall, and the farmers who were counting on large crops found their potatoes rotting on their hands at a rate that promised to cut the supply within a very short time. Already potatoes are being brought in from other states, and if the rotting continues the price of the potatoes will be raised.

The price of the potatoes is now set by the market, and the price of the potatoes is now set by the market. The price of the potatoes is now set by the market, and the price of the potatoes is now set by the market.

The price of the potatoes is now set by the market, and the price of the potatoes is now set by the market. The price of the potatoes is now set by the market, and the price of the potatoes is now set by the market.

## BOWERY IS VERY QUIET

Says Col. "Jim" Curtin, Who Was Once Texas Sheriff.

He Tells His New York Associates of Real Life.

New York, Oct. 27.—Col. "Jim" Curtin of the Bowery was at one time a Texas sheriff and fighter of bad men. His friends on the East side of New York were surprised when the early career of Curtin was known.

The story of Curtin in the early life came out this week. He was on a street car, going up the Bowery, when pickpockets selected him as a victim, and he was robbed of a watch and a gold watch.

To "Big" Curtin, the watch was a relic of his early life. He was a Texas sheriff, and he was a fighter of bad men. He was a Texas sheriff, and he was a fighter of bad men.

The watch I lost is one of the most valuable of my life. It was a Texas watch, and it was a Texas watch. It was a Texas watch, and it was a Texas watch.

The watch I lost is one of the most valuable of my life. It was a Texas watch, and it was a Texas watch. It was a Texas watch, and it was a Texas watch.

The watch I lost is one of the most valuable of my life. It was a Texas watch, and it was a Texas watch. It was a Texas watch, and it was a Texas watch.

## THE TRUTH ABOUT STOVES

By the Largest Makers of Stoves and Ranges in the World

Many people have been deceived in believing that stoves were cheap because of a low price, when experience proves them the most expensive.

A small price may be paid for a stove which looks attractive in the catalogue, which has been described as "perfect," but it is liable to prove a very expensive purchase; for ten chances to one, trouble will arise from this stove in a month's time—it may not heat or cook properly, or it may consume fuel like a locomotive.

You never get something for nothing in this world, and when you pay a small price for a stove, that price must cover the cost of material and labor, and include a reasonable profit, consequently inferior cast-iron and steel, and the cheapest and most inexperienced labor, must go into this seemingly low-priced stove.

Expert Stove Advice Free. We have opened an "Advice Department" in charge of an expert stoveman, simply to tell the people, absolutely free of cost, all about stoves. And this expert will honestly advise you just what stove or range will best suit your needs.

We also want those who have lost money on the seemingly inexpensive stoves to let us tell them how they can save money by buying a "Garland" stove. We want them to let us tell them about the advantages of "Garland" stoves and ranges, which always prove a good investment.

We make a "Garland" stove for every room, and have books accurately describing the different kinds. We could not afford to open this "Advice Department" or send out the valuable literature we do, free of charge, if "Garland" stoves and ranges were not distinctly superior to other makes; if the magnitude of our operations did not make it possible for us to sell them at reasonable prices, and if our reputation and methods of doing business did not insure absolute satisfaction.

If you are considering the purchase of a stove or range, cut out this coupon, check (this way) the kind of stove you are interested in, mail it to us today, and we will promptly receive our Expert Advice as to just which stove is best suited to your needs, and why, and our literature, free of charge.

## NEW YORK'S RAILWAYS

Are All to Be Put Underground, Says John B. McDonald.

Predicts a Revolution in the City's Transportation System.

New York, Oct. 27.—The quiet man who built New York's \$35,000,000 rapid transit subway, said yesterday that the city's transportation system is the most practical system of city transportation in the world. It has no equal anywhere. There can be no doubt about that.

In a few days the subway will be a year old, he said, and I can say honestly that it has come up to my highest expectations of efficiency. It is the finest and most practical system of city transportation in the world. It has no equal anywhere. There can be no doubt about that.

The former sheriff has varied interests in New York, including real estate and music publishing. He is owner of the London theater on the Bowery, and he occasionally dabbles in Tammany Hall politics. He is one of the highest ranking Masons of the state, a member of Nobles of Mecca Temple, of the Mystic Shrine, Craftsman's club, Knights Templar and order of the United Brotherhood of Carpenters and Joiners of America.

McDonald's estate is valued at \$1,000,000. He is a member of the United Brotherhood of Carpenters and Joiners of America, and he is a member of the United Brotherhood of Carpenters and Joiners of America.

McDonald's estate is valued at \$1,000,000. He is a member of the United Brotherhood of Carpenters and Joiners of America, and he is a member of the United Brotherhood of Carpenters and Joiners of America.

McDonald's estate is valued at \$1,000,000. He is a member of the United Brotherhood of Carpenters and Joiners of America, and he is a member of the United Brotherhood of Carpenters and Joiners of America.

### The Victor Talking Machines and Records

**French & Bassett**  
DULUTH, MINN.  
Corner First Street and Third Avenue West.

### The Edison Phonographs and Records

## The Opening of Our New Talking Machine Department

On Thursday morning we opened our new Talking Machine Department with a large stock of Victor Talking Machines and Records, and Edison Phonographs and Records. We have also placed large orders with both the Victor and Edison factories, which will soon be here and which will give you one of the largest and most complete stocks in the country to select from.

It is our purpose to make the Talking Machine Department a prominent one, and to conduct it on broad and useful lines, surrounding the business with all that is agreeable and accommodating in the way of service and convenience, and to arrange the most liberal and easy payments when desired.

The wonderful machines we present have passed away beyond the toy or the experimental stage and represent a serious scientific discovery, developed to a point of practical perfection. They are the most delightful and fashionable entertainers in the world today, and our method of selling places them easily within the reach of all.

**The Victor Prices** \$15 \$25 \$30 \$40 \$50  
**The Edison Prices** \$10 \$20 \$30 \$50 \$65  
All Instruments Sold on Easy Payments if desired

We have bought the stocks of Victor Talking Machines and Edison Phonographs from the Brunswick Co., of 111 West Superior Street, Duluth, and 1314 Tower Avenue, Superior, and have removed them to our store, where we shall be pleased to serve all customers and to extend every courtesy to the many friends and patrons of The Brunswick Co.

Sincerely Yours,  
FRENCH & BASSETT.

We have sold our stock of Talking Machines from both our Duluth and Superior stores, to Messrs. French & Bassett of Duluth, and are discontinuing that department of our business, owing to the rapid growth and popularity of our Automatic Amusement Arcades.

We thank the public of both cities for their liberal patronage in the talking machine line, and bespeak for Messrs. French & Bassett your continued patronage.

Yours very truly,  
THE BRUNSWICK CO.,  
T. Furniss, Proprietor.

## WILL FORM ENDOWMENT

Larger Building Will Not Mean Greater Deficit For Y. M. C. A.

Increased Revenue Will More Than Equal Increased Expenses.

In addition to providing a home for the Y. M. C. A. work in Duluth, the \$250,000 which is to be raised by subscription will be something in the nature of a partial endowment.

Before giving subscriptions to the fund, many business men have inquired whether the association would not be loading itself up with a greater burden than it could carry, in such an extensive building. At the present time the association has to raise about \$5,000 a year to maintain its work, and the general opinion was that with a new and larger building, this amount would have to be greatly increased.

On the contrary, however, the officers of the association are confident that the amount that will have to be raised for maintenance each year can be cut in two with the new building. This is due partly to the fact that the membership will, without doubt, be greatly increased as soon as the new building is opened, and also that the revenue that will be derived from the rooms which will be rented to association members. About fifty rooms are provided in the two upper stories of the building, and these will be leased at from \$10 to \$15 per month. This revenue, together with the greater number of membership fees, will more than take care of the increased expenses.

A careful calculation has been made, basing the figures on the most conservative estimates of receipts, and the expenses incurred on those of similar buildings in other cities. The officers

are confident that they can materially decrease the amount that has to be raised for maintenance each year, and perhaps make the work nearly, if not quite, self-supporting.

The campaign is progressing with increased momentum. The subscriptions received last night and this morning amounted to more than \$2,000, and the total has now passed the \$60,000 mark. The only large subscription received today was one for \$500.

The actual amount raised does not represent the work that has been done. A number of subscriptions are in prospect and are being considered by the men who have been approached, and the members of the committees are hard at work pushing the canvass.

**A GUARANTEED CURE FOR PILES.** Itching, bleeding, prolapsus, hemorrhoids, etc., cured in 6 to 14 days. 50c.

**NOT WITH THE STEEL TRUST**  
Vancouver Paper Publishes Interesting Story As to Robert Forbes.

An item that appears in the Daily Province of Vancouver, B. C., of Oct. 18, will be interesting to Duluth people.

"Representing Mr. D. W. Cole, president of the American Steel corporation, and associated capitalists, and with the object of securing options of promising but undeveloped iron mines in British Columbia, two agents of the American steel trust are in the city at present."

"One of them is Robert Forbes, a Duluth mining expert, who is also prominently identified with several leading Mexican silver mines. The other is Mr. H. J. Grannis, a Duluth attorney, who accompanies Mr. Forbes for the purpose of attending to the legal part of any transactions or contracts that may be made. Both are registered at the Metropole."

Mr. Forbes and Mr. Grannis have just returned from an inspection of some of the principal copper and iron mines on Vancouver Island, and intend leaving in a short time for the interior. They will visit the Boundary and Kootenay districts with a view to locating some properties which may be secured at nominal

terms, but which are as yet undeveloped.

"American capital, and particularly that represented in the American Steel corporation, is becoming interested in British Columbia, and I look for a number of important investments in mineral properties in this province in the near future," said Mr. Forbes. "Mr. Cole thinks that the time will yet come when British Columbia will supply a large share of the iron ore needed for the ever-increasing steel production."

"With regard to the properties or locations he would recommend to his principals for investment, Mr. Forbes declined to make any statement."

This will probably be the first intimation that any person has ever had that Robert Forbes claims to be connected with the "steel trust" of America.

There may be an American Steel corporation in existence, and it may have a Mr. D. W. Cole as its president—though no one prominent in the United States is known to be connected with it. It is known in the public mind as the "American steel trust" and that is the United States Steel corporation. With that corporation Mr. Forbes has no connection, and it is not known whether this city is the head of the mining branch of that corporation and has not now any relations with his company of any nature whatsoever.

The Vancouver paper has made the very natural mistake of believing that it is with the United States Steel corporation that Mr. Forbes claims to be connected. This is plainly shown by the heading over the item, which is as follows: "Buying from ore. American representatives of steel corporation in the city."

Grand Scotch Concert and Dance At Armory, HALLOW E'EN, OCTOBER 31st

CASTRO STILL CONSIDERING

What Action He Will Take In Trouble With France.

Paris, Oct. 27.—Official advices received here from Venezuela say that the American minister, Mr. Russell, and President Castro have conferred with the view to arranging a settlement of the diplomatic difficulty between France and Venezuela. However, this is a mistake.

Mr. Russell will continue the Mies affair, but the French charge d'affaires, both withdrawing their notes as a preliminary to adjusting the controversy regarding the French cable company. However such a basis finds favor in official quarters and the negotiations tend towards an adjustment along such lines, President Castro's silence alone deterring a determination.

**DAWES SUBPOENAED.** Chicago, Oct. 27.—A subpoena to appear as a witness in the Beef trust trial, Nov. 2, was served on Charles Dawes, former controller of the currency. Mr. Dawes refused to discuss the matter although he admits having been served with a subpoena.

**BIG SALE FOR FOOTBALL GAME.** Minneapolis, Oct. 27.—(Special to the Herald.)—The advance sale of seats for the Wisconsin-Minnesota game has run up to 8,000 within twenty-four hours. As this is in excess of any sale on record, it is expected that the record of the Minnesota-Michigan sale of 1903 will be broken. From the present out-

look, at least, 35,000 rooters will attend the game on Nov. 4.

**UNIVERSITY OF SOUL STUDY**  
Mrs. Joy Plans Million-Dollar School of the Occult.

St. Louis, Oct. 27.—If the plans of Mrs. Charles F. Joy, wife of the former St. Louis congressman, are carried out, a \$1,000,000 university, of which the object will be the study of occult and psychic phenomena, the human soul and all the arts and sciences of the new thought, not recognized by established schools, will be built overlooking the Pacific, near Santa Barbara, Cal. In addition to the university, Mrs. Joy proposes to establish a sociology colony, where the science of life and the laws, duties and responsibilities of parenthood will be studied.

A site overlooking the Pacific, near Santa Barbara, Cal., for the school and the sociology colony, Mrs. Joy has offered for the institution.

When the time arrives, Mrs. Joy says she does not fear the funds will not be forthcoming.

"The age of prejudice and bigotry is fast passing away," said Mrs. Joy. "I believe that under the progress possible by such a university the finest work when we shall be able to furnish scientific proof of the existence of the soul, proof of which is yet lacking."

**COW AIDS IN SUICIDE.** Des Moines, Iowa, Oct. 27.—With the assistance of a cow, Arthur Boyd, 22 years of age, committed suicide by hanging Wednesday. Boyd untied the cow, threw the rope over the fence, and then jumped over the fence, and the cow caused Mrs. Boyd to rush to the barn. Boyd was dead. His eyes were staring from his sockets. Boyd, who had been drinking, had been told by a neighbor that the cow would help him to hang.

The body was found by a neighbor, who called the police. The police found the cow standing over the body, and the cow was struggling madly for its release.

**Wrong Impression.** Somehow the rumor has gained currency that Mr. Mies would open ladies' tailoring in connection with the Mies tailoring. However, this is a mistake.

Mr. Mies will continue the Mies tailoring at 110-112-114 Third Avenue West, in the Wolvin Building, with the same personal supervision of Mr. F. Gerson and his able assistants.

WM. MIES, Tailor for Men, 110-112-114 Third Ave. West, Wolvin Bldg.

**ST. PAUL ROOSEVELT CLUB IS TO GIVE BANQUET**

St. Paul, Oct. 27.—(Special to the Herald.)—Today is President Roosevelt's birthday and in honor of the event the "Original Roosevelt club" of St. Paul will give a banquet at the Ryan hotel tonight, at which over 400 guests are expected.

Governor Cummings of Iowa, President A. B. Steikey of the Great Western and Congressman J. Adam Bede will be the chief speakers. Justice Jagard of the Minnesota supreme court will be toastmaster.

House-hunting is made as easy as shopping through the help of our to-

## REDSKINS' CURSE.

**Queer History of a House Built on Indian Graveyard**

Thirteen tragic deaths among members of the same family, all of which occurred in the last ten years—this is the horrible record of crime as revealed by the investigation of the house built on a two-acre tract of land near the Indian cemetery in the city of St. Paul.

The house was built on a tract of land near the Indian cemetery in the city of St. Paul. The house was built on a tract of land near the Indian cemetery in the city of St. Paul.

quarter. Her youngest son, Loran, had 22 years old, was playing in the front yard, when he saw smoke issuing from his mother's bedroom. Rushing to the door, he forced open the door and there an awful sight met his gaze. Stretched out on the bed was his mother, blood streaming from a fearful wound in her neck, while about her head and neck were coiled the snakes of the Indian. During the time that the snakes were eating their way into her flesh.

When the snakes had eaten their way into her flesh, the scene the Indian rushed to the bed, and, grasping the body of his mother, who was now unconscious, carried her down the stairs and out into the open air, where he extinguished the flames by rolling her in the grass. In the meantime men from the fields seeing the flames ran to the house and saved it from ruin.

Mrs. Cripe was in a dangerous condition when she was carried down the stairs. She died a few days later. The second husband of Mrs. Cripe was a man who was killed by the Indians. The third husband of Mrs. Cripe was a man who was killed by the Indians.

## GASSER CASE IS POSTPONED

Hearing Will Be Resumed Sometime In November.

Because J. B. Arnold, attorney for the M. M. Gasser company, has made arrangements for an extended business trip into Canada with some Eastern parties, Judge Cant, yesterday afternoon, granted a motion for a continuance of the indictment case against the Retail Grocers' association until the November term of district court. The case is to come on again for a hearing sometime during the latter part of November.

The motion for a continuance was fought vigorously by H. B. Fryberger, attorney for the grocers' association but Mr. Arnold maintained that to resume the case now would seriously inconvenience him, and the court was moved to grant his request.

Secretary Burt Holcomb of the gro-

cers' association says the postponement of the hearing is a great disappointment to the grocers for the reason that they feel they will be vindicated and that for the best interests of all the members the investigation should be pushed to a speedy close.

## ETHEL BARRYMORE

Arrested For Speeding An Auto Not Bearing a Tag.

St. Paul, Oct. 27.—Ethel Barrymore, who is starting in "Sunday" in the Twin Cities this week, felt the cruel hand of law yesterday as she was speeding an auto between the two cities. Together with her manager she was speeding down Third street to attend a rehearsal at the Metropolitan theater at Minneapolis. A policeman noticed that the machine did not have a tag, and he waved his billy in the face of Miss Ethel until the "chuffer" stopped. Mr. McKiver, her manager, protested, but to no avail. They were all taken to the station, where Miss Barrymore, in tears from vexation, consented to let her manager put up \$25 for her appearance in police court today.

## A Famous Medicine

A remedy is known by its cures. The more numerous the cures the better it is known. The marvelous efficacy of Beecham's Pills has given them an international reputation and world-wide fame. The sale of over 6,000,000 boxes annually attests the confidence of the public in their merit. And it is merit alone that has made them famous over five continents. Nearly sixty years ago they were first offered to the people of England. Today they are sold wherever mankind exists.

**BEECHAM'S PILLS**

are the world's best remedy for Indigestion, Biliousness, Constipation and Kidney troubles. If your digestion is slow, if you have heartburn, belching or distress after eating; if your tongue is coated, the breath foul or a dizzy feeling in the head; if your skin is yellow, or the eyes dull, your stomach and liver are out of order and you need Beecham's Pills. A short course of Beecham's Pills will remedy all these symptoms and prevent serious illness. Buy a box today and get well.

Sold Everywhere in Boxes. 10c. and 25c.

## For Stomach and Liver

## PETITIONERS SEEM TO HAVE "COOL FEET"

Superiorites Fail to Back Up Signatures With Arguments.

Grain Interests Have Better of the Taxation Fight.

Although several hundred petitioners started the agitation for an increase in the valuations of the mills and elevators at Superior, the latter interests appear to have much the better of it in the arguments which have been heard by the Superior board of review during the past two days.

When a petition asking the board to increase the elevator taxes was handed around, the residents of Superior glibly signed it, but when called upon by the attorneys to explain their reasons for demanding an increase, they hang their heads and refuse to testify.

Only a few witnesses have appeared before the board for the petitioners so far. On the other hand the milling interests have repeatedly thrown unswerving javelins into the arguments of those who would see a boost in taxes.

A number of witnesses testified as to the probable value of the mills and elevators, but none of them seemed to know much about the subject, confessing that they secured their information from newspapers and street corner gossip.

The elevator superintendents testified as to the value of their places and Attorney John A. Murphy hurled some verbal hot shot into the ranks of the opposition during the afternoon session yesterday.

If the board of review decides to in-

crease the taxes of the mills and elevators, these will ask that the taxes of almost every merchant along Tower street, be materially raised.

As a matter of fact, the elevators are assessed about 20 per cent of the amount of insurance they carry and the attorneys will seek to show that some of the Tower avenue retail establishments are assessed 10 or 15 per cent of the amount of insurance they carry.

The assessed valuation on one elevator in Superior is \$10,000 and the amount of insurance carried on the is something like \$20,000. It is said that a certain Tower avenue merchant's bill is \$10,000, while the merchant carries \$7,500 insurance.

"Now that we have been unjustly hauled over the coals," said Attorney Murphy, for the grain interests, "at the hearing yesterday afternoon, we ask the board to summon this list of Superior business men, and tell the true value of their merchandise, stocks and other properties."

"We want to be fair. Our business has been probed from top to bottom and I believe that everything has been satisfactorily explained. We have reason to believe that a number of merchants and others are carrying thousands of dollars' worth of stock that is not assessed. We will furnish the witnesses and pay their fees."

The board is considering this proposition and probably will decide before night whether the valuations are to be raised or not.

City Attorney Lyman made an attempt to throw another light upon the valuations of the elevator interests. He declared the A elevator to be worth in Northern elevators at \$10,000 and the Zenth Furnace company immediately made arrangements to keep the pressure in its favor.

The damage is estimated at about \$2,000. A part of the top of the holder was burned to death during the fire. The gas was removed by the explosion, the holders dropped into the water pit at the bottom.

Hans Nicholson, a laborer employed by the Northwestern Steam Boiler works, had a narrow escape from being burned to death during the fire. He was working on top of the holder when the explosion came. Feeling the series of rapid shocks in the tank, he leaped for a rope by which he had climbed up to his position, and slid to the ground just in time to escape the sheet of flame that shot up many feet into the air. His clothing and hair were burned and his face blistered with the heat.

## GROUNDING OF CURRENT

Said to Have Caused Explosion In the Gas Tank.

Hans Nicholson Had Narrow Escape From Being Cremated.

The short circuiting of a powerful current of electricity is believed to have been the cause of the explosion of 175,000 feet of illuminating gas in the large supply tank on Garfield avenue, yesterday afternoon.

Leaks in either the light or power

wires were reported about two hours before the explosion, and it is believed that the electricity followed the supply main into the holder, as there were no other means of fire entering the tank.

The tank was built several years ago before the city purchased the plant, and since the Zenth Furnace company has its contract with the city. It was used as a reservoir for the storage of the surplus supply, and the equalization of the pressure. When the consumption was heavy and the production running light the reservoir was drawn upon to make up the difference.

As soon as the explosion was reported yesterday, the supply pipe was closed, shutting off the huge jet of gas which burst into the tank and ignited. The Zenth Furnace company immediately made arrangements to keep the pressure in its favor.

The damage is estimated at about \$2,000. A part of the top of the holder was burned to death during the fire. The gas was removed by the explosion, the holders dropped into the water pit at the bottom.

## WEST END

## ROCK BEING PUT ON ROAD

Makes West Superior Street a Little Better For Traffic.

Paving Going on As Rapidly As Mixer Will Permit.

The paving question at the West end is being to some extent solved for the winter, and those who have protested loudly over the condition of the streets are becoming to an extent appeased. The reason for this is that the contractor is proceeding to put in his crushed rock foundation all along that part of West Superior street which has been torn up. While this crushed rock is not the very best imaginable roadway, still it is far superior to the street after the paving blocks had been removed and nothing left but terra firma on which horses could haul and pedestrians cross.

The work of paving the street is being pushed as rapidly as the tar macadam mixer will permit. Every once in a while the machine takes a notion and breaks down, and it will be found that some new part will have to be supplied.

Contractor King said the other day that when he gets through with the job of paving West Superior street and returns the machine to the city, he will furnish practically a new machine. If the city ever got a white elephant foisted upon its hands, that machine is the blue-ribbon article.

## AUTUMN FESTIVAL

At Bethany Lutheran Church By Ladies of Congregation.

Beginning next Wednesday and continuing four evenings, the ladies of Bethany Lutheran church, at the corner of Twenty-third avenue west and Third street, will give an autumn festival, during which supper will be served each evening from 5 to 8 o'clock, and after that a program will be given each evening under the direction of Professor Lundholm. The program for each day follows:

WEDNESDAY.  
Heml. St. No. 13, 1-4 v.....  
Congregation.....  
Scripture reading and prayer.....  
Edward Nelson.....

Vocal solo..... Miss Alice Spenslin.....  
Address..... Rev. C. Solomonsen.....  
Recitation..... A. T. Lind.....

WEST ENDERS' NIGHT  
At the Boys' Y. M. C. A. Building, With a Nice Program.

This evening is West Enders' night at the boys' department of the Y. M. C. A., the people of the West end to be special guests at an entertainment which is planned to show just what is being done for the boys and young men who join the ranks of this organization. The West end committee consisting of Rev. H. J. Madsen, Sever Mortensen and H. B. Forward have been working pretty hard on the affair and will in all probability have their efforts at getting an attendance well rewarded tonight for it is believed that the attendance will be large at the building on Sixth avenue east and Third street.

The entertainment will consist of stereoscopic views, an athletic exhibition, music by the Y. M. C. A. orchestra and other numbers.

JOLLY THE MEMBERS  
Commercial Club at Next Meeting Will Have Entertainment.

It is planned to have the next meeting of the West End Commercial club held at Shoen's hall on Friday, Nov. 10, at which time an opening entertainment will be held in order to give the club the proper start for a winter. It is believed that the club is going to be a big success as more are joining it voluntarily all the time.

President John J. Moe has been absent from the club ever since Sunday and it is not known whether or not he has decided upon the committee on entertainment which he was authorized to appoint. As soon as he gets back it is likely that this committee will be appointed and the

1930 W. Superior St.

work of preparation for the meeting of Nov. 10, will go ahead.

West End Shortfalls.

A musical program will be given next Thursday evening by the Salvation Army corps at its building at Seventeenth avenue west and Superior street. The corps of the First Swedish Baptist church will resist. Prof. Erickson will give one of two piano solos.

St. Peter's Swedish Episcopal church gave a supper at Columbia hall and it was well attended by people of all sects.

Work is proceeding on the Salvation Army building at the corner of Seventeenth avenue west and Superior street, despite the howl raised by some West enders who claimed that instead of repairs the building is being replaced by a new one of frame construction within the fire limits. However, the Army has received its permit and is going ahead.

The Swedish Athletic club, which is about to give a muscade hall in Svea hall as an opening for the season, expects to do considerable in the line of promoting amateur sport during the coming winter.

It is expected that there will be considerable development of ski sport if the coming winter proves favorable. Quite a number of West enders are experts with the skis and will teach others.

A son has been born to Mr. and Mrs. Paul Gustaf of 242 West Seventh street; and a daughter has been born to Mr. and

Mrs. Angus Lipinski of 2316 West Sixth street.

A Halloween party will be held by a number of West End young folks at the Lester Park pavilion next Tuesday evening. The invitations having already been issued, it is expected that this will shut off quite a number of other parties of the same kind and ensure a large attendance. The place and persons who attend will be decorated with Jack-o'-lanterns, and pumpkins will prevail in decorations and eating. A nice program has been arranged.

## GOV. HOCH REFUSES TO GIVE UP NEGRO

Topeka, Kan., Oct. 27.—Governor Hoch declined yesterday to honor the requisition from the governor of Texas for the return of Charles Evans, a negro, to that state. In doing so, the governor said:

"I believe that it is a good thing for Texas that Evans be not returned there. All the testimony in the case tends to show that if the negro were returned to Texas some serious harm would come to him."

Evans was indicted in Burleson county, Tex., for shooting a white man with intent to kill.

## BUILDING IS DELAYED

High Water In St. Louis River Handicaps Bridge Construction.

Falsework For Bridge at Floodwood Is Nearly Completed.

"The piling has all been driven for the piers on both sides of the river and the construction of the falsework across the stream is being pushed forward rapidly," said County Commissioner Kauppi, who came in yesterday from Floodwood, where he is inspecting the construction work on the 26-foot span steel bridge that the county is building across the St. Louis river at that point.

Commissioner Kauppi, who has been at the scene of the work almost constantly for the past week or ten days, and who expects to see the Floodwood bridge today, says that the bridge work has been delayed beyond all expectations because of high water. All through the season past the water in the river has been higher than in many years, so that even now, in pushing ahead with the bridge, the bridge contractors are greatly handicapped.

Another condition that has been a handicap to the bridge construction is the fact that the water in the St. Louis river has been comparatively warm and the same has been true of the water in the St. Louis river. The bridge contractors are greatly handicapped.

Before the center pier can be put in and the concrete work on all the piers started, the contractors will have to finish their falsework across the river, so that the water can get back and forth with materials. This work is expected to be completed by the last of the present week.

So far as known, the concrete work will be started sometime next week. It is not expected to take a very long time to complete the bridge. Commissioner Kauppi, in whose district the bridge is located, says that the bridge is a road district funds comes the money to pay for the structure, will remain at the scene of operations as his own inspector. The idea of an inspector was suggested by the board and the county, and to do away with any possibility of a dispute after the bridge has been completed and the time comes for "settling up."

It had been expected that the bridge would be completed early this fall, as it is very much needed by the Floodwood people and farmers, who will be giving up the old bridge and moving toward a new one. The bridge, when completed, will be one of the largest in the county and has been built by St. Louis county.

## REPUBLICANS TO NOMINATE JEROME

Will Hold County Convention and Place Name on Ticket.

New York, Oct. 27.—With only one dissenting voice and acting under a legal opinion rendered by Joseph H. Choate, the executive committee of the Republican county committee late yesterday decided to re-convene the New York county convention tonight in Murray Hill lyceum, the call for the convention carrying with it the recommendation that Charles A. Fiammer, who is retiring from the ticket, advised his followers to vote for Mr. Jerome.

Since the retirement of Mr. Fiammer, there had been persistent rumors that the Republicans would name Mr. Jerome as their candidate. There was a doubt in the minds of some of the leaders as to the legality of reconvening the county convention at this late day and as to whether or not Mr. Jerome's name could be got upon the official ballot. Mr. Choate and other lawyers were consulted and it was upon their advice that the executive committee

finally met and took action. It was said that today was the latest date upon which the change could be effected.

The committee which almost unanimously voted for Mr. Jerome yesterday, opposed his nomination by twenty-seven to eight when his name was suggested for the Republican ticket a few weeks ago.

The only voice raised in opposition to the course determined upon by the executive committee was that of Abraham Gruber, an assembly district leader, who declared his constituents would not vote for Mr. Jerome.

## BETSY WAS NOT THERE.

Tennessee Farmer Fails to Kill Bruin, Who Visited House.

South Pittsburg, Tenn., Oct. 27.—Oliver Overturf, living on the mountain some twenty miles west of Joseph, is telling a true story of a big black bear coming to his house. While Mr. Overturf and his family were asleep a noise was heard on the back porch. Going to the door he spied a big black bear. He slammed the door and went upstairs after his shotgun. Upon his return the bear was off the porch and going down the path through the garden. The moon was shining brightly, so Mr. Overturf followed the bear down to the back fence, and as he started over the fence he turned both barrels loose on it, but missed. The bear is still at large.

## SCHOOL QUARREL

Leads to Fight and Smaller Boy Is Badly Beaten.

York, Pa., Oct. 27.—George W. Gooding, aged 13 years, lies at his home in a serious condition from a fist-fight with Harry Lettig, aged 12. The boys quarreled after school, had decided to settle their differences with fists. Lettig was the stronger of the two, and, cheered by an admiring group, he pummeled young Gooding. The Gooding boy was game, however, and would not give up. Lettig finally knocked his opponent down and beat him until a passer-by pulled him off.

## TRAILS FOR THE FOREST

Many Miles to Be Built on Government Reserves.

Washington, Oct. 27.—During the coming winter and spring many miles of trails will be built in the government forest reserves. One of the chief purposes of the forest service in the management of the reserves is to protect them against fire. A statement issued by the forestry service today says:

"The trails will afford a means of reaching all parts of the forest reserves on horseback and the fire lines will form vantage points from which the fire may be detected and there controlled."

"There are already many miles of trails in the various reserves, but most of them are rough, in poor condition, or not passable for horses. The trails to be built will be of an easy grade. This does not involve much expense, for in many instances a perfectly good trail can be built for \$20 a mile and many miles will cost less than \$5. The work will be directed by the regular forest officials and the rangers themselves will perform most of the labor. There is no question but that these trails will prove of inestimable value in protecting the forest reserves. Many of them will also be worth as much more in making regions accessible to hunters and prospectors, which are now almost entirely beyond reach."

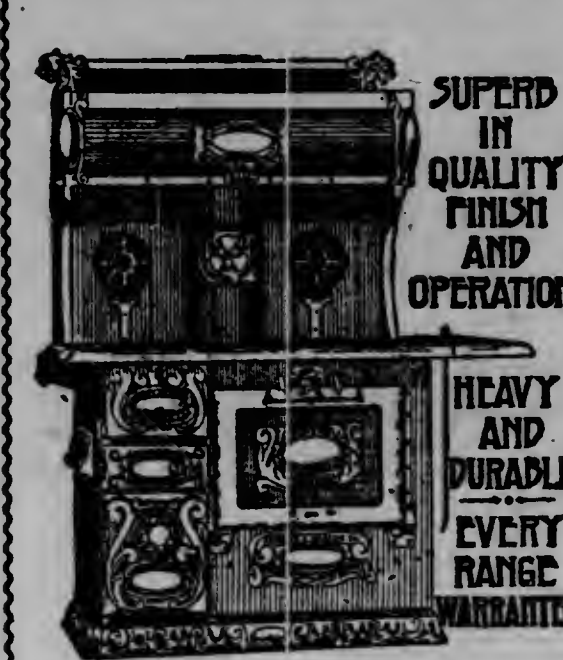

## INSECTIVOROUS ANIMAL.

Wonderfully Adapted to Destruction of Cotton Boll Weevil.

Washington, Oct. 27.—Announcing the results of recent investigations of the future of the cotton-protecting Kiepe of Guatemala, a report now being issued from the department of agriculture declares Kiepe to be "wonderfully adapted to the destruction of the cotton boll weevil," and portrays its possibilities in checking pest ravages. "It is," the report says, "a new and efficient insectivorous animal in all probability, capable of use for protection of cotton and other crops in many tropical and sub-tropical regions, whatever may be the ultimate results of the present effort to naturalize it in Texas."

The report says: "It is still impossible to predict the fate in a new country, of an insect which has so recently become an object of scientific study, but it seems certain that the social organization of the species does not disqualify it for a future of agricultural utility."

## "IF THE BEST IS NOT TOO GOOD FOR YOU, THEN BUY A UNIVERSALI"

**This is our offer**

We will sell you a better stove or steel range outright for less money than you would have to pay at the "trade-back" stores in "boo" money. And to the customer that has no old stove to trade back we will save you from \$5 to \$15 if you buy here.

**\$1 Down and \$1 per week**

will place any "UNIVERSAL" stove or range in this store in your home.

SUPERB UNIVERSAL

Duluth's Greatest Furniture Store.

Corner Second Ave. West and First St.

## KING EDWARD HAS GIVEN UP RACES

Week So Strenuous Even Roosevelt Would Call It Busy.

London, Oct. 27.—King Edward has played a star role with tremendous success during the past week in London, and his personality has dominated all the events that interested his subjects.

When the dean and chapter of Westminster were wavering in spite of a strong national sentiment, about granting Irving's remains the honor of sepulture in the Abbey, the king sent the Lord Knollys with a message at the critical moment that decided the question.

The London county council, decried and thwarted in all its progressive undertakings by the powerful reactionary element, has been entertaining a party of municipal councillors of Paris in furtherance of the king's policy of cordiality.

The king prominently identified himself with the hospitalities to the French visitors, and has shown them many tactful courtesies and thrown his patronage over all the celebrations in the kindest and at the same time in the cleverest manner.

For the first time in London's history the lord mayor and city corporation have taken a back seat on a municipal occasion of international importance.

Last week also he opened London's finest new thoroughfare from Holborn to Strand, named in his honor King's Way. It cost \$10,000.

This work, of the highest value and necessity to London's traffic, was carried out by the county council in the face of hostilities from every local body in the metropolis, whose representatives, however, struggled desperately for invitations to the opening ceremony when the king consented to perform it.

Incidentally disregarding precedent, he received an address from the East end, demanding relief for the distress arising from want of employment and sympathetically replied that he would commend the appeal to his ministers.

Having thus discharged his public duties, he then absorbed attention as a fond father and family man in connection with the departure of the Lord Knollys and the prince and princess of Wales for India.

He presided at a family dinner the night before they went away, and the next morning bade them an affecting farewell at Victoria station.

Meanwhile, all his set were enjoying themselves at Newmarket, where the most attractive week's racing of the whole season was proceeding, and that great classic race, the Cesarewitch, was decided, for the first time in thirty-five years, in his absence, although his passion for the turf now transcends all others.

So the extent of this sacrifice to duty was universally appreciated.

## MAN KILLED AT TWO HARBORS

George William Powell Fatally Injured on D. & I. Railroad.

Two Harbors, Minn., Oct. 27.—(Special to The Herald.)—George William Powell, employed as switchman on the Duluth & Iron Range, was run over in the yards here this morning, about 6:30, which resulted in his death at 8 o'clock. He was riding on a gondola car when it jumped the track, and he fell under the car, which ran over both legs, crushing him badly. Relatives live at Elmira, N. Y.

## ABOLISH JOBS IN LAND OFFICES

Hitchcock Would Do Away With Receivers In Federal Offices.

Washington, Oct. 27.—The semi-official announcement that Secretary Hitchcock will recommend in his annual report the abolition of all positions now held by landoffice receivers will wipe out four of the best paying federal offices in Minnesota, six in North Dakota and seven in South Dakota.

In Minnesota these offices are at Cass Lake, Crookston, Duluth and St. Cloud.

Because we make medicines for them. They know all about Ayer's Cherry Pectoral, so they prescribe it for coughs, colds, bronchitis, weak lungs, consumption. They trust it. Then you can afford to trust it. Sold for over sixty years. We have no secrets! We publish the formulas of all our medicines.

**Why Refer to Doctors**

Mathias N. Koll is receiver at Cass Lake. August F. George at Crookston and Jay M. Smith at Duluth, and each of these officers received \$3,000 salary last year, the maximum allowed by law. Alvah Eastman at St. Cloud drew \$2,000.

## BRIDEGROOM DISAPPEARS.

Contractor Runs Away or Commits Suicide on Wedding Day.

Davenport, Iowa, Oct. 27.—With all preparations made for their wedding, and the bride, friends and minister in waiting, John Reese, a prominent Davenport real-estate contractor, failed to appear for the binding of the ties that would make him the husband of Miss Gertrude Riefer, a beautiful and popular young woman of this city.

The bride took off her wedding finery in a heat lodged on a wingman in the Mississippi river, several miles below Davenport, where were found his overcoat and hat, with a note asking that they be taken to Miss Riefer's address. It was later found that Reese either had run away or committed suicide in a boat lodged on a wingman in the Mississippi river, several miles below Davenport, where were found his overcoat and hat, with a note asking that they be taken to Miss Riefer's address.

Camper saw Reese in the vicinity shortly before, and it is supposed that he drowned himself on his wedding day.

## FIGHTS WITH ROBBERS.

Manager of British Columbia Bank Prevails Heavy Loss.

Winnipeg, Man., Oct. 27.—After a running fight, in which many shots were exchanged, the manager of the Eastern Townships bank at Midway, B. C., disposed of three burglars, who were attempting to break into the bank. One of the robbers was badly injured, but his companions placed him on a raft and the trio escaped across Kettle river to American soil.

Scal's bravery saved the bank from heavy loss, as large funds were on deposit, it being pay-day for the railway construction crew.

Word comes from Humboldt, Saskatchewan, of a sad accident. An 8-year-old boy named Bonnie picked up a gun his father had left loaded on returning from hunting and pointed the weapon at his mother. It was discharged, killing her instantly.

## JOKE ENDS IN SUIT.

Threshing Machine Used at Hanlontown to Move Buildings.

Hanlontown, Iowa, Oct. 27.—A hallowe'en joke played one year ago, in which Ole Hansen of Hanlontown had several buildings moved, is the cause of a suit filed in the Worth county courts against Andrew Johnson of Fertile, the owner of a threshing rig.

On hallowe'en night, Johnson, who was threshing in the neighborhood, left his machine in Hanlontown. In the night some mischief-makers fired up the engine, hitched it to the buildings owned by Hansen and moved them from the foundations to an adjacent lot. The buildings were said to be an eyesore to the community. Hansen now brings suit against Johnson to recover damages. Johnson states he knew nothing of the affair till the next morning.

## FIRE AT CONNORSVILLE, IND.

Connorsville, Ind., Oct. 27.—The plant of the Central Manufacturing company burned today with a loss of \$100,000. The company manufactured bodies for automobiles and buggies. A large amount of partly finished material was burned.

BEVY OF GIRLS TO BE SEEN IN "THE SHOW GIRL" AT LYCEUM SATURDAY AFTERNOON AND EVENING.

## SLUMPS AT THE CLOSE

### Wheat Market Firm Up to Final Moments of Session.

## Foreign Demand Continues Very Sharp—Flax Active and Higher.

Duluth Board of Trade, Oct. 27.—The wheat market opened strong and continued so until after the noon hour, when it weakened and closed lower than yesterday.

The foreign situation again dominates everything. The Russian news continues of a discouraging nature. France was reported by New York reporters this morning as buying wheat there, Germany was again in the market, and buying wheat in Chicago was reported. Athens, Greece, was after wheat. Toronto reported an offering from there of being shipped up freely.

Another report had it that ten cargoes of wheat were bought on the Pacific coast yesterday for the United Kingdom. And this it went all morning. Argentine shipments are again making out a good volume, indicating that the strike there is about over.

The Liverpool market closed 1/2 to 1/4 higher, but it was Berlin which had the sensational advance, prices being up 2 1/2 there. London closed 1/4 higher, and Antwerp unchanged to 1/4 higher.

Duluth exporters found the demand from abroad very sharp, and some Duluth wheat was sold to Germany at a good price. Flour mills are advancing their prices, and Minneapolis mills were reported to have put them up 2 1/2 a barrel.

The December option in Duluth closed 1/4 lower, while in Minneapolis it was a shade higher. The May option was lower, in New York 1/4 lower, in St. Louis 1/4 lower, and in Kansas City 1/4 lower. The May option was 3/4 lower in Duluth, 1/2 lower in Chicago, 1/2 lower in Minneapolis, and 1/2 lower in St. Paul. The December option was 1/4 lower in New York and Kansas City, 1/4 lower in Chicago, 1/4 lower in Minneapolis, and 1/4 lower in St. Paul.

Corn in Duluth was unchanged to 1/4 higher. December closed 1/4 higher, 1/4 higher in Chicago, 1/4 higher in Minneapolis, and 1/4 higher in St. Paul. The May option was 1/4 higher in Duluth, 1/4 higher in Chicago, 1/4 higher in Minneapolis, and 1/4 higher in St. Paul.

Flax was active and higher. Duluth closed 1/4 higher, 1/4 higher in Chicago, 1/4 higher in Minneapolis, and 1/4 higher in St. Paul. The May option was 1/4 higher in Duluth, 1/4 higher in Chicago, 1/4 higher in Minneapolis, and 1/4 higher in St. Paul.

**THE CHICAGO MARKET.**  
Sharp Advances in Foreign Markets Give

**Wheat Strength.**  
Chicago, Oct. 27.—Following sharp advances in the price of wheat at all European grain centers the market here exhibited decided strength today. The labor situation in Russia was the paramount reason for the firmness. The volume of exports was large, and the market was extremely active. The greater bulk of the wheat was sold at 1/4 to 1/2 higher, and the market was 1/4 to 1/2 higher.

**Corn.**  
Chicago, Oct. 27.—The market for corn was active and higher. The volume of exports was large, and the market was 1/4 to 1/2 higher.

**Flax.**  
Chicago, Oct. 27.—The market for flax was active and higher. The volume of exports was large, and the market was 1/4 to 1/2 higher.

**Barley.**  
Chicago, Oct. 27.—The market for barley was active and higher. The volume of exports was large, and the market was 1/4 to 1/2 higher.

**Oats.**  
Chicago, Oct. 27.—The market for oats was active and higher. The volume of exports was large, and the market was 1/4 to 1/2 higher.

**Wheat.**  
Chicago, Oct. 27.—The market for wheat was active and higher. The volume of exports was large, and the market was 1/4 to 1/2 higher.

**Corn.**  
Chicago, Oct. 27.—The market for corn was active and higher. The volume of exports was large, and the market was 1/4 to 1/2 higher.

**Flax.**  
Chicago, Oct. 27.—The market for flax was active and higher. The volume of exports was large, and the market was 1/4 to 1/2 higher.

**Barley.**  
Chicago, Oct. 27.—The market for barley was active and higher. The volume of exports was large, and the market was 1/4 to 1/2 higher.

**Oats.**  
Chicago, Oct. 27.—The market for oats was active and higher. The volume of exports was large, and the market was 1/4 to 1/2 higher.

**Wheat.**  
Chicago, Oct. 27.—The market for wheat was active and higher. The volume of exports was large, and the market was 1/4 to 1/2 higher.

**Corn.**  
Chicago, Oct. 27.—The market for corn was active and higher. The volume of exports was large, and the market was 1/4 to 1/2 higher.

**Flax.**  
Chicago, Oct. 27.—The market for flax was active and higher. The volume of exports was large, and the market was 1/4 to 1/2 higher.

**Barley.**  
Chicago, Oct. 27.—The market for barley was active and higher. The volume of exports was large, and the market was 1/4 to 1/2 higher.

**Oats.**  
Chicago, Oct. 27.—The market for oats was active and higher. The volume of exports was large, and the market was 1/4 to 1/2 higher.

**Wheat.**  
Chicago, Oct. 27.—The market for wheat was active and higher. The volume of exports was large, and the market was 1/4 to 1/2 higher.

**Corn.**  
Chicago, Oct. 27.—The market for corn was active and higher. The volume of exports was large, and the market was 1/4 to 1/2 higher.

**Flax.**

**Grain Cossip.**  
Logan & Bryan, Chicago: Wheat.—The market opened strong in sympathy with the cables and on account of the serious state of affairs in Russia and the reported export business from the Pacific coast, but the advance was checked by long taking profits. Professions and outside loans seemed to have wheat for sale on every little swell.

Corn.—Corn and oats fell off today, due to more or less realizing and in sympathy with the wheat market. We have had a little too much steam on for in last year or so in both markets. Unless this export demand for corn and oats continues strong, the markets will likely sell off a little more and in that case think they should be bought.

Provisions.—Business in this product continues rather light, outsiders paying more attention to domestic markets. We still think the January product should be bought on every little swell.

Edwards, Wood & Co., Liverpool.—Another sensational advance in this product. Our markets sharply higher. Even at the advance there was considerable buying. The first few orders had been executed, and the market was on realizing sales and some short trading, scoring a loss of 1/2 from the high point in less than five minutes.

Edwards, Wood & Co., Liverpool.—Another sensational advance in this product. Our markets sharply higher. Even at the advance there was considerable buying. The first few orders had been executed, and the market was on realizing sales and some short trading, scoring a loss of 1/2 from the high point in less than five minutes.

## WEAKNESS WAS SHOWN

### By the Stock Market and the Closing Was Active.

## Rumors of Bad Blood Between Hill and Harriman Factions.

New York, Oct. 27.—Opening prices in the stock market today were lower all around in sympathy with the pressure on foreign markets caused by the troubled conditions in Russia. Central of Jersey was 1/4 lower, and American Express, about a point, and Baltimore & Ohio 1/4.

The market was broad and active. Bear operators having a good profit on eight months' advance in the market, and the market rallied. About all of the loss in the standard railroad was recovered, and the market was 1/4 higher.

**The Cotton Market.**  
New York, Oct. 27.—The cotton market opened a day at a decline of 1 point on October, which was influenced by a few liquidating sales in fear of notices, but generally 1 to 4 points higher in response to standard cables than were expected and the large spot sales in Liverpool. Sentiment was rendered nervous by press dispatches claiming more serious conditions in Russia, and prices eased off under heat pressure and weekend realizing to a net loss of 6 to 8 points. Around 100 for January was the only active contract, and the market was 1/4 higher.

Plain Cookies, 3 dozen for	25c
15c Wine Cake	10c

## Young Turkey

with cranberry sauce, or Chicken  
Pineapple with dumplings, and  
Fruit plum pudding with brandy  
sauce for tomorrow's dinner.  
All feet should lead to

## The Vienna,

207 W. Sup. St. Both Phones 310.

ORDER  
**La Detroit  
Roses**  
FOR SUNDAY.  
**EISCHEN BROS.**  
Duluth. Superior.

## The Pure Food Store

Does not sell Yerba Mate although  
35,000 tons came into the United  
States from Brazil alone last year  
and was drunk by our people, who  
wonder why they have headaches.  
Drink pure tea, properly made; it  
removes fatigue and dispels lassitude.

Try our "Peacock Fea-  
ther" Brand. It is  
a Formosa Tea

Formosa, you know, is that won-  
derful island that grows such en-  
trancingly good teas. The Jap tea  
grown is one of the best in the  
world.  
Don't forget the place.  
**G. E. MacComber,**  
207 West Superior Street.  
Both Phones, 310.

# ENTIRE EUROPEAN RUSSIA SEETHING HOTBED OF OPEN REBELLION TO CZAR'S GOVERNMENT

## A WIRELESS MESSAGE FROM THE PRESIDENT'S SHIP 1,100 MILES AWAY

Washington Navy Yard Gets Dispatches From Cruiser In the Gulf.

Warship With Executive Aboard Is Making Very Fast Time Along Coast.

Washington, Oct. 28.—The wireless telegraph station at the Washington navy yard was in communication with the armored cruiser West Virginia, on which President Roosevelt is a passenger, from 2:45 until 3:15 this morning. The message picked up in transmission was passing from the West Virginia to the armored cruiser Colorado, which, with the Pennsylvania, is the coast, and stated that the West Virginia would probably join the Colorado and Pennsylvania off Key West about noon today.

As soon as the noise of the machinery and engines at the yard began, before 7 o'clock this morning, it became impossible for the wireless station to communicate further with the cruiser, but it is expected that communication will be restored when the work ceases and the yard quiets down about midnight.

The feat of communicating from Washington to a vessel in the Gulf of Mexico, about 1,100 miles distant, and mostly overland, is regarded as remarkable.

Off South Pass, Mississippi river, Oct. 27, via Key West, Fla., Oct. 28.—At 6:30 a. m. Friday, President Roosevelt, accompanied by Surgeon General Rixey of the navy and Secretary Loeb,

## POLITICAL LEADERS AT MOSCOW FORM PROVISIONAL GOVERNMENT

Rioting Breaks Out at Reval at Night and Incendiaries Apply the Torch To the City During Darkness.

Business Completely Suspended at St. Petersburg and Bloodshed Is Feared—Moscow Is Cut Off.

Moscow, Oct. 28, 10:32 a. m.—At a meeting of the delegates representing the different political parties, it has been decided to unite in the establishment of a government and to act independently of the imperial authorities.

The city was in darkness last night. Today the shops, theaters and schools are closed and the streets are deserted. Several meetings of strikers were dispersed by Cossacks. The banks, treasury, postoffice and governor general's offices are surrounded by troops.

The local merchants are asking for a postponement of payment of bills. The governor general has formally postponed the auction of peasants' property, which was to be sold for taxes.

The board of trade has petitioned against the state of siege.

Prices are very high.

Water is 20 cents a pail.

The utmost alarm prevails owing to rumors that women are marching on the town from the factory districts.

The electric light works have shut down.

The last government spirit shop is closed.

## FIRED THE CITY While Reval Is In Darkness Incendiaries Apply the Torch.

Reval, Russia, Oct. 28.—While the city was in darkness last night rioters sacked the stores and later marching crowds set fire to the spirit shops, theater and other buildings. Barricades were built in the city streets.

Buildings were still in flames this morning. Troops are now arriving here.

## THOUSANDS OF TROOPS Collected at Warsaw To Be In Readiness For Riots.

Warsaw, Russia, Oct. 28.—The streets are filled with troops. It is rumored that strikers are marching on the city from the provinces.

By order of the governor-general the gates of Warsaw are closed at dark and the restaurants close at 7 in the evening.

Thirty thousand infantry and 5,000 cavalry with ninety-eight guns have been collected in this city in readiness to stifle any disturbances.

The military at noon dispersed a meeting of the employees of the Vienna railroad, who had gathered to discuss the situation.

A battalion of engineers controls the telephone service.

The employees of the suburban railroads joined the strikers this morning.

The revolutionary leaders are reported to have distributed thousands of revolvers to the strikers.

The only way of leaving Warsaw is by the steamboats down the Vistula to the Prussian frontier.

A proclamation establishing a full

## SOLDIERS SURPRISE DATTO ALI AND KILL MORO CHIEF AND SON

Had Been On the Warpath For Some Time Past Killing Friendly Moros.

Heavy Fighting Is Occurring Between Constabulary and Insurgents.

Manila, Oct. 28.—Troops under Capt. Frank R. McCoy of the Third cavalry, aide-de-camp to Maj. Gen. Woods, has surprised Datto Ali, head of the Moro insurgents of the island of Mindanao, who has been on the warpath for some time past, and killed him, together with his son and ten followers. Forty-three wounded Moros were taken prisoners, and many arms and a large quantity of ammunition was captured.

Three enlisted men of the Twenty-second infantry were killed and two wounded during the engagement.

Heavy fighting is also reported between the constabulary and Moro insurgents, near Lake Liguasan, Mindanao.

Datto Ali, who for a long time past has given considerable trouble to the American authorities in Mindanao, took the aggressive on Oct. 16 last, and

## ALASKAN MINER BELIEVED TO HAVE KILLED HIS PARTNER WHILE INSANE

Vancouver, B. C., Oct. 28.—A dispatch from Skagway today says: It is believed James Murray, otherwise known as Mawing, murdered his partner, James Fisk, last March, at Hallbut bay near Soldoia, while insane. The skeleton of Fisk was found recently by natives with a rifle ball in the back. It was identified by clothing and letters found on the body.

In the cabin twenty steps away, were found a blood-rusted razor and a knife and there were bloodstains on the furniture. Murray is supposed to have committed suicide, as he has never been seen since last February.

In a letter left in the cabin Murray says he had but a few hours to live. Then he told his partner, a Socialist, that he was insane. Another, to an unnamed brother says: "I should kill me today at 5 o'clock and he is to be killed after me by my agency. All this is for revenge in our past lives and for the sake of humanity. We have agreed to wipe out all scores of the past in a sane and friendly way, so that in this we forgive one another as well as forgive our enemies."

## TAKES A RAP AT ARISTOCRACY TO BREAK UP THE DISCRIMINATION

Dr. Emil Hirsch Speaks Against Sailors and Soldiers Is Determination of President.

Chicago, Oct. 28.—Self-styled American aristocracy received a severe rap last night at the hands of Dr. Emil G. Hirsch. Dr. Hirsch preached at Israel temple on the relative significance of origins and outcomes in society and religion.

"Wherever you have aristocracy," he said, "it is the beginning that is of moment. If you are to have a new society you must get back to the beginning, and if you have the proper number of ancestors, you are noble."

"These ancestors, however, should not be looked up too carefully, or some one who, in common parlance, was a cutthroat and a thief may be found. All the ancestors who came to Europe were of that class. Probably the ancestor who is the object of family worship was a man with a big stick, who increased his territory by killing off his neighbors and annexing their possessions. In that way all the states of Europe grew."

"There are some people in America, also, who are beginning to talk of their 'social position.' If it is the beginning that counts, where would Lincoln be? He had no pedigree—not in his immediate parents, at least, though I believe his mother must have had some sort of nobility in her."

"The greatest men in America have not ancestors, but the smallest men and women are beginning to speak of their families."

"Their ancestor probably came over, not in the Mayflower, but in the steerage of some immigrant vessel. And he, that first one, was the best. The family probably has deteriorated into millionaires who spend most of his time in Europe."

## ANNEXATION PLOT In Cuba Rumored and the American Minister Accused.

Havana, Oct. 28.—Talk of annexation to the United States, the outcome of the Anglo-Cuban treaty, is characterized by administration newspapers as a conspiracy, to which it is broadly hinted. Herbert C. Squires, a party. The discussion, a government organ, has prepared a list of alleged annexationists, which is said to include Mr. Squires and other prominent Americans, as well as Spaniards and Cubans.

Mr. Squires, while censuring that there has been some talk of the application by Cuba for annexation as a means of less remote contingency, has not concerned himself with the controversy regarding the treaty, except as the accredited representative of the United States.

One version of the reason for the government's persistence in upholding the Anglo-Cuban treaty is the possibility that Great Britain will withdraw her legation and regard Cuba as a ward of the United States.

## THE CHICAGO POSTOFFICE MOVES TO NEW QUARTERS

Task Will Be Accomplished Without Disturbing Business In the Least.

Chicago, Oct. 28.—The gigantic, though delicate task of moving the Chicago postoffice into the new quarters in the recently completed \$6,000,000 federal building, without delaying or disturbing the handling of approximately 2,000,000 pieces of mail matter, which the office handles daily, began today. Frederick E. Coyne, the postmaster, was authority for the statement that so elaborately have preparations been made involving the minute calculation of innumerable details, that the intricate work of the postoffice, which collects and delivers mail over territory of over 24 square miles, would proceed without a moment's delay. Without a hitch, the removal of some divisions, such as the stamp department, the registry and inquiry divisions, was accomplished by the simple expedient of dividing the office forces of these divisions, the force in the new building taking up the work promptly when the clerks in the old building ceased.

When the carriers left the old office the delivery clerks immediately moved to the federal building and two hours later the carriers reported back, not to the long, low, red brick shed that has been their headquarters for a decade, but to the new building.

This change of base, though only eight blocks in distance, necessitated a change not only in the nice calculation governing the routes and amount of mail to be carried by half the carriers in Chicago, but in the work of railway clerks, whose runs center in Chicago.

By Sunday all mail, including the outgoing, but with the exception of the handling of second-class matter, which will be handled from the temporary structure for some weeks yet, will be carried from the new structure.

The moving began without ceremony, although United States Senator Hopkins and the majority of the Chicago congressmen, together with representatives from the postmaster general's department, were present. There was in fact, only one bit of sentiment connected with it. Fernando Jones, one of the wealthiest citizens of Chicago, who has lived here for only a few years, consisted of one man, but he owned the first private box in that postoffice, having lived in the construction of the building, and numbered the box 36, that he might impress his Eastern friends with the idea of his being a news progressive. When congress supplied the lonely postmaster with a clerk, Mr. Jones, in elation, entertained the entire force at dinner. For these reasons Mr. Jones was signaled out by Mr. Coyne for the only formal invitation issued in connection with the occupying of the new quarters. As the postoffice force now numbers nearly 3,000 people, however, Mr. Coyne accused Mr. Jones from repeating the act of hospitality of many years ago.

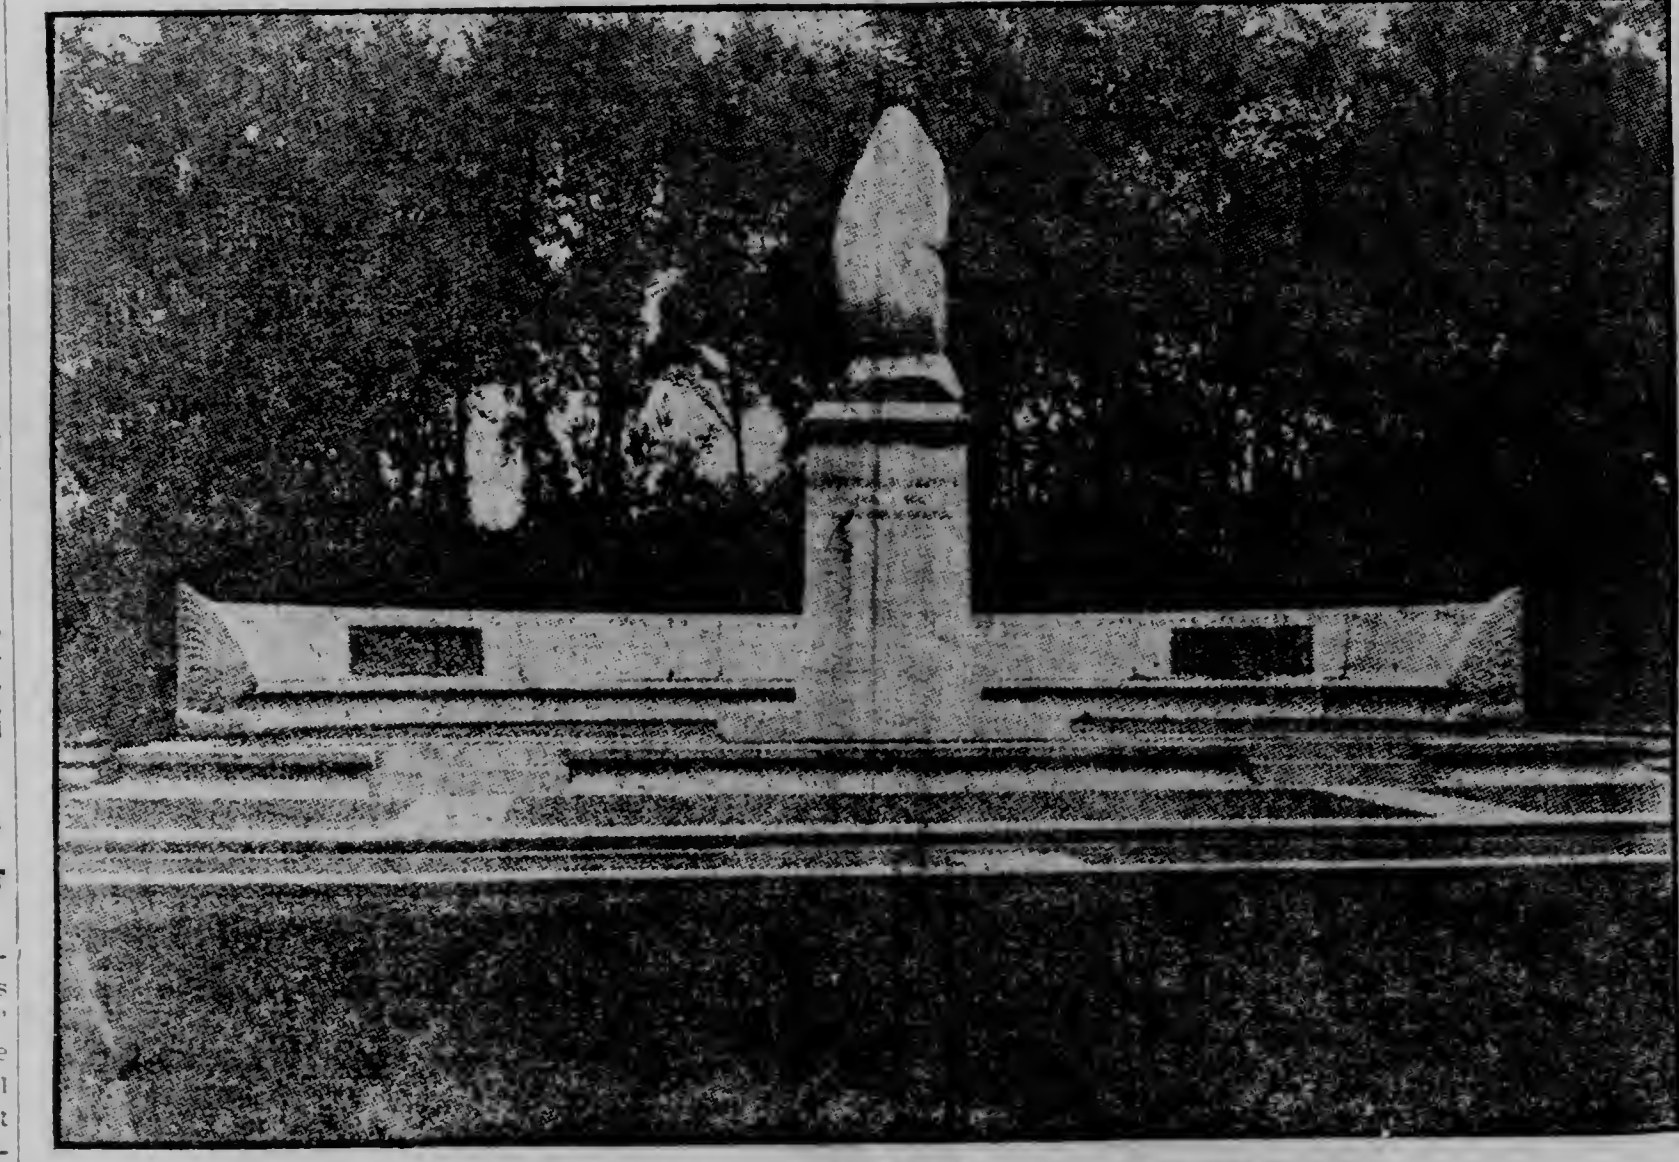

## GUNS FOR THE FERN COMING

Navy Yard at Washington to Ship Them at Once.

Washington, Oct. 28.—The guns for the Duluth naval militia will leave the Washington navy yard today for Duluth. An order to that effect was made yesterday by the navy department.

Representative beds will, during the winter, endeavor to secure permission from the British government, through the British ambassador here, to have guns planted on the training ship Fern, which, under the present treaty, will have to be placed on shore.

FOUND DEAD IN THE WOODS. St. Cloud, Minn., Oct. 28.—Henry Schoetzen, 76 years of age, inmate of St. Joseph's Home for the Aged,

STATUE TO J. STERLING MORTON BEFORE UNVEILING. The statue is by Rudolph Evans, a New York sculptor. The object sought in the design is to combine simplicity with dignity and impressiveness, thus typifying the manliness and nobility which characterized the life of the father of Arbor day. The central figure in the design is, of course, the statue of Mr. Morton himself, which stands upon a massive, yet graceful pedestal, in an attitude characteristic of his strong life. At the foot of the pedestal stands a graceful wood sprite, her left hand tenderly protecting a young, growing tree, symbolizing the public-spirited ideal expressed by Mr. Morton's simple formula, "Plant trees." A semi-circle stone bench stands at some distance back of the pedestal, and forming a frieze around it are the words: "Pioneer, Statesman, Scholar, Tree Planter." Upon the pedestal itself is inscribed: "J. Sterling Morton, Father of Arbor Day. Plant Trees." The reverse of the pedestal bears a concise sketch of Mr. Morton's life and public service.

Factory representatives for the W. W. Kimball Co., have just received a load of Pianos. Terms to suit the purchaser.

**Amateur Games.**

The first Franklin football team defeated the Adams team this morning on the grounds at the corner of Third avenue and Sixth street, by the score of 13 to 0. The feature of the game was the long run by L. Cooley. The Franklin lined up as follows: Edmer, full back; Cooley, left half; Johnson, right half; Roy, right end; Elliott, right tackle; Cooley, right guard; Rasmussen, left end; Rasmussen, left tackle; Roy, left guard; Clark, center; Rasmussen, center.

The Irving Tigers defeated the Match Factory team this morning by the score of 9 to 3 on the grounds at Fifty-second avenue west. The Irving team challenges any team in the city averaging under 100 pounds. Thomas Doyle, the manager, can be reached on the Zenith phone, 3015.

**Has Option on Iron Lands.**

Lyman M. Linnell, now of this city, who for ten years past has resided on the iron ranges, has secured an option for mining iron on the sec. 26 of sec. 15, and n.w. 1/4 of sec. 16, township 22, range 13. The lands are in the midst of a group of mines, all of good bearing qualities. Mr. Linnell has placed his option on record and taken possession of the land, and has negotiated for a diamond drill, which has just arrived in the city by boat. A company will probably be formed to work the land.

### MARINE

## COLD SNAP AFFECTS ORE

**Movement Hindered, Ore Freezing About Three Inches In Cars.**

**Likely to Affect Going Rate For Grain If It Keeps Up.**

Several charters of grain were made today at 4 cents and the rate is stiff at that price. The present cold snap is already affecting the ore movement, and it keeps up as it probably will for a few days at least, it may have a visible effect on grain rates for the reason that more boats will be frozen into the grain trade. Ore is moving slowly today, the ore in cars being frozen to the depth of about three inches, that in the steel cars being most affected.

**May Be Wrecked From Kalyuga.**  
Duluth, Oct. 28.—The Canadian steamer, Little Sioux, reports having passed some wreckage, thought to be that of the lost steamer Kalyuga, about forty miles south of Cape Henry, which is at the entrance to Georgian bay. A cabin was seen painted white on the outside and yellow on the inside. These are the colors of the Kalyuga's cabin.

A tug has been sent from Sault Ste. Marie to search for the vessel.

**Sheltered In Lily Pond.**  
Hancock, Oct. 28.—Spokane, The Herald.—Sheltered in Lily Pond: Merrimac.

**STEAMER KALYUGA LOST ON LAKE SUPERIOR.**

**GRAND CONCERT**

AND ILLUSTRATED LECTURE.

THURSDAY, NOV. 2.

On the Japanese-Russian War at St. Petersburg, by Harry Randall, the lecturer.

Directed by the famous pianist, Mrs. Alice Dantonsky, who will be assisted by the famous singer, ALBERT ARYCHOWICZ, and Miss Marie Haver, featured tickets \$2.00, for sale at the Zenith.

**BANK RECEIVER BRINGS SUIT AGAINST ANDREWS**

Pittsburg, Oct. 28.—Receiver John B. Cunningham of the Enterprise National Bank, here, brought suit this afternoon against W. H. Andrews of New Mexico, for \$5,000, alleging fraud. Andrews' name has been prominently connected with the failure of the Enterprise Bank. The action against Andrews is to recover \$5,000 alleged to have been received from the bank by Andrews through Cashier Clark, who committed suicide and is said to be the result of discoveries made by Receiver Cunningham in his investigation into the bank's accounts.

It is alleged that Andrews was an intimate business associate, and interested in various corporations and enterprises with F. Lee Clark and unlawfully and fraudulently converted to his own use the funds of the Enterprise National Bank, and that Clark, at his request, assisted in carrying out the alleged conspiracy.

Axel Hrem of Elly, who was bound over to the grand jury for the November term of district court, on the charge of assault in the second degree, appeared before Judge Cass. This morning, and entered a plea of guilty to the charge of assault in the third degree, on information furnished by the county attorney. He was sentenced to pay a fine of \$100, with the alternative of a 90-day term of imprisonment in the county jail. He paid his fine. He was accused of assaulting a man at Elly with an ax.

An ad in our real estate or for sale column, containing as many words as this paragraph, will cost you 25 cents, and will probably sell that piece of property for you.

**Commercial Club Would Know About Fond du Lac Line.**

**Redistricting of Eighth Ward Is Laid Over For a Week.**

The West Duluth Commercial club held a meeting last evening and discussed a number of affairs, among them the redistricting of the Eighth ward, by which one precinct is proposed to be wiped out. This, however, was left over until the meeting next Friday night.

The matter of A. C. Volk's electric railway franchise to Fond du Lac will also be investigated in the meantime by a committee consisting of M. M. Clark, David Sang, H. H. Phelps and Alderman William Cheney. They will find out what Mr. Volk's right of delay in construction will expire, and the club may take some action.

J. J. Frey also brought up the matter of street cars stopping under the tracks of the Mississippi approach to the Mississippi docks, claiming that it is dangerous there in the car or engine jumped the track. This was also laid over.

### REAL ESTATE SALES

**Moving Along in First Rate Shape Just Now.**

Real estate is moving in fairly good shape in West Duluth, and right along sales are reported. During the past week J. J. Frey of West Duluth made the following sales:

Two lots in Sharp's addition to W. E. Hanson, who will improve them, and eleven lots in Belmont Park to M. K. Kerner; two lots on Grand avenue, in the Fifth division, to E. S. Shoup; a house and lot on Fifty-fourth avenue west and Ramsey street, to M. Kerner; four lots in the Sixth division, to H. Squist, who will improve them; and two lots in Dodge addition, to E. J. Larson, who will improve them.

**TEST COWS MONDAY.**

**Milk Inspector Will Give Final Tuberculosis Test.**

A final tuberculosis test of cows in West Duluth will be made Monday morning, at 8 o'clock, by Milk Inspector H. M. Wood. All those who sell milk must have their cows tested in order that a license may be obtained, and the license will be given to the owner of the cow.

This is important to those selling milk, for a license is required, or the cows will be tested before the milk can be sold.

**West Duluth Churches.**

At Ashbury M. E. church, Rev. Thos. Grice, the pastor, will preach at 10:30 a. m. on Sunday, October 29th, the subject, "The Power of the Word."

At the Norwegian Lutheran Synod church, corner of Fifty-seventh avenue west and Hennepin, the pastor, Rev. Harry W. Johnson, will preach at 10:30 a. m. on Sunday, October 29th, the subject, "The Power of the Word."

At the West Duluth Baptist church, Rev. Arthur J. Hoag, will preach at 10:30 a. m. on Sunday, October 29th, the subject, "The Power of the Word."

At the Third Swedish Baptist church, Rev. W. J. Lowrie, the pastor, will preach at 10:30 a. m. on Sunday, October 29th, the subject, "The Power of the Word."

At the West Duluth Baptist church, Rev. Arthur J. Hoag, will preach at 10:30 a. m. on Sunday, October 29th, the subject, "The Power of the Word."

church, corner Fifty-ninth avenue west and Ramsey street, services will be held tomorrow at 10:30 o'clock in the morning and 7:30 o'clock in the evening. Dr. A. G. Gorch, president of the Bethel Academy of Minneapolis, will occupy the pulpit at both services. Sunday school meets at 12 o'clock and Young People's society convenes at 5 o'clock. The Sunday School chorus will sing at the morning service, and the following program will be rendered at the evening service:

Song—"Down in the Deep" Skovog.

Male Quartet.

Solo—"Not a Sparrow Falteth".... Abt.

Offertory—"Elevation".... Stebbins.

Sunday School Chorus and Choir.

Postlude—March.... Gounod.

**West Duluth Briefs.**

William Spencer and family are leaving today for Arizona and will spend the winter there. Mr. Spencer is quite sick with malaria.

At 11:45 tomorrow the Sunday school of the Plymouth Congregational church will observe Rally Day and will give a program of recitations and music. An address will be given by S. Williamson.

Mrs. Ellen Stewart, wife of Archibald Stewart, of 3526 West Michigan street, died last evening at the Duluth hospital, West Duluth. The funeral will be held Monday morning from St. James Catholic church, under the auspices of the Lady Macabees and the Ladies Auxiliary of the Catholic Order of Foresters, to both of which Mrs. Stewart belonged. Her husband and five children and her father survive her. Mrs. Stewart was only 33 years of age.

William H. Hanson, youngest son of L. H. Hanson of Fifty-fifth avenue west, is ill from typhoid fever which has been epidemic among the family for some time.

Mrs. Edward Morgan has returned from a visit to her husband at Bellinham, Wash.

J. H. Calhoun has gone to Marinette, Wis., to work as head sawyer of the mill there.

For Rent—Fine 8-room dwelling, Des Bureaux, 701 Fifty-sixth avenue west.

For Sale—Good cook stove, reserved at auction, 121 North Fifty-sixth avenue west, or telephone Zenith 3093.

**Hallowe'en Dance!**

Given by the Degree team of Carl North Star, No. 48, U. O. F., at Eagles hall, in Fols black, Monday evening, Oct. 30. Music by Paul's orchestra. Tickets, 25 cents each.

**SOME BUYING DEVELOPS**

**More Interest Shown In Bisbee Stocks—North Butte Is Steady.**

A better demand for the Bisbee stocks developed today and while prices were considerably below what they have been ruling at, the buying orders were more numerous. Catmet & Pittsburg sold at \$36.50 and closed at \$38 bid. Jones sold at \$27 and closed at \$28 bid and \$27 asked. Pittsburg & Duluth sold at \$24, and that price was bid at the close. Lake Superior & Pittsburg is holding steady, and the price of the Bisbee list being therefore the court of exchange has no jurisdiction in the case. Mrs. Dulce claims that her husband stole a large number of rooms over a large stable which he maintains in Sixty-eighth street, New York, and that is large estate of Somerville, N. J., is "fictitiously" called his home.

North Butte stock sold at \$57.87 1/2 during the morning, but could not get as high as that. It fell then to \$56.75, and closed at \$57, and \$56.50 bid and \$57 asked.

Copper stocks on the Boston market were steady and some stronger during the early part of the session, but fell off in the final hour.

Black Mountain was \$7.50 bid and \$8.50 asked at the close, and there was no trading shown on the board. The impression has been gained that the prices quoted are for stock on which \$4.00 has been paid, but this is incorrect. The stock quoted is \$4 paid.

**BEAUTY DOCTOR'S LAW FOR LADIES**  
Says All Depends on the Complexion, Hands and Hair.

Paris, Oct. 28.—(Special to The Herald.)—A well-known beauty doctor lays down the law for the ladies as follows:

Above all secure, at whatever cost it may be, a good healthy complexion. Your complexion should be as pure, in tone as good old wine, as transparent as crystal and as limpid as pure honey. It must be milky and velvety.

The second law of beauty reads: Have fine hands. The third, have fine teeth. The fourth, cultivate a clear, sweet voice; the fifth, walk with ease, confidence and grace; the sixth, do not let your neck get stiff.

The seventh, keep your eyes bright and beautiful. Never try to read when the light is bad; never work at anything that makes your eyes ache. The most beautiful eyes are those that are wetted by tears occasionally. Hence, if you can, cry a little every day.

Of all the women of the world, the Parisian and the Japanese are most expert in the art of smiling. The eighth law says the French woman smiles an intelligent smile, every little while a smile lights up her face like a sunbeam. A smile is the finest of all weapons. The Japanese smile without cause; her smile is the reflection of a lovely and cloudless disposition. Your choice between smiles, but smile if you want to be accounted beautiful.

The ninth: You can take your choice between red lips and red cheeks. The Paris woman of fashion prefers red lips. How does she obtain them? She bites her lips lightly, rubs them with alcohol and plasters them with pomatum during the night.

The tenth: The Parisian woman thinks most highly of black hair, which she cultivates to perfection. She thinks blonde hair lame, and red hair, "too American," but whatever the color of her hair, natural or acquired, treat it as delicately and as daintily as a ray of sun, and maintain and adorn the color scheme by your dress and adornments. If your hair is red, for instance, wear a red belt or ribbon; if your eyes are blue, a blue hat will make the color of the eyes more intense. A brunette should wear white more than any other color.

## BACKACHE ? IT'S YOUR KIDNEYS !

Mrs. Estelle Clayton, of Toronto, Canada, Suffered Intensely From Pain in Back and Kidneys. Completely Cured by

## WARNER'S SAFE CURE

A TRIAL BOTTLE OF THE WORLD'S GREATEST KIDNEY CURE SENT ABSOLUTELY FREE TO EVERY READER OF THE DULUTH EVENING HERALD WHO SUFFERS FROM KIDNEY, LIVER, BLADDER OR BLOOD DISEASE, OR WHAT IS COMMONLY KNOWN AMONG WOMEN AS "FEMALE WEAKNESS."

If the kidneys become diseased and are unable to do their work properly, the liver becomes affected, then the bladder, the urinary organs, the blood and the stomach. The blood becomes impoverished, the urine becomes muddy and the system becomes pregnant with the disease.

If any trace of kidney disease shows itself, catch a bottle of WARNER'S SAFE CURE. It will purify and strengthen the kidneys, kill the disease germs, prevent the serious complications that are bound to arise, and restore perfect health.

**Suffered Intensely**

Mrs. Estelle Clayton, a noted Canadian society woman, says: "We have used Warner's Safe Cure in our family for several years. It cured my husband of backache and kidney trouble, and Warner's also cured me of a serious cold that settled in my back and kidneys and which caused intense suffering and pain."—Mrs. Estelle Clayton, 24 Adelaide St., Toronto, Canada.

**KIDNEY DISEASE**

WARNER'S SAFE CURE is purely vegetable and contains no harmful drugs. It is prescribed by doctors and used in leading hospitals for disease of the kidneys, liver, bladder and blood.

WARNER'S SAFE PILLS taken with WARNER'S SAFE CURE move the bowels gently and aid a speedy cure.

WARNER'S SAFE CURE is put up in two regular sizes and sold by all druggists, or direct, 50 cents and \$1 a bottle. Refuse substitutes.

**TRIAL BOTTLE FREE**

To convince every sufferer from disease of the liver, kidney, bladder and blood that WARNER'S SAFE CURE will cure them, a trial bottle will be sent ABSOLUTELY FREE to any one who will write WARNER'S SAFE CURE CO., Rochester, N. Y., and mention having seen this liberal offer in the Duluth Evening Herald. The genuineness of this offer is fully guaranteed by the publisher. Our doctors will send medical books, containing symptoms and treatment of each disease, and many convincing testimonials, FREE, to any one who will write.

## Scandinavian Cables

### THE CROWN OF NORWAY

And Other Royal Regalia Have Been Newly Inspected.

Crowning of Norwegian Kings Occurs In Drontheim Cathedral.

Christiania, Oct. 28.—(Special to The Herald.)—It is stated that the minister of state has inspected the royal regalia kept in Akerhus fortress and ordered the velvet of the crown and royal gloves renewed. This may mean something, or may mean nothing—who knows? Perhaps the crop of moths in the powder tower, where the insignia of Norwegian royalty are kept was very plentiful this summer.

The crowning of Norwegian kings takes place in the Drontheim cathedral, but while Danish kings held sway in Norway, they received, on ascending the throne, the homages of their people, in the fortress named, as these described in his beautiful poem, the poem which is not often alluded to nowadays since it commemorates the misdeeds of Danish royalty in Norway.

When Norway declared its independence on May 17, 1814, a paragraph of the new constitution ordained that the king must be crowned in Drontheim, but the king elected, namely Prince Christian Frederick of Denmark, did not reign long enough to have the ceremony performed. When he came to Christiania, there was not even a throne for him—the place of furniture on which he sat was lent by the theater.

The first king of Norway actually crowned in Drontheim cathedral, according to the constitution, was Marcellus Bernadotte, Charles John, who ceremony took place on Sept. 8, 1815, and it was a very long windy one, the officiating bishop, Bugge by name, indulged in a sermon of enormous length. As a consequence, the distinguished assembly grew very hungry, and his breath ceased the bishop for delaying the end so long.

Finally the king had little respect for the clergy, bent over the bishop and said quite audibly: "Cut it short, I am dying of hunger." A little while after the bishop pronounced the final formula: "And now is he and no one else."

Ten minutes later the company sat down to dinner, but the furnished courtiers had swallowed only a few courses, when the king got up and said, the stuff wasn't it to eat.

Whereupon the courtiers being still hungry paraphrased the crowning formula as follows: "Now Charles John had enough to eat, and no one else."

The renovation of Drontheim cathedral is nearly finished. The great church and the work of architecture, and perhaps the finest relic of Gothic style in the world. In the middle ages Drontheim was the Mecca of all Norwegians, ten thousand of pilgrims visiting the cathedral annually to worship at the shrine of Saint Olaf.

### THE DANISH PAWNSHOP

"Your Uncle" a Government Official and Has No Snap.

To Quarrel With Him May Get You Into Jail.

Copenhagen, Oct. 28.—(Special to The Herald.)—In Denmark "your uncle" is a government official, to quarrel with him may get you into jail if you lack in respect due to all limbs of the state, from policemen to prime minister. The pawn shop itself is a city institution, while the crown reserves the right to name the principal officials, namely, the director, cashier, comptroller and his assistants.

Director Schoenberg told your correspondent that he is under 20,000 kroner's bond, and that if he makes a mistake in appraisements he is liable to lose part of those 20,000 kroner's, namely, if the ticket is not redeemed and the article, when put up for auction, brings less than the sum loaned on it, with interest.

In popular parlance the great Copenhagen pawn shop is called "pear tree," because a pear tree forms the principal ornament in the courtyard over the pawn shop door. The institute is in an old, majestic corner building, looking out upon the ruins of Christiansborg and upon the Thorvaldsen museum. Its official name is Det kongelige privilegerede Assistenshus, or Royal House of Assistance. That sounds better than pawn shop. It was founded in 1685, and has been set up before nightfall all pawned articles have to be deposited in the fireproof vaults of the mother institution, but before nightfall all pawned articles have to be deposited in the fireproof vaults of the mother institution, but before nightfall all pawned articles have to be deposited in the fireproof vaults of the mother institution.

The director told your correspondent that less than 7 per cent of the pledges were not redeemed. At the auction the auctioneer has the first call on them. If he can put up the money with interest before the final sale of the hammer, he is his, superior bids notwithstanding. And if the price realized exceeds the sum advanced only the interest profits go to the original proprietor, not to the director. The director told your correspondent that the pawn shop is primarily used by artisans and employed workmen. For that reason there was seldom any profit, and in fact, the institute suffered an annual loss.

### COLONEL FED OUT OF SLOP BARREL

Good Joke on Col. Jansen of the Tenth Hus-sars.

Copenhagen, Oct. 28.—(Special to The Herald.)—The colonel of the Tenth Hussars now divides honors with Prince Christian, the captured hero, but though his friends tease him for his account of an adventure, he is rather proud than otherwise of the mistake he made.

Col. Jansen is called "the fat man" by his regiment and highly beloved by his troops. The other day a number of horsemen reported to him that a mental cook was neglecting his duties and that the "feed" was hardly fit for dogs. Very much chagrined, the colonel went straightway to the mess, and, meeting two soldiers carrying a steaming vessel at the mess, he commanded them to put it down and fetch a spoon. "I will try that soup," he said to himself, "and if it's rotten as my boys say, devil take the cook and his assistants."

The colonel seemed at first inclined to raise mild objection, but when they saw their colonel determined, they resolved to obey orders without comment and brought two spoons instead of one. The colonel scooped a spoonful from the bottom of the trough and swallowed it, the misgivings of his nose notwithstanding. But he spat it out at once and spat three times more and roared: "Where is that dirty pig of a cook who brews such soup for the king's soldiers? Let me get at him!"

"Soup, your honor? This isn't soup," he said to himself, "and if it's rotten, the two orderlies, knocking together their heels."

### RUSSIAN OFFICIALS

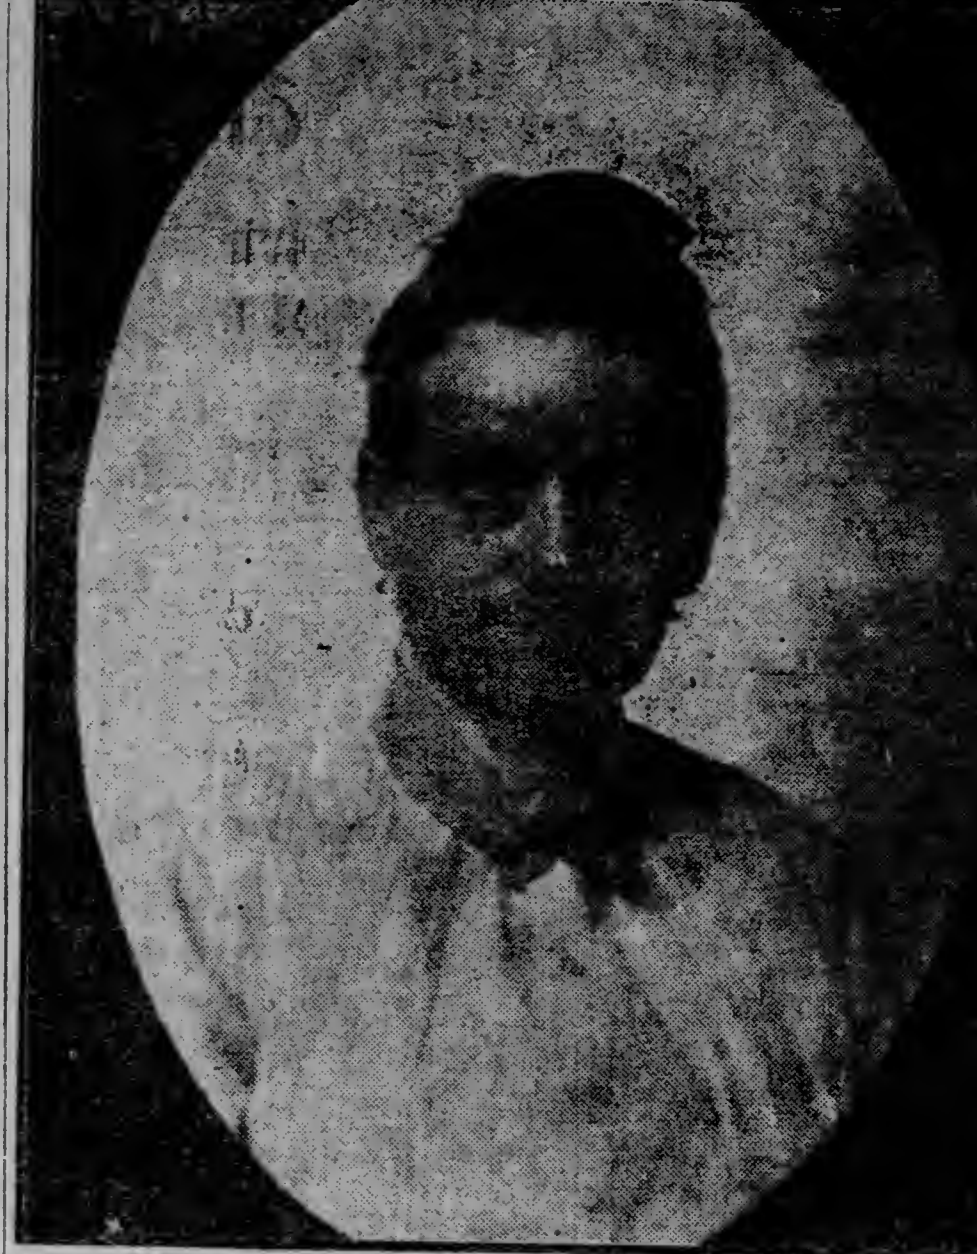

In Search of Finnish Patriots Who Escaped to Europe.

Stockholm, Oct. 28.—(Special to The Herald.)—Russian secret service men are hunting for Capt. Castren and Merchant Nylander of Kemi, Finland, accused of being in the conspiracy to land arms in Finland for the use of Russian revolutionists. Both men escaped mysteriously when under arrest, and are said to have crossed into Sweden. Russian government organs continue to attack Finland, which they call the "armory of revolutionary Russia."

### PREPARING TO DISSOLVE.

Swedish-Norwegian Societies Breaking Up All Over Europe.

Stockholm, Oct. 28.—(Special to The Herald.)—The Swedish ministers in various European capitals report that the Swedish-Norwegian societies in Berlin, London, Paris, Copenhagen, etc., are preparing to dissolve. One of the largest is the Swedish-Norwegian society in Berlin, counting 1,500 members.

The society owns property worth \$12,000, and the Norwegian members demand that same be split up between the two nations. To this the Swedish members offer violent objection, pointing out that of the whole membership, 1,200 are Swedes and only 400 Norwegians.

### IBSEN KNOWS NOTHING

Of Reported Intention of Duse to Play Before Him.

Christiania, Oct. 28.—(Special to The Herald.)—Ibsen knows nothing of Duse's intention to play Nora and Hedda Gabler before him, except what he saw in French newspapers. It is doubtful whether he could endure the strain of attending the performances, anyhow. One of his friends said to your correspondent: "Mine Duse is a shrewd advertiser. Perhaps her press agent set the story afloat to get Norwegian and Swedish theater managers to offer her an extraordinary large percentage to come to Scandinavia."

### JEROME GETS NOMINATION

Republicans Unanimously Name Him For District Attorney.

New York, Oct. 28.—The Republican county convention, which was adjourned Oct. 27, subject to the call of the chair, resumed last night to nominate a candidate for district attorney. After a motion that the nomination for district attorney be reconsidered was carried, William Halpin, authorized by the executive committee, placed before the convention the name of William F. Jerome.

Gilbert Hawes, in seconding the nomination, said he thought the Republican party was doing service to the city of New York in nominating Jerome. "I think with Jerome on the ticket, I think we shall go to a glorious victory and on behalf of the nine men who voted for Jerome at the county convention, I heartily second the nomination."

William Halpin announced that after the minutes were transcribed and the certificate was made out they would be sent to the board of elections and on behalf of the board of elections he would lay upon the question of placing Jerome at the head of the ticket. It is expected that the nomination going over to the court.

### BOULEVARD BROAD AS CHAMPS ELYSEE

Capital Will Unite Three Great French Industrial Cities.

Lille, France, Oct. 28.—(Special to The Herald.)—After twenty-four years of fruitless dicker and discussion by provincial, county and city authorities, the contract for uniting this city with the towns of Reubaux and Tourcoing, manufacturing centers, like Lille, has been awarded to a syndicate of capitalists and engineers, who will complete the great work with the assistance of the general council of the province and the municipal councils.

The united cities will have 600,000 inhabitants to start with, and soon may number 1,000,000. At present the three towns are united only by a one-track railway and thoroughly inadequate draw bridges of less than ten feet breadth, that are impassable at least five hours per day.

The plans adopted provide for communication between the three cities by a boulevard as broad as the Champs Elysee, namely, about 100 feet, American measure, and by stationary bridges high enough to allow vessels to pass under. There will be corresponding improvements in the towns proper. The

**The Approved Effervescent Cure for Headaches**

Contains no heart depressing, dangerous drugs. Removes the cause of headaches. Acts quickly, pleasantly, with such general good effects that it has retained the favor of Physicians and the Public for more than 60 years.

At Druggists, 50c and \$1, or by mail from THE TARRANT CO., 41 Hudson Street, N. Y.

## Stomach Trouble

Caused This Duluth Woman Four Years of Suffering.

### Cooper's New Discovery Cured Her

After Everything Else Failed: Read Her Interesting Letter Which Tells a Remarkable Story.

For about four years I suffered from Indigestion, dyspepsia and later from Cooper's New Discovery.

Gentlemen: I want to thank you for the great benefit I have received from Cooper's New Discovery.

My food would ferment on my stomach, my appetite was poor and my general health was greatly impaired. Nothing relieved me until I heard of the Wonderful New Discovery Medicine and tried it. Now I am happy to say I am better in every way, my digestion is good and so is my appetite and I am growing stronger every day. Signed.

MRS. EMMA VERDON,  
119 East Sixth Street, Duluth, Minn.

**Hundreds of Suffering People**

Have been relieved in a short time by this marvelous remedy. Why do you continue to suffer? If you are tired of pain, tired of being weak and sick, tired of drudgery, begin today, and let

**Cooper's New Discovery Bring You Back to Health & Happiness.**

Cooper's New Discovery sells for one dollar per bottle, three for \$2.50, six for five. Cooper's Quick Relief, costs 50 cents per bottle. Beware of canvassers and street fakery claiming to sell the Cooper Remedies, buy only from our special agent, whose name appears below, or from legitimate dealers in medicines. Where we have no special agent you can secure the remedies, charges prepaid, by sending the price of the medicines you wish direct to the Cooper Medicine Co., Dayton, O.

### GOOD OF ARCHDUCHESS.

Austrian Count Shocked By Speech of a Rude Socialist.

Vienna, Oct. 28.—(Special to The Herald.)—The court is shocked by the speech of a rude Socialist, Deputy Schumler, who defined, before parliament, the sphere of usefulness of archduchesses as follows: "An Austrian archduchess should confine herself to produce annually an archduke, or an archduchess; she must not be permitted to meddle with affairs outside of that defined. The burden of archdukes and archduchesses annually foisted upon the Austrian people is heavy enough, we don't want these ladies to act as counselors of ministers of state also. At present every minister of state finds from one to six letters by an archduchess in his morning mail, persuading, or commanding him, to do this, that, or the other thing. It has to stop. The nursery for Austrian archduchesses—the legislative branch, and to a certain extent, the administrative branch—shall remain in the hands of the people."

Another deputy also said rude things about the archduchesses (there are some twenty-five or thirty). "The government has fit when the question of admitting women to the franchise is debated, but when a silk petticoat, who has nothing to say and nothing to do besides mischief-making, interferes in affairs of state, then our ministers stand with back and trembling knees. Hereafter I will introduce a bill for giving the franchise to women every time an archduchess is born, and dares interfere in government affairs."

### FULLER COMPANY NOT RESPONSIBLE FOR FIRE

Chicago, Oct. 28.—Responsibility of the George A. Fuller Construction company to persons who were injured in the fire at the Troquos theater fire in December, 1902, and who are now suing the theater company and the Fuller company jointly in the federal courts was today eliminated by Judge Landis from the calendar. This was done on motion of Attorney Spencer.

Judge Landis ruled that the plaintiff must adduce testimony to show that the Fuller company was in possession of the theater at the time of the fire. The plaintiff then moved for a nonsuit, which Judge Landis granted. This suit is the first of hundreds of suits against the Fuller company, claiming a separate action against the Fuller company in the state courts. It is now expected that the plaintiff will proceed against the Troquos Theater company.

### WONDERFUL IMMUNITY

Of Chinese From Diseases Due to Contact With Fifth.

New York, Oct. 28.—C. K. Roys, a medical missionary at Wei Hsien, China, believes that the Chinese, through ages of contact with fifth, have secured a wonderful immunity from diseases that would ordinarily result. In Wei Hsien, a city of 100,000, the entire severance of the place is collected in the streets, to be sold for fertilizer in the spring. Only the universal habit of drinking boiled water, writes Dr. Roys to the Presbyterian foreign board, "prevents catastrophes. Many Chinese believe that cold water, external or internal, causes the severest pains and cramps, and this superstition has kept the healthy—and filthy—for ages."

Dr. Roys says that Gen. Li, commander of the troops at Wei Hsien, asked him to give medical treatment to the soldiers. "The old general," he says, "is a great admirer of things foreign. He invited us all to a feast of thirteen courses, but I had to insist that without knowledge of language I could not take proper care of the men. Incidentally, I learned that the general is expected to pay for the medical care of the men out of his own salary, so that free treatment by me would put so much to the good."

### COWARDLY OFFICERS.

The Potembine's Commander Has Shot In Adam's Costume.

St. Petersburg, Oct. 28.—(Special to The Herald.)—Trepoff sent word to the newspapers that any editor printing "The Story of the Potembine Mutiny, by It's Leader," will be deported. The czar, it is said, is deeply chagrined by that publication, because it sets forth that the mutineers had to drag the majority of officers from under beds and out of closets to shoot them, while the commander, who had been lost sight of for some time, eventually appeared on deck, stark naked, his beard and hair shorn. In that disguise he hoped to escape, but the mutineers recognized him, and though he begged pitiously for his life, shot him, throwing his body overboard.

21 Washington Avenue South, Minneapolis, Minn.  
The Largest, the Oldest Established, the Best Equipped and Most Reliable Medical Institution in the Northwest.

## LATE DOINGS IN MICHIGAN

**Boom Employee Finds Body and Will Get \$1,000 Reward.**

Menominee—Adolph Gouley, a young man employed on the river by the Menominee River Boom company at \$1.75 per day, will receive a reward of \$1,000, offered for the recovery of the body of Duncan McGregor.

Gouley and several other men were working on the river Thursday cleaning up the stream preparatory to closing the season's operations when the body of a man was released by the removal of the logs that had caught in a pocket and came to the surface. The body was badly decomposed, but finally identified as that of Duncan McGregor, the Peshtigo lumberman, who has been missing since July 4. The identification was completed by a numbered keyring. A fortune has been spent in the search for McGregor's body, which was prosecuted all over the Northwest.

The reward will be paid by the widow and William Ellis, business partner of the dead man. The opinion is divided regarding the cause of the death. Some maintain it was an accident or suicide, while others are convinced of foul play.

The missing man was known to have had a considerable sum of money on his person when he disappeared, and only \$10 was found when the body was recovered.

Muskegon—Robbers who are working down Michigan's west shore terrorized the village of Meurs, Oscoda county, breaking into the Perc Marquette's depot and dynamiting the safe, then scurrying across the street to where the village postoffice stood.

Five o'clock was the time of their operations, and both the postoffice and the depot were sacked before anyone could sound the alarm.

The depot is also the office of the American Express company, and by rare fortune \$1,000 of Chicago commission money, kept for potato consignments, had been taken away Wednesday night. The thieves, who had been given a tip regarding the big sum, secured about \$20 from both scenes of wreckage.

The depot is a total wreck.

Marquette—The steamer Oregon, which went ashore on Puttridge island, in last week's big gale, has been released and towed into port. The vessel will probably be taken to Chicago for repairs. The damage apparently is not serious.

Iron Mountain—Rev. Henry J. Purdue, who resigned the rectorship of Holy Trinity church, Iron Mountain, some seven years ago, to take charge of a large church at Beloit, Wis., has decided to retire from that field, the duties being more than his health would stand. It is possible that Mr. Purdue may return to the peninsula. He has a summer home at Witch Lake, Gogebic county.

Mrs. Lucy Van Kuren, formerly night operator at the St. Paul depot at Iron Mountain, will receive \$1,000 of the \$2,000 insurance carried by her late husband, the other \$1,000 going to her aunt. The entire sum is said to have been embezzled by Arthur Cole, the missing clerk of court for Marinette county, but the money will be paid to the woman by the surety company.

Manistique—The government is to make temporary repairs to the west harbor pier at Manistique, recently washed out by the heavy gales. About 100 feet of the pier has been carried away. It is proposed to remove the submerged crib and drive a row of close piling across the outer end of the pier, with a clump of seven piles on the channel side, using cables and bolts to strengthen and hold the remaining pier temporarily.

## Hallowe'en At Hand

The Time For Trying Spells and Divinations In Love Affairs—Traditions of the Night.

Duluth and all the rest of the United States are threatened with a violent attack of Hallowe'en.

This complaint, like the grip and house-cleaning, comes every year and has been accepted for a long time as a necessary evil. There are persons, however, who cavil at the scourge and declare that while it is undoubtedly evil, it is totally unnecessary.

This theory usually has a great many supporters among male adults when they view their children in the porches the morning after the Jack-o-lantern plague has passed the crisis and the victim is given a chance to recover. Like typhoid fever, the Hallowe'en complaint some times leaves painful evidence behind, but it is not often lasting and is forgotten until the annual symptoms reappear the next year and the little candy stores near the school houses begin to sell the deadly bean-blowers again.

There seems to be no cure for the disease. Specialists have declared against it time and again, but their most not complain loudly of their fate when the disease results in over-turned wood piles and the white-washing of neat porches.

Children do not mind the disease at all. Old people, particularly the old men are the ones who suffer the most from it. They find it almost as terrible a thing as a rash of snowballs to the head—a mid-winter malady.

Youth, merry-care-free youth, does not look upon Hallowe'en as a plague. Many things in this world seem quite satisfactory when one is enjoying the spring of life. But in the autumnal years, one feels more each little ache and pain. Some of the aches that hurt the most are in the heart.

Hallowe'en sometimes results in heart trouble. The disease results in many things delightful to your young woman or young man. Are there not many games the outcome of which purport to unfold to the participants the identity of the future husband or wife, as the case may be? And after one has reached the seventh grade in the grammar school does not one think that these games are worth a great deal more than the conventional ones which tickle one a few years before—one in which the rewards took the shape of mere apples.

Not that the apple games no longer occupy prominent places. They certainly do. No well regulated church or private Hallowe'en party from New York to the Golden Gate or from New Orleans to Duluth would be without its tub of apples.

What would you think of a Hallowe'en party at which you were not invited to dive head-first into a tub of cold water at the risk of becoming very wet and bedraggled in an effort to get a firm grip on a slippery, but delicious, looking apple. You would boldly declare, the next day, that the party was a frost.

Probably those of us who were little girls, recall the apple-diving first in our recollections of the Hallowe'en games long ago, when the apples were always bright. And perhaps those of us who were little boys recall more vividly the times when we were captured by indignant adults for committing such crimes as tearing down fences and building bon-fires hard by neighbors' barns.

We will also remember that we protested vigorously that "WE" did not commit the awful deed and how that feeble protest did not make the slightest impression on our captors. And we remember that our stern captors took us before our respective parents and that our awful conduct was made known to those persons.

And then there was the punishment to fit the crime, usually a command to stay in the house all the rest of the evening. And how harsh we thought that command when we knew that all the rest of our little world was out of doors, engaged in scarifying third old ladies with hideous jack-o-lanterns or despoiling some good man's wood pile, or, it was hard to stay in the house then.

And then perhaps we can recall those Hallowe'en parties that we attended at least, indoors and not because we had to, either. It was on those evenings that we submitted more willingly to the treatment of being washed, combed and otherwise slicked up than on ordinary occasions.

It was such Hallowe'en that we took as much pride in our personal appearance as we did when Hen had a birthday party or the pretty little girl who sat in front of us in school invited a few friends, including ourselves, to her home in honor of a similar event.

Possibly the knowledge that she, too, had been bidden to the apple biting contest had some weight with us, or perhaps it was held at her house. Even if we do not remember it now, it is probable that some such matter was responsible for our willing appearance when mother made us come and be fixed up for the party.

Maybe that part of the evening which passed after we had finally marched into the house at which the party was to be held is a sort of hazy dream in which the features were good and the things that we did were good. We were permitted to look in the windows which involved some sort of a stand on such matters. We are morally certain, too, that we chose her at every opportunity.

Of course we did not attend the party until we felt quite sure that unless we did make an appearance, we would be left altogether out of some of the evening's pleasantest features. Perhaps we were carried because we wanted to do as much damage outside before we did the more plebeian thing of attending a function or perhaps we shrank from the publicity, embarrassment or whatever it was that we felt sure would come with the ringing of the door bell.

There was probably some debate as to who should have the honor of ringing the door bell and announcing our party to the hostess and we remember that we did our best to avoid the office. Maybe we were elected by acclamation and almost pushed to the front. Even if we did get red when she opened the door and said, "Why come right in. Robert, we felt a sense of satisfaction steal over us in the knowledge that it was us and not the laggards at our heels whom she first greeted.

Then there was the uncomfortable ten minutes which came with our introduction to the multitude of spick-and-span looking boys and girls in the parlor. Although we knew in our hearts, this was not an ordinary occasion and we felt somewhat embarrassed.

This embarrassment soon wore off, however, after her mother and aunt had successfully launched one or two games. Speech returned to us and we what to do with our hands. The rest of the evening was the dream afore mentioned.

Probably just such functions will be held Monday night, Hallowe'en, and if you have not yet had your share of the spick-and-span little boys and girls that haunt our parlor, you had better make up your mind to do with our hands. The rest of the evening was the dream afore mentioned.

After all, the "Home" corners in the family magazines and the papers are handing out the same recipes for Hallowe'en parties that they did years ago. Some of them are so good that we have contrived new things but most of the writers are recommending the old ones. Some of them are so good that we have contrived new things but most of the writers are recommending the old ones.

Of the old favorites, there is the game of roasting chestnuts on a shovel over a fire. Two are placed on the shovel and braigned for five minutes and another for a boy and if they roast evenly, they will marry and live happily ever after. If one of the nuts pop off the shovel, it is an omen of divorce.

Another is the game of the three bowls. One is filled with clear water, another with dirty water and the third is empty. The merry-makers are blindfolded and the position of the bowls changed. If the blindfolded ones stick their hands in the clear water, life for them will be one grand, sweet song but perchance they dip their digits into the dirty water, we will be full of them. If they dip their fingers in the empty bowl, they will never marry.

The usual number of Hallowe'en parties are scheduled to take place in Duluth and the small boys in the city will probably try to destroy as much property as possible with the best intentions in the world.

## Dollar Bottle Free

The Greatest Woman's Medicine in the World

Not one cent to pay.  
No charges to collect.  
No deposits to make.  
No papers to sign.  
No receipts to give.

Zoa Phora  
The Dollar Bottles  
Free

There isn't a woman in the world who has tried or tested Zoa Phora who even wonders now at this great free offer.

### Zoa Phora Cures Women.

Thousands of tired, suffering, ailing, run down, weak and afflicted women who were tortured and reduced by the troubles peculiar to their sex—are today CURED. They are strong, well, hearty and plump; in good health, good color, clean complexion, robust and rosy—and they know that it was Zoa Phora and Zoa Phora ALONE that brought them back to the glow and heartiness of girlhood days. If you will not believe the truth—my sister—then here at last is the first opportunity to prove it absolutely free. Zoa Phora means everything to women. It means healthy, natural menstruation periods. Without it the constant tendency either to scanty flow or to flooding is not properly regulated. Zoa Phora is the one regulator for the monthly troubles of women. It cures, normalizes and even the natural flow; no discomfort, no backache, no more nervous, breaking, sinking sensation or the agonizing trembling weakness every suffering woman has so miserably experienced.

Thousands upon thousands of well women bear willing enthusiastic witness that this is true. There is no need, either, for the pain or the weakness. Zoa Phora sustains and fortifies by up-building, it resuscitates and heals. It cures by contact. It is NOT an indirect remedy. It reaches in to the disturbed parts themselves; soothes and relieves all irritation, and cures the cause by eradication. Common remedies do not do this—and they cannot be expected to.

Zoa Phora has cured thousands. One hundred and twenty thousand dollars—\$120,000 has been expended upon this great cure for women. Today it stands alone proven absolutely by its record among all remedies as the cure—the cure for female diseases—falling of the womb, leucorrhoea, displacement, growths, painful or suppressed periods, extreme menstruation or flooding, (expectant maternity, child birth and motherhood) change of life, kidney and bladder troubles, nervousness, tendency to cry, hysteria, spinal pains, weakness, etc.

This offer rests upon a record of Cures. Without such record we would not and could not give a dollar bottle free. Your name will reach us along with thousands of others. To you and to them as well—the full size dollar bottle Zoa Phora will come free—absolutely and unqualifiedly free—not one single penny of expense to you or to any other sister sufferer—we pay the bill—all of it—completely and entirely—the cost is all ours—none of yours.

Your name and the address, and Zoa Phora is yours—to make you well—to cure and keep you cured hearty and strong. When you write for your free dollar bottle remember that there are thousands of other women who are well that went through just as much discouragement and hopelessness as you are enduring today. They are now well women—and surely their evidence may well be a proof to you. A full size dollar bottle of Zoa Phora—free—when your name and address comes in. Address: ZOA PHORA CO., 480. Free Distribution Dept., Kalamazoo, Mich.

avenue east and Twelfth street, nearly

scandalized the neighborhood Thursday morning.

A woman, clad in mourning, and followed by a man carrying a coffin and a spade, was seen to disappear into the ravine at Tenth avenue east and Twelfth street. When they reappeared without the coffin, the suspicions of some of the neighbors were aroused at the strange proceedings, and the police were notified. They in turn notified the health department, and Inspector Salvo yesterday visited the spot and dug up the coffin, only to find that it contained a dog. He reentered the casket and found "nothing doing" to the health department.

## MISS LULU JONES DIES SUDDENLY

Sad News For Many Friends of Popular Young Woman.

The sudden and unexpected death of Miss Lulu Jones, daughter of A. C. Jones, vice president of the Northwestern Coal company, which occurred about 7 o'clock last evening, was a sad shock to her many friends in the city.

Miss Jones, who was 24 years of age, was the younger of two daughters. Her older sister, formerly Miss Alice Jones, was but recently married to W. J. McVey and moved to Portland, Or. She is now on her way to Duluth to attend the funeral.

Miss Jones was apparently in good health until Wednesday evening, when she was taken suddenly ill, and in spite of everything that the physicians could do, her condition grew steadily worse, and she passed away last evening. Death was due to diabetes.

Miss Jones was a graduate of the Central high school and had numerous friends among the young people of the city. Her interests were largely centered in church and mission work. She was an active member of the First M. E. church, and her own efforts had supported a native Bible woman in the mission work in India.

The death of Miss Jones will be very keenly felt by her parents, especially since she was the only member of the family remaining at the home at 405 West Second street.

The funeral arrangements have not yet been made. Mrs. McVey is now on her way to Duluth from her home in Portland, and will be able to arrive before Monday morning. The services will not be held until after her arrival.

## OPERATOR IS IN SERIOUS TROUBLE

Refused To Take Orders and the Trains Were Delayed.

Helena, Mont., Oct. 28.—Traffic on the Northern Pacific was at a standstill in the vicinity of Leeward, where the Montana railroad leaves the Northern Pacific, fifty-three miles east of here, for about three hours early Tuesday morning, as the result of the refusal of the Lombard night operator, C. C. Beach, to take or execute the train orders from the dispatcher at Livingston.

Beach has been arrested and is held at Townsend to answer to a charge of injuring and obstructing operations used in connection with the operation of railways.

This is the first criminal proceeding under the so-called Gravelle bill passed by the last legislature after the close of the sensational career of Ike Gravelle, the noted dynamiter, who tried to wreck a train.

The dispatcher at Livingston charges that he was unable to induce Beach to take and deliver orders. Beach is accused of having disconnected the wires, and when the dispatcher called him up over the railroad company's telephone and gave him orders Beach is said to have refused to accept them.

Three freight trains were held at Twelfth street. When they reappeared without the coffin, the suspicions of some of the neighbors were aroused at the strange proceedings, and the police were notified. They in turn notified the health department, and Inspector Salvo yesterday visited the spot and dug up the coffin, only to find that it contained a dog. He reentered the casket and found "nothing doing" to the health department.

The wires were found to be so misplaced that all trains were operated by telephone until the wire chief from Helena could reach Lombard and had straightened out the tangle. The railroad company will spare no effort to convict Beach. It desires to make an example of him because of the danger of possible repetition of such an offense. The maximum punishment for the crime of which Beach is accused is five years in the penitentiary.

**MAYOR RESIGNS.**  
Wadena, Minn., Oct. 28.—Mayor A. C. Broder has resigned, and Henry E. Eber of the Eber Milling company has been chosen as his successor. J. H. Rice, a local groceryman, takes Eber's place on the council. Mr. Broder and his family will spend the winter in California.

**Good Watches Cheap**  
At Harris & Estley's jewelry store, 428 W. Superior street, Spaulding Hotel.

**City Ticket Office 432 West Superior St.**

Long established. Permanently located in Duluth, and with ample resources to make good our claims.

**Minneapolis-Wisconsin Football Game.**

Tickets on sale November 3rd and for all trains arriving in the twin cities not later than 3 p. m. November 4th, final return limit November 6th. Return trip may be made via any line.

**City Ticket Office 432 West Superior St.**

Established in Duluth Since 1890.  
The Northwest's most successful and Reliable SPECIALIST IN DISEASES OF MEN.

**Specific Blood Poison.**  
The most hideous of all venereal diseases can no longer be classed as incurable. The idea that the limit of medical aid is to keep the disease dormant by persistently dosing the system with mineral poisons is an incorrect as many others, ancient theories to which many of the profession cling. Our cure is thorough and permanent. Every symptom of the disease vanishes forever.

**Kidney Complaints.**  
Kidney diseases affect a large number, although many are in ignorance of their trouble and attribute their unwell condition to some other cause. Male excesses, alcoholic liquors, severe sickness, which weaken the kidneys, often produce kidney diseases, and the usual symptoms are highly colored urine, with strong odor, sediment in urine, frequent urination or irregular, chilly, or feverish, or a worn-out feeling, puffiness under the eyes or swellings. Our long study and extensive practice in the treatment of all forms of kidney diseases have familiarized us to the extent that we have attained skill which insures successful treatment in all cases that are not incurable. We determine the condition of the kidneys by a scientific analysis of urine and the many severe kidney troubles we have cured by our systematic course of treatment, after being given up as incurable by other physicians, gives us such confidence in our method as to assure every case we accept a permanent cure.

**No. 1 West Superior St., Cor. Lake Ave.**  
Office Hours—8 a. m. to 8 p. m. Consultation free and confidential.

Established in Duluth Since 1890.  
The Northwest's most successful and Reliable SPECIALIST IN DISEASES OF MEN.

If you are a sufferer from Nervous or Pelvic derangements see our physician without delay. You may consult us Free of charge.

## We Offer All Afflicted Men

The safest, surest and most modern scientific treatment of chronic venereal diseases. Our success in curing permanently these maladies that wreck manhood is attested by our enormous practice. Men come from every section of the Northwest to receive our advice and assistance. We offer you the services of a physician without a peer in private diseases—a physician who sees and treats hundreds of cases every month—a physician who knows at sight every condition of the chronic maladies peculiar to the male sex—in short, we offer you the services of

# AN EYE SPECIALIST

IN PELVIC DISORDERS OF MEN.

### Urethral Obstructions.

It matters not how long you have suffered from urethral obstruction or how many different doctors have disappointed you, we will guarantee that our treatment will relieve you, or we will refund your money. We solve the obstruction, leaving the urinary passage entirely free from obstruction, and irritation. It also relieves any symptoms of disturbance in the bladder or kidneys.

Make it your business to call on us today.

## Latest Books and Magazines

### "The Rejuvenation of Aunt Mary,"

by Anne Warner.

### "An Ode to My Pipe,"

by Emory D. Potter.

### "Two In Italy,"

by Maud Howe.

### "The Joy That No Man Taketh From You,"

by Elhan Whiting.

"The Rejuvenation of Aunt Mary," published by Little, Brown & Co., Boston, adds another to Anne Warner's successful and thoroughly entertaining books. With "Susan Clegg and Her Friend Mrs. Lathrop" Anne Warner attained a place in the little circle of American woman humorous writers who have achieved distinction so rapidly within recent years. Many, however, consider her first book, "A Woman's Will," a clever international love comedy, written almost wholly in dialogue, the equal of "Susan Clegg." "The Rejuvenation of Aunt Mary," will add materially to her reputation as a writer of popular fiction. It is the narrative of the adventures of Aunt Mary, another capital creation, in New York, where she is personally conducted by her nephew Jack and his college friends. The humor is irresistible, and a pretty love story runs through the book. To create three such strikingly dissimilar characters as "Von Don" in "A Woman's Will," "Susan Clegg" and "Aunt Mary," and to do it with the fidelity to the living types, is to demonstrate something very like genius for characterization.

Annie Warner is in private life Mrs. Charles Ellis French, St. Paul, without doubt being considered her home, although she resides in that city but a portion of the year, and at present writing is abroad.

Chatterbox for 1905 is at hand and no holiday publication is more welcome. Chatterbox is more than a mere book. It is almost an institution. How the juvenile world could exist without it would be difficult to say. It is eloquently pronounced "a favorite on both sides of the ocean." This year's Chatterbox is fully up to its usual standard of excellence. In addition to an interesting miscellany of stories and sketches, it contains over 200 full-page illustrations, including six handsome color plates. It is published in illuminated board covers at \$1.25 by Dana Estes & Co., Boston.

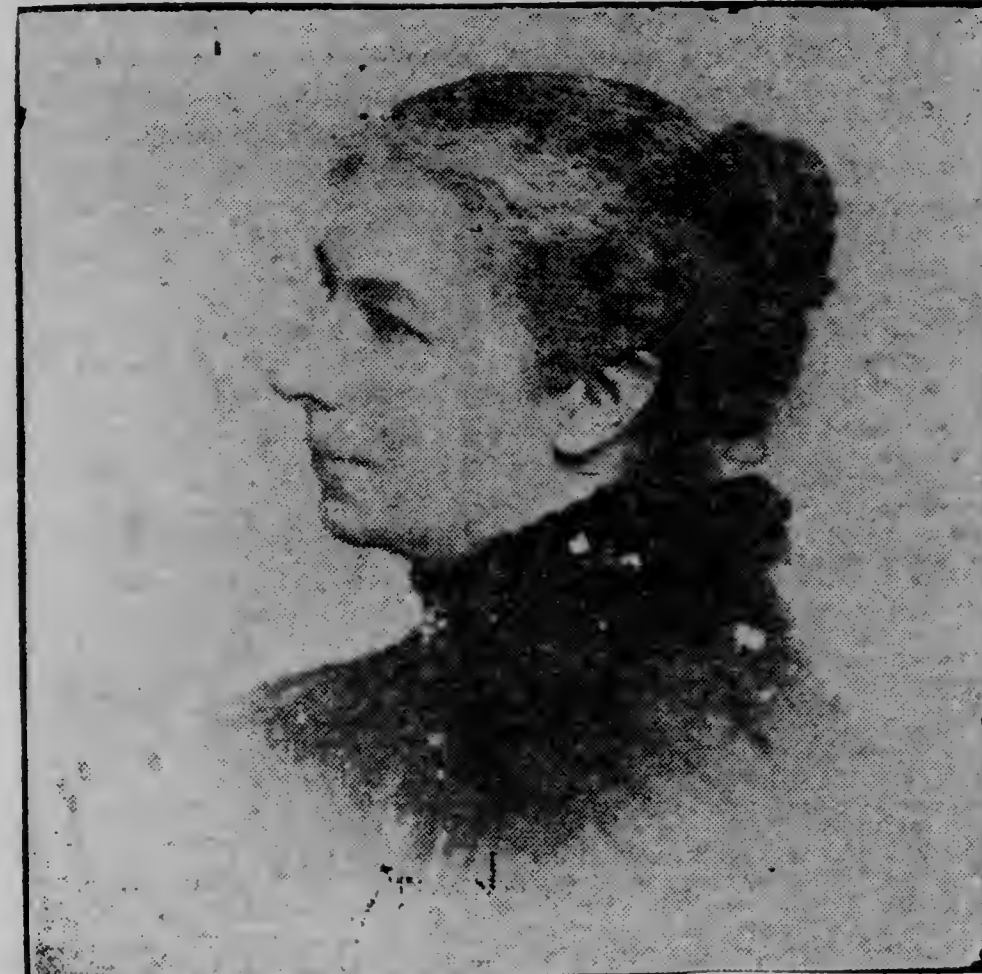

One of the daintiest and most artistic volumes of the season is Emory D. Potter's book, "An Ode to My Pipe," published by the Franklin Printing and Engraving company of Toledo. The author quotes from "The Masquerader" the following lines: "A cigarette is for the trivial moments of life; a cigar for its fulfillments, its pleasant, comfortable, and its real distress—in the solving of questions, the fighting of difficulty—a pipe is man's companion. With this sentiment the man who smokes a pipe will enthusiastically agree, and he cannot fail to be delighted with Potter's book, not only with its ode itself, but with the appropriate illustrations by Ludwig Banz, whose artistic genius is evident on every page."

"The Joy That No Man Taketh From You" is the title of a little book by Elhan Whiting, author of "The World Beautiful," which has just been published by Little, Brown & Co., Boston. In this book Miss Whiting discusses the problem as to whether, after all, here and now in our human life, joy that the world cannot give nor take away may not be achieved by the soul, "so that neither death, nor privation, nor loss, nor disappointment, nor trial in any of its innumerable forms, shall dim this radiance or diminish this energy." Miss Whiting makes an impassioned plea for the practicality as well as the spirituality of the Christian faith. This little book is written with magnetic earnestness, in the most direct and simple way, and is enriched with quotations from poet and mystic, as well as demonstrative argument from the Holy Scriptures. To all who have cared for "The World Beautiful" series, "The Spiritual Significance," "The Life Radiant" and "The Outlook Beautiful," this new book will appeal with a new depth of meaning, as entering even more intimately into everyday experiences.

Every school teacher is confronted with the dual problem of teaching those who are willing and reshaping the characters of the rebellious so that they shall be willing. How this difficulty is to be overcome is suggested in a little book entitled "The Teacher's Problem," issued by the publishers, The Century Company. The book is largely made up of letters from teachers in various parts of the country, who have wrestled with the most adverse conditions in the schoolroom, and have overcome them by tact, patience and strength of character. A sample copy of the book will be sent to any address for nine cents in stamps sent to the educational department, Youth's Companion, Boston, Mass.

A remarkably interesting little book has been issued from publishing house of Joseph M. Anderson, Sacramento, Cal. It is absolutely unique in idea, and most attractive and artistic in appearance. The book is a collection of poems called "San Quentin Days," and is bound to make a sensation, for the poems were written while the author was a convict at San Quentin and certainly great effort will be made to discover his name, which is carefully withheld. Different men of prominence in San Francisco and other parts of the state have been mentioned in connection with it, and past records of many will be investigated for a possible clue to the authorship. The poems, twenty in all, have much merit and indicate the writer to have been a man of culture and undoubted genius. One of the strong features of the book are the illustrations, which are most interesting and artistic in treatment, and add greatly to the attractiveness of this unusual book.

The new holiday book by Maud Howe, author of "Roma Beata," entitled "Two In Italy," is announced for publication by Little, Brown & Co., for October 28th. In this new book, the author continues the delightful Italian studies and sketches which made "Roma Beata" a pronounced holiday success last season. "Two In Italy" will contain six full-

MRS. HUMPHRY WARD.

Mrs. Humphry Ward is ranked by Tolstoy, it has been said, as the greatest living author. Certainly, there is no more interesting and important figure in the literary world today. Publication of her latest work, "Fenwick's Career," the story of a young painter, the scenes set at the time of Irving's first appearance in Shakespearean tragedy, begins in the November Century.

page illustrations from drawings by John Elliott.

Prof. Woodberry's new book, "The Torch," recently brought out by McClure-Phillips, is full of ideas on literature and life that will prove original and perhaps startling to many readers. Those in particular who believe that the preservation of the white race at all costs is absolutely essential to human progress will be struck by his contrary assertion that it is only by its death and disappearance that a well-developed race is able to fulfill its mission of passing on the torch of culture and progress. But this is not in real distress—in the solving of questions, the fighting of difficulty—a pipe is man's companion. With this sentiment the man who smokes a pipe will enthusiastically agree, and he cannot fail to be delighted with Potter's book, not only with its ode itself, but with the appropriate illustrations by Ludwig Banz, whose artistic genius is evident on every page."

"The Joy That No Man Taketh From You" is the title of a little book by Elhan Whiting, author of "The World Beautiful," which has just been published by Little, Brown & Co., Boston. One of the strong features of the book are the illustrations, which are most interesting and artistic in treatment, and add greatly to the attractiveness of this unusual book.

The new holiday book by Maud Howe, author of "Roma Beata," entitled "Two In Italy," is announced for publication by Little, Brown & Co., for October 28th. In this new book, the author continues the delightful Italian studies and sketches which made "Roma Beata" a pronounced holiday success last season. "Two In Italy" will contain six full-

such a divine triumph of the sacrificial idea in history, for it would mean the humanization of mankind. In striking contrast to this is the position taken by Prof. Smith in his recent book, "The Color Line," where he holds that one drop of African blood in the veins means ruin to the individual and miscegenation the destruction of the race.

The Forest and Stream Publishing company, New York, announce for immediate publication "My Sixty Years on the Plains; Trapping, Trading and Indian Fighting," by William T. Hamilton, with illustrations by Charles M. Russell.

Mother and daughter collaborate in "Doubleday and the Dreamspinner," published by Fox Duffield & Co. The little stories about Doubleday and her dream spinning machine are by Mrs. Candace Wheeler, and the pictures in color are by her daughter, Mrs. Dora Wheeler Keith. Mrs. Keith's work as a decorator has long been well known, but she has lately devoted herself more to portrait painting. One of her best-known portraits is of James

"French Pathfinders in North America" is the title of a new book by William Henry Johnson, published by Little, Brown & Co., will publish Oct. 30. It contains a graphic and comprehensive account of the adventures and discoveries of such French discoverers as Champlain, Marquette, Cartier, La Salle, etc. It is in a most attractive and companion volume to the author's previous books, "The World's Discoverers" and "Pioneer Standards in North America."

Fox Duffield & Co. publish this week "Verses for Judy's Day," by Hay Whitney, with pictures in color by Charlotte Harding, and "More Adventures of the Happy Heart Family," pictures and text by Virginia Gerson, author of "The Happy Heart Family," published last fall.

"Yolandia: Maid of Burgundy," by Charlotte Harding, is a story of a Prince and a Burgher Girl. Readers of Mr. Major's first story, "When Knighthood Was in Flower," will remember that it was the story of a princess and a page. Charlotte Weber Ditzler has made the illustrations for "Yolandia," and the book will appear next week with the Macmillan imprint.

"The Garden That I Love" is to appear this fall in a luxurious new edition, with sixteen pictures reproduced in color from paintings by George S. Elgood, R. I. This is the best known of Alfred Austin's works, and its perennial popularity makes it seem likely that this new edition will be a favorite for holiday presents.

Three interesting juveniles will be published this month by Doubleday, Page & Co. The first is "Myths Every Child Should Know," edited by Hamilton Wright Mabie, which is a companion volume to "Poems and Fairy Tales Every Child Should Know." This book will contain those hero tales which have entertained children for over a century. The second is the "Child's Rainy Day Book," by Mary White Talbot, which solves the perplexing problem of so many mothers—what shall we do with the children on a bad day. It contains 100 or more new divinely easy-to-read. The third book in this list is "New Games and Amusements," by Meredith Nugent, which will bring to the child absolutely weary

ANNE WARNER.  
Author of "The Rejuvenation of Aunt Mary."

Russell Lowell, painted for the Harvard club of New York.

Thomas Y. Crowell & Co. announce for immediate publication the eighth volume of their "First Folio" Shakespeare-King Lear. This edition differs from others in being an absolute copy, in modern type, of the original collected edition of 1623. In other words, Shakespeare is here restored to the original spelling, punctuation and phraseology, while suggested readings and other editorial matter have been relegated to the notes. Full glossaries and other editorial matter have been relegated to the notes, which has been spoken of as the "Pocket Variorum."

A new fall book of national importance and likely to attract widespread comment is "The Brothers' War," by John C. Reed, which Little, Brown & Co., Boston, will publish Oct. 30. This book discusses the "Chicureo" question and other causes of the war between the North and the South and contains a valuable information regarding the present condition of the South and the negroes living in it. Mr. Reed is a prominent editor, who has been in Atlanta, Ga., and the author of "The Old and New South," etc.

"The Work of Preaching" is the title of a book by Arthur S. Hoyt of Auburn Theological seminary, which the Macmillan company will issue late in the fall. It discusses the growth of the sermon as a vital process, and emphasizes the sermon as a message, and this message a growth and expression of this life.

A genuine book of humor, with dashes of pathos and much understanding of human nature, is John T. McCutcheon's new volume, "The Mysterious Stranger and Other Cartoons," which is just being brought out by McClure-Phillips. This book contains about 150 drawings, selected from those contributed during the last year or so by Mr. McCutcheon to the Chicago Tribune. It furnishes a delightful pictorial panorama of recent events, which Mr. McCutcheon's ready pencil illustrates with a keenness at the same time. There are series devoted to Teddy, the bear-hunter, and to other political figures of our day; to the St. Louis Fair and its hazy visitors; to the Russian war, to child life, etc. Mr. McCutcheon has been called the "Dooley of the pencil," and this volume justifies his claim to such a title.

Doubleday, Page & Company announce for publication next month "Flashlight in the Jungle," which has been translated from the German of E. B. Schilling by John T. McCutcheon. This book will be illustrated by 320 of the most remarkable live animal photographs taken during the last year or so by Mr. McCutcheon. An interesting compilation has arisen over this book. The exclusive American rights were purchased for a very high price by Doubleday, Page & Company.

In the face of this, a "pirated" edition, under the title "With Flashlight in the Jungle," has just been brought out in this country by Harper & Brothers. This pirated edition contains only a portion of the text and illustrations, and the photographs from the half-tones in the German

In order to avoid any confusion, Doubleday, Page & Company have changed the title to "Flashlight in the Jungle," and will bring out the book as published in Germany, where it has been a great success. The book is Nansen's "Farthest North" and Bismarck's Memories. Sir H. H. Johnston has written the introduction to the book, and Mr. Roosevelt has written the author to express his admiration of the book.

Mr. Schilling is a well-known traveler, hunter and scientist; in 1903 he went for a fourth time through equatorial Africa, with a caravan of 120 carriers and an elaborate photographic outfit suitable for telephotography and flash work; and the result of these expeditions show the reader incredibly clear and intimate details of the wild life of lions, elephants, rhinoceroses, hippopotami, giraffes, hyenas, zebras and almost every other important beast and bird of the region.

Very interesting indeed is it to know that Lydia Ann Johnson, who, together with Nathan J. Cuffee, has written "Lords of the Soil," is a direct descendant of the discoverer of "Doubleday" or the ship "fame." From her great grandmother, who was 15 years old at the time of the revolution, she gained much information concerning colonial times. Her great-grandfather, on the maternal side, was an officer in the English army, serving in the French and Indian wars, and was the Israel Putnam of Lake Champlain and in the Canadian. This great-grandfather, who was captured by the Indians, was forced to run the gauntlet, and though terribly maimed, was not killed. He was awarded the gauntlet belt, which rendered the wearer immune from savage attacks. What wonder, with such blood in her veins, that Mrs. Johnson is able to write one of the most fascinating stories published since the days of J. Fenimore Cooper.

"French Pathfinders in North America" is the title of a new book by William Henry Johnson, published by Little, Brown & Co., will publish Oct. 30. It contains a graphic and comprehensive account of the adventures and discoveries of such French discoverers as Champlain, Marquette, Cartier, La Salle, etc. It is in a most attractive and companion volume to the author's previous books, "The World's Discoverers" and "Pioneer Standards in North America."

Fox Duffield & Co. publish this week "Verses for Judy's Day," by Hay Whitney, with pictures in color by Charlotte Harding, and "More Adventures of the Happy Heart Family," pictures and text by Virginia Gerson, author of "The Happy Heart Family," published last fall.

"Yolandia: Maid of Burgundy," by Charlotte Harding, is a story of a Prince and a Burgher Girl. Readers of Mr. Major's first story, "When Knighthood Was in Flower," will remember that it was the story of a princess and a page. Charlotte Weber Ditzler has made the illustrations for "Yolandia," and the book will appear next week with the Macmillan imprint.

"The Garden That I Love" is to appear this fall in a luxurious new edition, with sixteen pictures reproduced in color from paintings by George S. Elgood, R. I. This is the best known of Alfred Austin's works, and its perennial popularity makes it seem likely that this new edition will be a favorite for holiday presents.

Your Home will be sweet, clean and free from disagreeable odors. The most delicate laces or woollens may safely be washed with American Family Soap. Every atom cleanses.

Send for complete list of the many valuable premiums given for American Family Soap Wrappers. Address Premium Dept., 360 No. Water St., Chicago, Ill.

JAMES S. KIRK & COMPANY.

of conventional games new things to divert his mind. This includes the wonderful soap-bubble tricks, which Mr. Nugent devised, and which have attracted so much attention. It will also tell how to sail yacht races in the clouds, make amateur engines, and a thousand other things.

Booth Tarkington's novel, "The Conquest of Canaan," which will complete serial publication in the December number of Harper's Magazine, is soon to be issued in book form by the Harpers. This novel, which all are agreed is a masterpiece of the author's best and strongest work, has had the unusual distinction of being reviewed at length in several of the leading newspapers before its serial publication was half completed.

The Argonaut for Oct. 2 contains, among many noteworthy features, another one of Jerome Hart's strikingly original articles; a highly interesting letter from "R. E. H." in Tokio; a one-act play entitled "While Waiting for Harriet," by Kathleen Thompson; a description of a trip through the United States of America, and an amusing translation from the Spanish; Josephine Hart Phelps reviews Eleanor Roosevelt in her performance of Browning's "In a Balcony," and Porter Garner writes of "Othello," Harold Bauer and a new Carpent.

The political cartoon has become a great institution of all our large cities. It started in New York, and an illustrated article by J. R. Schmidt in the current number of Leslie's Weekly, describing a shrewd Cincinnati politician's vote-getting scheme, shows how it is

extending through the West. The resumption of Eleanor Franklin's special letters from the Orient has given satisfaction to her many readers, and the continued account of her visit to Korea (with the accompanying photographs) is one of the features of this issue. Noteworthy also are the pictures of scenes connected with the recent national convention of bankers at Washington; the front drawing by H. G. Dart, of a fight with a fire in New York's tenement district; photographs of incidents at the finish of the important Vanderbilt cup races for automobiles on Long Island; views showing President Roosevelt's visit to Richmond and the popular ovation accorded him there; snapshots of notable animals in the Cincinnati Zoo, and the pictorial attractions of the news and amateur photo contest pages.

The interest aroused by the publication in Harper's Weekly of Charles W. Tyler's impartial exposition of American attitude toward the direction of Porto Rico's affairs will be intensified by the third article of the series, which appears in the October 28 issue of the Weekly. In this installment of his story, Mr. Tyler tells of the effect of some of the unjust laws that we have imposed upon the Porto-Ricans. Walter Camp, the well-known authority on amateur sport, draws attention to a serious evil in football management. A special section is devoted to the wonderful story of Chicago's commercial development. Sir Henry Irving's career and influence are the subject of a timely article, and the events of the day in sport, politics, literature, and the drama are presented in picture and in text.

from one meeting place to another during the canvass, while hard cider, often liberally strengthened by whisky, became the campaign drink. Tyler was at first called Young Hickory, afterwards Accidental President, being the first vice president to succeed to the presidential office by the death of the president.

Polly's only nickname was Young Hickory, he having been born, as Jackson was, in North Carolina, and living in Tennessee, as did Jackson. Taylor was Old Rough and Ready, Old Zack and Old Buena Vista, all these names being bestowed on him by the soldiers under his command in the Mexican war. Fillmore was called the Louis Philippe of America from a striking resemblance he bore in face and figure to the most courtly French King of the last century. Pierce was called Purse, a mispronunciation of his name, and Buchanan was familiarly designated as Old P. F., Old Public Functionary, a name adapted from an allusion to himself in a message to congress. He was also the Old Bachelor, for he never married. During the bitter canvass which preceded his election many opprobrious sobriquets were given him, and many more were bestowed during the period of hard feeling in the Civil war, but all are now forgotten. The people, Sir Veto was a congressional nickname bestowed on Johnson by representatives in the house on account of the unusual number of bills he refused to sign. It never obtained currency among the people. In Tennessee Johnson was called Old Andy. A number of Grant's nicknames arose from his initials. Unconditional Surrender probably attained the widest popularity. The press of his day manufactured not a few U. S. sobriquets, like "Uncle Sam's Strategist," "Uncle Sam's Stalwart" and so on. The soldiers called him Old Three Stars, and he was also styled Hero of Appomattox. Garfield did not, of course, become the Martyr President until after his tragic death. He also styled the President, for President, from his early calling. Among fashionable circles in New York, Arthur was Old Chat, and who styled the Man of Destiny from his rapid rise in politics, and Benjamin Harrison the Son of His Grandfather, a nickname which McKinley Bill, while Roosevelt is in certain circles known as Teddy. In general, the sobriquets of our Presidents have been good-humored, and indicate respect and affection, rather than the contrary.

An Awful Cough Cured. "Two years ago my little girl had a touch of pneumonia which left her with an awful cough. She had spells of coughing, just like one with the whooping cough and some thought she would get well and some thought she would not. I bought a bottle of Chamberlain's Cough Remedy, which acted like a charm. She stopped coughing, and got stout and fat," writes Mrs. Ora Bussard, Brainerd, Minn. This remedy is for sale by all leading druggists.

Vacation Days. Low rates are in effect daily during September, via the Minneapolis & St. Louis R. R. to Denver, Colorado, and Salt Lake City. St. Paul, Minneapolis, Duluth and other Northern Minnesota summer tourist resorts. Tickets limited for return to October 31. Don't fail to consult agents before making your trip, or address J. B. Curtis, G. F. & T. A. Minneapolis, Minn.

## DISEASES OF MEN

Advice from an office practice of 30 years: Don't neglect trifles. A white or brown sediment in the urine, a little weakness or pain in the back, may be the first symptom of a fatal disease. Don't doctor yourself unless you are tired of life. Employ a good specialist near home, not 100 miles away, and don't waste money in traveling. The best are the cheapest in the end. You live but once and life is short at best, have cured thousands of NEURALGIC MEN who were mental and physical wrecks from sexual diseases, and have the records to prove it. Remember, I give a legal written guarantee to cure in all cases or refund the money.

I have been in practice as a specialist in Minnesota for twenty-three years, and have treated and cured more cases than all other specialists combined, notwithstanding the fact that I have no capital, and am a poor man. My office is at 26 West Superior St., Duluth, Minn. I have cured thousands of NEURALGIC MEN who were mental and physical wrecks from sexual diseases, and have the records to prove it. Remember, I give a legal written guarantee to cure in all cases or refund the money.

SYMPHILIS, Gonorrhea, Eleet, Pimples, Blisters, Ulcers, Sores in the Mouth or Throat, Unhealthy Discharges, Skin Affections, Falling of the Hair and Constitutional Debility. POISONED SPECIES cured by the new remedies with never-failing success.

YOUNG MEN suffering from the effects of Indiscretion or Excess, causing Nervous Debility, Mental Weakness, Vital Losses, Catarrh, Indigestion, Consumption, Blisters, Ringing in Ears, Palpitation of Heart, Despondency, Lost Manhood, Unfitness to Marry, Weak Back, Rheumatic Pains, Kidney and Bladder Troubles, are guaranteed a safe and speedy cure by remedies prepared and dispensed by himself. Charges always moderate. No exposure. Call or write.

MIDDLE-AGED AND OLD MEN who are the victims of Prostatic, Urinary, Kidney or Bladder Troubles, Syphilis or Mercurial Poisoning, Lost Vitality, Impotency, Debility, Immature Vigor, Premature Decline from Recent Excesses, Sexual Worry or Overwork, Rheumatism, Eczema or Salt Rheum, Piles, Ulcers, Old Sores, Coughs, Asthma, Hay Fever, Catarrh of the Nose, Liver Troubles, Loss of Amition, unfit to enjoy either pleasure or business, are cured for life at this office with the following remedies:

ALL forms of Female Weakness, Debility, Pain in the Back and Loins, Ovarian and Womb Troubles, speedily and permanently cured, no exposure, consultation free. If in trouble, write or call. Delays are dangerous. Medicine sent anywhere by mail or express. Charges moderate. Office hours, 9 a. m. to 5 p. m. Sundays, 10 a. m. to 12 m.

DULUTH MEDICAL CO.  
Rooms 3 and 4, No. 26 West Superior St. DULUTH, MINN.

## The New County Poorhouse

Will Not Be Ready Next Month As Was Expected.

Will Be Equal of Any Other In the State.

Through unavoidable delay, because of a scarcity of plasterers to finish the interior work of the new county poor house, the big concrete structure that has been building since May last will not be ready for occupancy next month, as first expected. As near as the poor commission can now figure the building will be ready for inmates by Dec. 1, or, at least, by Christmas.

The accompanying pictures, taken within the last few days, represent the old poor house building of St. Louis county, with the superintendent's cottage, and also the new structure which has been planned and carried out by the present board of poor commissioners.

The old poor house, a frame structure, was built in 1872, and might well be described today as an old shack, a veritable fire-trap. Adequate in its day to handle the paupers of a county in its infancy, the building at the present time is crowded beyond the bounds of decency, considering the size and wealth of this county, fifty paupers being housed therein.

Realizing this overcrowded condition, the poor commission, last year, took energetic steps to bring about a remedy, and the new poor house is the satisfactory result.

Some years ago a small addition, not seen in the picture because it is at the rear, was built to the original poor house. The superintendent's cottage, seen at the left of the old building, was erected some seven or eight years ago. In the left background can be seen a portion of the new building, thus giving a good idea as to its location as regards the site of the old buildings.

The members of the poor commission were very well pleased with the new building. The contract price of the building, complete, but unfurnished, is \$54,000. The commissioners, however, declare that they have a \$40,000 structure in real value.

Built of concrete blocks, manufactured on the ground, the new building is unique in that it is the first public structure of any size in this part of the state to be built of concrete.

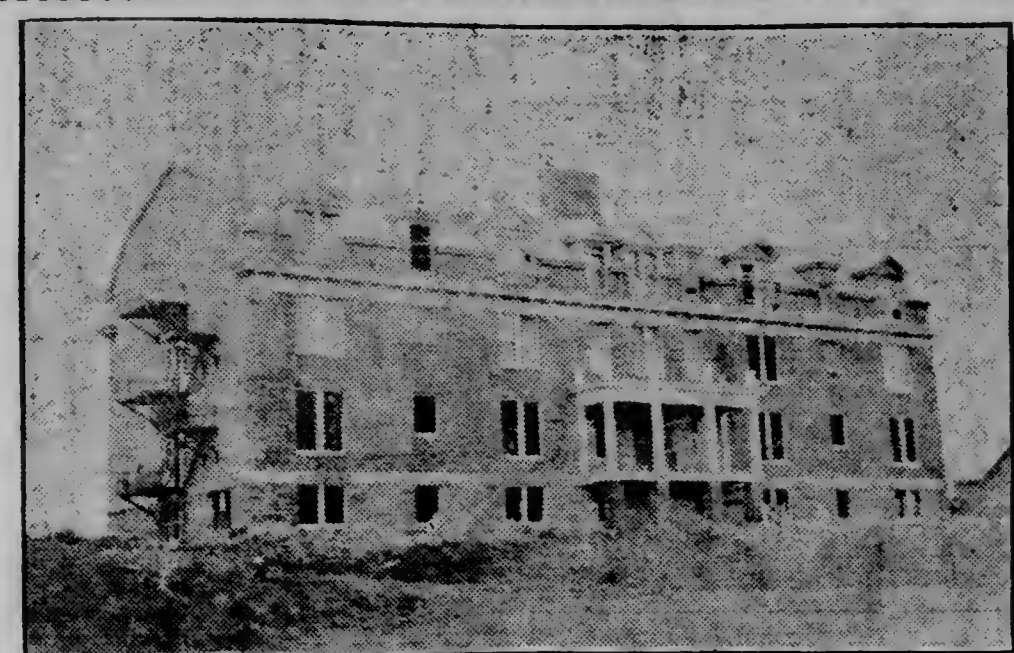

In selecting this building material, the commissioners were guided by the idea of economy and durability, as well as with an eye to the architectural lines. That they have been successful is the general sentiment of all that have had the opportunity of examining the new building.

Standing as it does on a rise of ground, overlooking, and back several hundred feet from the Rice Lake road, the general impression given is that of a sandstone structure, plain, but comfortable looking in design, and carrying with it the idea of "plenty of room."

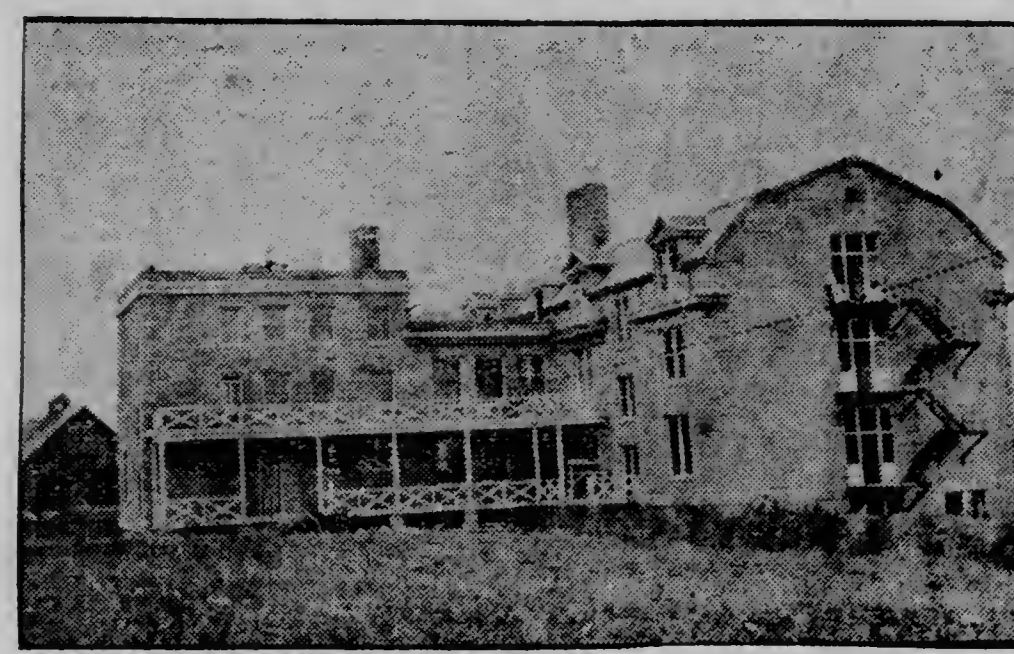

The new poorhouse is, to quote its general dimensions, 125 feet long by 50 feet wide, and three stories high, with a basement, the windows of which are well above ground.

The building is really in the shape of the capital letter "T," the other portion, a wing, extending out at right angles from the center of the main building, at the rear. The wing is 64 by 30 feet in dimensions and three stories high in part.

The rear of this wing, all three floors, are for the occupancy of the help employed at the poor farm, and it is separated completely from the rest of the

FRONT VIEW OF NEW CONCRETE BLOCK POORHOUSE.

VIEW SHOWING REAR AND WING OF NEW CONCRETE BLOCK POORHOUSE.

VIEW OF PRESENT POORHOUSE SHOWING LOCATION OF NEW BUILDING.

building, by a solid wall. In the inner portion of the wing, first floor, is the big general dining room, while just above it is the women's department, a suite of rooms, with bath, room and pleasantly located.

In the main building is situated the superintendent's office, at the left of the entrance are the large well lighted rooms for the inmates with several bath and toilet rooms. Each room usually holds six single beds. The second and third floors are similarly arranged, one of the features being private rooms for use in case of serious illness of an inmate, when it becomes necessary to isolate him from the rest.

Off the dining room are located the butler's pantry, a good sized cold storage or refrigerator room, a roomy kitchen, and a private dining room for the help employed on the farm.

In the basement is the steamheating plant, the laundry and coal room, the rear, and two large reading or smoking rooms in the front.

Other interesting features about the new poorhouse are the white second floor balcony running along the rear of the main building and around the wing, and the ample provisions made for fire escapes, at either end of the building.

In the angle of the building, on the north side is being constructed a windmill station for pumping the water for the building and the farm. A small dynamo is to be installed to run the pump when the wind mill is not working.

No known detail has been omitted in the construction of the new building to make it equal to any vessel in the state, and the result is one that the taxpayers will undoubtedly view with no little pride.

The new poorhouse was designed by Architect John De Waard, and the building contract has been in the hands of John W. Hilliard.

ing rooms in the front.

## Get Well — Keep Well

Cotton Underwear Preferable to Silk or Woolen—Linen Underwear Most Hygienic and Comfortable—A Porous Garment Protects Better From Heat and Cold Than a Garment of Solid Material—Woolen Underwear Makes Restless Children Up-to-Date Medical Men Advocate Linen-Mesh Underwear.

BY EDWARD B. WARMAN, (Conductor of the "Get Well-Keep Well" Club, Author of "Scientific Physical Training.")

After careful investigation, I find I must class silk as I did wool, a fabric not to be recommended as underwear. However, has one advantage over wool, it can be thoroughly cleansed by washing. Silk, too, is a non-conductor of heat; it also retains the moisture to a degree that is detrimental to the wearer. It has, indeed, many things in common with wool.

The protective feature of any underwear is always dependent upon its air-holding qualities (its porosity). At the same time having the power of readily conducting moisture. The silken garment is too closely woven and is lacking in the moisture-conducting quality; hence it retains the heat of the body, to a great degree, as long as the wearer does not perspire, but when perspiration takes place and the underwear becomes damp, on account of its evaporative quality it then becomes a conductor of heat to such an extent as to be detrimental. The silk, in the meantime, is slow to dry and the rapid heat elimination is thus prolonged; hence the silk which under normal conditions is a good protector, becomes the time being the exact opposite. Silk is also a good insulator, but only that portion of the body need be insulated which forms a direct circuit with the earth—the feet. (An erroneous theory prevails that we get our magnetic strength from the feet.)

When silk is worn next to the body, and the person wearing it is exposed to a draught while the silk holds moisture, a rapid abstraction of heat takes place, the body becomes chilled and the usual result, a "cold," is likely to follow. It is a matter of daily observation that those who wear wool or silk are much more prone to "catch cold" than those who wear other fabrics—cotton or linen.

COTTON UNDERWEAR.

Cotton underwear does not meet all the requirements, yet it is more preferable to either wool or silk. While it does not give up moisture as freely as it should to make it purely a hygienic underwear, it is a much better absorber than either wool or silk and, therefore, is more recommended in preference to either—for winter as well as for summer. The fact that you can wear it without overheating with cotton as with wool or silk is very greatly in its favor; for overheating has as a result of it means reaction and reaction under such conditions results in less resisting power.

I am strongly of the opinion that better than wool, better than silk, better than cotton, is the health of the human body is concerned, would be no underwear at all. But, in consequence of the universal use of underwear, caused by the body coming in contact with the clothing which admits of no free air, I can truly say, after years of experience, better than any of them is wearing cotton underwear, producing the best physical condition, is the wearing of linen mesh, summer and winter.

It resolves itself into this—what is most needed and most to be commended in the way of underwear is a fabric that will take up the moisture most quickly and give it up most rapidly. What is it? Linen.

LINEN UNDERWEAR.

You need take no one's word for this, but can satisfy yourself as to the correctness of my theory by making the following tests, viz.: (1) Take a piece each of woolen, silken, cotton and linen fabric and, after wetting them thoroughly, place them in the sun or air to dry. Note the difference in the time required and the way each dries. (2) Wash the woolen, silken, cotton and linen, respectively, in lieu of the ordinary towel, and note the difference in the time required to dry.

The proofs I these two tests are conclusive.

Any porous fabric, when used as undergarments, absorb and evaporate the moisture of the body. If you want to get health and keep healthy you will take the advice of that greatest of all law-givers and hygienists, Moses, whose laws provided especially for cleanliness and who recognized the garments, and no wool shall come upon them. They shall not gird themselves with anything that causeth sweat." (Ezekiel 44:17, 18.)

It will thus be seen that the wearing of linen is not a new idea. It is the oldest known, antedating as it does, the Christian era. The necessity, or improvement is in its form (meshed) and preparation.

Any porous fabric, of whatever material, is warmer in winter and cooler in summer than the same fabric in close or solid material. Even a loosely knitted woolen shawl will keep for much warmer than a smooth one containing the same amount of wool.

The protective feature of any clothing depends upon its air-holding capacity or porosity. A calm layer of air is the best non-conductor of heat; hence, the wearing of underwear of a porous garment will prevent the rapid loss of heat which takes place when plain, smooth fabrics are worn next to the body.

Linen when first put on may give the impression of chilliness, but this impression is short-lived, as it passes off almost immediately and leaves the skin aglow with an indescribable feeling, moreover, it is absolutely non-irritating and for those to whom wool is a torment, linen is a blessing. Still another thing in its favor is the fact that it is adapted to all climates—from the coldest Russia to hottest India. Here we have an indisputable corroborative testimony from those climate extremes; a noted writer (Mr. L. Haggard) claims that very few soldiers wear anything but linen underwear next to the body, and foreigners who have been accustomed to the warm climates are found to abandon them in Russia. On the other hand, our well-known and much-loved Dr. D. S. Shack when in Cairo, Egypt, wrote to a friend: "I find linen mesh

underwear the most delightful and satisfactory for this climate."

You can change your heavy woolen underwear to linen mesh in midwinter and need have no fear of "catching cold."

The sooner a child is put into linen mesh underclothing, the better for its health and comfort. Much of the restlessness for which children are blamed is the fault of the itchy, uncomfortable and absolutely unhygienic underclothing which they are made to wear.

All authorities on matters of hygiene fully agree that the absorption as well as the elimination of moisture takes place proportionately quicker with linen than with wool, silk or cotton; therefore, the consensus of opinion is in favor of linen.

Let me give you the opinion of two old-liners. Hippocrates, the father of medicine, said: "Pure linen should be worn next to the skin." Apuleius, an old Roman author: "Wool, the secretion of a sluggish body, was deemed to be profane attire even in the times of Orpheus and Pythagoras; but flax, that cleanest production of the field, is used for the inner clothing of man."

If your family physician objects to the use of linen as underwear (possibly he has not given the subject much serious thought), call his attention to the decision rendered by eminent Dr. Dis, three of whom I take pleasure in quoting:

"I feel that I owe an apology to every man, woman and child in my practice, upon whom I was instrumental in placing woolen underwear, whether in health or disease."—L. L. D. Judd, to the Climatological association of New York City.

"For 15 years I have been fighting the battle of linen against every kind of prejudice and opposition. I have induced people of more than 80 years of age to make the change from flannel (wool) to linen, and never yet saw any of the results so dreaded. It may be safely taken for granted that anyone who has honestly tried linen underwear will keep to it for the rest of his days."—Dr. J. L. Milton, senior surgeon, St. John's hospital, London, England.

"I am not arguing from theory, but from practice—practice in the case of myself, my child, my brother, my friends and my patients. I have put some seventy patients in linen mesh underwear, and in not one single instance have I had cause to regret it or had a word of complaint from a patient. They invariably declare they would not return to wool for anything. They wear fewer wrinkles, lighter clothes and, what is more, they never yet saw any of the results so dreaded. I have changed the underwear of children 7, 8 and 9 years old, and of men above on our coldest winter days, and so far without bad effect."—Dr. C. P. Ambler, Asheville, N. C., to medical society.

Thus it will be seen that the medical men of today, the up-to-date medical men, are abandoning the woolen theory as they have abandoned blue mass, calomel and other vile drugs. Eventually the universal verdict will be for linen underwear.

any of the results so dreaded. I have changed the underwear of children 7, 8 and 9 years old, and of men above on our coldest winter days, and so far without bad effect."—Dr. C. P. Ambler, Asheville, N. C., to medical society.

Thus it will be seen that the medical men of today, the up-to-date medical men, are abandoning the woolen theory as they have abandoned blue mass, calomel and other vile drugs. Eventually the universal verdict will be for linen underwear.

## At The Lyceum

**Daniel Sully In "Our Pastor" Monday Evening—Britt-Nelson Fight Pictures Tuesday and Wednesday Afternoons and Evenings—Adelaide Thurston In "The Triumph of Betty" on Thursday—"The School Girl" Friday and Saturday.**

Daniel Sully, who has been a great favorite with the Duluth people since he made his hit in "The Corner Grocery" in 1883, comes to the Lyceum Monday evening in a new Western play, "Our Pastor."

This play was written for Mr. Sully by Jerry Shepherd and is said to be for him just as many excellent opportunities as "The Corner Grocery," which made a big hit with Mr. Sully's clientele. In "Our Pastor," as in "The Corner Grocery," the star wears robes of a Catholic clergyman. The scenes are laid in Boone City, Idaho, and the action of the piece is said to be most lively. Mr. Sully's engagement is for one night only.

**BRITT-NELSON FIGHT.**  
Moving Pictures of It Will Be Given at Lyceum.

Moving pictures come and go, and each successive season sees a new series of motion films, each advertised as better than anything that has preceded it. This assertion is, as a rule, quite correct, for the advance in moving photography has been rapid and each year sees finer films than any yet displayed.

The climax and the acme, however, seem to have been reached in the Britt-Nelson fight pictures. These are by long odds the best, clearest, the clearest and the prettiest motion pictures yet taken in any field of endeavor. They are said to lack nothing, and they have everything that could be required. Details are accurate, figures seem to veritably move, and the action and the clearness is both perfect and artistic. These pictures surpass anything ever shown, and it is doubtful if, under the most favorable circumstance, a better set of films will ever be obtained.

J. W. Coffroth, president of the Colma, Cal., Athletic club, where the fight occurred, is the owner of the copyrighted films, and Lou M. Houseman, Chicago, sporting writer, has acquired the exclusive rights to the pictures in the Middle West, and will present them at the Lyceum Tuesday and Wednesday, both afternoon and evening.

**ADELAIDE THURSTON.**

Former Duluth Girl to Appear Here Thursday Evening.

Adelaide Thurston formerly lived in Duluth, and her annual engagement at the Lyceum theater is invariably one of the dramatic events of the year for local theater-goers. She is coming to the Lyceum in a new play by W. A. Tremayne and Irving L. Hall, entitled, "The Triumph of Betty."

The story concerns some incidents in the life of a clever, breezy American girl, and is said to offer her the best chances to display that histrionic ability which induced Charles Frohman to give her the role of Babbie in "The

Little Minister," then "Sweet Clover," "Polly Primrose" or any of her earlier successes.

Manager Hope is said to have surrounded the star with a very capable company, and special scenery is carried.

**THE "SCHOOL GIRL"**

Comes to Lyceum for Two Nights and a Matinee.

Edna May's biggest success, "The School Girl," will be given at the Lyceum Friday and Saturday evenings, Nov. 3 and 4. There will be a matinee Saturday afternoon.

The engagement of "The School Girl," will undoubtedly be of great interest to local theater-goers, for the piece was considered one of Broadway's biggest hits last season. F. Ray Comstock is bringing the original production to the Lyceum theater. The company is a large one and the cast contains many well known names.

"The School Girl" is the work of Henry Hamilton, who wrote the book, and Leslie Stuart, the composer of "Flora," "The Duchess of Dantzic," and "The School Girl." It is said that they quarreled so seriously over a girl in their school days that they did not speak to each other until just prior to the writing of "The School Girl." One day they happened to meet in a fashionable club in London, and a reconciliation came about with the result that they decided to collaborate on a musical play, and "The School Girl" was the result. The company has been receiving excellent notices everywhere this season.

**Coming to Duluth.**

A strong dramatization of Winston Churchill's novel, "The Crossing," will be presented at the Lyceum by a competent company, Monday evening, Nov. 6.

The Biblical drama, "The Holy City," will be given at the Lyceum, Nov. 10.

The farewell appearance in Duluth of Rose Melville as Sis Hopkins will be made at the Lyceum, Nov. 11. Next season Miss Melville will rest when she returns to the stage it will be in a new play.

The itinerary of Madame Mojeska's farewell tour will include Duluth. The famous Polish actress will come to the Lyceum theater, Nov. 24, and local theater-goers will decide whether to see her in "Mary Stuart," "Macbeth," or "Much Ado About Nothing."

Minor's Merry Burlesquers will follow the London Gaiety Girls at the Metropolitan. The company includes Emmmonds, Emerson and Emmmonds, Emily Niece, Billy Noble, Gramlich and Lucy, La Toy Brothers, Marie Barrison and the Gollin Girls.

Richard Carle's "The Tenderfoot" will be presented at the Lyceum on the afternoon and evening of Nov. 25.

## Gossip of the Rialto

**No Lack of Shakespeare In New York This Season—Denman Thompson's Seventy-Second Birthday—Richard Golden Returns to Vaudeville.**

New York is to have plenty of Shakespeare this season if all goes right. No less than four companies will render the works of the great master in four different and distinct styles. Julia Marlowe and E. H. Sothern began their Shakespearean revival at the Knickerbocker theater last week with "The Taming of the Shrew." The audiences on the initial night and those subsequent performances afforded a very complete refutation of the idea that Shakespeare will not pay in these days.

The suggestion of Marie Cahill that chorus girls should wear long skirts, with high necks and long sleeves, and scanty approval along Broadway. Chorus girls, manager and theater-goer, all join in the chorus of protest. The idea of the chorus girl contingent on the subject is thus expressed by one of them:

"What, wear high-necked dresses and long skirts, all the time? Well, I guess not. Why the revelations of the long skirt are a whole lot more suggestive than tights. It seems to me that this crusade to drape the female figure is cutting to the puritan mind, which sees evil, where evil does not exist."

Richard Golden, after his experience with the "End Samaritan," has decided to give up the legitimate and go back to vaudeville.

Maude Adams appeared in Washington last week in J. M. Barrie's "Peter Pan," and therein made the most radical departure of her very interesting career. This play is really an English extravaganza, with spectacular settings, faries, animals, and a whole lot of things generally. But the seriousness of its principal characters it would pass for such a play as "The Wizard of Oz," or "Alice in Wonderland." Miss Adams, as Peter Pan, the boy who would not grow up, is said to have entered into the childish spirit of the play with a dash of her own childhood, and her audiences considerably by the strange departure in her dress and early training, and combined with her undoubted grace, she has an agreeable voice.

Denman Thompson, who celebrated his seventy-second birthday last week, Mr. Thompson is as hale and hearty as a man of half his years, and when asked as to the truth of the report that he soon was to retire, said, with considerable vehemence: "Well, I am not retiring yet, and my present

ADELAIDE THURSTON, Coming to Lyceum Next Thursday.

## At The Metropolitan

**London Gaiety Girls Next Week In "Way Out West," "Mixing Things Up" and First-Class Specialties.**

A St. Louis critic has declared that only the girls in the ill-fated "Mr. Bluebird" company, which was caught in the tropics theater fire, compare with Clip W. Grant's London Gaiety Girls for good looks and the other critics on the burlesque wheel seem to have agreed with him.

The Duluth critics will have an opportunity to judge next week, as the Gaiety Girls will open an engagement of five nights and three matinees at the Metropolitan Monday evening. They will present a burlesque on "Way Out West" called "Way Out West."

## The New Bijou

**Handsome New Vaudeville House on East Superior Street to Be Opened Monday Evening.**

The new Bijou theater will be opened to the public amid a blaze of glory Monday evening, when the home of vaudeville will be shifted from the narrow little place on East Superior street to the handsome new temple of amusement next door.

The new vaudeville house is architecturally a gem, and inside, is very tasteful. The walls and finishing is in a brilliant but not gaudy red and the entire effect is very good. The facade and lobby are very artistic, too, and many incandescent lights will make the new Bijou brilliant next week.

Comfortable opera chairs have been installed and every precaution taken to prevent fire and to provide proper ventilation. The price of admission will be the same as it always has been at the less pretentious place, 10 cents. The opening bill in the new house, as said to all vaudeville houses, will be the Four Imperial Russians, whirlwind dancers. This act comes direct from the big vaudeville houses of the East and is considered a top-notch.

There will be six other first-class vaudeville acts, each of which is said to be worth the price of admission. The moving pictures will reveal the adventures of the "Boarding School Girls" and are said to be the best that have been seen yet. The scenes are said to be of the highest quality and the film one of Edison's.

There will be matinees every day during the week, except Monday. The matinees will begin at 2:30 and the evening performances at 8 and 9:30 p. m. The admission will be, as has been stated, 10 cents to any seat in the house.

She sang "Sally in Our Alley" with tact and effect. But picture Juliet performing satirical verses with each leg thrust into a pillow, picture L'Alouin in a buckskin suit, or Babbie in pajamas, for Maude Adams competing with Lotta Faust or the Lady Lorraine in burlesque comedy. Miss Adams worked hard, but with evident enthusiasm. She cast aside dramatic dignity as though she thoroughly enjoyed the idea of being a child again and delighted to lose herself in the personality of this British Tom Sawyer, the roving leader of a band of homeless boys; and what little pathos was given her to

portray was expressed with tenderness and feeling. Whether it is worthy of her must resolve for himself. The whole charm of the performance is in the exploitation of a fairy story in a way that strikes the fancy of the audience. Perhaps that is the reason one hesitates to assign it a place.

"The Lightning Conductor," a novel, has been dramatized into a 3-act comedy by Harry B. Smith, and will be produced by J. Fred and Charles Zimmerman and

Henry W. Savage's English Grand Opera company begins a two weeks engagement at the Tremont theater, Boston on Oct. 30. In addition to the repertoire of operas Wagner's great tenor drama "The Valkyrie" will be given.

Raymond Hitchcock of the "Easy Dawson" company, during his last trip through Europe spent several weeks in Scotland, where he climbed the "bonny crags" daily. One particular peak seemed almost impossible of ascent, and finally when the actor, accompanied by his Scotch guide, reached the beautiful view, for a moment he was fully compensated for his long and arduous journey.

"You can see a lung way far here," he said, "and you can see Ireland!" "Can you see Ireland?" questioned the actor. "You can, and then on a clear day you can see England."

"Well," persisted the comedian, determined to find out just how far the vista extended. "Can you see any further than this?" "No, no," replied the guide solemnly. "You can see the moon."

That "the play's the thing" is being pretty well illustrated in the case of "Checkers." For the first two years of its life "Checkers" has been played by a star. It became the opinion of many that it was the play, that drew the crowds to the theater. Considerable controversy was occasioned by the theory and when the play started out this season without the star, and with a comparatively unknown actress in his place, the outcome was manifested as to the outcome. Since the season began "Checkers" has appeared in a few cities in which it had played twice before with the star, and

Harry G. Sommers. The important roles will be played by Herbert Kelley and Etta Shannon.

There are to be two big benefits in New York soon, one for Henry C. Barnaby and William H. Macdonald of the old Bostonian forces, and the other for the family of the late A. M. Palmer. Since injuring his knee last winter Mr. Barnaby has been unable to follow his profession. Mr. Macdonald has had few profitable engagements lately, and he is to share with his old partner.

Olga Nethersole will soon begin her American tour, after an absence of four years. It will be interesting to note the course of this English actress on her return. When she formerly appeared in this country she was a rather calculating and not always judicious advertiser. She rather courted sensational stories concerning her acting. Her Carmen kiss and her Sapho realism are especially recalled. But she has received some hard knocks in her own country since then, has passed through several serious illnesses, and perhaps she has sobered some. She is undoubtedly a forceful actress, strong in feeling and accomplished in the technique of acting. She will be French.

Henrietta Cross, a new play, "Mary, Mary, Quite Contrary," is said to be very much like an old and popular comedy called "The Scrup of 1794."

Wilton Lackawanna made a great impression as a public speaker in California. His addresses to women's clubs, dramatic schools and other assemblies have been given columns of space in the Western papers.

Grace George, of the two English leading men in "The Marriage of William Ashby," H. Reeves Smith and Den Webster, both of whom have excellent reputations here and abroad.

James K. Hackett and Mary Manning have reason to congratulate themselves. The "Walls of Jericho," despite some noisy flings from several dramatic critics, has proved the play of the year so far.

The most remarkable success of the season is a play called "The Clanman," a play from the book of that name by the Rev. Thomas Dixon, Jr. The South has gone crazy over it. It is a play of scenes in the color question are dangerously sentimental. It played to over \$2,000 in a week of night stands in Virginia.

George C. Tyler has received the manuscript of Alfred Sutor's new play. They say the author of "The Walls of Jericho" has written a remarkably strong play. Miss Jeffrey will come back to America early in the new year for its production and later will do it in London under the management of the Charles Frohman-George C. Tyler International company.

R. C. Carlton's "Public Opinion," a farcical play, has secured a high success in London. The Daily Chronicle says of it: "Nothing that Mr. Carlton writes can help being bright. 'Public Opinion' is certainly his best work."

When Dustin Farnum and "The Virginian" appeared last season, one of the most impressive performances in the history of the theater was given. It was Mr. Post's success in this role that led the wif of Duke to elevate him from the ranks and feature him in "The Heir to the Throne," in which he is to be seen before long at the Wild Wood theater.

The oldest playhouse in America is the Walnut street theater, in Philadelphia, built in 1808. It has just been remodeled and an historical note in a booklet just published states that the theater was a plundering solicitor to ask for help in getting a check from a business man. There is an engaging young actress concerned. There is Lord Percy Algon, a breezy young man, there is the actual brother who is trying the case and whose sister is a member of the jury. The judge, an eminent physician, and last but not least the solicitor himself, who comes out to have committed to the post addresses to the same lady. Though the wife of Duke's opinion is not always rapid like there are lines every now and then that no one but Mr. Carlton could have written."

When Dustin Farnum and "The Virginian" appeared last season, one of the most impressive performances in the history of the theater was given. It was Mr. Post's success in this role that led the wif of Duke to elevate him from the ranks and feature him in "The Heir to the Throne," in which he is to be seen before long at the Wild Wood theater.

In every one of its receipts exceeded those of its previous engagements.

Clyde Fitch's success as a playwright, may, perhaps, best be measured by the income he gets from his works. For instance, the royalty or rent of his play "The Woman in the Case," his best success, for the single week ending Oct. 14, was nearly \$1,500 dollars. When it is considered that he has five other plays now before the public, and estimating the rest to average only one-half that earned by "The Woman in the Case," his income for the present theatrical season may be safely computed at about \$125,000. Unlike the great insurance magnates and merchant princes, Mr. Fitch is not only paid in dollars, but in public applause. In Chicago, says the Examiner: "At the close of the third act of 'The Woman in the Case' there was a demonstration seldom equalled in any theater. The house wrought up to the highest pitch of excitement over the scene, stood up, applauded, shouted and had the curtain up and the players out time after time."

The Prince of Pilsen, which in point of longevity has surpassed any musical comedy of recent years, is now in Denver, where a week's engagement is being played at the Broadway Theater. The literary of the trip has been reaching through the state of Oregon and as far north as British Columbia. Jess Dandy continues as the laughable Hans Wagner, with his ubiquitous "Vos you offer in Zinzindadd!" while Miss Louise Willis is playing the pretty City Widow, which she introduced to London audiences during "The Prince of Pilsen" tenancy of the Shaftesbury theater. Arthur Donaldson, who appeared in the role of the real prince nearly two thousand times, was a member of the company, as is Anderson, the manly Lieutenant, Tom Wagner.

"I once attended a moonshine trial in the heart of the Kentucky mountains," said John Henshaw, of the "Sho-Gun" company. "The old native red-handed in making the illicit liquor, and all of his paraphernalia, including 'one copper penny' was brought into court. One of the unique bits of evidence offered was a bottle of moonshine whiskey, which was passed around among

the jurors who were to determine whether it was really moonshine whiskey, or not. They all sampled it, and after listening to the harangues of the voluble lawyers on each side, fled solemnly to the jury room. After a short delay they came back."

"Gentlemen of the jury," said the judge, "have you come to a decision as to the guilt or innocence of this prisoner?"

"No, your honor," replied the foreman reflectively, as he gazed at the moonshine whiskey reposing on a table in front of the judge's desk. "We want more evidence."

One of the brightest thought of Frank Pixley came to him when he was casting the scenario of the musical comedy now known as "Woodland." This was the creation of "The Spiggle."

In drafting the colloquy between the bogus Jay Bird and the General Rooster in the first act, he was in his happiest vein, but for some reason the scene between these characters in the second act gave him endless trouble. He made draft after draft, but the scene read badly. He grew moody over it, and was on the point of cutting the roster out of the cast and substituting that of an ostrich, when a well-known writer on a Chicago all the way to go! Nothing great feazes that man! Sometimes I think that the only reason I am retained on

with his family at Shakopee, where he was formerly stationed.

J. H. Raubert, who was local day operator for some length of time prior to the late telegraphers' strike, visited his many friends here on Sunday. Raubert has accepted a lucrative position on the Canadian Pacific railway in Manitoba and left Monday to assume his new duties.

C. Shur and Fred Filzer departed Tuesday evening for a ten days' canoe trip down the Red River. They will travel via the Red River and will return via the Mississippi river.

Operator J. E. Shalant has commenced the erection of a neat dwelling adjoining that of Mrs. Finn.

The Granger's many Brooklyn friends will undoubtedly be pleased to learn that he is now operator on the Canadian Pacific railway in Manitoba.

## Park Rapids

Park Rapids, Oct. 23.—(Special to The Herald.)—Miss Bessie Olson spent Sunday at Akley with her parents.

Mr. and Mrs. E. C. Lake have returned from their vacation trip to Duluth.

Born to Mr. and Mrs. Louis Plant, Tuesday, Oct. 24, a son.

Married at the Baptist parsonage, Oct. 26, Mr. Elmer Lund and Miss Ida Kirby, both of Akley. Rev. W. T. Mulliken officiating.

The first meeting of the Ladies' Active club will be held with Mrs. W. T. Stone Wednesday, Nov. 1st.

A. L. Peterson returned from Dakota Tuesday.

Clifford White, who is teaching school in Petros, spent Saturday with his parents here.

Mrs. Parker of Pine Island, who has been visiting with Miss Nellie Toogood, departed for home Monday.

Mrs. C. J. Winter was a passenger Tuesday morning on the Cortland. They were her mother, father, and who is in very poor health.

Mrs. Grace Winslow, who has been the guest of her uncle, P. D. Winslow, at her home at Putnam, Ill., Monday.

Mrs. W. A. Scott entertained at a party at her home last Friday afternoon.

Miss Cora Jones, who has been the guest of her relatives in Valley City, N. D., leaving for there Thursday morning.

Mrs. Shur of Duluth is the guest of her son, Mr. H. E. Wright, arriving here last Thursday evening.

James Campbell has accepted a position as grocery clerk at the Fuller's department store at Deer River, going there last Friday evening.

Mrs. Robert, who is teaching school in Petros, spent Saturday with her parents here.

Mrs. A. Benis of Milaca arrived at this place Tuesday evening, the guest of Mrs. C. E. Crooks.

Mrs. Anna L. Myers has been the guest of her sister, Mrs. B. P. Myers, Jr., for some time, returning to her home in Detroit, Mich., Monday.

Mr. and Mrs. William Thull arrived here Thursday morning from Cloquet, where he has been employed in a mill.

Miss Grace Ryan and sister, who has been visiting her mother, Mr. L. Bender, returned to St. Paul Monday.

O. P. Markos of this place is taking orders for a new book entitled, "The Hospital Case."

It is a war-time story and very highly spoken of by the publishers.

Mrs. Charles Schmitt and family are enjoying a visit from Mr. and Mrs. William Schmitt of Redwood Falls.

The answers to the question, prepared by Dr. Rice and Mr. Powell, are concentrated expressions of their ideas of what the Methodist church most needs.

The following is the statement of Dr. Rice:

"What our Methodist church most needs is a hungry, earnest, and active membership. We need a church that will never get what we want until we get what we need. We need a more general awakening among our members to the duty of a vigorous life. We have a grand old church. All we need is more religion. Grant us that and we will have everything."

Following is the statement of Rev. John W. Powell, pastor of the Endion Methodist church:

"The most characteristic feature of the religious situation in the Methodist church today is the revival of interest in evangelistic effort as the chief purpose of Christian teaching. In order to make this movement more effective, the need of the church seems to me to be two-fold. There is needed a comprehensive and constructive restoration of the fundamental beliefs of Christianity in the terms of modern thought and modern life. The new pastore give this so-called new theology working power, a renewal of confidence in the possibility of vital contact between the Christian truth and the individual life."

Numerically, at least, the Methodist church is the strongest of the English speaking Protestant organizations in the city, and is in a position to do its full share in any Evangelical movement that is started.

The First Methodist church is, of course, the largest of the eleven Methodist churches in the city, and contains nearly as many members as the other ten churches put together.

The total number of members in the congregation is between 900 and 1,000. The church was organized in 1836, and it has steadily progressed since that time.

The present handsome church structure is a fine free from debt, and the congregation is between 900 and 1,000.

The church is the present pastor, Rev. Merton S. Rice is present pastor.

The second largest congregation in point of numbers is the Grace church congregation in the West end. This congregation was organized in 1836, and it now has a membership of 240. It has all the English speaking Methodists of the West end to draw from, and is one of the most favorable locations for growth of any of the churches of this denomination.

Next in order of size, comes the Norwegian Danish Methodist congregation, provided over by Rev. H. K. Madsen. The church building is located at the corner of Twenty-first avenue west and First street, and it occupies the position of Dr. and Mrs. Howard Gilmore of Duluth.

Harry Dugan of the firm of Clement & Dugan of St. Paul, was a business visitor in the city during the week.

The Ladies' Literary club will be entertained at the home of Mrs. L. E. Bailey.

Mrs. C. C. Lyon and daughter, Grace, are visiting relatives in Minneapolis.

Mrs. J. E. Smith and her family, Mr. and Mrs. Young of St. Paul.

Miss Rowland Gilmore entertained the ladies of the Episcopal church Thursday evening.

Mrs. A. Gould returned Monday from Minneapolis, where she has been in attendance at the State Federation of Women's Clubs.

George Pickett has resigned his position at Winter's store, and has accepted one with A. L. Crawford & Co.

Mr. and Mrs. A. R. Smith are entertaining Mr. Smith's father and mother.

## Base Ball Season Over.

Millions of baseball admirers, who thoroughly enjoyed the game were reluctant to see the season close, but it will interest them to know that even now plans are being made for next season. It is also interesting to every sick man and woman to know that in Hostetter's Stomach Bitters they have the best health maker and preserver ever compounded, and being backed by over fifty years of cures is the one they need to make them strong and robust again. It tones up the system, stimulates the flow of gastric juice, keeps the bowels open and cures bloating, heartburn, indigestion, dyspepsia, general debility, female troubles, dizziness, cramps and malaria, fever and ague. Don't fail to try a bottle at once. For sale by all druggists.

# Methodist Church In Duluth

One of the Most Powerful Organizations In City.

Two Pastors Tell What the Church Most Needs.

What is the present condition of the Methodist church in Duluth and the country at large, and what does the church most need? was the question propounded to some of the ministers of the city this week.

"More religion," said Rev. M. S. Rice of the First Methodist church, and "a constructive restoration of our beliefs and a renewal of confidence in the possibility of vital contact between the Christian truth and the individual life," said Rev. John W. Powell of the Endion Methodist church.

With a membership that represents about one-tenth of the population of the city, the Methodist church is one of the most powerful organizations in the city.

There are eleven churches in all where the Methodist religion is preached in Duluth at the present time, and these are scattered about the city in such a manner that, practically every section is provided with a building where the Methodist faith is taught.

The religious revival which started in Wales, a year or two ago, and which has spread through England and many parts of this country, has been felt in Duluth, and the visit of Rev. James Grey to this city and the formation of a large Bible class, was the beginning of a general evangelistic movement, which promises to be widespread in Duluth this winter.

Already arrangements have been made to bring Principal Patton of Princeton university to the city for a series of five lectures, and other prominent thinkers on theological subjects will lecture in Duluth this winter.

This being the case, the present condition of the different religious organizations in Duluth, their needs and their resources, are matters of vital interest to all Christian speaking people.

The answers to the question, prepared by Dr. Rice and Mr. Powell, are concentrated expressions of their ideas of what the Methodist church most needs.

The following is the statement of Dr. Rice:

"What our Methodist church most needs is a hungry, earnest, and active membership. We need a church that will never get what we want until we get what we need. We need a more general awakening among our members to the duty of a vigorous life. We have a grand old church. All we need is more religion. Grant us that and we will have everything."

Following is the statement of Rev. John W. Powell, pastor of the Endion Methodist church:

"The most characteristic feature of the religious situation in the Methodist church today is the revival of interest in evangelistic effort as the chief purpose of Christian teaching. In order to make this movement more effective, the need of the church seems to me to be two-fold. There is needed a comprehensive and constructive restoration of the fundamental beliefs of Christianity in the terms of modern thought and modern life. The new pastore give this so-called new theology working power, a renewal of confidence in the possibility of vital contact between the Christian truth and the individual life."

Numerically, at least, the Methodist church is the strongest of the English speaking Protestant organizations in the city, and is in a position to do its full share in any Evangelical movement that is started.

The First Methodist church is, of course, the largest of the eleven Methodist churches in the city, and contains nearly as many members as the other ten churches put together.

# UNIONISM AND CHURCH

Discussed By Three Speakers at Trades Assembly Meeting.

Rev. W. J. Lowrie, Commissioner Williams and Ald. McEwen Speak.

Union Meetings:

Tuesday—Carpenters, Rowley building; painters, decorators and paperhangers, Labor World building.

Wednesday—Cigarmakers, Labor World hall.

Thursday—Electrical workers, Labor World hall.

Saturday—Brewery workers, Labor work, Kalamazoo building; bakers and confectioners, 18 West Superior street.

Sunday—Cigar makers, union, Labor World hall.

Last evening was a special night for speakers at the trades assembly, and those that addressed the assembly were Rev. W. J. Lowrie, pastor of the Westminster Presbyterian church of West Duluth; W. H. Williams, state labor inspector, and Ald. McEwen.

Each speaker was good, and it is hard to say which was the best of the evening.

Previous to the address a committee was appointed to visit Louis Ramsted of 11 Fifty-fourth avenue west in behalf of the painters, to see if Ramsted will not ex matters up with strikes and thus prevent the threatened boycott.

The amendment to the constitution of the assembly recently proposed, in which it was provided that money be voted for the aid of unions outside of Duluth with the exception of unions of two-thirds vote, was given its final reading last evening and adopted.

Rev. W. J. Lowrie spoke as follows:

"The labor problem is as old as man. The world has always had its rich and its poor, and if the words of the great prophet are prophetic, the poor we will always have. These classes have ever existed, and the world has not been a good deal better off for it."

There is a parable in the Gospel of Matthew which represents an employer of labor going out in the market places to secure laborers for his vineyard. There are more workers than work. He sets the price to his laborers with the words, 'Whosoever is willing to work, let him come.' Upon these words we base some of our rights.

"Man has an inalienable God-given right to labor. Yet he has never been contenting for the right against nature, which, in some ways is hostile, against which, but his fiercest enemy, has been with his fellow men. In early days wars were frequent and cruel. Today there is a more content and polite way of settling disputes."

"Man has an inalienable God-given right to labor. Yet he has never been contenting for the right against nature, which, in some ways is hostile, against which, but his fiercest enemy, has been with his fellow men. # A PAGE FOR THE BOYS & GIRLS

## The Cat and the Mice.

**CAT:** "This is Hallowe'en night—ha, ha! And it wouldn't much surprise me if all the mice in this big house would try to have some sort of spree."

**MICE:** "Ah, ha, Sir Cat, how's your royal nibs? Well, we would advise you, for your own good, to put eyes in the back of your head."

**CAT:** "And you might practice up on smelling a bit."

**MICE:** "As well as your hearing and sight; Especially since the mice are all out on a spree this Hallowe'en night."

## Hallowe'en Frolics for the Youth

Of all the holidays during the year the merry, mischievous Hallowe'en is the dearest one to the hearts of youth. On that night all constraint is forgotten and children young and old are out for a "jolly good time."

Ghosts—not the uncanny, Macbeth sort, but frolicsome and fairylike—abound everywhere, and the witch's spell is felt in the air.

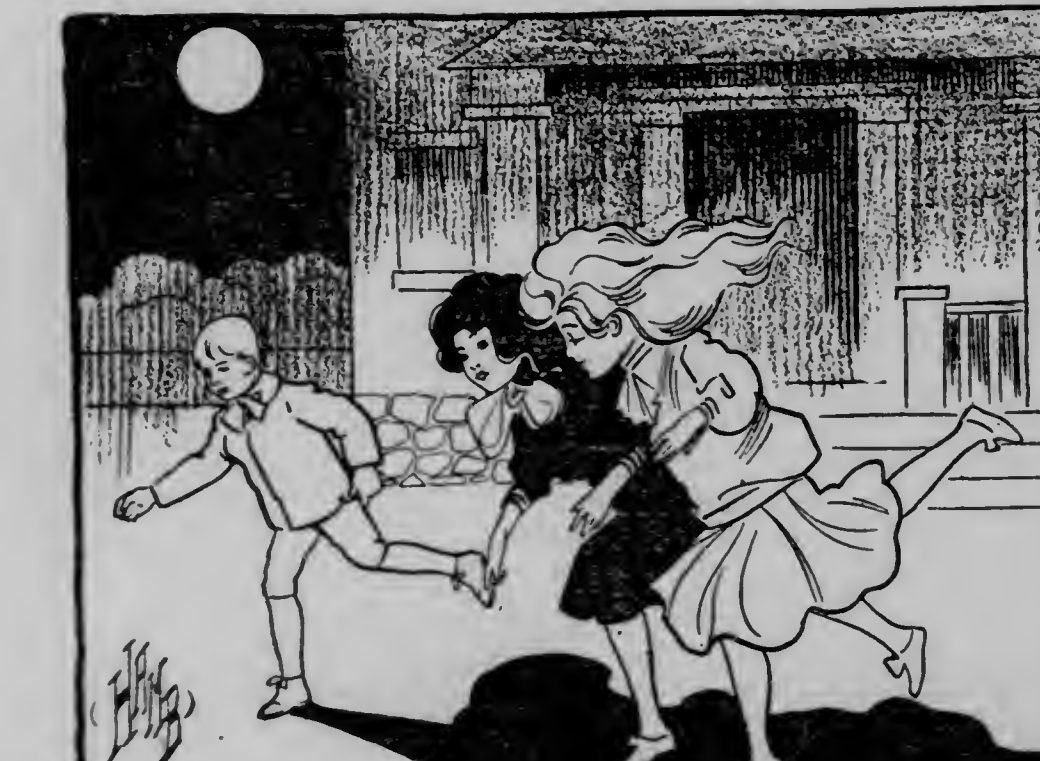

There are charms galore that work with magic mystery on the future lives of the boys and girls who in all good faith employ them between the hours of 8 and 12 P. M. And what a gala time for all sorts of unique games and parties. The "Ghost Party" is an old-time favorite that is ever new and amusing. The invitations are given verbally, those invited being bound with secrecy regarding the invitation and instructed to come each with a white mask over the face and the figure wrapped in a white sheet against recognition.

On arriving at the house where the party is being given the guests are ad-

mitted by the hostess, who is also ghost-like in a white mask and sheet. The hall is lighted by alcohol burning in a small cup, which is hidden away inside a huge plaster mask of hideous appearance. The guests are met in the parlor and are seated on chairs and sofas placed in circular rows about the walls. The parlor is in semi-darkness, being lighted by huge Jack-o'-lanterns placed on tables in the corners. At the farthest end of the parlor stands a huge ghost, with arms extended wide, its eyes glaring and mouth grinning. By the side of this ghost the master of ceremonies (a boy who has been previously chosen to occupy the place) takes his seat after all the guests have arrived. In a sepulchral voice he explains that each "ghost" present will be requested to tell some thrilling experience he has had in Spookdom. The stories will begin with the boy or girl seated at the end of the room nearest the ghost.

Thus the guests rise one at a time, each telling in his turn some blood-curdling story, the approval and appreciation of which the listening "ghosts" manifest by long-drawn-out groans and heavy sighs. After these thrilling narratives are finished the masked guests are bidden to upper chambers, where

Running round the house three times without stopping.

## Finchey, The Old Witch's Son or, The Originator of Hallowe'en Frolics.

BY MAUD WALKER.

It was many, many years ago, that an old witch lived in a cave in the heart of the rugged land of Scotland. She had but one child, a merry little son, named Finchey, who possessed a most inventive mind.

One day, wearying of the monotony of his quiet life, he begged his old mother to allow him to saunter forth and play a few minutes on the Scotch people, who had used them and their kind very badly, indeed. His mother consented, bidding her son to do nothing of a serious nature that might bring them into trouble, but to practice his arts in harmless fun, showing at the same time his powers of magic in bringing about superhuman happenings.

So, touching a wand with her left hand while she mumbled some strange words, the witch-mother handed it to her son and bade him set forth on his mission of frolic just as the sun dropped behind the ledge of rock that sheltered their cave.

"Whatever you wish to do, simply wave this magic wand, and it shall accomplish your wish instantly," said she. "But remember, the charm lasts only for to-night."

With a happy laugh and waving a farewell to his loving mother, Finchey skipped out over the wild highlands towards the town, many miles distant. He had got only a short distance on his way when he heard footsteps behind him. Looking round he saw coming at a run a small boy about his own size. Finchey, fearing nothing human, waited for the strange boy to approach quite near. Within a few feet of Finchey the little stranger paused and panted for breath, his feet running having quite exhausted him. As it was now quite dark the newcomer could not see the witchlike appearance of Finchey, and supposed him

to be a common lad like himself. "I'm lost!" he exclaimed in frightened tones. "I started to go to town this morning to visit my granny; but I got off my road, and can't find it. I've been wandering about all day."

"Well, I'm off to town now," replied Finchey. "You may bear me company if you wish to."

"Oh, thank you," cried the little fellow. "But, may I rest a bit before starting? My legs are most done for."

"Oh, we'll ride if that'll suit you," said Finchey, with as much assurance as if he had a coach and four waiting.

"Ride what?" asked the boy, whose name was Donald MacGowan.

"Why, broomsticks, if you have no other choice," said Finchey. Then he waved the magic wand and immediately two long brooms came sweeping over the top of the heather.

"Ride broomsticks!" exclaimed Donald. And he looked incredulous.

"Why not?" and Finchey touched the broomsticks with the wand and they began to switch about like restless horses. "Here's your mount," he added, offering one of the fractious sticks to Donald. Then he jumped astride the other stick which now was in the air about four feet from the earth. Donald, feeling the spell of the witch boy, jumped astride the broomstick and together the two rode off over the heath like birds sailing through the air.

"Oh, I'm afraid!" cried Donald, holding to the broomstick wildly. "Just see how this thing goes."

"Well, you didn't expect it to stand still and carry you to your granny's, did you?" asked Finchey. "I told you we would ride to town—and now we're riding."

But at first poor frightened Donald's

hair stood on end, and his eyes stuck from his head, full of terror. But, after riding along for some ten minutes or more without any danger befalling them, he became quite accustomed to the strange method of travel, and banished his fear.

As he grew composed he began to question in his mind the unnatural powers of his queer companion. At last, as they were nearing the habitation, he asked: "Who are you, anyway, that you can turn broomsticks into flying horses?"

"I'm Finchey, the son of the witch who dwells yonder in the cave," replied Finchey, closely watching the effect of his words on Donald.

Now, this information caused a great thrill to pass through Donald. Although he had been taught by his parents to both fear and hate witches and all pertaining to witchcraft, he felt a deep admiration for this witch boy, and he realized that he was having a most unusual experience. How all the boys would wonder when he should tell them of this night's exploit.

"This is All Saints' Eve," exclaimed Finchey. "We'll make it a time for coming generations to remember, and for the present generation to shake and quake over. Now, right here at hand is a thatched cottage. Suppose we remove a portion of its roof and lay it over on top of the cow-shed. And we'll just carry the stable door down to the next neighbor—he may need it—till the owner sees fit to go fetch it home."

So, as they were now come to the cottage of which Finchey spoke, they dismounted from the broomsticks, entered the yard, bodily lifted the roof from over the sleeping farmer's head and set it over the cow-shed. And from the shed they took the door, after driving the

"Oh, I'm afraid!" cried Donald, holding to the broomstick wildly.

## Why Papa Brown Changed His Mind.

Old Mr. Brown in his big arm chair sat by the open grate, watching the glow of the bright wood blaze.

Till the hour grew very late, He was listening to sounds that came from the street. Made by the tramping of many boys' feet.

'Twas Hallowe'en, the day of the year When boyhood becomes so unruly; That teachers, parents, friends and foes Together wish most truly That all the boys were past twenty-one, And through with the pranks they all call fun.

Why, the form was that of his son! The boy dashed a ladder—'twas no small labor! Into the yard of the next-door neighbor.

He set the ladder up 'gainst the house, Then started to climb for a shutter, When out from the window there thrust an arm!

The sight made old Brown's heart flutter. A hand grasped his boy and held him tight. Then quickly drew him in out of sight.

Old Brown dashed out, and in his great hurry He jumped over the high stone wall. Across to the neighbor's he went in a hurry.

To make a midnight call. "Hello, there!" he cried. "Let my boy free, Or you'll have to answer 'why' to me."

The neighbor looked out and saw old Brown. "Why, friend, is it you?" he cried. "Just wait a moment and I'll come down. And we'll talk it over outside."

So, after a moment, he did come down And was met with the threat of old Brown's frown.

"Why, friend, is it you?" he cried. And old Mr. Brown wagged his head. "Your boy?—why? friend, you must be asleep."

The neighbor laughingly said: "I caught Smith's boy playing tricks on me. And I've got him now where I want him: see?"

"Smith's boy?" And Brown grew suddenly red. "Upon my soul—is that so? Then thrash him with an inch of his life. Before you let the scamp go. Smith never did know how to raise his boy right."

And keep him in off the street 'at night.' Just then a voice from the window above Called down, "Is that you, dear dad?"

That mischief to vehicles was being done By a rowdy crew—who called the work fun.

"There's one thing true," old Mr. Brown said. "My own good boy is in bed, sleeping the sleep of a well-bred boy."

With an Hallowe'en staff in his hand, There's nothing like raising one's sons just right. And keeping them in off the streets at night."

But just as he mused he saw out of doors A form past his own window run; He sprang to his feet—ran and peeped.

Why, the form was that of his son! The boy dashed a ladder—'twas no small labor! Into the yard of the next-door neighbor.

He set the ladder up 'gainst the house, Then started to climb for a shutter, When out from the window there thrust an arm!

The sight made old Brown's heart flutter. A hand grasped his boy and held him tight. Then quickly drew him in out of sight.

Old Brown dashed out, and in his great hurry He jumped over the high stone wall. Across to the neighbor's he went in a hurry.

To make a midnight call. "Hello, there!" he cried. "Let my boy free, Or you'll have to answer 'why' to me."

The neighbor looked out and saw old Brown. "Why, friend, is it you?" he cried. "Just wait a moment and I'll come down. And we'll talk it over outside."

So, after a moment, he did come down And was met with the threat of old Brown's frown.

"Why, friend, is it you?" he cried. And old Mr. Brown wagged his head. "Your boy?—why? friend, you must be asleep."

The neighbor laughingly said: "I caught Smith's boy playing tricks on me. And I've got him now where I want him: see?"

"Smith's boy?" And Brown grew suddenly red. "Upon my soul—is that so? Then thrash him with an inch of his life. Before you let the scamp go. Smith never did know how to raise his boy right."

And keep him in off the street 'at night.' Just then a voice from the window above Called down, "Is that you, dear dad?"

I'm not Smith's boy at all; I am me, Your own little Good-Jimmy lad. I was out playing Hallowe'en tricks, you see, And our kind neighbor has laid for me."

"Why, sir, what is this?" Brown asked of his neighbor. "You would check my boy's harmless play?"

"Have you forgotten your own childhood—your own past Hallowe'en day? Would you rob youth of its pleasure and joy?"

"Why, sir, one would swear you had ne'er been a boy."

"Why, friend, is it you?" he cried. And old Mr. Brown wagged his head. "Your boy?—why? friend, you must be asleep."

The neighbor laughingly said: "I caught Smith's boy playing tricks on me. And I've got him now where I want him: see?"

"Smith's boy?" And Brown grew suddenly red. "Upon my soul—is that so? Then thrash him with an inch of his life. Before you let the scamp go. Smith never did know how to raise his boy right."

And keep him in off the street 'at night.' Just then a voice from the window above Called down, "Is that you, dear dad?"

Just as they were departing from the cottage a great black cat darted across their path and was on the point of hiding itself in the hearth when Finchey, seeing it, waved his hand and cried: "Come, come, Cat Black!" Without a sign of fear the cat trotted right up beside him, and followed to town like a pet dog.

Again, as they rode along a bat flew from the shadows of a clump of trees, and Finchey's wand was again in motion as he cried: "Bat, bat, fly in my hat!" The bat whirled round and followed close behind them, not seeming to weary of the long distance over which they hurried.

At the next farmhouse they stopped and Finchey put the cow-shed door over the spring, at the back of the cottage. Then, finding the milk-house door open, they went in, took the churn from its place and set it up on the ridge of the thatched roof of the farmhouse. After piling farm implements against the door and setting on top of them a pail of water, so that when the master of the place would open the door his head would get a cold bath.

Leaving the useless thing where it fell, Donald hurried to his granny's cottage, where he found a number of the neighbors gathered, all talking excitedly about the "red" witches and their ugly work of the night just gone.

In vain did Donald try to convince them of the part he had taken in upturning the town, but all looked at him pitifully, while his old granny took him in her arms and caressed his head, saying:

"Sure, my bonnie bairn has been bewitched. He has been out in the darkness and the evil spirits have touched him with their spell."

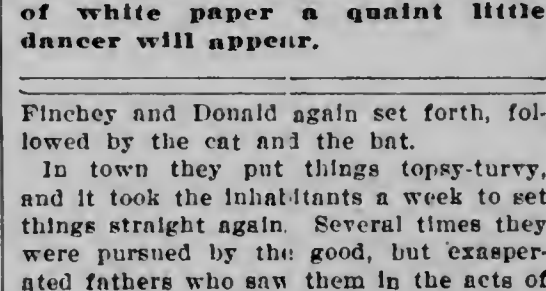

"But I tell you I rode through the air on a broomstick, and the witch's son was with me," declared Donald, excitedly. "I helped to do all the mischief—and what fun we had, too!"

"Poor, poor child," said Luckie MacGowan. "I'll put him to bed and send for his mother. If rest and sleep don't help him about right, he will have to be taken to a doctor."

And so it happened that Donald's story of that strange Hallowe'en night so many, many years ago was never believed. His family and friends always shook their heads and said: "Poor Donald! He was bewitched."

But on the night before "All Saints' Day" the children have been bewitched ever since that time when little Finchey set the custom of playing pranks and employing magic.

By correctly joining the above curved lines and pasting on a bit of white paper a quaint little dancer will appear.

Finchey and Donald again set forth, followed by the cat and the bat. In town they put things topsy-turvy, and it took the inhabitants a week to set things straight again. Several times they were pursued by the good, but exasperated fathers who saw them in the acts of

A Leaflet Album  
A UNIQUE IDEA FOR BOYS AND GIRLS TO WORK OUT.

Have you seen a "Leaflet Album" yet? No? Then make one for yourself. Following is the "recipe":

Take a large blank book—a scrap book will answer admirably—and make a collection of autumn leaves from every sort of shrub, bush, tree, vine and plant. After these leaves have been nicely pressed (you must be very particular to press them so as to keep their perfect shapes) then proceed to sort them for pasting in the blank book. Have all roses leaves of one page, ferns on another and so on.

Reserve the last leaf in the book to be used for an index. Number the pages of the book, and in the index place the names of the leaves as they appear. If several leaves are pasted on one page designate them by figures or letters so that the indexing may not be in any way confused.

Such an album will prove most interesting as well as instructive, especially to boys and girls who are studying botany. And you will be surprised to find how few persons are familiar with the leaves of trees and plants when they no longer adorn the branches or vines on which they grew. Thus your index page will assist you in pointing out to them their mistakes.

Not only is the "Leaflet Album" instructive, but it is a thing of beauty as well, for it contains all the graceful leaves in their perfection of shape and their exquisite fall coloring. No boy or girl who loves the things of nature can afford to be without a "Leaflet Album."

RIDDLES AND ANSWERS.

I have an eye, yet I never see;  
Without sense, I am sharp and bright;  
I never work, yet am never still,  
For I'm busy day and night.

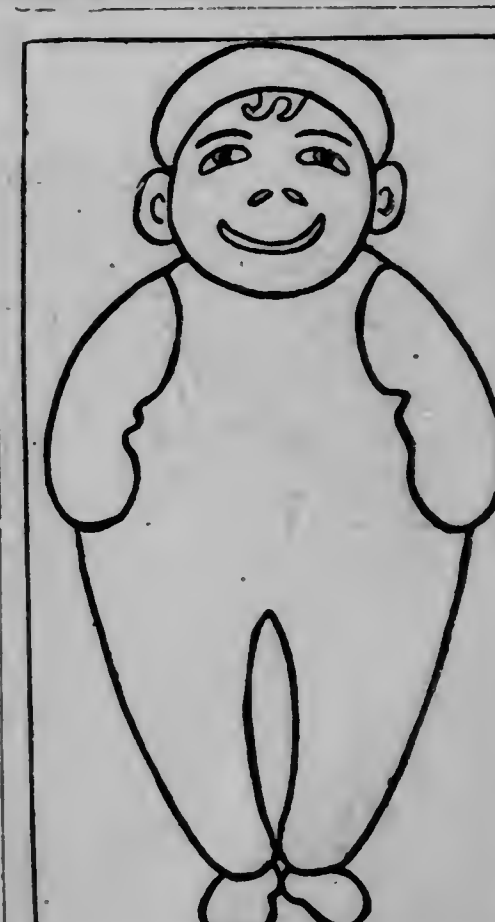

(The needle.)  
Riddle-riddle, goodness know!  
It is always dressed,  
But it never wears clothes.

(A Thanksgiving turkey.)  
We are all kept in prison,  
Till let out to be eaten;  
Or to have our poor bodies  
Into thick oils beaten.

Answer.—Nut.

## Language of Flowers.

Acacia—Friendship. American Linden blossom—Matrimony. American cowslip—Divine beauty. Four-leaved clover—Believe. Red clover—Industry. White clover—Think of me. Cockscorn—Affection. Columbine—Folly. Daffodil—High esteem. Dahlias—Instability. Daisy—Innocence. Dead leaves—Sadness. Night Shade—Falsehood. Thyme—Benevolence. Foxglove—Insincerity. Garden Anemone—Forsaken. Jasmine—Separation. Lady's Slipper—Capricious beauty. Hawthorn—Hope. Heliotrope—Devotion. Hemp—Fate. Rose—Love. Ragged robin—Will. Pansy—Thoughts. Orange blossoms—Bridal festivities. Sweet Pea—Lasting pleasure. Ox-eye—Fidelity. Poinsettia—Victory. Oleander—Beware. Gardenia—Reverence. Rose Geranium—Preference. French Marigold—Jealousy. Passion Flower—Religion. Scarlet Poppies—Extravagance. White Poppies—Sleep. Primrose—Sorrow. Lilac—Confidence.

Answer to last week's curved-line puzzle.

TWENTY-THIRD YEAR.

## THEATRICAL MAN UNDER ARREST CHARGED WITH SWEETHEART'S MURDER

Morris Nathan Is Involved in the Dress Suit Mystery at Winthrop, Mass.

Body Identified As That of Chorus Girl Who Was Engaged to Marry Nathan.

Pittsburg, Oct. 30.—Morris Nathan, who was arrested at the Hotel Henry last night, on a charge of murder in connection with the Winthrop, Mass., dress suit case mystery, spent a restless night in a cell at the Central police station. It was after 4 o'clock this morning before Nathan went to sleep, and for several hours he tossed about the cot in apparently much distress. He was awakened about 8 o'clock by the entrance of Detective Moore of the public safety department and several newspaper men.

"How are you, Nathan?" asked Detective Moore.

"Well, I am probably as well as can be expected," replied Nathan.

"It's an unfortunate affair," said Detective Moore.

"I am in a very serious position," answered Nathan.

In reply to a question from a newspaper reporter Nathan said he was 21 years of age. He then refused to talk and made it plainly evident that he did not appreciate the presence of the visitors.

After the press representative withdrew, Detective Moore continued the examination of the prisoner. What he learned was not announced, but Detective James W. Egan made the positive statement that there would be some developments and that Detective George W. Cole, his co-worker, may have something important to announce.

Detective Cole had a talk with the prisoner and learned some important things," said Detective Egan.

After questioning Nathan further, Detective Moore said: "This is a very important arrest. The prisoner knows something of the crime. Of that I am sure."

The police officials say it is evident that Nathan is weakening. It was also intimated that he has told Detective Cole the relations he bore to Miss Geary.

Ships have already been taken, it is said, that will lead to the location and arrest of the physician supposed to be implicated.

Superintendent of Detectives McGuire says Nathan will be held until the arrival of an officer from Boston, who is expected here tonight.

The prisoner, he added, will return to Massachusetts without requisition papers.

Pittsburg, Oct. 30.—After a long and searching examination at police headquarters lasting until after 1 o'clock this morning, Morris Nathan, secretary to the manager of the "Shepherd King" company was held on a charge of murder.

(Continued on page 4, second column.)

## PROMPT APPEAL IS MADE IN BEHALF OF WHITEMAN

Order Is Asked Why Certificate of Doubt Should Not Issue.

Buffalo, N. Y., Oct. 30.—No time is being lost by C. A. Dolson, attorney for Alonzo J. Whiteman, in seeking to overturn his conviction and sentence to Auburn prison and to stay the execution of sentence.

As a preliminary to an appeal Attorney E. L. Dolson went to Fredonia to secure from Justice Lambert an order requiring the prosecution to show cause why a certificate of reasonable doubt should not be granted. A stay of sentence pending arguments will be held some time this week. The granting of the certificate of doubt depends upon whether a justice of the court thinks there is reasonable belief an appeal will succeed.

Several grounds for the certificate are enumerated by the counsel for Whiteman in the application. It is claimed there is a variance between the indictment and the proof because the indictment failed to charge the falsifying of the draft, that made the forgery possible and therefore the admission of testimony concerning it was improper.

It also is claimed that the court erred in refusing to allow the defense to cross-examine Attorney McManus of New York City, Hart's lawyer, from whom the damaging Whiteman-Hart letters were obtainable. Cross-examination, it is claimed, might have shown that the letters even though in the hands of the prosecution were privileged and could not be admitted in evidence.

Still another contention is that the court should have vitiated the test applied to Ostrom, the handwriting expert, by ruling out the one of four test letters that was not written by Whiteman. In all there are eight or nine grounds based on rulings of the court regarding the introduction of testimony.

## NEW YORK TENDERLOIN IS WIDE OPEN

New York, Oct. 30.—The tenderloin is wide open if ever it was wide open in its long, red history, says the Tribune. Not only is there no curfew in the district, but the gilded saloons of gambling, kept closed for several months past, opened at midnight Saturday, and all day yesterday were in full blast. Before 9 o'clock last night every roulette wheel, newly greased, and every other gambling device was whirling at a brain-burning speed. Scores of young, well-dressed men were seen going in and out of the best-known gambling places in the district. There was an apparent attempt at exclusiveness, but no attempt to conceal the fact that the clubs were open for business.

## GARBAGE TO FURNISH ELECTRIC LIGHT

New York, Oct. 30.—Municipal lighting of public structures will be a reality tonight. When darkness closes in about the new Williamsburg bridge its thousands of electric lights will be made to shine out for the first time by an electric current generated at the city's incinerating plant, and where tons of refuse gathered by the department of street cleaning will be the fuel.

All arrangements for starting the plant were completed yesterday and at 4 o'clock Mayor McWilliam will start the great armatures. A dozen powerful currents will be able to furnish light not only for the great bridge, but for seven schoolhouses in the district surrounding the Manhattan end of the structure.

The realization of the plans of Dr. John M. Woodbury, commissioner of street cleaning, will, it is said, by the city engineers, save the taxpayers many thousands of dollars a year. Every cubic yard of refuse burned in the plant will save 20 cents from the cost of carrying out the present method of getting rid of refuse, which is now dumped into the sea.

## SAILORS ON A BRITISH BARK MUTINY

Seattle, Oct. 30.—The British bark Dunbar, Captain James S. Stephens, arrived here yesterday. The vessel sailed from Bremen, Germany, March 1, bound for Seattle. In June, when the vessel attempted to sail around the horn, ten of the crew of fourteen were laid up sick and worn out from their work and poor food. Heavy gales forced the ship back and after beating around the cape for a week with only three able bodied men, the other sailors forced the captain to put about and run for Cape Horn. Before reaching that port the sailors recovered to some extent and the captain refused to land in the Straits of Sunda on July 3, the crew mutinied. The sailors drew knives and forced the officers to seek protection in their cabin. The officers secured guns and subdued the sailors, taking their knives from them. The men refused to work the ship and it had a narrow escape from drifting on the rocks. In Batavia the crew was placed in irons. A crew of colliers was shipped and the vessel was navigated to Singapore, where the sailors were tried for mutiny. Part of the number was sentenced to eleven weeks imprisonment and the rest to nine weeks at hard labor. The men contended that the poor food and the brutal treatment of the officers had forced them to mutiny. On the way to this port a topsail yard was lost in a heavy gale that compelled the vessel to lay to for ten days.

# RUSSIAN AUTOCRACY CEASES TO EXIST; M. WITTE IS MADE MINISTER-PRESENT

## A HEAVILY LOADED TRAIN GOES OVER EMBANKMENT

Large Number of Passengers Reported Killed and Injured.

Train Bound From Chicago to the Pacific Coast.

Train Derailed at Sheffield, Not Far From Kansas City.

Kansas City, Oct. 30.—The Atchafalaya, Topeka & Santa Fe passenger train No. 1 from Chicago due at Kansas City at 10:30 this morning, was derailed near Sheffield, five miles east of Kansas City. Several persons were killed and a number injured. The number of killed are variously estimated at from four to eleven, while over twenty persons are said to have been injured. The injured will be brought to Kansas City. The wreck occurred at 10:15. Up to noon no definite details had been received at the offices of the railroad in this city. The wreck occurred at what is known as Rock Creek, where the Santa Fe tracks cross the tracks of the Missouri Pacific on a trestle. It is stated that the train was derailed by striking a broken rail and that the entire train went down the embankment.

The wrecked train was one of the heaviest and fastest in the service. It left Chicago at 10 o'clock last night and was composed of regular sleepers, coaches, chair cars, tourist sleepers, and a Pullman dining car. The train was bound for the far West. Relief trains were sent from Kansas City to the scene shortly before noon and preparations made to bring the dead and injured to Kansas City.

The scene of the wreck was in an out-of-the-way place and delay in getting relief to the scene was experienced. Up to 12:15 the relief train sent from Kansas City had not reached Sheffield.

## ADMIRAL TRAIN, U. S. N., KNOCKED DOWN BY CHINKS

Accidentally Wounds Woman While Hunting and Is Set Upon By Her Friends.

London, Oct. 30.—A dispatch to the Evening Standard from Shanghai says that Rear Admiral Train, commander-in-chief of the American Asiatic fleet, and his son, Lieut. Train, have been victims of a savage attack by Chinese outside of Nanking. The American officers were pleasant shooting when the admiral accidentally shot a Chinese woman, slightly wounding her. Hundreds of villagers thereupon surrounded the officers, took away their guns, and knocked the admiral down in the mud and held Lieut. Train as a hostage. Forty American marines landed as a rescue party were attacked by a mob of Chinese who tried to pounce on the officers. The Chinese officials refused to restore the officers' guns and supported the villagers.

Nanking has been active in the movement for boycotting American goods and is the center of activity on the part of Japanese students.

## ANCIENT CUSTOMS OF THE UNITED STATES HANDICAP GOVERNMENT

Washington, Oct. 30.—The criticism of Former Chief Engineer Wallace of the isthmian canal, that he was handicapped by official red tape which prevented the speedy delivery of supplies, has caused considerable discussion in the executive departments where the work is now being looked into by the keep commission. "Whenever the government is handicapped by useless and ancient customs we shall modernize it by better business methods," said Wallace to congress. "We do not find so much duplication of work as we do a multiplication of work. It is impossible to operate the business of the government after the fashion of private corporations, but there is room for better methods in many cases and the effort will be made to bring this about."

The keep commission will make many suggestions in its report to the president which the members think may result in abolishing practices that hinder instead of help. The changes that may be determined upon, it was said today, could be effected through an executive order or by direction of the heads of departments without recourse to congress. The one thing, the commission is after is a uniform method by which all similar work will be conducted along the same lines.

SWISS LIBERALS WIN. Bern, Switzerland, Oct. 30.—The result of the national elections yesterday in which the Liberals united against the socialists show the success of the former. Only one Socialist was elected and the dead and injured were still at the wreck.

At that hour the number of dead was placed at eight. Train added to the difficulties experienced by the rescuers.

## THE CZAR SURRENDERS HIS POWER TO LIBERAL LEADER

Has Right to Confer on People Civil Liberties, Including Free Speech.

Freedom of Press, Right of Assembly and Habeas Corpus Granted People.

St. Petersburg, Oct. 30, 6:05 p. m.—Tonight the autocracy of the Romanoffs and the old order of things cease to exist in Russia. Emperor Nicholas has surrendered and Count Witte comes into power as minister-president with an imperial mandate which will enable him to convert the farcical national assembly into a real legislative body elected by greatly extended suffrage and to confer upon the people fundamental civil liberties, including free speech. These welcome tidings reached St. Petersburg shortly before 6 o'clock this evening. Count Witte had spent the day with the emperor at Peterhof going over the final draft of the manifesto to which he insisted that certain minor modifications be made and before taking the train for St. Petersburg he telephoned to a friend that the emperor had affixed his signature and that the imperial mandate comprising the conditions upon which he had agreed to accept office was in his pocket. These include freedom of the press, the right of assembly and the immunity of the person, including the right of habeas corpus.

MANY KILLED AT ODESSA. Troops Shoot Down People and Police Hide Their Bodies.

London, Oct. 30.—A dispatch to a news agency from Odessa says there have been two serious conflicts between the troops and a mob, in which twenty-seven persons were killed and ninety wounded.

Odessa, Oct. 30.—It is impossible to fix even approximately the number of yesterday's victims. The officials in charge of the hospitals, cemeteries and lockups are strictly forbidden to give the slightest information. The dead and wounded, whose numbers must be very considerable, have been removed by the police and hidden out of sight of inquirers. The infantry, of whose loyalty the authorities are doubtful, are kept in barracks, and the Cossacks and gendarmes, who show no disposition to shoot down people on sight, are left to deal with the crowds. At one barricaded corner yesterday, a student, on the appearance of the Cossacks, mounted the barricade and appealed to them to join the people instead of killing their brothers, who were struggling for the freedom of their common country. The Cossacks answered with four volleys, killing nine and wounding about forty persons. Similar scenes are occurring everywhere. The crowds fleeing before the charging Cossacks, invade private houses and hide in garrets and on the roofs. Many private apartments have been converted into temporary hospitals for the scores of wounded refugees.

INTENSE EXCITEMENT Beneath the Surface at St. Petersburg, Which Is Outwardly Calm.

St. Petersburg, Oct. 30, 12:55 p. m.—The city continues outwardly calm, but there is, the most intense excitement beneath the surface. The strike committee continues to restrain the people

from violence, this being considered the best means of attaining the ends in view, but behind the scenes the members of the committee are holding constant meetings with the leaders of the various groups and seem to be preparing for a bold stroke at the opportune time. The committee members believe that the longer an open collision which would force a show of hands can be avoided, the better their chances.

The army, they say, is being gradually won over to the people's cause. Only the Cossacks, who are referred to as Emperor Nicholas' "Swiss Guard" are absolutely faithful to the existing regime. The Jemsky guard regiment, which was reported to be disaffected during the troubles of last winter, is now reported to have refused to do guard duty and to be confined to barracks surrounded by Cossacks. An investigation by the Associated Press, however, failed to confirm the report.

During the night firing occurred at the Polytechnic school, where a number of students are held as prisoners. The Cossacks surrounded the building, dispersed the workmen with their whips and were denounced by the students from the windows. Thereupon the Cossacks fired two volleys. The result is not known.

A policeman in the Vasil Ostrov district was found dead this morning, having been murdered on his beat. Many of the police are afraid of losing their lives and refuse to do patrol duty. Their places have been taken by foot soldiers.

The city is filled with false and sensational reports set afloat by the revolutionists.

The news from the provinces indicates that the authorities are getting control in some sections, but generally the situation is growing worse instead of improving. In many places the students and strikers are fighting the "Black Hundred" as the bands of thugs are termed.

The demands of the people are increasing proportionately with the success of the demonstrations. The demand for a constituent assembly is now almost universal, but the "Reds" declare that even that would not satisfy the people and add that there "must be some lamp-post work."

On account of the food shortage even the first-class restaurants have increased their prices. The minister of finance has issued an order permitting meat importation by water. The scarcity of milk is especially felt.

## NO SIGNS OF ABATING. Excitement at Warsaw Continues But No Serious Rioting Occurs.

Warsaw, Russian Poland, Oct. 30, noon.—The excitement in the streets shows no signs of abating. Every now and then crowds overturn a street car with the object of stopping traffic but no serious conflicts have thus far occurred. The police are trying to induce the shopkeepers to reopen their shops, threatening to fine them if they do not do so, but the merchants are between two fires since the Socialists promise to smash their windows if the shutters are taken down.

A telegram received here from Moscow says the strikers have destroyed the Belt railroad and two houses on Tverskaya street, one of them belonging to the governor. Thousands of wealthy inhabitants of Moscow are leaving the city by every means available. The military telegraph operators are complaining of having to operate the commercial service. They declare they are too tired to perform the work. Telegraphic communication between Warsaw and Vilna has been severed.

## METHODIST MINISTERS WANT LARGER SALARIES

Bishops Say Pay Has Not Increased In Proportion to Cost of Living.

Washington, Oct. 30.—Among the bishops of the Methodist Episcopal church now in session in Washington, the opinion is expressed that the pay of the ministers of the gospel has not increased in proportion to the constantly increasing cost of living.

"Salaries paid the clergy," said Bishop J. P. Berry of Buffalo, "are none too good at best and, taking the country over, have remained stationary for some time. Of course, some congregations keep pace with the increasing demands upon the minister, but, speaking generally, it is safe to say that salaries have not advanced to meet existing conditions. Living expenses have been growing year after year; they will be higher this year than last and the church people ought to meet this situation in the material way so necessary even for the members of the clergy."

Bishop W. F. Mallahan of Boston, also said salaries are not commensurate with the demands the ministers of the church face of all denominations have to meet.

He added that he think the rank and file of the Methodist Episcopal church ministry the most heroic and self-sacrificing body of men on earth. They are not paid as they should be, nor in their salary, in many cases, sufficient to meet their many needs.

The popularizing of the pulpit, manifest in some churches, does not meet with the approval of the bishops of the Methodist church. Bishop Berry takes the position that there should not be any change in the standard of preaching that has so long characterized the Methodist denomination.

D. E. H., Oct. 30, 1905.

## THE WAY TO GET EVERYTHING RIGHT

is to come to the right store—here—where you can buy without danger of loss or mistake.

We correct mistakes—ours as well as yours—and your money back if you prefer.

The first snow of the season changed the appearance of the landscape. How beautiful the hilltops looked this morning. You, too, will have to change your appearance now, and put on heavier underwear, a suit of good weight and an overcoat to protect you from the cold.

Do you know that we carry one of the most extensive lines of

## RUBBERS AND OVERSHOES

in Duluth. We have every kind of them for men, boys and little fellows.

Light-weight rubbers in low, medium and high storm cut.

Low cut and storm Alaskas.

Light and heavy Arctics with one, two and four buckles.

Lumbermen's "Gold Seal" and "American" Rubbers with leather tops.

Boys' rolled edge Rubbers to be worn with German socks.

Moccasins and Shoe Pacs.

Columbia prices will be found all right on these goods as on everything else.

## COLUMBIA CLOTHING CO

Foot-Note: Wear heavy-sole Columbia \$3.50 Shoes.

### Superior Mills Running.

Life in Superior today was not marked by any upheavals incidental to the grain inspection trouble. The attorney general of Wisconsin will not begin his action against the millers for ten days as they have been allowed that length of time in which to produce a lease which converted the elevators into private warehouses. All the mills are running today.

### No New Trial for Ignasiak.

Judge Cant, this morning, signed an order denying the motion of Jan Ignasiak to have the verdict set aside and a new trial granted in the fire damage case which he had against the Jean Duluth company. Ignasiak claimed that his timber and farm buildings were destroyed by a fire

starting from a stump pile on the Jean Duluth stock farm. He sued for damages in the amount of \$4,000, but the jury returned a verdict against him. Ignasiak was represented by Ross & McKnight and the Jean Duluth company by H. B. Fryberger.

### THE STOCKHOLDERS MAY INSPECT BOOKS OF BANK.

Washington, Oct. 30.—In deciding the case of J. W. Guthrie vs. H. L. Harkness, the supreme court of the United States today held that a stockholder in a national bank is entitled to inspect the books of the bank. The case arose in connection with the Commercial National bank of Ogden, Utah, of which Harkness owned one-fifth of the stock.

## CITY ASKS MANDAMUS

Lake Avenue Viaduct Case Is Up For Hearing.

Court to Decide Who Is to Maintain the Structure.

A partial hearing of the Lake avenue viaduct case was had before Judge Cant, this morning, on an alternative writ of mandamus issued at the petition of the City of Duluth, directing the Northern Pacific Railway company to proceed immediately to repair and maintain the Lake avenue viaduct, or to show cause why it should not do so.

The argument was made by City Attorney Bert Fesler, for the city and by Washburn, Bailey & Mitchell for the railway company.

This action is one in which it is sought by the city to determine whether it can legally compel the railway company to repair the viaduct, repave the street, and to show cause why it should not do so.

The argument was made by City Attorney Bert Fesler, for the city and by Washburn, Bailey & Mitchell for the railway company.

This action is one in which it is sought by the city to determine whether it can legally compel the railway company to repair the viaduct, repave the street, and to show cause why it should not do so.

## PLANS AN EXPEDITION TO NORTH POLE

Seattle, Oct. 30.—Dr. Antoine Varile, the projector of the international polar institute, which proposes to send a party of the best-known "mushers" of the Klondike country on an expedition to the North pole, reached Seattle today from Dawson.

To the correspondent of the Associated Press, Dr. Varile said that he proposed to leave Seattle next July, if the expedition could be organized by that time, and proceed by boat to the most northeasterly point of Grant

Land, where a basis of supplies, or post of departure would be established to await the most favorable time for the dash to the unexplored country. Dr. Varile says that if the expedition is a success the party will pass entirely across the explored country, after taking observations and securing information of a scientific nature in the vicinity of the North Pole, and come out at Franz Josef Land, which point other expeditions made the base of supplies.

## MEXICAN GUIDE KILLS HIS EMPLOYER

San Francisco, Oct. 30.—Passengers arriving on the steamer City of Topeka from the Mexican coast bring a story of the death of John O'Dea, an American mining engineer, who was murdered recently while on his way from Hermosillo, the capital of Sonora, to the mines in the interior of that state. O'Dea was formerly identified with

mining in this state. He sailed several weeks ago from Guaymas, and on reaching Hermosillo, engaged a Mozo or native servant to guide him to the mines in the interior.

When only six miles out of Hermosillo, according to the story brought by the City of Topeka, O'Dea was slain in the back by his Mexican guide. His body was found by travelers and taken to Hermosillo.

Mr. and Mrs. Peter Charrier are down from Two Harbors visiting friends in West Duluth.

Mr. and Mrs. Dean Holt are down from Scanlon.

J. J. Lauerbach has returned from Chicago.

Fred Seyborski, the tailor, has been laid up for several weeks with a very sore hand.

Reginald Graham came up from Minneapolis where he is attending the State university, and spent Sunday with his parents, Dr. and Mrs. David Graham, returning last evening.

The work on the Grand street railway extension is being rushed and the line will probably be opened this week.

Work has ceased for the present on the West Superior street paving. If the snow goes away it will likely be resumed.

Mr. and Mrs. G. H. Mosser of Fifty-seventh avenue west, left Saturday for Riverside, Cal., to spend the winter.

E. O. Culter has returned from South Dakota where he was running a threshing machine. He will go into the woods for the Scott-Graft company soon.

Miss Laura Pierson of Fifth avenue west is entertaining Miss Grace Smith of Superior.

Mr. and Mrs. J. C. Beamer of Fifty-fourth avenue west will leave Wednesday for Memphis, Tenn., to spend the winter.

Preparations for logging during the coming winter are becoming quite general in West Duluth just now.

This weather makes people remember that they can buy shoes at wholesale prices at Lauerbach's. He is going out of business.

the world's greatest kidney and liver regulation, and the only medicine having a combined action on kidneys and liver. One pill a dose; 25 cents a box. Write for free sample to The Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

## SILBERSTEIN & BONDY CO.

## Fashionable Apparel

Goods bought after 25th charged on next month's bill.

The known character and easily apparent superiority of The S. & B. clothes are sometimes positive handicaps to us because some people form the idea that such fine garments must cost a great deal to own.

But this is not so with all our splendid selling of the finest ready-to-wear clothes. We have never neglected the woman whose outlay is small.

For instance, our "swagger" London coat at \$12.50 is easily within reach of the most economical woman, while our handsomely tailored long coat suits at \$19.50 are equally attractive in price.

The assortment of suits and wraps at \$25 is exhaustive—a rich and tasteful showing of

the best styles, in the most desirable of materials.

Duluth women are rapidly acquiring a strong predilection for better clothes, and at no other past season is this so strongly apparent as now, the ever-increasing demand for the "S. & B." garments being the best proof of this fact.

And why not? The day of the cheap article and shoddy garment is past, and women have come to a realization that the best is the cheapest, and demand better goods. If you have not already made your winter purchases let us suggest a look at our splendid showing. Once a customer here, always a customer.

## WILL NEED A NEW PUMP

Two Pumps at Lakewood Are Working to Full Capacity.

At a meeting of the board of water and light commissioners held Saturday afternoon, Manager L. N. Case urged the purchase of a new 100,000 gallon pump at the Lakewood pumping station, because of the rapidly increasing consumption of water.

He stated that the present equipment of two 50,000 gallon pumps is being worked to its full capacity. His plan is to have an auxiliary pump put in to meet an emergency, should there be an accident, or sudden demand on the water supply.

After the 100,000 gallon reservoir at West Duluth is completed, more pumping capacity will be necessary at the Lakewood station. The Park Point extension and West Duluth extension will greatly increase the water consumption and Manager Case intimates that it will be hazardous to delay the installation of a new pump.

The matter has been referred to Commissioner L. B. Manley to investigate and report at the next meeting of the board.

The water board has issued orders for the repair of the Park Point reservoir. The work is being done by Emil E. Borst, a Chicago expert, with a crew of men. It is necessary to get the holder repaired in the shortest time possible, because of the poor gas service resulting from the direct pressure system which was installed following the explosion last Thursday afternoon.

In reporting the accident to the board, Manager Case assigned no reason, stating it was his belief that had there been no flame following the explosion of the gas, the explosion was due to disintegration of the metal in the holder.

It is believed that the repair work will be completed in two weeks, if the men work day and night.

The water board also considered the petition now pending for an extension of the gas mains to that part of the city. The estimated cost of the extension is \$20,000, in addition to an estimate of \$20,000 for a holder with a capacity of 50,000 cubic feet of gas. It is proposed to lay the main from the present end at Twenty-second avenue east along London road to Sixtieth avenue east.

This extension will be a most necessary addition to the city's gas supply, and, in the event of another explosion, it would be necessary to complete the main from Fourteenth to Twenty-second avenue east and for the installing of a system of gas mains to increase the pressure of the gas supply.

Only approximate estimates have been had of the proposed Lakewood extension, but on the basis of a cost of \$3,000, the new service would have a net income of \$7,000.

The present pressure is not sufficient, Mr. Case states, to force the gas to Lakewood, but if the guaranteed income is assured, changes can be made necessary to get sufficient pressure.

Manager Case has submitted to the board two plans to accomplish this pressure. One is to install at a given point on the line, an auxiliary exhaust, which will require a building and a steam or gas engine and three additional employees for its operation; the other is to install a holder with a capacity of 50,000 cubic feet, with a working pressure of 8 to 10 inches. Mr. Case said a holder of this capacity is rapidly becoming necessary because of increasing consumption, and the latter plan he followed. It is claimed that not only will gas be forced to Lakewood, but at the hours of greatest consumption, the holder will furnish sufficient supply for the city and render it unnecessary to duplicate or replace with larger sizes the distribution pipes that comprise the present system.

St. Croix avenue, near Michigan street, has been suggested as the site for the auxiliary holder, or a location between Second and Third streets.

Manager Case has suggested that before work requiring such a heavy expenditure be undertaken, the plan be submitted to an expert gas engineer.

"There's a Reason."

At a recent meeting of the board of directors of the Children's Home Society, the report of the committees on the annual hall was given. The Charity hall which will be given as usual under the auspices of the home board will be held at the Spaulding, Tuesday evening, Nov. 28. Every effort is always made to make this affair a most brilliant one and this year will be no exception to the rule. The hall coming in Thanksgiving week makes the appeal to the charity of the people stronger than usual.

### THE FEDERATION.

**Club Women Tell of the Minneapolis Meeting.**

Saturday afternoon at the meeting of the Saturday club a full and interesting report of the recent annual meeting of the Minnesota Federation of Women's club was given by the Duluth delegates who were in attendance. Mrs. L. L. Washburn who was elected president of the federation is a member of the Saturday club and at the opening of the meeting, the club's president, Mrs. H. S. Ely, presented Mrs. Washburn in behalf of the club members a beautiful bunch of golden and white chrysanthemums, the club's colors. Mrs. Washburn was given the Chataqua salute.

The social features of the federation meeting were spoken of by Mrs. George S. Richards. Mrs. F. L. Barrows reported the speech of Miss Jane Addams. Mrs. R. N. Marble told of the business sessions; Miss Folger spoke of the educational features and Mrs. H. C. Marshall reported Dr. J. Ohage's lecture on "Public Playgrounds." Mrs. Washburn spoke briefly on the work of the federation in general.

Following the meeting an informal reception was held in honor of Mrs. Washburn. Nearly a hundred of Duluth's club women were in attendance.

### Hallowe'en at Y. W. C. A.

The earth hath bubbles, as the water has, and these are of them." So said Banquo to Macbeth of the three weird sisters, and an own sister of the three has been invited all comers to the local Young Women's Christian association rooms during the last week of October to come to the Hallowe'en party to be held there this evening. A wild creation with black and white costumes, and a woman in a black and white hat has steadily worn a placard all week inviting the members of the association and their friends to the party. The affair will be held in the gymnasium and a large number of the guests will come in dress typical of the mystic night. Decorations, amusements and refreshments will be typical of the witches' night and a delightful time is anticipated.

### For Minneapolis.

The senior class of the high school entertained at an informal reception and hop at the high school Saturday evening in honor of the Minneapolis football team and visitors. The hall was decorated in red and white of the local school, red and blue, of the visiting school and red and black of the senior class. A large number of the students were present. The reception committee was composed of Misses Lelia Sparks, Elsie Crasswell, Mabel Culkh, Mabel Smith, Benjamin Frink, Charles McLennan, Earl White and Edward Bergen.

### Wedded at Wadena.

Miss Ella May French, daughter of Mrs. Nellie French of Wadena, Minn., formerly of Duluth and Fred Clair Brown of Wadena, were married last evening at the home of the bride's mother. The wedding service was read by Rev. K. C. Cooper of Staples, Minn., who was formerly a pastor in this city. Miss French is well known in Duluth where she lived a number of years and of the class of 1903 of the local high school. Mr. and Mrs. Brown will be at home in Wadena.

### Hallowe'en Party.

Little Miss Ruth Prosser was hostess at a Hallowe'en party Saturday afternoon at her home, 4222 London road. The little guests were entertained with Hallowe'en pranks, weird lanterns shining out of the darkness lighting up a room in which fortunes were doled out to the little girls. In a guessing game for the afternoon the prize was won by Miss Laurel Squires. Those present were:

Misses: Marion Todd, Helen Prosser, Elizabeth Howard, Laurei Squires, Margaret Peterson, Margaret Crasswell, Mary Johnson, Muriel Brown, Margaret Robertson, Marion Fleishman, Agnes Pearson, Margaret McLennan, Elsie Sargent, Estelle Bradley, Marie Wolfson, Alice Elchen.

### Events of Interest.

The Delta Sigma Nu fraternity entertained at a brake ride to the football game Saturday afternoon, and following the game, dinner at the Commercial club. Mr. and Mrs. A. D. Goodman were the chaperones.

The alumni members of the Delta Delta fraternity were hosts Saturday at a brake ride to the game and dinner at the St. Louis.

The program of the Matinee Musical, which was presented this afternoon at Stearns hall, was in charge of Emily Ellis Woodward and Mrs. Fred G. Bradbury.

The Evening Browning class of the Twentieth Century club will meet this evening at 7:45 at the club room of the library. Rev. J. W. Powell will deliver the second lecture of the series, and the first on five evenings to be devoted to "The Ring and the Book." The members are urged to be prompt in attendance.

Tomorrow morning the third lecture of the Art History series will be held at 10 o'clock at the library. The leader of the class is Mrs. Robert Morris Seymour.

The next meeting of the Travel class of the Twentieth Century club will be held Monday of next week, when an especially fine program will be presented. The afternoon will be given up to a lecture by Mrs. John McLeod on "The Development of Literature in the British Islands."

The Thimble Bee of the Women's

Relief corps will meet Thursday afternoon at 2 o'clock with Mrs. John Williams of 517 West Second street.

Tomorrow afternoon the Endion Circle of the First Presbyterian church will meet with Mrs. F. L. Duell of 156 East Superior street. All women of the church living east of Fifteenth avenue east, are invited to join this circle.

The regular meeting of the Lester Park Literary club will be held tomorrow afternoon with Mrs. E. S. Farrell of 501 East Fifth street. The leader for the afternoon will be Mrs. H. A. Dodge.

The Epworth League of the First M. E. church will give a Hallowe'en social in the church parlors, tomorrow evening. Preparations have been made for a good time, and the room have been appropriately and artistically decorated. League members are desirous that all the young people of the community will consider themselves invited.

### Personal Mention.

Mr. and Mrs. James Earl Jefferson, street left Saturday for a week's visit on the ranges.

Mrs. J. C. McLean and daughters, Olive and Marjorie, of Lakeside, have returned from a several weeks' visit with friends at Tomah, Wis.

Mrs. George C. Stutz has returned from a visit at Saginaw, Mich.

### MATTER OF MOODS

Come to All and Should Be Perfectly Controlled.

Moods play an important part in the lives of most of us, says the Washington Star. They appear to us as something passing and unimportant, but one day carry the world on our shoulders as though it were the most infinitesimal atom, and the next feel too small to be worthy of consideration. When I am in that any one is mindful of me?

One day I am interested in everything. My feet strike the pavement; I am off; life is victory and I am life. I am everything to all men. One says of me, "What a charming, insignificant creature!" because to him I am a wild, unthinking girl with no hope of heaven save gaining some one's attention. And another says: "What a proud beauty!" for to him I am an austere. If we talk, it must be to him, and if I am to be attentive to him he must argue well. The third says, "What a sweet little wife she would make!" for I tell him how a woman should act and what a woman should be, and I picture her with the alluring graces that hold the senses spellbound, and he sees an image full of sympathy, long suffering, patient and kind. I tell him how, when he comes home tired and weary, she will soothe his restless spirit; if he wants her to talk she will say just what he longs to hear, and if he would rest under the witching spell of silence she utters no word that shall break the charm. If he comes home full of the electricity of life he shall find her smiling and glad, eager to be off and away where the music is.

### OFFERINGS IN THE MARKET.

Endive, 5 cents a bunch.  
California cauliflower, 20 and 25 cents a head.  
Duluth carrots, two bunches for 5 cents.

Water cress, 3 bunches for 10 cents.  
Spinach, 15 cents per bush.  
Ox tails, 2 for 15 cents.  
Pork tenderloins, 25 cents a pound.

With the proper adjuncts, "Californian" preceding almost all the good things and for many a prohibitive price following, the announcement of Duluth carrots at the market, but comforting word that shall break the charm. If he comes home full of the electricity of life he shall find her smiling and glad, eager to be off and away where the music is.

on the snowy, slippery pavement, breaking its left front leg. The horsemen who poured from the door of T. A. Scarrlett's stable across the street from the scene of the accident shook their heads when they had examined the animal, and the owner consented to the shooting.

"Black Beauty" was tied to the rear end of a wagon upon which the patrolman stood. The drivers of passing teams plucked their horses' ears, and the carriages of the horseless motorists turned away for an instant, when Patrolman Carter calmly threw back the animal's forelock and aimed his black revolver at a spot between the two mid-making eyes.

There was a loud report, the horse fell, and the neighborhood gradually went back to its work.

Teamsters were very careful of the animals in their charge this morning, and while many slipped and some fell, no other horses had to be shot, so far as is known. The blacksmith shops were busy places all day, many horses being shod with winter footwear.

No matter how long you have had the cough, if it hasn't already developed into pneumonia, Dr. Wood's Norway Pine Syrup will cure it.

### PIANO HIS DEATHBED.

Mike O'Connor Found Dead In a Deer River Saloon.

The Deer River News says that on Thursday, "The animal was dead before a small crown of pedestrians, stable boys and teamsters, and before the eyes of a number of stenographers in the Wolvin building, by the sight. The executor was Patrolman Carter, and he did his work well. This Duluth man was the property of an expressman, and slipped

Mr. Gough returned to Plattsburg Saturday night.

### LOGGING WORK BEING PUSHED

**New Camps Are Established and Men Are In Demand.**

These are busy times for the loggers. Every day teams, men and camp supplies are being shipped out to various points on the railroads nearest the districts where logging operations are beginning for the winter season.

The Scott-Graft Lumber company started two camps last week at Drummond and at Cromwell. Forty men have been sent to each camp, and this number will be increased as fast as practicable. This week the company will start another camp near Drummond and will let several large logging contracts in the near future.

It is claimed that the repairs to the old Hubbard & Vincent mill will practically amount to a new outfit. The mill is being fitted out by Cook & O'Brien interests so that it can run day and night, summer and winter. It will be ready for operation by Dec. 1.

The Red Cliff Lumber company, which has been operating two shifts for the past year, will discontinue the night run. This will not be done because of the scarcity of work, but because of the difficulty experienced in getting enough men to stay on the night shift.

**HABEAS CORPUS FOR DOUGHERTY.**  
Pearla, Ill., Oct. 28.—Judge Worthington today granted a writ of habeas corpus for Newton C. Dougherty, confined the county jail for alleged defalcation of school funds, but refused to fix the date for the hearing.

## WILL NEED A NEW PUMP

### Two Pumps at Lakewood Are Working to Full Capacity.

At a meeting of the board of water and light commissioners held Saturday afternoon, Manager L. N. Case urged the purchase of a new Lakewood gas pump at the Lakewood pumping station, because of the rapidly increasing consumption of water.

He stated that the present equipment of two 3500-gallon pumps is being worked to its full capacity. His plan is to have an auxiliary pump put in to meet an emergency, should there be an accident, or sudden demand on the water supply.

After the 400,000-gallon reservoir at West Duluth is completed, more pumping capacity will be necessary at the Lakewood station. The board is at present considering the purchase of a new Lakewood gas pump at the Lakewood pumping station, because of the rapidly increasing consumption of water.

## WOMAN'S SOCIAL, MUSICAL AND CLUB CIRCLES

At a recent meeting of the board of directors of the children's home society, the report of the committees on the annual ball were given. The Charity ball which will be given as usual under the auspices of the home board will be held at the Spaulding, Tuesday evening, Nov. 28. Every effort is always made to make this affair a most brilliant one and this year will be no exception to the rule. The ball committee in Thanksgiving week makes the appeal to the charity of the people stronger than usual.

### THE FEDERATION.

#### Club Women Tell of the Minneapolis Meeting.

Saturday afternoon at the meeting of the Saturday club a full and interesting report of the recent annual meeting of the Minnesota Federation of Women's club was given by the Duluth delegates who were in attendance. Mrs. J. L. Washburn who was elected president of the federation is a member of the Saturday club and at the opening of the meeting, the club's president, Mrs. H. S. Elg, presented Mrs. Washburn in behalf of the club members a beautiful bouquet of golden and white chrysanthemums, the club's colors. Mrs. Washburn was given the Chautauqua salute.

The social features of the federation meeting were spoken of by Mrs. George A. Richardson. Mrs. F. L. Burrows reported the speech of Miss Jane Addams. Mrs. R. N. Marble told of the business sessions. Miss Polier spoke of the educational features and Mrs. H. C. Mearns reported Dr. J. O'Connell's lecture on "Public Playgrounds." Mrs. Washburn spoke briefly on the work of the federation in general.

Following the meeting an informal reception was held in honor of Mrs. Washburn. Nearly a hundred of Duluth's club women were in attendance.

### Hallowe'en at Y. W. C. A.

"The earth hath bubbles as the water has, and these are of them." Said Bangs to Macbeth of the three weird sisters, and an even sister of the three has been invited all corners to come to the Hallowe'en party to be held there this evening. A word creation with lank outstretched arms, garbed in somber black and high witch hat has steadily worn a placid air, calm inviting the members of the association and their friends to the party. The affair will be held in the gymnasium and a large number of the guests will come in dress typical of the mystic night. Decorations, amusements and refreshments will be typical of the witches' night and a delightful time is anticipated.

### For Minneapolis.

The senior class of the high school entertained at an informal reception and hop at the high school Saturday evening in honor of the Minneapolis football team and visitors. The hall was decorated in red and white of the local school, red and blue of the visiting school and red and black of the senior class. A large number of the students were present. The reception committee was composed of Misses Lella Sparks, Elsie Grassweller, Mabel Calkin, Mabel Smith, Benjamin Frink, Charles McLoman, Earl White and Edward Brown.

### Wedded at Wadena.

Miss Ella May French, daughter of Mrs. Nellie French of Wadena, Minn., formerly of Duluth and Fred Clair Brown of Wadena, were married last evening at the home of the bride's mother. The wedding service was read by Rev. E. K. Connor of Staples, who was formerly a pastor in this city. Miss French is well known in Duluth because she lived a number of years of the class of 1903 of the local high school. Mr. and Mrs. Brown will be at home in Wadena.

### Hallowe'en Party.

Little Miss Ruth Prosser was hostess at a Hallowe'en party Saturday afternoon at her home, 422 London road. The little guests were entertained with Hallowe'en pranks, weird lanterns shining out of the darkness and lighting which form in which fortunes were dealt out to the little girls. In a guessing game for the afternoon the prize was won by Miss Laura Spillers. Those present were:

Misses—Toll, Helen Prosser, Elizabeth Howard, Laura Spillers, Fred Bartholomew, Kate Grassweller, Marguerite Getz, Marion Kleinman, Agnes Pearson, Ethel Macbeth, Estelle Bradley, Marie Wolfson, Alice Thelen, Clara Wolfson.

### Events of Interest.

The Delta Sigma Nu fraternity entertained at a brake ride to the football game Saturday afternoon, and following the game, dinner at the Commercial club. Mr. and Mrs. A. D. Goodman were the chaperones.

The alumni members of the Delta Theta fraternity were hosts Saturday at a brake ride to the game and dinner at the St. Louis.

The program of the Matinee Musical, which was presented this evening at Steinhay hall, was in charge of Emily Ellis Woodward and Mrs. Fred G. Bradbury.

The Evening Browning class of the Twentieth Century club will meet this evening at 7:45 at the club room of the library. Rev. J. W. Powell will deliver the second lecture of the series, and the first on five evenings to be devoted to "The Ring and the Book." The members are urged to be prompt in attendance.

Tomorrow morning the third lecture of the Art History class will be held Monday of next week, when an especially fine program will be presented. The afternoon will be given up to a lecture by Mrs. John McLeod on "The Development of Literature in the British Islands."

The Thimble Bee of the Women's

Relief corps will meet Thursday afternoon at 2 o'clock with Mrs. John Williams of 517 West Second street.

Tomorrow afternoon the Endion Circle of the First Presbyterian church will meet with Mrs. F. L. Buell of 108 East Superior street. All women of the church living east of Fifteenth avenue east, are invited to join this circle.

The regular meeting of the Lester Park Literary club will be held tomorrow afternoon with Mrs. E. S. Farrell of 501 East Fifth street. The leader for the afternoon will be Mrs. H. A. Dodge.

The Epworth League of the First M. E. church will give a Hallowe'en social in the church parlors, tomorrow evening. Preparations have been made for a good time, and the rooms have been appropriately and artistically decorated. League members are desirous that all the young people of the community will consider themselves invited.

### Personal Mention.

Mr. and Mrs. James Hale of Jefferson street left Saturday for a week's visit on the ranges.

Mrs. J. C. McLean and daughters, Olive and Marjorie, of Lakeside, have returned from a week's vacation's visit with friends at Tonah, Wis.

Mrs. George A. Sullivan has returned from a visit at Saginaw, Mich.

### MATTER OF MOODS

Come to All and Should Be Perfectly Controlled.

Moods play an important part in the lives of most of us, says the Washington Star. They appeal to us as something passing strange. Why can we one day carry the world on our shoulders as though it were the most infinitesimal atom, and the next feel too small to be worthy of consideration—What am I that any one is mindful of me?

One day I am interested in everything. My foot strikes the pavement; I am off; life is victory and I am life. I am everything to all men. One says of me, "What a charming, interesting creature!" because to him I am a wild, unthinking girl with no hope of heaven save in gaining some one's attention. And another says: "What a proud beauty!" for to him I am an austere. If we talk, it must be on the subject of duty. I am to be attentive to him he must argue well. The third says, "What a sweet little wife she would make!" for I tell him how a woman should be, and I lecture her with the alms of grace that hold the senses spellbound, and he sees an image full of sympathy, long suffering, patient and kind. I tell him how, when he comes home tired and weary, she will soothe his restless spirit; if he wants her to talk she will just listen to him long and hear, and if he would rest under the witching spell of silence she utters no word that shall break the charm. If he comes home full of the electricity of life he shall find her smiling and glad, eager to be off and away where the mind can be free.

My foot strikes the pavement; I am off; life is victory and I am life. I am everything to all men. One says of me, "What a charming, interesting creature!" because to him I am a wild, unthinking girl with no hope of heaven save in gaining some one's attention. And another says: "What a proud beauty!" for to him I am an austere. If we talk, it must be on the subject of duty. I am to be attentive to him he must argue well. The third says, "What a sweet little wife she would make!" for I tell him how a woman should be, and I lecture her with the alms of grace that hold the senses spellbound, and he sees an image full of sympathy, long suffering, patient and kind. I tell him how, when he comes home tired and weary, she will soothe his restless spirit; if he wants her to talk she will just listen to him long and hear, and if he would rest under the witching spell of silence she utters no word that shall break the charm. If he comes home full of the electricity of life he shall find her smiling and glad, eager to be off and away where the mind can be free.

My foot strikes the pavement; I am off; life is victory and I am life. I am everything to all men. One says of me, "What a charming, interesting creature!" because to him I am a wild, unthinking girl with no hope of heaven save in gaining some one's attention. And another says: "What a proud beauty!" for to him I am an austere. If we talk, it must be on the subject of duty. I am to be attentive to him he must argue well. The third says, "What a sweet little wife she would make!" for I tell him how a woman should be, and I lecture her with the alms of grace that hold the senses spellbound, and he sees an image full of sympathy, long suffering, patient and kind. I tell him how, when he comes home tired and weary, she will soothe his restless spirit; if he wants her to talk she will just listen to him long and hear, and if he would rest under the witching spell of silence she utters no word that shall break the charm. If he comes home full of the electricity of life he shall find her smiling and glad, eager to be off and away where the mind can be free.

## ST. PAUL IS DEFEATED BY EXPLOSION

Blaine High School Team Wins From the Centrals.

Lays Claim to Championship of the Two States.

The Blaine high school of Superior, in part at least, made good its claim of being the fastest high school eleven in Minnesota or Wisconsin that can hold its own in two states, by taking the St. Paul Centrals into camp Saturday by the score of 22 to 5.

The victory puts the Blaine team in a class by itself, and it is doubtful if there is a high school eleven in Minnesota or Wisconsin that can hold its own in two states, by taking the St. Paul Centrals into camp Saturday by the score of 22 to 5.

St. Paul proved no match for the Superior team, and the visitors were given one of the worst drubbings in their history. During the first half the Centrals put a stubborn resistance to the Superior backs, and had if anything the better of the game. Two or three disastrous fumbles by the visitor men let the Centrals get into scoring distance. A goal from the field was attempted, but it failed, and the Superior team carried the ball back twenty yards. The visitors braced up, however, and by hard line plunges got within Blaine's 5-yard line, when Paul back Hogan was pushed over by the first touchdown, which was not counted.

The St. Paul team had shot its bolt, however, and from this time on nothing appeared to stop the triumphant march of the Blaine boys. The Buchanan brothers and McGraw tore through the St. Paul line at will, and St. Paul's Rooney at ends played a wonderful game. During the remainder of the first half the St. Paul men put up a hard fight, and the Blaine team was successful in scoring but once, leaving the score at half time, 5 to 5.

Blaine seemed to have a new lease of life in the second half and had the visitors beaten from the kickoff. Art Buchanan was downed in the line of scrimmage on the kickoff, but his brother promptly got away for 17 yards on the first play. Rooney carried the ball back the longest run of the day, making 35 yards, being finally downed by the quarterback. McGraw tore through the right guard, and Art Buchanan made 4 more through the same place, following it up with a 20-yard run on the right end. He followed this up with a 20-yard run for a touchdown, around Central's left end, and the score stood 6 to 6.

The third touchdown was a repetition of the second, with the difference that the march was stopped temporarily by a fumble, but St. Paul was held for downs and the Blaine team started its march down the field. Stack worked in a sensational 30-yard run, and Rooney cross-bucked for twenty more around left end. Harvey Buchanan was pushed over for the last touchdown of the game, and Young kicked the goal, leaving the score 22 to 5. The line-up:

Blaine. Position. St. Paul.  
Stack. Right end. Watson.  
Hare. Right tackle. Baumgartner.  
Hotchkiss. Right guard. Holler.  
Young. Center. Powers.  
Henry. Left guard. Oakes.  
Burr. Left tackle. McCloghan.  
Rooney. Left end. McGraw.  
H. Buchanan. Right Halfback. Hanley.  
and Horvath.  
McGraw. Left Halfback. Benham.  
A. Buchanan. Fullback. Horgan.  
and Balfour.

**New Cure for Cancer.**  
All surface cancers are now known to be curable, by Bucklen's Arnica Salve. Jas. Walker of Buffalo, N.Y., writes: "I had a cancer on my lip for years, that seemed incurable. I got Bucklen's Arnica Salve, and it cured me. It is perfectly safe. Guaranteed. Cures all cuts and burns. 25¢ at all druggists."

## A Doctor's Medicine

Ayer's Cherry Pectoral is not a simple cough syrup. It is a strong medicine, a doctor's medicine. It cures hard cases, severe and desperate cases. Especially good in bronchitis, pleurisy, consumption. Ask your doctor about this. We have no secret. We publish the formula of all our medicines.

## FIVE KILLED BY EXPLOSION

Mine Officials Enter Pit to See If Fire Is Out.

Pittsburg, Oct. 30.—Five minor officials of the Pittsburg and Westmorland coal company gave up their lives at 12:30 o'clock yesterday morning, when they entered the Hazel Kirk mine No. 1 of the Hazel Kirk mine No. 1, and No. 2, to see if the fire in the mine was out.

The dead were: HORNAL, superintendent; DANIEL GRIFFITH, foreman; JAMES LUTHER, foreman; HENRY CLAYBORNE, fire boss; and JOHN B. HORNAL, fire boss.

Two weeks ago an explosion in the mine caused the death of two men. The entry in which the explosion occurred was closed up and water turned on. Instead of sending foreign miners employed by the company to investigate and see if the fire in the entry had been extinguished, it was decided that if any risk was to be taken, the holding responsible positions should take the chance. As the five men approached the portion of the mine which is burning, they became aware that the water had not extinguished the blaze. They decided to go down the shaft and see if the fire in the entry had been extinguished. They were met by a large fire, and the five men were killed.

Andrew Roger, who was some distance behind the others, escaped by jumping out of the mine. He was badly burned, but he escaped. The bodies of the five men were found in the mine. The mine is now closed.

## DONT BORROW Trouble.

It is a bad habit to borrow anything, but the worst thing of all is to borrow money. Money is a curse. It is a curse to the man who has it, and a curse to the man who does not have it. Money is a curse to the man who has it, and a curse to the man who does not have it.

## BREAKING OF WATER MAIN Causes Death of Three and Injury to Several in Chicago.

Chicago, Oct. 30.—Three lives were lost, property valued at \$100,000 was destroyed, and scores of families were driven from their homes and freight traffic on the Nickel Plate railway was delayed for several hours on account of the breaking of a water main in the city of Chicago yesterday. The fatalities resulted from the bursting of the water pipe, inundating the neighborhood for several blocks. Two of the persons who lost their lives were overcome by gas in the Illinois tunnel at Eighteenth street and Armour avenue, while attempting to ascertain if the flood had diminished the property of the company. The other death was the result of shock to an invalid, who awoke and found her room flooded with water. Several persons were injured in the flood when attempting to recover the bodies of the two men who were killed.

The dead: MICHAEL BARRY, shaft superintendent of the Illinois Tunnel company; PATRICK BARRY, master mechanic of the tunnel company, both overcome by gas in the tunnel; MISS LOUISE HAMLIN, 70 years old, died as a result of the shock and exposure.

The injured: John Carey, overcome by gas, condition serious; Cyril Maher, overcome by gas, condition serious; Joseph Lavichio, leg broken.

Several other persons suffered minor injuries while escaping from their homes in the flooded district.

Up to a late hour the bodies of the three who were killed were still in the tunnel. So great was the force of the water that it broke through the main that it took several hours yesterday afternoon before the stream could be stopped.

The salve that heals without a scar is DeWitt's Witch Hazel Salve. No remedy effects such speedy relief. It draws out inflammation, soothes, cools and heals all cuts, burns and bruises. Sold by all druggists.

## FLOOR CITY IS WINNER

Minneapolis Scores Twice on Duluth In Saturday's Football Game.

Duluth Outweighed But Plays Desperately, Often Holding For Downs.

Saturday afternoon before a crowd of more than a thousand enthusiastic supporters, the Duluth high school football team met its eighth defeat at the hands of Minneapolis Central. The score was Minneapolis 12, Duluth 0. The Duluth boys played a hard game but they were completely out of sync. They were out of sync in their play, and they were out of sync in their defense. They were out of sync in their play, and they were out of sync in their defense.

The strong point of the Minneapolis team was the fullback, Schroeder, a six-foot, 180-pounder, who carried all their gains through the center of the line and, though he did not carry the ball over the line, he was a star game and made a number of good gains. Pundition and Hoglund, Minnesota tackle, played fast games and got into the interference early on every play. They were the men who made the touchdowns, Hoglund carrying the ball over the line for the first touchdown five minutes later, for the second. The kicking by the Minneapolis team was very poor. Two attempts at goal were miserable failures and a third one was blocked by Coventry.

Spencer's punting was one of the features of the game, and considering the fact that the Duluth men made no gains, it was a remarkable feat. Spencer's punting was one of the features of the game, and considering the fact that the Duluth men made no gains, it was a remarkable feat.

was downed on Duluth's 7-yard line. A fake play resulted in a loss and Spencer made the best punt of the day. Here Schroeder of the offensive line making five gains in successive downs of seven, six, two, eight and three yards each, which brought the ball to Duluth's three-yard line. Though the honor of the touchdown rightfully belonged to Schroeder, Pundition was the man who was given the ball for the score and he just crossed the line on the next play. Capt. Farnam kicked goal.

Before the kickoff, Paine was called from the line to take Crawford's place, the latter being completely exhausted, having borne the brunt of the Minneapolis attack before each touchdown. Spencer kicked off and Cummings downed the runner. Saxton Cravens broke through and Cummings broke away from the bunch and would have scored but for a brilliant run by Spencer who pulled him down after making thirty yards.

Minneapolis was penalized five yards for a forward pass and with twenty seconds to play, they made another drive. Spencer broke through and blocked the kick and Cummings broke away from the bunch and would have scored but for a brilliant run by Spencer who pulled him down after making thirty yards.

## LAWRENCE IS BEATEN

By Minnesota In Easy Fashion By Score of 46 to 0.

Only About Half of the Regulars in the Game.

Minneapolis, Oct. 30.—(Special to The Herald.)—Minnesota beat the strong team from Lawrence by a score of 46 to 0. As an appetizer, the Minnesota freshmen team beat the team from the dead and dumb institution at Fairbury by a score of 23 to 0. The freshmen played the best game they have played this season. The Fairbury boys came here with a valiant and a money-maker for both teams. Although they could not make much up, they played the game at all stages. Had they been better, the game would not have been so one-sided. It is to be hoped that this game will be an annual affair, for the novelty of it is a drawing card and a money-maker for both teams.

The regular game in the first half was a close contest, with Minnesota leading by a score of 10 to 0 in the first quarter. ## COMMERCE IN MANUFACTURES PHILADELPHIA

In Year Will Amount to More than a Billion Dollars.

Washington, Oct. 30.—(Special to The Herald.)—The foreign commerce transacted by and for the manufacturers of the United States will amount to more than \$1,000,000,000 in the calendar year 1905. In the nine months ending with September, for which the department of commerce and labor, through its bureau of statistics, has just announced its figures of our foreign commerce, the imports of materials for use in manufacturing amounted to \$22,000,000 and the exports of manufactures amounted to \$24,000,000, a total of \$46,000,000 in nine months, or an average of \$24,000,000 per month, or more than \$3,000,000 per day for the nine months ending with September, 1905, were practically the same as in the corresponding months of 1904, the figures for the nine months' periods of the years named being, for 1904, \$28,000,000 and in 1905, \$22,000,000, and of manufactures exported in 1904, \$28,000,000 and in 1905, \$24,000,000.

The exportation of manufactured articles has grown much more rapidly than the importation of materials, suggesting that the export-

Through the Crookedness of Those Engaged In Construction Work.

Philadelphia, Oct. 30.—The report of the board of investigating engineers appointed last July by Mayor Weaver to study the filtration system of the city and the northeast and southern boulevards now under construction, was made public yesterday. It is signed by Mel Cassius G. Childs, the United States engineer corps, who investigated the conditions in connection with the filtration system at Washington. The report shows that the city has lost through excessive costs, collusion, bribery, illegal deals and other means the sum of \$3,500,000. The contractors who received the contract for the filtration system are J. Ryan, John A. Kelly and Vero Bros. The members of the McNeel firm are J. Ryan, John A. Kelly and Vero Bros. The members of the McNeel firm are J. Ryan, John A. Kelly and Vero Bros.

Football—Wisconsin-Minnesota. For the Wisconsin-Minnesota game at Minneapolis, Nov. 4th, "The Northwestern Line" will sell excursion tickets to St. Paul and Minneapolis, Nov. 3rd and 4th, at \$4.80 for the round trip. Tickets will bear return limit until Nov. 6th, and may be used on any line between Duluth and the Twin Cities and return. City ticket office, 302 West Superior street.

## Pianos ... Organs Piano Players

The best and most artistic work of the world's greatest factories on sale at the largest piano warerooms west of Chicago on easy terms. We can suit any piano taste anywhere.

Duluth Music Co.

J. T. STEWART, Manager.  
222-224 West First Street, Duluth.

COUNTY HALL OF RECORDS, N. Y.

New York men are the best dressed in the world. The most impressively clad among them are the wearers of the Single or Double Breasted BUSINESS SUITS labeled

Alfred Benjamin & Co. MAKERS NEW YORK

The stylish coat this season is FAIRLY long.

The makers' guarantee, and ours, with every garment bearing the above label. We are exclusive agents here.

Oak Hall Clothing Co.

Cor. Fourth Ave. W. and Sup. St.

## Cold-Proof Underwear

Wright's Health Underwear differs from common underwear in that it protects the wearer from catching colds. It is made, as no other underwear is, on the wonderful Wright's loop-fleece principle. Upon the foundation fabric is woven a myriad of tiny loops of wool forming a fleecy lining to the garment. This open woven fleece gives the skin the requisite ventilation, allows the pores to breathe, carries off perspiration and allows it to evaporate outside, leaving the skin dry and healthy.

Ordinary catch-cold underwear is tightly woven, non-absorbent, and does not permit the skin to breathe. With many advantages Wright's Health Underwear costs no more than common underwear. Write for free book "The Loop of Health and the Fleece of Comfort."

WRIGHT'S HEALTH UNDERWEAR CO., 75 Franklin St., New York.

## DESCRIBES NEW MEXICO

Assistant United States Engineer Dever Writes of Irrigation Plans.

Tells About a Bull Fight He Attended at El Paso.

Irrigating dams and exciting bull fights in New Mexico are subjects of interest in a letter which F. L. Dever, formerly assistant United States engineer, connected with the El Paso office, has written Duluth friends from El Paso, Tex.

Mr. Dever was in charge of the government improvement work at Marquette last year, but had to go to the Southwest for change of climate, on account of ill health. Concerning the country and his trip, Mr. Dever says:

"The climate here seems to be perfect, and I like the place very much, much better than Santa Fe. There is no business in Santa Fe. You can walk the streets, or what they call streets, and see nothing but half-starved looking Mexicans crouched around on almost anything they can find to sit on.

There are at least a dozen nice brick cottages and houses built within a radius of two blocks of here, costing from \$2,000 to \$10,000 each. Real estate is booming and a surveyor can drop some time. In my opinion, the prices of both business and residence property are beyond any reason for the size of the place and the future prospects. They think if Mesilla valley is irrigated it will mean great things for this town. They call the city the 'Gateway' to the mining districts of Old Mexico, Southern New Mexico and Southern Arizona.

"I enclose a clipping from the El Paso paper in regard to the proposed irrigation dam to be built on the Rio Grande at Engle, N. M. If New Mexico has complied with the requirements of the interior department, as claimed, it will not be long before the government will begin a topographical survey of the valley. I have a survey in progress before any allotment is made for the work. The valley certainly looks as though it will be a garden spot if irrigated and the spring floods were taken care of.

"Taking care of the spring floods would seem to be quite a proposition. When the snow melts in the drainage district in the northern part of New Mexico, the whole valley, from Albuquerque down, is covered with water. It certainly would take a large storage reservoir to take care of this water. The river is very 'tame' appearing at the present time. I could wade across it here, and it is no larger 200 or 300 miles farther north.

"I met a former Duluth acquaintance in the street the other day. It was Charles Starkey. I think probably you know him, or, at least, you know the family. He is secretary of a mining company in Old Mexico and thinks he has a fortune in sight. He had gotten him limbs hurt and came to El Paso for medical treatment. Mrs. Starkey said she is a native of Montana. She has covered the mining districts from the Rio Grande to Old Mexico.

"Starkey wanted me to go down there, but I did not feel quite equal to the occasion. His father died soon after going to the coast, but his mother,

## MERCURY MAKES WRECKS NOT CURES

Thousands who have had their health ruined by Mercury testify that it makes wrecks instead of cures in the treatment of Contagious Blood Poison. While it may mask the disease in the system for awhile, when the treatment is left off the trouble returns with renewed violence, combined with the disastrous effects of this powerful mineral. Mercury, and Potash, which is also a common treatment for Contagious Blood Poison, eat out the lining of the stomach and bowels, produce chronic dyspepsia, cause the teeth to decay, make spongy, tender gums, affect the bones and muscles, and leave its victims complete physical wrecks. Another effect of this treatment is mercurial Rheumatism, the worst and most hopeless form of this disease. There is but one certain, reliable antidote for this destructive poison, and that is S. S. S. It is the only medicine that is able to go into the blood and cure the disease permanently. S. S. S. does not hide or cover up anything, but so completely drives out the poison that no signs of it are ever seen again. S. S. S. is made entirely of roots, herbs and barks, and while curing Contagious Blood Poison, will drive out the effects of any mineral treatment. We offer a reward of \$1,000 for proof that S. S. S. contains a particle of mineral of any kind. Book with instructions for self-treatment and any medical advice wished furnished without charge.

## MYSTERIOUS RAILROAD

That Is Being Built Through Virginia and West Virginia.

Standard Oil Company Believed to Be Back of Enterprise.

FROM THE HERALD WASHINGTON BUREAU.

Washington, Oct. 30.—(Special to The Herald)—For more than a year past a corps of engineers have been at work upon a mysterious railroad through the states of Virginia and West Virginia. Running westward from the terminal of Seville's point, near Norfolk, upwards of 40 miles have been constructed through the central coal fields, and it is doubtful if there is a railroad in the United States which has cost as much per mile as this new railroad, variously designated as the "Tide-water" and the "Deep-water."

More than \$90,000 have been expended on a single mile of the roadbed, and throughout the whole length of the right-of-way the most perfect construction is reported. The peculiar feature of the enterprise is that the engineers themselves do not know where the Western terminal is to be located. All that is positively known by the new road will tap the coal on the Eastern markets at greater advantage to the consumers of the coal, as well as to the owners of the mines.

Whenever an enterprise of magnitude is started in this country, it is assumed that the financial backing is furnished by the Standard Oil company. In the case of the railroad referred to the "Standard" is, of course, declared to be the originator. It is generally believed that the new road will eventually be a part of the Tidewater system, but in any event it is known that H. H. Rogers has supplied a great deal of the money. The sums of money thus far expended, the "Tide-water" is being constructed under the guidance of H. H. Rogers, formerly chief of the New York Central's engineering corps. It will tap the coal supply now controlled by the Norfolk and Western and Chesapeake and Ohio roads, and will help to place the semi-anthracite, and practically smokeless coal of the Virginia field in competition with the harder coals of Pennsylvania in the markets of Baltimore, Philadelphia and New York. Boston now has more favorable terms than they can be carried at present.

The first move was made towards securing the right-of-way for the "Tide-water," the Norfolk and Western, and the Chesapeake and Ohio, and a fight has occurred in every county in both states. It is understood that the Southern terminal of the Tidewater and Ohio Central, reported to be controlled by the Standard Oil company, will enable it to deliver its coal products through the new road to the markets of the East. It is further, that Joseph Tamm, formerly president of the Tidewater, owns personally thousands of acres of coal lands in the New River and Kanawha districts, which will be enormously enhanced in value through the new road.

In a speech before one of the committees of congress some time ago, Mr. Hill of the Great West said that if he could be permitted to run a freight line railroad, to carry coal from the West to New York, he would guarantee to turn the bargain canal through New York into a dry pond. It is not surprising, therefore, that the projectors of the "Tide-water" have proceeded on a similar theory. They have made no secret of their intention to reach the towns and cities of the Virginias but have projected a line as straight as the topography of the country and the location of the coal fields would permit. The new road will be ready for business, it is expected, within the next eighteen months.

This little story should be called "The Standard Oil Company's Revenge." If it had a title, there is a patent attorney in New York who has an office in Wall Street. The bulk of his business is in New York state, and he comes here only occasionally—about twice a year. He is known as Dr. J. H. Smith.

He has an office on E street and until last month he had a telephone, but it has been taken out. "I couldn't reach you when I called you on the 'phone yesterday," said a friend, "why did you give up your 'phone?" "I had to," was the reply. "He sat in my office to answer the 'phone and I took my medicine whenever I was in town. I came over here in August and stayed a few days. He had evidently been on a mild spree. He wanted an advance on his salary account, but I declined to comply with his request. I told him that I was going to New York that night, but I did not tell him where I would put up. When I came back to Washington, he had several weeks. There were a number of letters on the floor and bills. Among the latter was the telephone bill and it called for nearly a hundred dollars for 'Long distance' service. I investigated and found that the cussed stenographer had called up nearly every hotel in New York and that I was registered there. Each inquiry cost me one dollar and a quarter, and I had to pay the bill. But the telephone has been taken out and the stenographer will be kicked out if he ever shows up again."

The study of woods used in vehicle manufacture, which is being carried on by the forest service, is one in which manufacturers are keenly interested. An agent of the forest service, who has been assigned to the work, has so far visited nearly one hundred manufacturing plants, and has found that the question of the use of wood is a vital one to the wagon manufacturers. Popular cottonwood is the most common material used in the construction of wagon bodies, and the manufacturer is expected to raise yet higher, and the manufacturer will then be forced to use other material or to raise the price of their wagons. The rigid grading which places a value on the wood shafts makes it difficult to meet the requirements for wood for these purposes, and it is said that unless the grading is broadened to include the demand for wagon shafts, the use of white oak for wagon pole-stocks has already been abandoned, and red oak is being largely used in its stead. Birch is slowly gaining favor for hub manufacture, taking the place of white oak; the excessive checking of which is said to occasion considerable loss to the manufacturers. Red gum is gradually gaining a place for itself for use in various parts of buggies, sleighs, automobiles, and other like vehicles.

In the implement trade longleaf pine has practically replaced red oak, and shows a strong tendency also to supersede white oak as well. Red gum, in combination with western spruce or red fir, has entered into this line of manufacture for panel work.

During the coming winter and spring many miles of trails will be built in the forest reserves. One of the chief objects of the forest service in the management of the reserves is to protect them against fire. The use of fire in controlling fires is so far effective as preventing them. If a forest fire can be reached by trails, it is usually possible to extinguish it before much damage is done; but if it gets well under way it is sometimes impossible to put it out.

The trails that are to be built by the forest service will afford a means of reaching all parts of the forest reserves on horseback, and the fire lines will be formed by the trails, from which the fire may be attacked or against which it may be directed and there controlled.

There are already many miles of trails in various reserves, but most of them are rough, in poor condition, and not adapted for horse travel. The trails to be built will be carefully planned, and constructed with an easy grade. They do not involve much expense, for in many situations a perfectly good trail can be made by the use of a single horse. The work will be directed by the regular forest guards, and the cost of the trails will be less than five dollars.

## Say "Yes"

To This Offer, and See the Good You Will Get.

Write us if you are ready to try Liquezone. Let us buy the first bottle for you. Let the product itself prove the good it can do.

You who are waiting don't know what you miss. There are plenty to sell you if you would ask; for millions have already used it. Some use it to get well, some to keep well. Some to cure germ diseases, some as a tonic. You will use it as they do when you learn what the product does. And you will then regret that you delayed so long.

What Liquezone Is.

The virtues of Liquezone are derived solely from gases. The formula is sent to each user. The process of making requires large apparatus, and from 8 to 14 days' time. It is directed by chemists of the highest class. The object is to so fix and combine the gases as to make a purifying, yet no disease germ can exist in it.

Contact with Liquezone kills any form of disease germ, because germs are of vegetable origin. Yet to the body Liquezone is not only harmless, but helpful in the extreme. That is its main distinction. Common germicides are poison when taken internally. That is why medicine has been so helpless in a germ disease. Liquezone is exhalant, it is not internal; it is not a disease germ can exist in it.

We purchased the American rights to Liquezone after thousands of tests had been made with it. Its power had

been proved, again and again, in the most difficult germ diseases. Then we offered to supply the first bottle free to you. Let the product itself prove the good it can do.

You who are waiting don't know what you miss. There are plenty to sell you if you would ask; for millions have already used it. Some use it to get well, some to keep well. Some to cure germ diseases, some as a tonic. You will use it as they do when you learn what the product does. And you will then regret that you delayed so long.

We purchased the American rights to Liquezone after thousands of tests had been made with it. Its power had

been proved, again and again, in the most difficult germ diseases. Then we offered to supply the first bottle free to you. Let the product itself prove the good it can do.

You who are waiting don't know what you miss. There are plenty to sell you if you would ask; for millions have already used it. Some use it to get well, some to keep well. Some to cure germ diseases, some as a tonic. You will use it as they do when you learn what the product does. And you will then regret that you delayed so long.

## CHAIRMEN HAVE LUNCH

Daily Noonday Consultation of Building Fund Campaign Managers.

Hope to Reach \$100,000 Mark Before End of Week.

The first of a series of midday lunches and discussions to be held by the chairman of the sub-committee of the Business Men's club, formed for the purpose of raising the fund for the construction of a new Y. M. C. A. building, was held today at the Commercial club.

The committee of 100 business men has been divided into ten sub-committees with the following chairmen: Ward Ames, J. D. Stricker, P. E. House, George H. Claypool, Henry Nolte, Z. D. Scott, and Watson S. Moore. John Miller is chairman of the entire committee and General Secretary Bevis is also a member. Two more sub-committees are yet to be chosen, as two of the men who were originally decided upon were unable to get owing to business which would necessitate their absence from the city.

These men will lunch every day at the Commercial club for the next two weeks and talk over the progress of the campaign and the plans for raising the necessary funds.

The fund was swelled by nearly \$5,000 in small subscriptions this morning, and at 5 o'clock this afternoon the total had reached the sum of \$67,500. The progress made during the last few days has been very encouraging. The business men's committee has several large subscriptions in sight, and there is just a possibility that the total can be pushed up close to the \$100,000 mark before Saturday. That is the hope that the committee has, but it means that \$32,500 must be raised this week, and they will be disappointed if they fail to get it.

The young men's committee is coming along in good shape, and before the week is over at least two of the sub-committees will doubtless have raised the amounts allotted to them. Frank Upland's committee has now a total of about \$1,150 to its credit, and W. H. Kuehn's is close behind.

## BISBEE STOCKS SHOW WEAKNESS

The Boston copper market was without incident today. North Butte stock sold at \$5.50, for the first time since it fell from that point several weeks ago. It just touched the mark, however, and then fell back to \$5.45. It closed at \$5.45 and \$5.50 asked. Bisbee stocks showed a little more activity if not strength. Chumey & Pittsburg sold at \$3.50 and \$3.55 bid. Junction sold freely at \$3.75 and once at \$2.75, but closed at \$2.75 asked and \$2.75 bid. Lake Superior & Pittsburg was also weaker, closing at \$3.75 asked. Pittsburg & Duluth was a little stronger, closing at \$2.50 bid. Black Mountain sold at \$3.50 early in the day and then dropped to \$3.25 and sold there at quite an active pace. The close was \$3 bid and \$3.75 asked.

Hundreds of lives saved every year by having on hand when it is needed. Cures cough, colds, burns, cuts, wounds of every sort.

## DENIES THE INTERVIEW.

Robert Forbes Says He Saw No Reporter in Vancouver.

Robert Forbes returned yesterday from the East where he went after a western trip. With reference to the interview which a Vancouver paper published as coming from him and referring to him as associated with the "American steel trust," he says that it is entirely untrue. He declares that he never had any thought of going after iron mines in British Columbia, that in fact they are none known of in that province.

"Mr. Granis and I had been in the West on business and I had never been over the Canadian Pacific line and we took that way as cheaply as we could, but up to Vancouver and came over the Canadian Pacific line and back that way. We simply passed through Vancouver, and I did not see or talk with a reporter all the time we were there. Mr. Granis and I were together all the time, and neither could have been seen by a reporter without the other knowing it."

## Hallowe'en Specials

Buy your goods for your Hallowe'en parties from us.

### LOOK AT THESE SPECIALS:

## A Sale of Stunning Winter Coats

\$27.50 for exclusive models in long, loose or tight-fitting effects—values up to \$37.50. Scotch and English mixtures, and double and twist goods. Materials that are very scarce and will not be found outside of Gidding's. Gray and tan coverts, and imported heavy-weight gray cashmeres.

Long, loose "Stroller" Coats, "Paddock" Coats, semi-fitted Coats, and a large assortment of other styles. Earlier prices on them were \$29.50, \$32.50, \$35.00 and \$37.50. Many of the materials cannot be re-ordered this season, so we've made the price \$25 and \$27.50 to clean up the ones and twos.

Some \$19.50 to \$22.50 "St. Regis" and "Stroller" Coats \$15

Broken lines from our immense selling of the past few weeks. Some of the handsomest styles and materials that we've been able to get hold of this season are included and in about every wantable size and color—on sale tomorrow—\$15.

About twenty-eight coats in all at this price.

## Furs to the Front—Opening Sale of them

to you, during this sale, on the same basis.

No matter what you expect to buy in Furs, whether a small Neck Scarf at \$5.75 or a handsome set of sable, ermine, baum marten, natural mink, Persian lamb, marten; white, blue or sable, fox, beaver, otter, lynx, krummer or the dozen and one other kinds of less-expensive furs, it will pay you to come here—if only to see this splendid collection—for not only have we a very large stock, but we can say, in all candor, that none quite so choice or select is shown by any other store in this part of the country.

Every piece was purchased early last spring, before the great advance in price, and we saved anywhere from twenty-five to seventy-five per cent, besides getting the early pick of skins, which is a very important factor in fur buying. Every bit of the saving we are willing to pass along to you.

You will realize better what this means after you have visited the various stores that sell furs and become posted, so to speak. Then come here and see ours. Particularly is this true of mink, which has been steadily advancing in favor as a royal fur.

We honestly believe that not only can we show you more styles by three than any other Duluth store, but we show choicer skins and handsomer styles—they advanced 70 per cent over last year—we bought them at last year's prices and will pass them along here are a few examples of present values:

\$29.50 HANDSOME MINK NECK SCARFS, \$21.50—head and tails to cross at front of neck.

\$35 NATURAL MINK TROW-OVERS, \$25—Smart, stylish Scarfs that women of any means can feel proud to wear. 50 inches long. Vandye point ends.

\$50 NATURAL MINK LARGE TROWERS, \$39.50—Full 60-inch, double-stripe pieces, in dark, handsome furs.

\$37.50 NATURAL MINK MUFFS, \$25—A surprisingly low price for so high grade a fur you'll say, when you see them. Three stripes.

\$50 NATURAL MINK MUFFS, \$37.50—Twelve-fifty is exactly what you'll save by buying one of these muffs now. Dark, rich, four stripe mink.

\$67.50 NATURAL MINK MUFFS, \$49.50—Five and six stripes, in several shapes—flat, pillow or "moon" shapes.

\$16.50 Voile Skirts \$9.75

The makers who tailor our very best skirts had enough material left for ninety skirts, and were willing to part with this quantity at close to half of what they'd regularly sell for—So we had them made up and they have just arrived—Of a splendid voile, full plaited all around—good sensible stylish skirt, in shades of navy, black, sage green, gray and bisquit—all sizes.

CREAM SERGE SKIRTS, \$7.50—New lines of this much-wanted article have just arrived—the finer grades of cream and white skirts at \$10, \$12.50, \$15 and \$18.50.

\$9.75 serge and Panama plaited-flounce skirts at \$6.50.

We've never seen their equal at the price—neither have you—we had intended getting \$7.50 for them, but figured on selling a larger quantity at a smaller profit—hence the price \$6.50—black, blue, green, gray worsteds and novelty mixed English chevies—all \$6.50.

\$5.50 SABLE AND NATURAL SQUIRREL ZAZA SCARFS, \$3.75—Two dozen of them go on sale at this price tomorrow. Just comfortable around the neck and with two tabs.

\$8.75 SABLE AND NATURAL SQUIRREL ZAZA SCARFS, \$5.75—another instance of our splendid value giving.

\$12.50 EASTERN MINK TROWERS, \$9.75—with claws and tails, dark handsome—in a sable blend.

\$2.75 SABLE CONEY ZAZA NECK SCARFS, \$1.75—Dark and medium shades. Just the thing for misses and school girls.

## Highest Grade Fur Jackets

HIGH-GRADE SEALSKINS—\$275 to \$400.

PERSIAN LAMB COATS and Blouses styles—\$85.

PERSIAN LAMB MINK TRIMMED, \$175.

Sable Squirrel Blouses, Krummer Coats. Beaver Coats. Otter Coats. Near Seal Coats.

Sable squirrel Box Coats—\$49.50, \$57.50 and \$75.00.

32-inches long, \$135.

J. M. GIDDING & CO.

## Lowest Prices on Smartly Tailored Suits

Lines are becoming somewhat broken in certain numbers that we have been very successful with, and the maker cannot promise to duplicate material within any reasonable time—hence we must classify these as odd suits and price them as such. Not many of them, but enough to give many economical an opportunity to buy a swell Gidding tailored garment at a small price.

50-inch gray worsteds and home spuns—black and navy chevies—some body and sleeves satin lined—some taffeta lined. Included in this lot are also some broadcloth suits in the smaller sizes—red, green, black and navy—\$29.50, \$32.50 and \$35 values—at \$23.50.

## \$27.50 to \$35 Broadcloth and Worsteds Suits \$19.50

About every good shade of the present season is represented, but no lines are complete in sizes, though you will find about every size included in the lot, from 32 to 40 bust measure, on sale tomorrow.

## Splendid Selling of Fur Lined Coats!

The expected has happened. The quick and substantial response to our first announcement was only what we could have anticipated from such excellent values. More fur-lined Coats were sold by us during the five days of last week, we believe, than was sold by all of the stores at the Head of the Lakes combined, for that many weeks.

It shows that discriminating people do appreciate values!

The fact that we are saving buyers anywhere from \$10 on a lower-priced garment to \$50 on the higher-priced ones is an incentive to buy one's fur-lined coat at this opportune time. It must be remembered, too, that these are not the ordinary kind of garments—merely made to sell at a "price." Every one of ours is of fur-linings that have been thoroughly seasoned and drummed, which reduces shedding (so common in fur-lined coats) to a minimum. Fur Collars are single-piece and shaped, instead of being made of small pieces. The Broadcloths are kinds that have been imported and have that rich, elegant appearance—besides, they are made full and generous in size, which prevents tearing as when the garment is "skipped." All of this should be remembered in buying one's Fur Coat. With it all we pass the savings we have made because of our last spring's purchases, along to you!

## \$35 Fur Lined Coats \$25.

Handsomely braided.

## \$49.50 Coats \$39.50.

Storm collars of Persian lamb, marten, sable and natural squirrel.

## \$59.50 Coats \$47.50.

Collars of Eastern mink, marten, Persian lamb, etc.

—and the same proportionate savings on the higher-priced ones up to two hundred dollars.

## THIRTEEN WERE KILLED IN WRECK

Many Persons Also Seriously Injured In Santa Fe Derailment.

Kansas City, Oct. 29.—At least thirteen persons were killed and twenty-five injured, many of them seriously, when the California limited No. 1, on the Santa Fe, which left Chicago at 10 o'clock last night for the Far West, was derailed today near Cheffeld, Mo., six miles from Kansas City.

The wreck occurred in a cut while the train was running at the rate of fifty miles an hour and was caused by spreading rails.

The dead: RUDOLPH RICHARDSON, negro dining car waiter; JOHN MAC GREGOR, Fort Madison, Iowa; JOHN T. CAPS, Chicago, express messenger; JOSEPH SEYMOUR, Richmond, Mo.; WILLIAM HARRISON, colored porter, Chicago.

The most seriously injured: George Douglas, Chicago; George Johnson, Chicago, arm broken; Ralph Skinner, La Harpe, Kan., leg broken; J. M. Killian, Kansas City, Kan.; D. D. Whitmore, Carrollton, Mo., badly burned and scalded; J. Brown, Chicago, leg broken; H. H. Lagardine, Chicago, express messenger, leg broken; Artie Carter, Richmond, Mo., arm broken and leg crushed; Joseph Rembert, Buffalo, N. Y., leg seriously hurt, arm hurt; Benjamin L. Colby, Chicago, arm crushed; George Kines, Buffalo, N. Y.; A. Z. Zandine, Swedish immigrant agent; Thomas Garvin; E. R. Nelson, Chicago; Edward Mose, Anderson, Ind.; Charles Crawford, Atchison, Kan.; E. F. Boucher, Chicago.

The other dead have not been identified and will not be until the arrival of the coroner. Most of them are immigrants en route from the East to Los Angeles.

## An Innovation in Compartment Sleeping Cars.

New compartment sleeping cars for service between Twin Cities and Chicago, on the Pioneer Limited trains of the Chicago, Milwaukee & St. Paul railway, are under construction. These new cars are a departure from any compartment sleepers heretofore built, in this respect—that whereas, heretofore drawing rooms have been located at the ends of the cars over the wheels in the new cars, the drawing room is

## BIG SUM MISSING.

St. Paul, Oct. 29.—A Dispatch special from Helena, Mont., says: The contents of a \$25,000 express package, sent from Helena, Mont., to New York, are missing and as a result the Northern Pacific Express company has several of its detective forces engaged in trying to discover what became of the money. The money was shipped by Charles F. Kelley to S. H. Harris & Co., for investment. Instead of receiving the securities he had purchased, Kelley was dumfounded to receive a letter stating that the contents of the package, upon receipt by the New York firm, consisted of newspaper clippings. The seals were intact, however. The money came to Kelly as a windfall, he having staked a gold field, Nev., prospector.

## TWO BOYS BURNED.

St. Paul, Oct. 29.—(Special to The Herald.)—Allan Farley, 10-year old son of H. W. Farley, and Philip Davidson, the 10-year-old son of Frank Davidson, were killed in St. Paul, while playing in Lake Elmo some time between Saturday and Sunday night, while trying out a new canvas hunting canoe.

## CREWS JOIN IN MUTINY

Odessa, Oct. 30, 5 p. m.—There are persistent rumors in circulation here today that the crews of the vessels composing the Black sea fleet mutined on arriving at Samsun, on the coast of Asia Minor, killed Admiral Birleff and Admiral Choukoun and sailed back to Sevastopol after hoisting the revolutionary flag. It is impossible to verify the rumors. The authorities are confiscating all political telegrams.

St. Petersburg, Oct. 30.—No papers except the official Messenger appeared today.

It is circumstantially reported that rich Jews are behind the strikers for the purpose of forcing the government to grant equal rights to their colleagues.

Reval, Russia, Oct. 30.—The troops fired two volleys on a crowd in the market place today, killing or wounding over a hundred persons.

## REFUSE TO PUT JEROME'S NAME ON OFFICIAL BALLOT

New York, Oct. 30.—By a vote of two to two, the board of electors of this city, declined to place the name of William T. Jerome, as the nominee for district attorney in the Republican column of the official ballot for the city election.

## Too Late to Classify

Hair Dressing, Shampooing, Scalp Treatments, Facial Massage, Manicuring and Children's Hair Cutting at Miss Horigan's, 611 Broadway.

LOST—BLACK PUPPY DOG WATER spaniel, Howard for return to 5034 West Third street.

# A. R. MCGILL, FORMER GOVERNOR OF MINNESOTA, POSTMASTER OF ST. PAUL, AND STATE SENATOR, DIES SUDDENLY

CAN HE FLAG THE FREIGHT?

**PURCHASE SILVER MINE**  
New York, Oct. 31.—It was announced today that the Federal Mining Smelting company has purchased \$3,000,000 cash the Youlike group silver lead mines, near Mullan, in Coeur d'Alene district, Idaho. To these purchases the company has increased its common stock from \$1,000 to \$6,000,000, and its preferred from \$10,000,000 to \$12,000,000. The shares will be offered to present holders on a basis of one-fifth of present holdings.

Dubuque, Iowa, Oct. 31.—Roy Sumner, who was shot twice on a public thoroughfare by William Clark, a gambler, died yesterday. Clark made a statement in jail declaring Sumner had been trying to separate him from his wife for six months, and that he drove him out of New Ulm, Minn., last winter for his attentions to the woman.

DULUTH WEATHER REPORT—Fair tonight and Wednesday. Temperature tonight between 20 and 25 degrees. Brisk and high west to northwest winds.

## The Best Clothes For The Boy

No one, however clever, can improve the appearance of any youngster who has been dressed in this store. We have just as much interest in satisfying both the boy and his parents as they have themselves, because our future trade depends upon it. There isn't a maker of reputé whose product we do not carry; there isn't a poor one whose merchandise can be found here under any circumstances. Consequently, we cheerfully guarantee every garment.

Boys' double-breasted Knee Pants Suits—choice plaids, grays, browns, perfectly made and very dependable—\$2.00 to \$6.50.

Exceptionally pretty showing of boys' Shirtwaists, Underwear, Stockings, Neckwear, Sweaters, Hats and Caps.

## SUBSTANTIAL PROGRESS MADE

**Y. M. C. A. Building Fund Nearing the Half Way Mark.**

Steady, certain progress is being made by the Y. M. C. A. building committee, and the fund is climbing toward the desired mark. At 2 o'clock today the total amount subscribed was \$72,673, and it is hoped that the \$75,000 mark will be reached before night. There was another \$4,000 subscription in sight for this afternoon, and a number of smaller ones. The two committees of young men and business men have set out to reach the \$100,000 mark before the end of the week if it can possibly be done, and it seems to look now as if it might be accomplished.

## LID IS ON IN MINNEAPOLIS

**All Saloons Must Be Closed on Sunday, Says Mayor.**

Minneapolis, Oct. 31.—(Special to The Herald)—The lid is on in Minneapolis. Mayor D. P. Jones announced today that in future all the saloons and hotel bars must close the law and close on Sunday. They have not closed for years, and the announcement causes the greatest consternation among the liquor trade. Mayor Jones has already abolished gambling and restricted the social evil carefully to small, well defined districts.

**PRESENTED WITH ORGAN.**  
Duluth Evangelists Earn Respect of Minneapolis Saloon Men.

The saloon men of Minneapolis have expressed their appreciation of the ef-

forts of Mr. and Mrs. William Asher, the former Duluth evangelist, in a very substantial manner.

Mr. and Mrs. Asher have been conducting services in the Minneapolis saloons since leaving Duluth about two weeks ago, and already the saloon men have gained such respect for their efforts that a subscription was taken up among the saloonkeepers Saturday and a sufficient sum raised to purchase a portable organ for Mr. and Mrs. Asher.

The presentation was made in the municipal court room of Judge Hinus yesterday.

## MONTHLY MEETINGS.

The regular monthly meetings of the women's societies of the First M. E. church will be held in the church parlors tomorrow afternoon. The subject under discussion by the Home Missionary society will be "Frontiers and the Future," and the leader, Mrs. A. C. Taylor. The meeting will be held at 2 o'clock.

At 3 o'clock the Foreign Missionary society will discuss "The Conflict," chapter 8, or "Forces in the Conflict." Mrs. E. C. Shannon will be the leader, and Miss Bennett will be present and will read a letter from Rev. Mr. Williams, formerly of the First church, and now in the foreign mission field. A check the Ladies' Aid society will meet.

## SOMETHING BACK OF IT

**City May Have Hatchet Up Sleeve For Railway Company.**

**If Northern Pacific Wins Mandamus Suit City May Act.**

Is the city paving the way to a position where it can force the Northern Pacific Railway company to build a viaduct over its tracks at the St. Croix avenue crossing, in the event that the company wins the mandamus case now in district court?

This question has been raised in the minds of several who have been listening to the evidence and the line of testimony that City Attorney Bert Foster is apparently developing in the suit to compel the railway company to repair the Lake avenue viaduct.

This morning witnesses were called by the railway company with a view of establishing that there was no recognized thoroughfare in 1870, where the company's tracks now cross Lake avenue, in contradistinction to the claim that the public did have the right of way prior to the railway company's claims. If not, dedication, at least by common usage.

The testimony of a number of old residents of Duluth and Minneapolis Point went a long way toward establishing the railway company's claim that it had the prior right of occupancy. Without exception it was testified that Lake avenue, where the company's tracks cross on the city street, was a swamp in 1869; that the residents of the point did not cross at that location from Superior street to the point, and that there was a steep embankment where Lake avenue now joins Superior street, that precluded the idea of team traffic at that point anyway.

While the company was establishing this condition of affairs, it was also establishing as conclusively by the testimony of its own witnesses that there was a recognized right-of-way or public thoroughfare from Superior street to Minneapolis Point before and after the railroad was built, and that it was St. Croix avenue.

It has been intimated from several sources, though not directly from official circles, that the city is considering beyond any doubt St. Croix avenue was the route, will be in a position to force the company to build a viaduct over its tracks at that point, in the event that the city wins the mandamus case.

When the noon adjournment was taken, the city attorneys were expected to put in and some rebuttal testimony to the effect that the city had no expectation to close the case this afternoon.

Mitchell, a veteran newspaper man of the Head of the Lakes, who came to Duluth to reside in 1870, from the city of St. Paul, testified today, Mr. Mitchell brought with him the old files of his own paper, the Duluth Herald, for about twenty years. He recalled that Lake avenue was graded in 1871.

His brother, Julius D. Howard, testified that he lived with his father on Minnesota point, about one and a half blocks north of the present location of the city hall, and that the usual route of the Minnesota point residents to Superior street was by way of St. Croix avenue, that they could not cross to Superior street from Lake avenue, as there was a large swamp and a steep embankment at Superior street.

Mr. Mitchell testified that in 1869 and 1870, the place that the Lake avenue crossing of the railroad now occupies was used by foot passengers or teams, and that the Lake Superior & Mississippi route crossed it on the lake shore, extended from Minneapolis Point to Rice's Point. Mr. Mitchell claimed that the Lake avenue crossing location could have been crossed in those days by either by boat or wading and he never heard of either method being attempted.

Mr. Mitchell recollected the completion of the Lake Superior & Mississippi road, and the first through train between Duluth and St. Paul, which was run Aug. 1, 1870. Previous to that date the road had been completed between St. Paul and Thompson, where a great deal of rock work was done. Trains ran on either ends of the road long before there was a through train.

Mr. Mitchell testified further that the people residing on Minnesota Point used to reach Superior street by the St. Croix avenue route. He recollected under cross-examination, and after a reference to the old newspaper files, a contract made between the city and two contractors named Collins and Thomas, in the summer of 1870, whereby the latter were to construct a plank roadway and sidewalk on Lake avenue to Superior street, a total length of 2,000 feet.

Mr. Mitchell read an extract from the council proceedings published July 20, 1871, which it was stated that Alderman Smith, of the special committee appointed to look after the matter of building a bridge over the railroad tracks where the viaduct is now located.

Another extract was read from the Minnesota of July 15, 1871, in which the Tribune, Mr. Mitchell's paper, was taken to task for a too previous report of the completion of the grading work on Lake avenue by Contractor C. P. McDougall.

Luce's old warehouse, on the west side of the point, on the lake shore, and the railroad docks on the lake front, between Second and Third avenues east, were described by Mr. Mitchell. He testified that the piling for the railroad was driven early in 1869, and that the rails were laid and trains were running that same season.

City Attorney Foster attempted to shake Mr. Mitchell's recollection by suggesting that he was just a year too early in his recollections, but he was positive as to his dates.

Under cross-examination, Mr. Mitchell admitted that in the winter, when the swamp was frozen over, people could travel to Superior street by what is now known as Lake avenue, but he was sure that the generally recognized route of travel was by St. Croix avenue.

George G. Barnum, the grain man, who has been a resident of the city for the past thirty-eight years, was called by the railway company. Mr. Barnum, according to his testimony, was connected with the engineering department of the old Lake Superior & Mississippi road, worked on the original surveys, and was distributing

## An Innovation in Compartment Sleeping Cars.

New compartment sleeping cars for service between Twin Cities and Chicago, on the Pioneer Limited trains of the Chicago, Milwaukee & St. Paul railway, are under construction. These new cars are a departure from any compartment sleepers heretofore built, in this respect—that whereas, heretofore drawing rooms have been located at the ends of the cars over the wheels in the new cars, the drawing room is in the center of the cars. Two of the new cars, the Onalaska and the Ontonagon, will be placed in service on the Pioneer at once. They are the first cars of this pattern ever built.

St. Paul-Minneapolis and Return \$4.80

November 2nd and morning Nov. 4th, Northern Pacific railway will sell tickets to St. Paul and Minneapolis and return, account Minnesota-Wisconsin Football game, for \$4.80 each, good returning up to and including Nov. 4th.

For full information and tickets, call at City office, 322 West Superior street.

## RAILROADS

LAST RATES  
OF SEASON

The Merchants Excursion  
Tickets Bring Many Re-  
tailers to City.

Car Shortage Results In  
Coal Famine In the  
West.

The last merchants' excursion rates of the season are now in effect over all lines of railroad leaving into Duluth. Every spring and fall these special rates are made, allowing the merchants in the country tributary to Duluth to visit the city and make purchases of goods and to take the railroads and become acquainted with the jobbers they deal with.

The present rates are good until Nov. 2, and then a return half of the ticket will be assigned up to St. Paul. The same system is adopted by the roads crossing the Twin Cities. The low rates for St. Paul, Minneapolis and Duluth are in effect at the same time. The Twin Cities and Duluth are coming to be rivals for the trade of the great Northwest, and it appears that the railroads are giving all three places about equal advantages in the way of rates.

The merchants' rate is one and one-half cents for the round trip to Duluth from points in North and South Dakota, Minnesota, Iowa and Montana. The rate results in some of the most liberal rates in the country. Through the states named, visiting Duluth when it is in force. At the present time there are a number of them in the city. These retailers generally desire to pay a visit to the jobbers and to see the city. The rate is in effect until Nov. 2, and the excursion tickets are placed on sale to offer them an opportunity to do so. Duluth, as a whole, the jobbers and the merchant visit all receive the benefits.

**NO COAL, PLANT SHUTS DOWN**  
Dakota Town Now Getting Along With-  
out Electric Light.

The coal shortage has become so serious that a coal famine exists in some of the small towns through the Dakotas. There is a shortage of coal at the head of the Lakes to fill the orders, but there are not enough cars to send the commodity for sale. So some towns have the delay in this respect become that in one instance it has been found necessary to close the electric light plant of the town, and the streets will remain unlighted until the coal is sent forward. The local office of one of the roads running into Dakota received a telegram to shut down the plant. The call for cars for coal was urgent, but the necessary cars have not been secured. The supply of coal for domestic use is also very low in some of the towns west of here, and the situation is becoming more serious every day. The demand for the fuel is pressing, while there is no relief in sight so far as the coal shortage is concerned.

## SURVEYORS AT WORK.

The Connecting Link Between Duluth  
and Thief River Falls.

Surveyors are said to be at work on this end of the line which is to connect the Soo line and the Duluth, South Shore & Atlantic road, running between the head of the Lakes and the head of the St. Lawrence. The line has already been announced in the Herald, and it is now being surveyed. The line will run from the head of the St. Lawrence, through the head of the Lakes, and will connect the Soo line and the Duluth, South Shore & Atlantic road. The line will be a very important one, as it will connect the two great waterways of the north.

It has not been announced whether the Soo or the South Shore would further the extension, but it does not make much difference, either way. The line will be a very important one, as it will connect the two great waterways of the north. The line will run from the head of the St. Lawrence, through the head of the Lakes, and will connect the Soo line and the Duluth, South Shore & Atlantic road. The line will be a very important one, as it will connect the two great waterways of the north.

The line will be a very important one, as it will connect the two great waterways of the north. ## Piles Cured

Suffering for Years, and Red-Ridden  
From Piles, a Contractor of  
Marion, Indiana, Is Cured  
by Pyramid Pile Cure.

Trial Package Mailed Free to All Who Send  
Name and Address.

"I was troubled with piles for several years before I would let it be known. But at last they became so severe that I could not walk and I had to take my bed. I read everything and anything the doctors prescribed, and took their treatments for a long time. But nothing ever did me any good. I had seen your advertisement in different newspapers, so I got a 50-cent box and began using them. From the very first I got quick relief and by the time I was starting on my third box I saw I was cured. I have not been troubled with them since. Now you can use this as you please, because it is genuine. Yours, T. A. Sutton, Store and Cement Contractor, Marion, Ind."

Instant relief can be gotten by using the marvelous Pyramid Pile Cure. It immediately reduces all congestion and swelling, kills all sores, ulcers and irritated parts.

The moment you start to use it your suffering ends and the cure of your ailment is in sight.

The Pyramid Pile Cure renders a surgical operation foolhardy. Don't back to pieces those tender muscles which must be intact if a satisfactory cure is to be obtained.

The Pyramid Pile Cure is put up in the form of "easy-to-use," specially made, suppositories. They are soothing, painless, instant and certain.

A trial treatment will be sent you at once by mail, in plain, sealed wrapper, without a cent of expense to you. If you send your name and address to Pyramid Drug Co., 4226 Pyramid Building, Marshall, Mich.

After you receive the sample, you can get a regular-sized package of Pyramid Pile Cure at your druggist's for 50 cents, or if he hasn't it, send us the money and we will send it to you.

**French & Bassett**  
DULUTH, MINN.  
Corner First Street and Third Avenue West.

A Wise Housefurnisher  
Always Makes Comparisons

When buying anything as important as furniture or house furnishings she wants the best for the least money. We are glad this is so, and always invite the closest comparisons of both goods and prices. We are glad because such comparisons have built this business up to its present size. You have seen it grow from a small beginning, until now this great building is crowded, and we are straining every effort to make room.

Of course, customers of the store understand the advantage of trading here, but to those who do not know them we say this. Come here without any obligation whatever to buy, look the stock over and make comparisons. People who do this find the following advantages:

Prices from 10 to 20 per cent lower than others. An assortment more than twice as large as any other Duluth store.

One plainly-marked, fixed price. A thoroughly reliable quality of goods however low the price may be.

Courteous and intelligent attention to every customer or looker.

## Our Partial Payment Plan

Under this system terms will be arranged to meet the convenience of those desiring credit, and the most considerate treatment is assured under all circumstances.

The same "Thank You" is here for you, whether you buy for cash or on our easy payments.

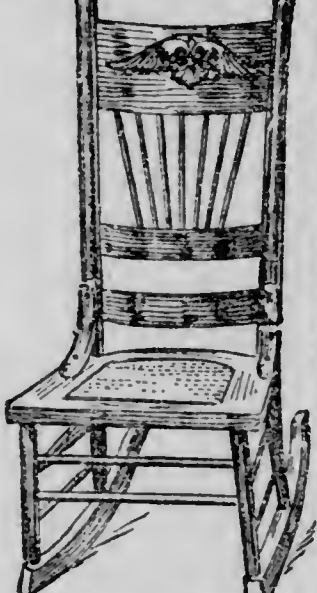

**Combination Bookcase \$9.85**  
**Solid Oak Sewing Rokers \$1.25**

Of fine solid quarter-sawn oak—polished finish. Bookcase has adjustable shelves—nice writing desk—cupboard under it for papers and magazines—French plate mirror over desk. This is a very superior article and would be considered cheap at \$15.00 in other stores.

A most excellent Roker—solid oak—cane seated—high-back—solid braced arms—golden oak finish—neatly carved backs—a comfortable, durable roker. The usual store would say \$25.00 for its equal.

The Home of All That is Newest and Best  
in Furniture and Housefurnishings.

Why Are Buck's Stoves  
and Ranges the Best?

This question is never asked by the user of a Buck's Stove, because the demonstration is before them in the form of perfect satisfaction and constant pleasure in stove ownership.

It is always a keen pleasure to testify to the surpassing merits of The Buck's, and for the benefit of those who do not own one we will answer briefly the above question:

Buck's Stove & Range Company began making stoves in 1846, nearly sixty years ago, and their growth has been steady and substantial, until today they are without exception the most thorough and enterprising stove makers in the world.

The Buck's Stoves and Ranges represent the highest development of modern scientific stove construction, and the materials used are better and more carefully put together than in any other stove now before the public.

We have sold Buck's Stoves and Ranges in Duluth for six years to thousands of families, who will gladly testify as to their merits, and our sales on them have constantly increased. The past two weeks represented the largest number of stove sales in the history of this store, many of them made after the closest comparisons with other makes.

**Our Stove Prices**  
Are in most cases lower than other dealers will ask you for inferior, antiquated or unknown makes. We say then, make the closest comparisons when you buy a stove, and we will take our chances on your buying A BUCK'S. You are cordially invited to examine them. Come now.

**\$1 Down and \$1 a Week**  
**on Your Old Stove as First Payment**

and the balance \$1 a week or \$5 a month are the special, liberal terms on which we are selling any stove or range in the store. We will make you a good, liberal allowance for your old stove.

longly meeting at the Hotel Ryan yesterday to consider the rate on butter which the Milwaukee has placed on their own Grange Pails, Minn., and New York, but the session adjourned without any definite conclusion. The Milwaukee representatives did not attend the meeting, but it was understood that the old rate has been restored.

**IRON RANGE ROAD REPAIRING.**  
Inquiry Regarding Share of Rate on St. Paul Shipments.

St. Paul, Oct. 31.—The Milwaukee road has come off before the state railroad and warehouse commission today. One of the complaints of the Milwaukee road is against the Milwaukee rate on shipments through St. Paul. The road had a contract with the Great Northern, by which it was to receive 45 cents per hundred as its proportionate share of the rate on cars of lumber shipped from points on the Duluth and Iron Range roads to St. Paul. The rate was changed to 40 cents, and the Milwaukee road is now complaining. The rate on cars of lumber shipped from points on the Duluth and Iron Range roads to St. Paul is now 40 cents, and the Milwaukee road is now complaining. The rate on cars of lumber shipped from points on the Duluth and Iron Range roads to St. Paul is now 40 cents, and the Milwaukee road is now complaining.

**Railroad Notes.**

Max Tetz, formerly of St. Paul in the mechanical department of the Great Northern railway, and now of Minneapolis, Minn., has been appointed general manager of the M. & G. R. railway. The railway is a branch of the Great Northern, and runs from St. Paul to the head of the Lakes. The railway is a very important one, as it will connect the two great waterways of the north.

**ACCUSED BY GHOST.**  
Identity of Iowa Farmer's Slayer Revealed in Vision.

Des Moines, Iowa, Oct. 31.—A ghost may lead to the arrest of the murderer of Edward J. Gresser, the wealthy Iowa bachelor farmer, found alone in his room with a bullet hole in his head.

Samuel Plindt, an amateur detective, was before the grand jury yesterday to tell of the vision which revealed to him the murderer of the farmer in a dream.

Gresser was murdered in his home near Des Moines a month ago. From which must be intact if a satisfactory cure is to be obtained.

The Pyramid Pile Cure is put up in the form of "easy-to-use," specially made, suppositories. They are soothing, painless, instant and certain.

A trial treatment will be sent you at once by mail, in plain, sealed wrapper, without a cent of expense to you. If you send your name and address to Pyramid Drug Co., 4226 Pyramid Building, Marshall, Mich.

After you receive the sample, you can get a regular-sized package of Pyramid Pile Cure at your druggist's for 50 cents, or if he hasn't it, send us the money and we will send it to you.

**BAN ON PENSION OFFICE FLIRTING**  
Clerks Can No Longer Make Eyes While at Luncheon.

Washington, Oct. 31.—Pension clerks in the pension office will no longer be permitted to eat their luncheon together. Maj. Lockwood, superintendent of the building, has issued an order that the men and women must not sit together at the pension office. The order is effective immediately. The clerks can no longer make eyes while at luncheon.

**STOLEN POUCH RECOVERED.**  
Mail Sack Taken Last Friday Found in An Alley.

Glencoe, Minn., Oct. 31.—The mail pouch containing first-class mail matter and registered packages that was stolen from the Milwaukee depot here last Friday night, Oct. 20, was found here yesterday by a couple of boys playing in an alley at the rear of the Merrill Stove factory.

This same alley had been searched Sunday by the sheriff and day police, but the pouch could not be found, and the suspicion is that the pouch was placed there during the night by parties who have been under suspicion for several days. A detective had a local man in the street box, but nothing could be found that would indicate him to be guilty.

So doubtless the ones who stole the pouch were inexperienced hands, and thinking that things were getting too warm for them, decided to get rid of the pouch. Several thousand dollars worth of checks and considerable registered matter was in the sack, payment of which had been stopped at Duluth. The contents of the sack had not been tampered with, and no signs of its having been opened were visible. It is the belief of the people that local parties are the ones who are ever present will be done to apprehend the guilty parties.

**Hunyadi Janos**  
Not a medicine but a natural laxative for constipation. Get quick, positive relief by taking half a glass on arising.

**FOR CONSTIPATION**  
Use the Telephone.  
Ring up phone 24, either Duluth or Zenith, and telephonically want advertisement. Each advertisement will receive prompt and careful attention.

**NURSE PLEADS TO SAVE BETROTHED**  
Surgeon Operates and Patient Dies, Death Revealing Romance.

Chicago, Oct. 31.—Behind the death of Wesley hospital Sunday of William J. Sherman, a student at the University of Chicago, lies a romance and a controversy which is attracting fraternity and other circles at the university. Sherman, who was a member of the class of '06, died after an operation for appendicitis, which was performed at the hospital. The nurse who attended him, and to whom the hospital authorities showed the most respect, was a young woman named Mary. She was a member of the hospital and was engaged to be married to a young man named John. The nurse was a very beautiful woman, and she was very popular among the students. The nurse was a very beautiful woman, and she was very popular among the students.

**IS A MATTER OF POLICY**  
L. N. Case Comments on Auditors' Criticisms of Board.

"This criticism of the water and light department is merely a difference of opinion between professional auditors and the prominent and careful business men who are members of the board and who know and appreciate the needs of the city," said L. N. Case, secretary and manager of the board of water and light commissioners, to a reporter for The Herald this morning.

"A point in the criticism of the board made by the auditors is that the depreciation charge to be considered is too high. If an annual charge of considerable size is made the value of the plants on the books of the city becomes steadily lowered, until it will finally fall below the amount of the bonded indebtedness. When that point is reached, our credit is in jeopardy. Our own books would show our plant to be worth less than we were asking people to loan money to accept it for."

**TO CURE A COLD IN ONE DAY**  
Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure E. W. GROVE'S signature is on each box. 25c.

**LOCATED THE MAN**  
Who Is Responsible for the Alleged Abstracting of Money.

St. Paul, Oct. 31.—(Special to The Herald.)—John F. Newton, general claim agent of the Northern Pacific Express company, who is investigating the alleged abstraction of \$25,000 from an express package which was shipped from Hamilton, Mont., to N. H. Harris & Co., New York, said today that he was not yet prepared to tell all the facts in connection with the disappearance of the money.

"The amount of money taken," he said, "will be considerably less than \$25,000. I feel sure that the substitution of newspapers for the currency—if there was a substitution—took place at some point east of St. Paul and not on our line."

"I believe we have located the man responsible for our loss, but our investigation is not yet finished. It may extend far East or far West and in any case will be conducted mainly away from our line. As soon as we are sure of our man we will shoot."

**GET WISE!**  
Don't smoke those cheap trust-made Cigars just because they are handed out to you. Smoke a La VAN or a DULUTH FASHION

—the finest Ligar made. One trial will convince you. Smoke them and you won't smoke any other.

For sale by all dealers—Ask for them.

**Rheumatism Cured in a Day.**  
Myxide Cure for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents and \$1. Sold by all druggists.

**RESERVED SEAT TICKETS**

WRITTEN IN BEST COMPANIES. GEORGE & UNDERHILL, 20 Exchange Bldg.

OFFER TO EXAMINE ACCOUNTS, ETC. State of Minnesota, County of St. Louis, ss: I, the Master of the Estate of James B. Bonar, deceased.

On reading and filing the petition of Elizabeth J. Bonar, executrix of the estate of James B. Bonar, deceased, representing among other things, that she has fully administered said estate, and praying that a time and place be fixed for examining, settling and allowing the final account of her administration, and for the assignment of the residue of said estate to the parties entitled thereto by law.

It is Ordered, That said account be examined, and petition heard by this court, on Monday, the 11th day of November, A. D. 1905, at 10 o'clock A. M., at the Probate Office in the Court House in the City of Duluth, in said County.

And it is Further Ordered, That notice thereof be given to all persons interested, by publishing a copy of this Order once in each week for three successive weeks prior to said day of hearing, in the Duluth Evening Herald, a daily newspaper printed and published at Duluth, in said County.

Dated at Duluth, Minn., the 28th day of October, A. D. 1905.

J. B. HENNINGSON, Judge of Probate.

(Seal, Probate Court, St. Louis Co. Minn.) RICHARDSON, Judge, for Executrix.
